LOCAL MATTERS.

Orphans' Court.

November 7, 1870.—Present James Beck of Geo., Thomas Lusby, William Stevens.

Sarah A. Boyer, adm'x. of S. W. Boyer, passed her second and final administration account which was ordered for record.

Tuesday, present all the members of the court. A number of accounts were passed, Charles Clark, Administrator of John Clark, late of Kent county, dec'd., returned an inventory of personal estate of deceased which was ordered for record.

Fire.

About two o'clock on the night of the election, the Stable of the Hon. George Vickers was discovered to be on fire.—The parties first reaching the building finding the doors all locked and nothing wherewith to break it open. Mr. Vickers' loss is considerable, a valuable horse and two buggy wagons being also burnt up. The fire is supposed to be the work of an incendiary, and has probably been the work of some villian who has taken advantage of the political excitement to injure Senator Vickers. If this matter is not sifted to the bottom and the offender brought to justice neither life or property will long be safe in our community.

We hope the entire responsible part of the community will endeavor to find out the guilty party.

Election Day in Kent.

In the Chestertown District the negroes were early on the ground and monopolized the voting until their vote was nearly all polled. In several of the Districts the whites and blacks voted alternate hours. There was no disturbance or confusion at any of the voting places. In the Fourth District the vote was very large, being eight hundred out of a registered vote of eight hundred and thirty-five or six. The result has been somewhat different from what the Radicals have all the time claimed, and they have made the best poll they will make for years to come. As the returns came in the Democrats and Conservatives gave vent to their feelings, and a considerable crowd started for the residence of Richard Hynson, Esq., to call him out for a speech; on their way they groaned and hissed several of the Radical leaders, at the same time firing off pistols. This was made the occasion for the rush to arms of some forty or fifty blacks who assembled at the corner of High and Front streets, drawn up in line with muskets loaded. This demonstration was probably instigated by their white leaders, or was the result of their previous teaching. A portion of this armed party rushed up the main street and marched and countermarched with defiant air among the crowds of whites about the bon-fires. This enraged a portion of the white men, principally from the country, and a rush was made for the armory, to arm themselves. The officers, however, soon dissuaded the crowd from attempting to force the doors, and the blacks retreated to their quarters, where they were restrained by some of their more prudent colored leaders. This armed demonstration on the night of election, inviting an attack, and calculated to produce bloodshed, is one of the greatest outrages which has ever been perpetrated in this community. The cheering of political friends and the groaning of political opponents is no cause for the assembling of an armed and irresponsible rabble, maddened by defeat at the polls and probably inflamed by bad counsel.

The blacks of this town, for some time previous to the election, had been making preparation for battle. Upon what ground we cannot imagine. There was not the slightest evidence of any intention on the part of the white citizens to interfere with them in any manner. We learn that they had to be advised not to come to the polls armed.

This demonstration must not be repeated. The same forbearance on the part of white people cannot always be expected. The peace of this community must not be imperiled by illegal armed organizations.

THE TWO-HEADED AND FOUR-LEGGED WOMAN.—There is now on exhibition at the Fair Grounds in Columbus, Ga., the most wonderful freak of nature ever presented to the world. It consists of a negro girl, or as some would say, a pair of girls, aged 18 years. The person or persons has two perfectly developed heads and bodies down to the waist, where the two spines and bodies become blended into one solid body. On each body are two perfect arms and hands, of which each has full and natural use. She has four perfectly formed and well-developed legs and feet, on which she moves actively.—She can waltz, and dance a quadrille.—She was born a slave, the property of Mrs. Smith, in Columbus, Robeson county, North Carolina, who tenderly cared for and raised and educated her. She is intelligent, and can and does hold converse with two persons at the same time. She is cheerful, and said to be most devotedly attached to Mrs. Smith. What is singular, though she appears from the color of skin to be of pure negro blood, she has straight hair.—*Columbus Sun.*

NEW YORK, August 15th, 1868.

Allow me to call your attention to my

PREPARATION

OF

Compound Extract Buchu.

The component parts are BUCHU, LONG LEAF, CUBEBS, JUNIPER BERRIES.

MODE OF PREPARATION.

Buchu, in vacuo. Juniper Berries, by distillation, to form a fine gin. Cubebs extracted by displacement with spirits obtained from Juniper Berries; very little sugar is used, and a small proportion of spirit. It is more palatable than any now in use.

Buchu, as prepared by Druggists, is of a dark color. It is a plant that emits its fragrance; the action of a flame destroys this, (its active principle), leaving a dark and glutinous decoction. Mine is the color of ingredients. The Buchu in my preparation predominates; the smallest quantity of the other ingredients are added, to prevent fermentation; upon inspection, it will be found not to be a Tincture, as made in Pharmacopœa, nor is it a Syrup—and therefore can be used in cases where fever in inflammation exist. In this, you have the knowledge of the ingredients and the mode of preparation.

Hoping that you will favor it with a trial, and that upon inspection it will meet with our approbation,

With a feeling of confidence,

I am, very respectfully,

H. T. HELMBOLD,

Chemist and Druggist, of Sixteen Years' Experience.

:o:

Helmbld's Fluid Extract Buchu

Is the great specific for Universal Lassitude, Prostration, &c.

The constitution, once affected with Organic Weakness, requires the aid of Medicine to strengthen and invigorate the system, which HELMBOLD'S EXTRACT BUCHU invariably does. If no treatment is submitted to, Consumption or insanity ensues.

Helmbld's Fluid Extract of Buchu,

In affections peculiar to Females, is unequalled by any other preparation, as in Chlorosis, or Retention, Painfulness, or Suppression of Customary Evacuations, Ulcerated or Schirrus State of the Uterus, and all complaints incident to the sex, or the decline or change of life.

Helmbld's Fluid Extract Buchu and Improved Rose Wash

Will radically exterminate from the system diseases arising from habits of dissipation, at little expense, little or no cnange in diet, no inconvenience or exposure; completely superceding those unpleasant and dangerous remedies, Copaiva and Mercury, in all these diseases.

USE

Helmbold's Fluid Extract Buchu

In all diseases of these organs, whether existing in male or female, from whatever cause originating, and no matter of how long standing. It is pleasant in taste and odor, "immediate" in action, and more strengthening than any of the preparations of Bark or Iron.

Those suffering from broken-down or delicate constitutions, procure the remedy at once.

The reader must be aware that, however slight may be the attack of the above diseases, it is certain to affect the bodily health and mental powers.

All the above diseases require the aid of a Diuretic. HELMBOLD'S EXTRACT BUCHU is the great Diuretic.

Sold by Druggists everywhere. PRICE—$1.25 per bottle, or 6 bottles for $6.50. Delivered to any address. Describe symptoms in all communications.

SOLUBLE

PACIFIC GUANO

IMPROVED IN

QUALITY AND CONDITION.

THE quality of this Guano is materially improved this season by the addition to its composition of a large per cent. of the

SALTS OF POTASH.

It is improved in condition by being brought into market sufficiently dry and uniformly fine to pass with *facility* and *regularity* through the orifices of the

WHEAT DRILL.

More than $1,000,000 is involved in the production of this Guano, and the trade in it has steadily increased, until now it far exceeds that of any other fertilizer.

The Pacific Guano Company has a far greater interest in the maintainance of the *quality* of its Guano than any number of *consumers* can have; hence no apprehension need exist as to its *continued excellence*.
