

The Farmers' Column.

From Moore's Rural New-Yorker.

Bonner's Famous Colt 'Startle.'

The interest which to-day attaches to trotting horses of great speed is largely due to the high prices which have been paid for them, during the past few years, by men of wealth who can afford to indulge in such costly luxuries for their own pleasure, independent of any sport on a race course. These enormous prices have stimulated breeders to labor to produce horses of great speed, and are affecting the social features of rural life, and the habits and modes of thinking of young farmers, far more than a superficial observer would think.

Perhaps no man in this country has been so munificent in his expenditures for trotting horses as Robert Bonner. And his purchases have not been made for profit. That is, the horses are withdrawn from what is known in sporting parlance as "the turf," and made to contribute only to his own pleasure and that of his family and friends.

We give an illustration of Mr. Bonner's colt "Startle," got by "Hambletonian" out of "Lizzie Walker," by "American Star." He is brother in blood to "Dexter" and "Aberdeen."

Concerning this colt and his dam, Geo. Wilkes wrote in 1867:—"Lizzie Walker, a chestnut mare, with white legs behind, eleven years old She was got by Star, and when in training trotted in 2m 33s. The mare is a fine one, of fair size, with a strong, arched loin and quarters, wide spread and low let down, like those of the famous daughter of Glencoe. She has white hairs in her coat. The bay colt at her foot, with white legs behind and a star and snip, is by Hambletonian. He is called Startle, and though not large, he is in great perfection—the traveling-tackle being big behind, with bony hocks."

The best time this colt had made on the track prior to Mr. Bonner's purchase was 2:36, when a three-year-old. And this is said to have been performed with ease. Mr Bonner saw this performance, and immediately bought Startle, paying $20,000 for him. He is called, by competent judges, "the best three-year-old colt ever brought out." Carl Burr, who is keeping this colt for Mr. Bonner, and who has the reputation of knowing more about colts than any man living, wrote Mr. Bonner concerning him, as late as December 1st, as follows:

"In relation to Startle, he is acting and moving well. I have not pulled his shoes off yet, for I have been jogging him more or less, until I could get the yard built for him to run in; but to-day I shall turn him out for the winter season. I moved him this morning for a short distance. I should judge he went about a 2:25 gait, with perfect ease, apparently. He could have trotted faster if I had called on him. He is *the* world's wonder, and no mistake."

—:o:—

Rule For Ascertaining the Capacity of Corn Cribs.

SNOW HILL, MD., DEC. 8, 1870.

Editor Democratic Messenger:

DEAR SIR—I have frequently been asked to give a Rule for arcertaining the capacity of corn cribs. Many persons seem satisfied to learn the formula so as to use it for practical purposes, and yet not understand the principle, or reason of it.

I will give you the rule with the explanation:

Suppose a crib to be 20 feet in length, 10 feet broad, and 10 feet from floor to eaves; multiply these dimensions and we have 2,000; four-fifths of this number, which is 1,630, will give capacity in bushels. If the crib is filled as above with corn in the ear, divide by 2 and you will have the number of bushels of shelled corn —800. Or, multiply 2,000 as above obtained, by 3, and cut off a figure from the right, and you will have the same result, viz: 800—number of bushels shelled corn.

Now for the reason of the formula:

In a crib of the above dimensions there are 3,456,000 cubic inches, because 1,728 cubic inches in 1 cubic foot, and 200 multiplied by 1,728, equals the number of cubic inches in the crib—3,426,000. There are 2,160 cubic inches to one bushel —now divide 3,456,000 cubic inches by 2,160 cubic inches, and you will get the capacity of the crib in bushels.

To obtain capacity of roof multiply the length, width, and hight, from apex of roof to middle of base between eaves, and with same operation as above indicated you will have as result *double* capacity of the roof. In haste, yours,

IRVING SPENCE.

—:o:—

Milk for Butter in Winter.

Dairy maids should remember that milk, in order to throw up cream, must have a certain temperature. Where a thermometer is the index, about seventy degrees will be found the most desirable temperature for cream to rise in cold weather. It will not do to put milk into the cellar at this season of the year, because it is most likely filled with vegetables and fruit. No good butter can be made when milk is exposed to the effluvia arising from vegetables. When new milk has been strained, place the pans, or, if you please, the tin pail, on the stove and warm the milk. Then place it on the shelves in the buttery. The cream will soon rise, and the cream will keep sweet.

In order to sour cream sufficiently for churning, it often becomes necessary to add a little of the buttermilk from the churning. Remember that the temperature of cream at the time of churning should be about sixty-two degrees. Thermometers are so cheap now-a-days, that every dairy maid should have one. A dairy thermometer, sufficiently accurate for the purpose, may be obtained for about seventy-five cents.

If your churning will "not come" readily, it helps the cream to add a little salt —about half the quantity required for the amount of butter produced from the cream in the churn.—*Rural World.*

A Singular Story of the Franco-Prussian War.

The Washington "Patriot," of Wednesday, publishes a curious story which it calls a page of Secret History:

The world does not know that the war which has inflicted such untold calamities upon two great nations, and turned back the hands of progress on the dial of civilization, might, and probably would not have occurred but for a cause entirely personal, and involving the ambitious aspirations of one of our own countrywomen. His Majesty, Don Fernando, father of the King of Portugal, somewhat surprised European Courts, as well as his immediate friends, by a sudden marriage, eighteen months ago, with Miss E. Hensler, to whom he had been much attached during nine previous years. She was born in Boston, of respectable German parents in humble life, and educated in Italy, for the operatic stage, by the aid of a few liberal patrons of art, who had discovered her precocious talents for music and her fine voice. After completing her studies abroad, she returned to the United States, but failed to reach the eminence of which her early youth had given cheerful promise. Seeking another field for professional success, she went again to Europe, and in 1860 became attached to the opera at Lisbin, where the widowed King Consort was first attracted by her beauty, vivacity and other charms. Then began the acquaintance which terminated in her becoming the wife of a Coburg who had shared the throne of Portugal with Donna Maria II. Just previous to the marriage the Duke of Saxe-Coburg conferred upon her the title of Countess D'Edla, so as to obliterate even a nominal connection with the past or with her American nativity.

That repeated overtures were made by Prim and his colleagues to induce Don Fernando to accept the throne of Spain, is no secret. He refused to give any encouragement to these proposals, and an effort in that direction, made in the early port of 1869, only a few months before his marriage, was repelled with so much decision as to be considered even rude to the Spanish people. But after the marriage came social embarrassments and new ideas which the Government at Madrid was prompt to seize upon, in the hope of overcoming the prejudices of Don Fernando, by the temptation of high honors for his wife, who, by a transition to the Court at Madrid, would become the equal, if not the superior, of those who had welcomed her with coldness, and not from choice. The Spanish Minister at Lisbon was instructed to approach His Majesty with delicate suggestions, and found him willing to entertain the subject; so that informal negotiations were opened, and made considerable progress last Spring.

Don Fernando proposed certain conditions, perhaps with a view of ultimately dictating the terms for a matter which was much nearer his heart, as will appear in the sequel. For example, he required that the crowns of Spain and Portugal should never be united on the same head, seeking by this means to preserve the throne of Portugal for his son and his descendants. After some discussion the Spanish Government accepted the condition, with this modification: "Excepted, in the course of time, the two nations should spontaneously agree upon a sovereign," &c. Don Fernando refused to adopt any reservation on that point. He also demanded that certain amendments should be made to the Spanish Constitution *before* accepting the throne; but the Government at Madrid objected to submit that question to the Cortes until *after* his election as King. These negotiations occupied several months, and were once or twice suspended entirely, as hopeless, but renewed by friendly intervention. Finally they were broken off altogether, and the causes already stated were assigned as the reasons of the failure.

But persons who are familiar with all the facts attribute the rupture to another and a very different motive. At one of the last interviews between Don Fernando and the Spanish Minister, at which the Countess d'Edla was present, his Majesty inquired what would be the eventual position of his wife should he go to Spain? After putting this question, he withdrew, leaving Madame and the Minister to settle the delicate point between them. The Minister stated that she was at liberty to name any title, distinction or dotation, adding that she would always be the first lady of the palace. To which the Countess replied, "So far so good; but his Majesty desires my position to be as clear as possible. What I wish to know is, what will be my part on great ceremonials like the opening of the Cortes, or other corresponding occasions?" The aim of this inquiry was evident, and the Minister was not taken by surprise. He rejoined that she might be made a duchess or grandee, or have any other title, but as "Queen—*never* NEVER!"

This took place on the 15th of July, and when the conferences were going on there was a perfect understanding that the refusal of Don Fernando to take the throne would involve the most grave complications, and probably the war, which is still raging; for it was then known that the Spanish Government intended to turn to his Majesty's son-in-law, the Prince of Hohenzollern, if the negotiations completely failed. As soon as it became certain that there was no probability of inducing Don Fernando to go to Madrid, unless the Countess d'Edla was recognized as Queen, the offer was made to Hohenzollern. So it may be said that a great European war, with all its vast consequences, is to be attributed to the unsatisfied ambition of a Boston girl.

☞ An old bachelor geologist was boasting that every rock was familiar to him as the alphabet, A lady who was present declared that she knew one of which he was wholly ignorant. "You don't say—just name it madam?" cried Caleb, quite self-possessed. "It is rock the cradle, sir," replied the lady.

☞ Prevention is better than cure. Therefore it is well to remember that one should never enter a sick room while in a state of perspiration, nor with an empty stomach, as in such conditions of the body one is specially liable to contract disease.

Some one wrote in a hotel visitor's book his initials, "A. S." A wag wrote underneath, "Two-thirds of the truth."

TO PHYSICIANS

—:o:—

NEW YORK, August 15th, 1868.

Allow me to call your attention to my

PREPARATION
OF
Compound Extract Buchu.

The component parts are BUCHU, LONG LEAF, CUBEBS, JUNIPER BERRIES.

MODE OF PREPARATION.

Buchu, in vacuo, Juniper Berries, by distillation, to form a fine gin. Cubebs extracted by displacement with spirits obtained from Juniper Berries; very little sugar is used, and a small proportion of spirit. It is more palatable than any now in use.

Buchu, as prepared by Druggists, is of a dark color. It is a plant that emits its fragrance; the action of a flame destroys this, (its active principle), leaving a dark and glutinous decoction. Mine is the color of ingredients. The Buchu in my preparation predominates; the smallest quantity of the other ingredients are added, to prevent fermentation; upon inspection, it will be found not to be a Tincture, as made in Pharmacopœa, nor is it a Syrup—and therefore can be used in cases where fever in inflammation exist. In this, you have the knowledge of the ingredients and the mode of preparation.

Hoping that you will favor it with a trial, and that upon inspection it will meet with your approbation,

With a feeling of confidence,
I am, very respectfully,
H. T. HELMBOLD,
Chemist and Druggist,
of Sixteen Years' Experience.

—:o:—

[From the Largest Manufacturing Chemists in the World.]

NOVEMBER 4, 1854.

"I am acquainted with Mr. H. T. HELMBOLD; he occupied the Drug Store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise."

WILLIAM WEIGHTMAN,
Firm of Powers & Weightman,
Manufacturing Chemists,
Ninth and Brown streets, Philadelphia

—:o:—

Helmbold's Fluid Extract Buchu

Is the great specific for Universal Lassitude, Prostration, &c.

The constitution, once affected with Organic Weakness, requires the aid of Medicine to strengthen and invigorate the system, which HELMBOLD'S EXTRACT BUCHU invariably does. If no treatment is submitted to, Consumption or insanity ensues.

Helmbold's Fluid Extract of Buchu

In affections peculiar to Females, is unequalled by any other preparation, as in Chlorosis, or Retention, Painfulness, or Suppression of Customary Evacuations, Ulcerated or Schirrus State of the Uterus, and all complaints incident to the sex, or the decline or change of life.

Helmbold's Fluid Extract Buchu and Improved Rose Wash

Will radically exterminate from the system diseases arising from habits of dissipation, at little expense, little or no change in diet, no inconvenience or exposure; completely superceding those unpleasant and dangerous remedies, Copaiva, and Mercury, in all these diseases.

USE

Helmbold's Fluid Extract Buchu

In all diseases of these organs, whether existing in male or female, from whatever cause originating, and no matter of how long standing. It is pleasant in taste and odor, "immediate" in action, and more strengthening than any of the preparations of Bark or Iron.

Those suffering from broken-down or delicate constitutions, procure the remedy at once.

The reader must be aware that, however slight may be the attack of the above diseases, it is certain to affect the bodily health and mental powers.

All the above diseases require the aid of a Diuretic. HELMBOLD'S EXTRACT BUCHU is the great Diuretic.

Sold by Druggists everywhere. PRICE—$1.25 per bottle, or 6 bottles for $6.50. Delivered to any address. Describe symptoms in all communications.

Address

READ! READ!!

THE
OLDEST ESTABLISHED
Clothing House
ON THE
EASTERN SHORE.

JOS. A. CATLIN,

After an experience of years, a thorough acquaintance with the City Markets, and a knowledge of the wants of the trade in this locality, offers to the citizens of this, and the adjoining Counties, a complete and carefully selected Stock of Seasonable Clothing.

MEN'S, YOUTH'S and BOY'S CLOTHING,
of all kinds and at all prices!

Furnishing Goods!
Furnishing Goods!

HATS AND CAPS.

PARTICULAR ATTENTION PAID TO CLOTHING MADE TO ORDER, IN THE BEST STYLES AND FINISH.

I have secured the assistance of Mr. Wm. J. McFeely, an experienced Salesman, late of Centreville.

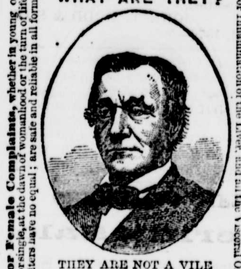

☞ DETERMINED, NOT ONLY TO SUSTAIN THE OLD REPUTATION OF THIS HOUSE, BUT TO EXTEND ITS PATRONAGE BY KEEPING, AT REASONABLE PRICES, A STOCK OF GOODS TO MEET THE WANTS OF THE PEOPLE, A CALL AND EXAMINATION OF MY GOGDS IS RESPECTFULLY SOLICITED.

JOS. A. CATLIN,
CHESTERTOWN, MD.

The Great Medical Discovery!
Dr. WALKER'S CALIFORNIA
VINEGAR BITTERS,

Hundreds of Thousands
Bear testimony to their wonderful Curative Effects.

WHAT ARE THEY?

THEY ARE NOT A VILE
FANCY DRINK,
Made of Poor Rum, Whiskey, Proof Spirits, and Refuse Liquors, doctored, spiced, and sweetened to please the taste, called "Tonics" "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and LIFE GIVING PRINCIPLE, a perfect Renovator and Invigorator of the System, carrying off all poisonous matter, and restoring the blood to a healthy condition. No person can take these Bitters, according to directions, and remain long unwell.

$100 will be given for an incurable case, providing the bones are not destroyed by mineral poisons or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism, and Gout, Dyspepsia, or Indigestion, Bilious, Remittent, and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

They invigorate the stomach, and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Copious Discharges of Urine, Pain in the regions of the Kidneys, and a hundred other painful symptoms which are the offsprings of Dyspepsia, are cured by these Bitters.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

For Female Complaints, whether in young or old, married or single, at the dawn of womanhood, or the turn of life, WALKER'S CALIFORNIA VINEGAR BITTERS have no equal; are safe and reliable in all forms of disease.

They are a Gentle Purgative as well as a Tonic, possessing the power of acting as a powerful cathartic to relieve Congestion or Inflammation of the Liver and other Visceral Organs in Bilious Diseases.

VIN, TAPE, and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed.

For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French, and Spanish.

J. WALKER, 32 & 34 Commerce Street, N. Y. Proprietor. R. H. McDONALD & CO., Druggists and General Agents, San Francisco, California, and 32 and 34 Commerce Street, N. Y.

☞ SOLD BY ALL DRUGGISTS AND DEALERS.

August 20, 1870—6m.
