From the Centreville Observer.

MR. COWLEY'S SUICIDE.—The singular death of Mr. Thomas I. C. Cowley which occurred a few weeks ago has been a subject of considerable speculation. Below will be found a note written by himself and found on the top of his papers by those having his affairs in hand, which shows conclusively that it was suicide:

"I do this to assure the public that no one else need be charged with my death but myself, as my life has become a burthen to me. T. I. C. COWLEY."

DEATH OF A CENTINARIAN.—Mrs. —— Phillips, widow of the late John Phillips, of this county, died at the residence of her son, Richard Phillips, Esq., on Friday week, in her one hundredth year. She was very active up to the time of her death, and her eyesight remained uninjured, having no occasion to use spectacles.

A NOVEL ORDER.—Messrs. McKenney & Co., of this town, received an order from a firm in Connecticut, on Wednesday last, for one thousand live partridges, to be sent C. O. D., with a request if not in their line to hand the order to some one who would fill it. As the law does not permit the trapping of these birds at this season, the order cannot be filled.

MR. GREELEY'S VERY LATEST.—The last letter from the editor of the Tribune is dated the 7th inst., and addressed to the editor of the Alexandria (Va.) Sentinel as follows:

"My dear sir: I am doing my best on the conservative movement, and expect to do so to the end. I take no care as to candidates, but if there should be an attempt to make free trade a plank of the platform, I must be counted out."

GREELEY ON THE CINCINNATI CONVENTION.—The St. Louis Republican prints the following laconic note from Horace Greeley to J. N Boyd, Chillicothe, Mo:

"Dear Sir: I am not for Grant if there is any help for it, as I trust there may be. Send all you can to the Cincinnati Convention, and come yourself. New York will be largely represented there."

☞ Steps are being inaugurated for the immediate erection of a telegraph from Easton to Clayton. The cost will be about $8000. Mr. J. L. Caldwell, Supt, of the Md. & Del. Railroad, has the matter in charge. The Western Union Telegraph Company agrees to give $2000; the Maryland and Delaware Railroad $2000; Mr. Caldwell $1000, leaving $3000 to be raised by subscriptions from the people along the line of the road.—*Journal.*

THE
EUREKA
FANNING MILL.
The Greatest Invention OF THE 19th CENTURY!

FARMERS, LOOK TO YOUR INTEREST.

THE attention of Farmers and Mechanics is particularly directed to the combined economy, utility and practicability of the Eureka Mill, and to the many other advantages it possesses over every other Fanning Mill which has been introduced to the public. It is the fruit of long and patient investigation by the inventor, who has made it his constant study for over twenty years. He has secured several patents for Mills, and has always been rewarded with the best of success. But not feeling satisfied with his former attainments, he determined to reach the climax, and he now believes that his new invention will warrant him in exclaiming in the joy of his heart, like the philosopher, Phythagoras, EUREKA, signifying in the Grecian language, "I have found it." This has given the name to this new Mill.

In this Mill are all the former improvements, to which have been added several more, adding still greater advantages than were at first anticipated, or even thought possible by the fiventor himself. It embraces the three great essentials necessary in every invention.

It combines Utility, Economy and Practicability!

THE EUREKA MILL

Is small and lighter, and is capable of doing more and better work in a given time than any other Mill ever invented. It is the only Mill that will successfully remove from wheat such pests as Cockle, Garlic, Oats, Rye, &c.

Should an extra quality of grain for seed or gristing purposes be required, it can be so arranged as to catch in one box perfect grain, and in the other, grain fit for market or mill. Here is made a great saving usually lost sight of; for nearly one-quarter of the grain cleaned in the common Mills is lost when sown, on account of shrunken kernels and inferior grain. The Eureka Mill saves all this, and gives seed every kernel of which will grow when put into the ground, and this saving will, in a short time, pay for the Mill.

HINES & BURCHINAL,
Chestertown, Md.,

Owners of the Mill, are having them manufactured at the Sash Factory and Planing Mill of NOLAND & Co., Port Deposit, Md., which is a guarantee they will be put up in the very best manner.
