Turf Notes.

A match took place on Saturday afternoon at St. Louis between the trotting stallion Pilot Temple and the pacing mare Cotton Picker for $1,000 a side, and was won by Pilot Temple. Time, 2:25½, 2:24½. The third heat being a walk-over, the owner of the Cotton Picker declining to go, on the ground that Pilot Temple ran more than he trotted in the second heat. A protest has been entered, and the stakeholder warned not to give up the money.

The stable of race-horses belonging to Mr. Cottrell, of Mobile, Ala., and trained by Col. Tom Patterson, arrived at Jerome Park on Monday last to be trained for their engagements. It comprises the chestnut filly Saucebox, 3 years, by Star Davis, dam Skedaddle, engaged in several stakes at Long Branch chestnut colt Frank Ross, 3 years, by Daniel Roone, dam Sigma, engaged in the Belmont Stakes at Saratoga; and Billy Williamson, a 3 year old chestnut colt by Daniel Boone, dam Corinne, without engagements at present. Saucebox was bred by John M. Clay, and won three out of five races last fall, her owner selling her this spring to Mr. Cottrell for $7,000. Frank Ross, a big chestnut, 16 hands high, has only run once at New Orleans, where he was second to his stable companion Billy Williamson, in a large field. He was beaten a head only, and could have won the race had he been wanted. He has been persistently backed at heavy odds, and good judges pronounce him a racehorse of the first class. Billy Williamson is not entered for any of the three-year old stakes.

Regarding that California horse which is said to have trotted a half mile in 1:07, the Spirit of the Times says:

We dare say this is a fast horse. We have a private letter from San Francisco which says that Gov. Stanford drove him last year himself in 2:33, and that since then he has been carefully handled. Therefore, it is likely enough that he may have trotted half a mile in 1:07. The style of the account in the Sacramento Reporter would, however, rather lead us to doubt than to put faith in it. When a man in writing about some green horse starts out with one assertion that he is going to make Dexter take a back seat, we put him down as an ignorant person; for, however great the promise of the green horse may be, everybody with a little horse-sense knows the probability to be that he will never attain to the excellence that Dexter has displayed in every way of going and at all distances. So of the offer of the "well-known sporting man" to lay $1,000 that he could take the horse for a week and drive him in 2:15. This offer of the "well-known sporting man" reminds us of a well-known adage concerning a fool and his money. And so of the statement that Gov. Stanford paid $8,900 for the horse and can get $30,000 for his bargain. We have no doubt the horse is very fast, but a friend of ours who knows him well tells us that he is no square trotter, but runs behind. He also adds that he has a horse not able to trot in better than 2:25, and that he should like to match him against this horse at Sacramento.

THE RAILROAD OF THE FUTURE.—The question of narrow guage for railways is attracting much attention among railway men, and steadily meets with more favor the oftener it is discussed. The Iron Age says that a comparison, which it gives in brief, of all the essential elements in the cost of construction and operation of railroads will show that the cost per mile of the narrow gauge, from three feet to two feet, is from one-half to one-third that of the standard gauge of four feet eight and a half inches.

DR. JOS. BUCHSER, of New York, contributes to the last Medical Record a circumstantial account of a case of "transfusion," in which three ounces of blood were transferred from a young man in robust health to a female patient, aged seventeen, who lay at the last point of vital exhaustion. Six weeks afterwards the patient resumed service in the family where she was employed.

SECTIONAL HEALTHFULNESS.—The late census shows some interesting facts in relation to the South. By facts and figures submitted it appears that New Orleans and other cities, supposed to be the home of yellow fever, are healthier than New York or Boston, and have less deaths according to population. It also shows that the deaths among negroes have increased almost one-half since the war, and that more negroes than whites have died of disease, although the climate is supposed to be peculiarly adapted to the colored race.

MILLING.

CHESTERTOWN, DEC. 27TH, 1870.

The subscriber most respectfully informs the Public that after the first day of January next he will take possession of the Mill and will conduct it, he hopes, more to the satisfaction of the Public than for some time past. He is in treaty for a very superior Miller, and soon as the Spring opens will make some improvements which must render her equal to any Mill on the Eastern Shore.

He hopes whenever there is any cause of complaint to be at once notified of the same. By strict attention or supervision, and competent workmen, he hopes soon to be able to re-establish her former reputation.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill.* The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion, Listlessness, Languor** and **Loss of Appetite,** they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers,** they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa,** but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back** and **Loins,** they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill,* take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.
