LOCAL ITEMS

Orphans' Court.—*Tuesday, March 5th.* Present, Judges Beck and Scott.

The Court passed a number of claims against the estates of deceased parties.

The Register was directed to issue citation for C. W. S. Medders, guardian to Andrew Medders, to give additional security on his guardian bond.

Dedication Services.—The Westminister Presbyterian Church at Georgetown, Kent county, will be dedicated on Sunday the 24th of March. Rev. Dr. Hamner, of Baltimore, will preach the dedication sermon at 10½ A. M. Services will also be held at 2½ P. M., and 7 P. M., in which Rev. S. R. Schofield of Delaware City, Rev. J. Garland Hamner of Salisbury, and Rev. George Kennedy of Smyrna, will take part.

The community and the friends of the enterprise are cordiallyinvited to be present at these interesting services.

The new Church is a gem of architecture, designed by Dixon of Baltimore, built by West & Carroll of Port Deposit, and cost about $5,000.

SATURDAY LAST snow commenced falling about daybreak and continued, with a drifting wind, during the day, and reaching a greater depth than any fall during the winter. The deep-cuts on the railroad track near our town were so filled with the drift snow that the locomotive was unable to force her way, with the train, through them. The passengers were obliged to abandon the cars about half a mile from town and make their way through the snow-drifts. The locomotive succeeded in breaking through the drifts but was unable to return until Sunday morning, when the track was partially cleared, and she came through with such force that the breaks were not effective in time, and the engine ran on the siding, over the turn-table, off the track, and into the engine-house, smashing one of the large sills and the tremendous doors (at the time closed,) and completely destroying the hand-car therein. One of the passenger cars also ran off the track, and a second one ran the forward truck off. Word being sent to the Queen Anne's road, their engine arrived on the scene during Sunday night, and the car and engine were drawn on the track. But mishaps were not at an end. On the trip up, Monday morning, in one of the deep-cuts near town, a sand-slide had covered the rails, and the locomotive again ran off the track. With an energy not to be outdone, a sufficient force was soon at work, the engine replaced on the track, and Townsend reached in time to bring back the mail about the usual hour. This is the first mishap of this character, which has occurred since our road has been running.

THE WEATHER during the early part of the week has been colder than ever before in our recollection, during March. Chester river, which was entirely free from ice, was closed on the night of the fifth, and at this present writing—the seventh—is entirely closed with apparently hard ice. This makes the fourth time our river has been ice-bound since the first of December last.

Small Pox—This disease has made its appearance in our town. A colored man living on the main street, was taken with it last week, and has since died One of his children has taken the disease, but we learn has it in rather a mild form. Every precaution is being taken by the corporate authorities to prevent its spread, and there appears to be no occasion for alarm on the part of our citizens. We have often had isolated cases in our town without even members of the same family contracting the disease.

Wicomico Tribe, No. 54, Imp. Order of Red Men, was duly instituted at Smithville, in this county, on Thursday night last, by the Great Sachem of the State of Maryland, H. K. Maxwell, and Great Chief of Records, Charles Ireland of Baltimore city, assisted by past-officers W. T. Urie, J. Hamar Russell, Thomas W. Bordley, Charles Hayden and J. Jones Pearce, of Ozenie Tribe, Chestertown. The following are the officers of the new Tribe: J. W. Ivens, V. P.; N. K. Murren, S.; T. J. Parsons, S. S; J. T. Williams, J. S.; R. L. Usilton, C. of R.; W. V. Lucas, K. of W. Their membership numbers about thirty, and they meet on Friday nights.

POLITICAL EVENTS.—Several important political events are to occur in the next thirty days. First, we have the election for State officers in New Hampshire on the 12th inst. The cumpaign is lively and the contest will be a close one. On the following day—the 13th—the State republican conventions of Kentucky and Wisconsin meet. On the 15th inst., the election of a State Senator in Pennsylvania, to fill the existing vacancy, will take place. On the 27th instant the Ohio republican State convention will meet, which closes up the record for March. On the first day of April Connecticut holds her State election, followed by 'Little Rhody' two days afterward.

☞ In the advertisement of a farm for sale in Farmington, Ct., a remukable fact is stated, viz: that no deed was ever given for a portion of the land, it having remained in the same family for two hundred and thirty-two years. The possession has been continuous from the original purchase of the Indians.

☞ Boston's farewell bouquet to Nilsson was a ship four feet long, resting on an ocean of rod pinks with the word 'Adieu' on one side and "Cuba" on the other in white pinks. It sailed down the middle aisle of the theatre in the middle of a fine passage in "Martha," and was launched upon the stage after considerable exertion, where it rested quietly until the curtain fell, and was then steered by the prima donna herself to some unknown haven behind the scenes.

STILL ANOTHER ATLANTIC CABLE.—The London Times of the 20th ult. says: "It is understood that a basis has been agreed upon between the existing Atlantic telegraph companies, by which the French Cable Company undertake to lay a new cable between this country and the United States. It is satisfactory thus to find that the present combination recognize the requirements of the public for a thoroughly officient service, independent of the accidents to land lines, etc. Some modification of the tariff is also said to be in contemplation." The Times has heretofore reported that arrangements have been perfected by which an independent cable telegraph is to be laid. If both enterprises are carried out, we shall have five cables in operation under the Atlantic ocean.

ORIGIN OF A SAYING.—A correspondent of the *Literary World* writes: "I have vainly endeavored to ascertain the origin of the saying, 'if the mountain will not come to Mahomet, Mahomet must go to the mountain.' Can you enlighten my ignorance?" It is said that when Mahomet first declared his system of religion to the Arabs, they demanded proofs of his miraculous power, such as Christians claimed for Jesus and Moses. Mahomet replied that it would be tempting God, and provoking His wrath, to grant their demand. Nevertheless, he commanded Mount Sofa to come to him. Of course it didn't. Whereupon he exclaimed: "God is merciful! Had it obeyed my words, it would have fallen on us to our destruction. I will, therefore, go to the mountain and thank God that He has had mercy on a stiff-necked generation."

VENDUE.

THE
EUREKA
FANNING MILL.
The Greatest Invention
OF THE 19th CENTURY!
FARMERS, LOOK TO YOUR INTEREST.

THE attention of Farmers and Mechanics is particularly directed to the combined economy, utility and practicability of the Eureka Mill, and to the many other advantages it possesses over every other Fanning Mill which has been introduced to the public. It is the fruit of long and patient investigation by the inventor, who has made it his constant study for over twenty years. He has secured several patents for Mills, and has always been rewarded with the best of success. But not feeling satisfied with his former attainments, he determined to reach the climax, and he now believes that his new invention will warrant him in exclaiming in the joy of his heart, like the philosopher, Phythagoras, EUREKA, signifying in the Grecian language, "I have found it." This has given the name to this new Mill.

In this Mill are all the former improvements, to which have been added several more, adding still greater advantages than were at first anticipated, or even thought possible by the inventor himself. It embraces the three great essentials necessary in every invention.

It combines Utility, Economy and Practicability!

THE EUREKA MILL

Is small and lighter, and is capable of doing more and better work in a given time than any other Mill ever invented. It is the only Mill that will successfully remove from wheat such pests as Cockle, Garlic, Oats, Rye, &c.

Should an extra quality of grain for seed or gristing purposes be required, it can be so arranged as to catch in one box perfect grain, and in the other, grain fit for market or mill. Here is made a great saving usually lost sight of; for nearly one-quarter of the grain cleaned in the common Mills is lost when sown, on account of shrunken kernels and inferior grain. The Eureka Mill saves all this, and gives seed every kernel of which will grow when put into the ground, and this saving will, in a short time, pay for the Mill.

HINES & BURCHINAL,
Chestertown, Md.,

Owners of the Mill, are having them manufactured at the Sash Factory and Planing Mill of NOLAND & Co., Port Deposit, Md., which is a guarantee they will be put up in the very best manner.

June 17, 1871—tf.

SCIENTIFIC AMERICAN
For 1872.
TWENTY-SEVENTH YEAR.

THIS splendid weekly, greatly enlarged and improved, is one of the most useful and interesting journals ever published. Every number is beautifully printed on fine paper, and elegantly illustrated with original engravings, representing New Inventions; novelties in Mechanics, Manufactures, Chemistry, Photography, Architecture, Engineering, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all professions or trades will find the

Scientific American

of great value and interest.

Its practical suggestions will save hundreds of dollars to every Household, Workshop and Factory in the land, besides affording a continual source of valuable instruction. The Editors are assisted by many of the ablest American and European writers, and having access to all the leading Scientific and Mechanical Journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

An official list of all the Patents issued is published weekly.

The yearly numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to four thousand ordinary book pages.

SPECIMEN COPIES SENT FREE.

TERMS.—$3 a year; $1.50 half year; Clubs of ten copies for one year, $2.50 each, $25.00, with a Splendid Premium to the person who forms the Club, consisting of a copy of the celebrated Steel-Plate Engraving, "Men of Progress."

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring PATENTS.

The best way to obtain an answer to the question—Can I obtain a Patent? is to write to MUNN & CO., 37 PARK ROW, New York, who have had over Twenty-five Years' Experience in the business. No charge is made for opinion and advice. A pen-and-ink sketch, or full written description of the invention, should be sent.

For instructions concerning American and European Patents—Caveats—Re-issues—Interferences—Rejected Cases—Hints on Selling Patents—Rules and Proceedings of the Patent Office—The New Patent Laws—Examinations—Extensions—Infringements, etc etc., send for INSTRUCTION BOOK, which will be mailed free, on application. All business strictly confidential.

Address **MUNN & CO.,**
Publishers of the Scientific American,
Dec. 23, 1871. 37 Park Row, New York.
