LOCAL MATTERS.

The Orphans' Court

Met on Tuesday: present, Jas. Beck of Geo., Thos. Lusby, and Wm. Stevens.

A number of claims were examined and passed.

W. T. Dove, administrator C. T. A. of Philip Drugan, returned a list of sales of the personal estate of dec'd.: approved.

Selina C. Lassell, admr'x. C. T. A. of Wm. S. Lassell, returned an inventory of the personal estate of dec'd., and obtained an order to sell the same.

Elias S. Watson was appointed guardian to Frisby Lloyd, minor, son of John Lloyd of Cecil county, with Robert Nicholson and Edw. J. Watson as sureties.

The last will and testament of William V. Miers, late of Kent county, dec'd., was admitted to probate: letters testamentary on the estate were granted to John G. Miers, the executor, who bonded with George W. Spencer and George R. Vansant as sureties. Pierce Bowers and Charles England were appointed to appraise the real and personal estate, and the legal notice to creditors ordered.

Letters of administration on the personal estate of Samuel Frazier, late of Kent county, dec'd., were granted to Wm. B. Usilton (the parties entitled having first renounced) with James H. Plummer and Lewin Usilton as sureties. L. S. Fowler and S. F. Smith were appointed to appraise the estate, and the legal notice to creditors ordered.

James W. Ivens made application for letters of Aministration on the personal estate of his father, Jas. W. Ivens, dec'd.

Old Landmark Going,

And Improvement.—The Chester River Steamboat Company are making a great improvement in their wharf property at Chestertown, enlarging the wharf, and taking down the old granary which has witnessed the decay of many generations. We learn they intend to replace it by a comfortable and convenient depot for travelers.

Lecture on Phrenology and Music.

Wednesday night last, Theodore Aschenfeld of Elkton entertained an audience at the Court House with Music and Phrenology. The room was only moderately filled, but the quaint manner of the Professor, aside from the music, richly repaid those present. The Professor has told us "if we think we know anything about music we are mistaken," so our readers may judge what our opinion is worth when we say the Professor is a good performer. By his own admission he has Phrenology on the brain, but unfortunately his own phrenological chart exhibits a very diminutive organ of *Continuity*, and what he calls his lecture certainly, this far demonstrates the correctness of his bump. A lecture is announced by the Prof. in Still Pond, and we can cheerfully recommend all those who desire some good music and a quarters worth of fun, to go and hear the great ex-Accordion player of the New York Barnum.

Base Ball.—A return game of base ball between the Chestertown and Centreville boys was played at the former town on Wednesday, 22d of March. The Centreville boys were used up badly, sustaining a defeat of 21 runs. We guess they will be less disposed to braggadocia and more disposed to practice and play by system.

On Saturday the Centreville boys played the Ruthsburg boys, beating the latter 18 runs.—*Centreville Observer.*

Queen Anne's County.

Sales of Real Estate.—John. B. Brown, Esq., as Trustee, sold at Queenstown, on Saturday last, the Home Farm of Edward H. Coursey, Sr., containing 200 acres, to John H. Tolson, at $18.30 per acre. Also, the following property of David H. Crane: Home Farm, containing 166 acres, to John T. Baxter, for $11 per acre; Double Creek Farm, containing 123 acres, to Mrs. Vandyke, of Chestertown, for 16.30 per acre; small farm, containing 93 acres, to Mr. Samuel Rawleigh, of Chestertown, for $7.10 per acre. —*Centreville Observer.*

Elections Next Month.—Elections will take place during the coming month in Connecticut and Rhode Island. On monday, April 3d, in Connecticut a Governor and other state officers and members of Congress will be chosen, and on Wednesday, April 5th, in Rhode Island, State officers and members of the Legislature will be voted for. In Connecticut the Republican candidates for the principle positions are Marshall Jewel for Governor, and Julius L. Strong, Stephen W. Kellogg, Henry H. Starkweather, and George Coffing for Congress, the first three having been members of the forty-first Congress. The dem. candidates are J. E. English, for re-election as Governor, and Alfred R. Goodrich, John Kendrick, John W. Stedman and William H. Barnum for Congress, the last-named gentleman having been a member of the forty-first Congress. In Rhode Island Seth Padelford, the present incumbent, is the republican, and Thomas Steen is the democratic candidate for Governor.

Imperial Insignia.—The German imperial crown is a foot high, of 21 carat gold, and heavily set with pearls. The sceptre is of silver gilt, and two feet long. The globe carried in the hand is of the finest gold 3¼ inches in diameter, and enriched by two rings, one perpendicular and half covered with jewels, and the other horizontal and entirely crusted with gems. On top is a cross which fairly blazes with precious stones. The insignia have long been kept in the Hof bourg at Vienna.

Political.—It is stated that a democratic caucus at Albany, N. Y., has resolved to abandon the attempt to change the day of the New York State election in order to escape the provisions of the United States election laws.

Fred. Douglass on Sumner and San Domingo.—The Washington Republican gives an account of an interview between one of its reporters and Frederick Douglass, as follows:

"Fred. Douglass was enthusiastic in favor of annexation. Speaking of Senator Sumner, he said: 'He is now the greatest enemy of the colored race. The arm of democratic hate raised to strike at the liberties of our people finds inspiration in the utterances of Senator Sumner. He has been the object of my greatest admiration, but he is now doing the work of our most implacable foe—the democratic party.' Douglass is satisfied with Dominica, and believes it would be a valuable acquisition to this country. Speaking of Hayti, he said it was no wonder its people were incensed against us. For over fifty years we refused to recognize them as belonging to the House of Representatives, declared he should forever oppose the recognition of 'these slaves,' made men by freedom.' Our conduct in the past towards Hayti has little in it to recommend us to their regards."

Salisbury, Maryland—*Its Trade and Importance.*—Salisbury, the county seat of Wicomico county, Maryland, is situate at the head of the Wicomico river, on the Peninsula railroad, 130 miles distant from Philadelphia, and is the terminus of the Wicomico and Pocomoke railroad. Surrounded by numerous steam and water saw-mills, and adjacent to large bodies of timbered land, it is the centre of a very extensive lumber, wood and grain trade. Its recently completed railroad facilities, the number of steam-mills in course of erection in its vicinity, and the enterprise of its merchants, give sure indications of its present prosperity and future increase in business and population. It contains about 1,500 ishabitants, ten churches, three newspapers, seven white academies and schools with 394 pupils, and a colored school with 200 pupils. It has three water and steam-mills, with capacity for manufacturing 2,700,000 feet of lumber, two grist-mills with capacity for 54,000 bushels grain per year, and two planing and box mills with capacity for working 3,000,000 feet of flooring, 60,000 fruit boxes and 450,000 plastering laths.

The assessed value of real estate within the limits of the town is $600,000. Twenty-one vessels, with a registered tonnage of 1,999 tons, trade regularly from the town, besides a number of small boats principally engaged in the oyster trade. One hundred and twenty thousand bushels of shells and lime, and 1,000 tons of guano and fertilizers are annually used by our farmers. The average yearly shipments are of lumber over 15,000,000 feet; of wood, 10,550 cords; of railroad ties, 21,000, and of grain 94,500 bushels. Our merchants have $245,000 invested in trade, and their annual sales amount to $691,800.

Two years of flood and one of drought have decreased our grain shipments one-half; the indications are, however, a large increase in this as well as all other branches of trade. In addition to the above there are many thousand crates of peaches and berries, a large quantity of apples, potatoes and eggs, together with a vast amount of shingles and lumber, transported over the Peninsular railroad, the exact amount of which cannot be obtained. The freight receipts from these average $1,200 per month, as shown from the books of the railroad company.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvelous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of confirmed and fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Ulcerous* affections of the muscular and nervous system.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

And Good Workmen

in our employ. We intend to have the wood work done as we have had our Blacksmithing—that is to say, *in the very best manner;* and we are willing for the public to be the judges. Our experience is that "the best is the cheapest."

We will have Plows, Cultivators & Harrows for sale. We shall also put up new Carts,

Wagons, Dearborns, Express Wagons,

&c., in good style.

ALL KINDS OF REPAIRING DONE AT SHORT NOTICE.

Our work will be done as low as at any other establishment here or elsewhere, in the State or outside of it. We are determined to leave no excuse in the way of those who have heretofore been sending their money out of our own community—where it is so sadly needed—to build up manufacturers at a distance. We challenge a comparison of our work with that done any where else, as to price, material, workmanship, style, finish, or any other essential.

MILLING.

CHESTERTOWN, DEC. 27TH, 1870.

The subscriber most respectfully informs the Public that after the first day of January next he will take possession of the Mill and will conduct it, he hopes, more to the satisfaction of the Public than for some time past. He is in treaty for a very superior Miller, and soon as the Spring opens will make some improvements which must render her equal to any Mill on the Eastern Shore.

He hopes whenever there is any cause of complaint to be at once notified of the same. By strict attention or supervision, and competent workmen, he hopes soon to be able to re-establish her former reputation.
