LOCAL ITEMS

Thanks.—This office is indebted to Senator Vickers for recent speeches of Senators Trumbull and Schurz.

A private letter from Philadelphia says that a man employed to remove small pox patients to and from the hospitals, has taken the disease, his whole family and *his horse.*

Fire on the Cars.—Tuesday last, on the down train between Townsend and Massey's, a carriage belonging to George E Lambert of this town, being brought down as freight, caught fire from the locomotive, and was not discovered until the body, curtains, and the entire upper part were nearly destroyed. The train had to be stopped and the fire extinguished with buckets of water.

Orphans' Court.—Present, Judges Beck and Hepbron.

The Court passed a number of claims against the estates of deceased parties.

A. L. Vannort, administrator of Joseph Walraven, Jr., returned a list of sales of the personal estate of deceased, also a list of debts due deceased, which were received and ordered to be recorded.

On application, letters of administration on the personal estate of James H. Parsons, late of Kent county, dec'd., were granted to C. H. Baker, (the widow having renounced her right) who entered into bond with Thomas Baker and William Lamb, as sureties, in the penalty of four thousand dollars. A. L. Corey and Geo. H. Hatcherson were appointed to appraise said estate—and the usual notice to creditors ordered.

Wm. W. Stephens was appointed in the place of Robert Nicholson to appraise the personal estate of John Lusby, dec'd., in conjunction with Benj. F. Beck.

William R. Wilmer, guardian to John W., George R., and Carrie L. B Greenwood, passed guardian accounts for the years 1869, '70 and '71.

On application, ordered that the Register of Wills issue citation for Ann E. Jester to answer in the matter of binding out her minor children.

LOCAL SCRAPS.

QUEEN ANNE'S COUNTY.

The law imposing a tax on dogs in Queen Anne's county, has been repealed.

TALBOT COUNTY.

The Easton Building Association has been in existence two years, and since its organization about one hundred thousand dollars have been received by it.

The citizens of Talbot county held a meeting in Easton last week to take into consideration a survey for a ship canal across the peninsula.

CAROLINE COUNTY.

The editor of the Denton Union has a most singular affliction; he becomes *blind* as soon as he picks up a Kent county paper to look for local items. It is supposed to be owing to some excitement of the nerve of prejudice when he scans the Kent papers.

☞ Wednesday last was Ash Wednesday, the beginning of Lent. An exchange says:

The term Lent in the Saxon language signifies spring, and indicates merely the spring fast preparatory to the resurrection of Christ. The lenten season does not embrace all the days included between Ash Wednesday and Easter, as the Sundays are so many days above the number of forty, they being excluded because the Lord's day is held as a festival and not as a fast. There are six Sundays in Lent, and the principal periods of the fast are Ash Wednesday, and Passion Week, particularly the Thursday and Friday of that week. The Greek Church observes four Lents, the first commencing on the 15th of November, or forty days before Christmas; the second is the Lent now being observed by the Roman Catholics and Episcopalians; the third begins the week after Whitsunday, and continues until the festival of St. Peter and St. Paul. Their fourth Lent commences the first of August, and lasts until the fifteenth. Lent was first observed in England by Ercombert, sevanth king of Saxony. before the year 800. No meat was to be eaten during Lent at that time but by license, under certain penalties, and butchers were prohibited from killing flesh except for victualing ships.

THE EUREKA

FANNING MILL.

The Greatest Invention

OF THE 19th CENTURY!

FARMERS, LOOK TO YOUR INTEREST.

THE attention of Farmers and Mechanics is particularly directed to the combined economy, utility and practicability of the Eureka Mill, and to the many other advantages it possesses over every other Fanning Mill which has been introduced to the public. It is the fruit of long and patient investigation by the inventor, who has made it his constant study for over twenty years. He has secured several patents for Mills, and has always been rewarded with the best of success. But not feeling satisfied with his former attainments, he determined to reach the climax, and he now believes that his new invention will warrant him in exclaiming in the joy of his heart, like the philosopher, Phythagoras, EUREKA, signifying in the Grecian language, "I have found it." This has given the name to this new Mill.

In this Mill are all the former improvements, to which have been added several more, adding still greater advantages than were at first anticipated, or even thought possible by the inventor himsslf. It embraces the three great essentials necessary in every invention.

It combines Utility, Economy and Practicability!

THE EUREKA MILL

Is small and lighter, and is capable of doing more and better work in a given time than any other Mill ever invented. It is the only Mill that will successfully remove from wheat such pests as Cockle, Garlic, Oats, Rye, &c.

Should an extra quality of grain for seed or gristing purposes be required, it can be so arranged as to catch in one box perfect grain, and in the other, grain fit for market or mill. Here is made a great saving usually lost sight of; for nearly one-quarter of the grain cleaned in the common Mills is lost when sown, on account of shrunken kernels and inferior grain. The Eureka Mill saves all this, and gives seed every kernel of which will grow when put into the ground, and this saving will, in a short time, pay for the Mill.

HINES & BURCHINAL,

Chestertown, Md.,

Owners of the Mill, are having them manufactured at the Sash Factory and Planing Mill of NOLAND & Co., Port Deposit, Md., which is a guarantee they will be put up in the very best manner.

SCIENTIFIC AMERICAN

For 1872.

TWENTY-SEVENTH YEAR.

THIS splendid weekly, greatly enlarged and improved, is one of the most useful and interesting journals ever published. Every number is beautifully printed on fine paper, and elegantly illustrated with original engravings, representing New Inventions; novelties in Mechanics, Manufactures, Chemistry, Photography, Architecture, Engineering, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all professions or trades will find the

Scientific American

of great value and interest.

Its practical suggestions will save hundreds of dollars to every Household, Workshop and Factory in the land, besides affording a continual source of valuable instruction. The Editors are assisted by many of the ablest American and European writers, and having access to all the leading Scientific and Mechanical Journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

An official list of all the Patents issued is published weekly.

The yearly numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to four thousand ordinary book pages.

SPECIMEN COPIES SENT FREE.

TERMS.—$3 a year; $1.50 half year; Clubs of ten copies for one year, $2.50 each, $25.00, with a Splendid Premium to the person who forms the Club, consisting of a copy of the celebrated Steel-Plate Engraving, "Men of Progress."

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring PATENTS.

The best way to obtain an answer to the question—Can I obtain a Patent? is to write to MUNN & CO., 37 PARK ROW, New York, who have had over Twenty-five Years' Experience in the business. No charge is made for opinion and advice. A pen-and-ink sketch, or full written description of the invention, should be sent.

For instructions concerning American and European Patents—Caveats—Re-issues—Interferences—Rejected Cases—Hints on Selling Patents—Rules and Proceedings of the Patent Office—The New Patent Laws—Examinations—Extensions—Infringements, etc etc., send for INSTRUCTION BOOK, which will be mailed free, on application. All business strictly confidential.

Address **MUNN & CO.,**
Publishers of the Scientific American,
