LOCAL ITEMS

Orphans' Court.—*Tuesday, July 9th.* Present, Judges Beck, Scott and Hepbron.

The Court passed a number of claims against the estates of deceased parties.

C. H. Baker, administrator of William B. Hewitt, obtained an order for the sale of personalty of deceased.

Edwin Smith, executor of John P. Smith, returned his second administration account. Passed, and ordered to be recorded.

George W. Chrisfield, executor of the last will of Elizabeth Chrisfield, returned his first and final administration account.

Enos E. Bacon, guardian to Louis L., Demosthenes B., and Francis E. Wyatt, returned his final guardian accounts, which were passed and ordered to be recorded.

COMMENCEMENT AT WASHINGTON COLLEGE.—The Commencement Exercises at Washington College took place during the week. On Tuesday evening the Annual Address before the Mount Vernon Literary Society, by T. N. Williams, Esq., of Cambridge, Md. Mr. Williams' subject was, the "American Scholar," and is pronounced to have been an unusually fine effort. The evening was very warm, but the Hall was quite comfortably filled.

On Wednesday Commencement proper. The procession, headed by the Kent Cornet Band, consisting of the President and Members of the Faculty, the Principal and Professors and Students entered the Hall, and the exercises were opened with prayer by the Rev. S. C. Roberts. Declamation, "The Ruins of Time," by Julius Hunt, of Kent county. Original Oration, "The Human Mind," by S. C. Beckwith, of Dorchester county, upon whom was conferred the degree of Bachelor of Arts. Mr. Beckwith is about eighteen years of age only, and is spoken of by his instructors as a youth of bright intellect. He graduated with considerable merit, and his speech on the occasion is well spoken of. At the close the Principal delivered the usual Certificates of Proficiency.

KENNEDYVILLE, July 4th, 1872.

E. F. Perkins, Esq.—Dear Sir: Your note was received last Friday, but too late for last week's publication: I now reply.

The wheat crop in the Second Election District is a light one, but of good quality. In the neighborhood around Kennedyville there are some fair fields of wheat, and some very indifferent ones—hardly worth cutting. Average yield not over 10 bushels per acre. The oat crop will be light in consequence of the excessive drought. Corn promises very well; has been troubled with insect, but may make a fair crop with balance of season propitious.

Peaches are not so abundant as last year, luckily, but will probably remunerate handsomely the growers, as they will be apt to attain good size, the trees not being overloaded.

As for potatoes it is too soon to tell what they may do. The yield of early ones in most localities is light.

Yours truly, J.

[From the Baltimore Sun]

Early History of the Greely Movement.

In 1868 the attention of a private gentleman of Galesburg, Illinois, (H. Chrisman alternate to this convention,) was so forcibly called to the painful condition of his native State, (Virginia,) that he determined, hopeless as might seem the task, to attempt to negotiate her readmission, so long denied to the Union she had so largely helped to form. In a letter to Col. J. B. Baldwin, of Virginia, he ventured to suggest a radical change of base, presenting to Congress a formal civil submission, with such security for her loyal purpose as might be asked of her. This suggestion was promptly approved by General Lee, and at once adopted by Baldwin, Stuart, Marye, and a host of grand and noble men throughout the State, and the famous committee of ten were appointed to visit Washington. Arrived at Washington, for two whole days of arduous labor this committee met with one single friend. Old Horace Greely alone received them with open arms and drew his bow across the Tribune,

On the morning of the third day Mr. Chrisman met these friends, disheartened, grieved, and almost hopeless. Touched with their condition, Mr. Chrisman at once turned out to electioneer, and soon procured the powerful help of General Schofield, then Secretary of War, Mr. Ingersoll, Mr. Farnsworth, and Mr. Trumbull, of the delegation from Illinois, and in a day or two the arrangement was made, the Tribune articles were read, the Chicago Tribune caught the noble infection, and a glorious breeze was raised that bore Virginia, Texas, and Mississippi on its wings. The noble patriot, Col. G. C. Walker, of the Union army, then a large landholder and permanent citizen of Virginia, was elected Governor on the first liberal ticket that was ever run in the United States, and a policy was founded and a movement begun that promises national blessings. And very appropriately it proposes to trust old Horace Greely, who was the first to trust and help Virginia.

TACITUS.

Sunstroke—Simple Contrivance to prevent it.

The following is published as a specific or precaution against sunstroke:

About a year since, I saw in a newspaper an account of a case of sunstroke, written by the party himself. After suffering a long time from the attack, and having to a considerable degree recovered, he experienced suffering even from the rays of the moon. This led him to the reflection that it was not altogether the heat of the sun that produced prostration. After much research he discovered that the injury came from the chemical ray and not from the heat ray. He was guided to this by observing the fact that a photograph could not be taken through a yellow glass. Accordingly, he lined his hat with two linings—one of orange yellow to arrest the chemical ray, and one of green to arrest the heat ray. Thus prepared he went where the rays of the sun were most intense with perfect impunity. It is well known that the negro is seldom or never sunstruck. The color of his skin over the skull being of the orange yellow may assist in accounting for the fact. I practiced upon this suggestion all last summer; lined my hat with green and orange yellow paper, and had confidence enough in the truth of the theory to neglect my umbrella, which I had never done before. I mentioned it to many, who tried it also, and in all cases that came under my observation they uniformly asserted that the oppressive heat of the sun upon the head was much relieved.

Sumner's Proposed Amendment.

The New York World, discussing Mr. Sumner's proposed amendment to the Constitution, says:

Mr. Sumner's plan makes a President ineligible for re-election, and abolishes the office of Vice President. We endorse both of these reforms, although the second is a new proposition. Limitation of the President to a single term would remove the chief temptation which besets all our Presidents. They would have no motive but to serve the country faithfully and establish a good reputation. The proposal to abolish the office of Vice President, though new, is wise. The Senate is as competent as the House to choose its own presiding officer, as it does now whenever a Vice President succeeds to the highest office to fill a vacancy. Three Vice Presidents have become Presidents, and their administrations were the most unpopular we have ever had. In case of a vacancy in the office of President, Mr. Sumner's plan proposes that the member of the Cabinet senior in years, shall be President. But if Congress be not in session, it shall be the duty of this temporary President to call an extra session within the ensuing thirty days, when the members of the two Houses, assembled as one body, each member having one vote, shall elect a President to fill the vacancy for the unexpired part of the term. We commend this plan to the thoughtful examination of the country.

The Death Rate in Philadelphia and New York.

The deaths in Philadelphia for the week ending Saturday were 764, being an increase of 350 over last week, and of 393 over the same week last year. One-half of the deaths were of children under one year. The number of small-pox deaths was 10, being a decrease from last week of nine.

The deaths in New York during the week amounted to 1,569, the largest death-roll of any week in the history of the city. There were 1,348 deaths in six days, and thirty-three from sun-stroke on Friday.

The total number of deaths in London for the week ending June 20th was but 1,207. Thus, though London has three millions five hundred thousand population and New York less than one million, the deaths in New York exceed those of the great English metropolis.

Going for Greeley.

A letter has been written by Mr, W. N. Saunders, a prominent colored citizen and custom-house officer of Baltimore, to Hon. Henry Stockbridge, chairman of the Baltimore delegation to the late republican convention, returning thanks for the honor conferred by placing his name on the Grant electoral ticket for Maryland, and declining the same.

In conclusion he says:

"I shall, in my humble sphere, advocate the obliteration of old party lines and the sustenance of a new party, so composed as to give promise of successfully mastering the problems of the present and future, under the leadership of that grand old veteran of equal rights, Horace Greeley, whose record and whose whole life is a sufficient guarantee that the rights of all men will be protected under his administration."

A WEALTHY HERMIT.—St. Vincent, Forida, is an island of 7,000 acres, owned and occupied for the past three years by Mr. Hatch, a gentlemen of intelligence and fortune, formerly mayor of Cincinnati, who chooses to lead here the life of a hermit, solitary and alone, save with a servant or two, and seeing few visitors. Indeed, he is incensed whenever his privacy is intruded upon, except on invitation. His island swarms with deer and cattle, his library is full of books, and with these, and hunting and fishing he passes his time away—the monarch of all he surveys.

ORDER OF PUBLICATION.

James Myer & Co., and John McCauley, vs. John B. Kilpatrick, and others.

In the Circuit Court for Kent County. In Equity. Petition, &c.

THE object of this Petition is to procure a Decree directing the application of the proceeds of the Real Estate of John Kilpatrick, deceased, sold by Richard Hynson, Trustee, to the payment of the debts of the said John Kilpatrick.

The Petition states that heretofore a certain John Kilpatrick, late of Kent county, deceased, was in his life time seized and possessed of certain Real Estate in said county, called the "Trulock Farm, containing two hundred and eighty acres of land, more or less, and being so thereof seized and possessed, some time in the year 1868, departed this life intestate, leaving John B. Kilpatrick and Mary J. Kilpatrick, of the city of Philadelphia and State of Pennsylvania, and Catharine Long, formerly Catharine Kilpatrick, and Margaret Kilpatrick, of the same city and State, his only children and heirs-at-law.

The Petition further states that on the 15th day of July, 1868, the said John B. and Mary J. Kilpatrick filed their Bill of Complaint in the Equity side of the Circuit Court for Kent county, against the said James Long, Catharine Long, and Margaret Kilpatrick, praying for the sale of said Real Estate, and for the division of the proceeds thereof among the parties entitled upon which Bill of Complaint, after due process of law, the said Court, on the 28th day of April, 1870, passed a Decree for the sale of said Real Estate, and appointed Richard Hynson, Trustee, who, on the 9th day of February, 1872, reported that he did, on the 20th day of June, 1871, sell said Real Estate to Andrew Woodall and John Z. Clark, for the sum of four thousand, five hundred, and forty-seven dollars and five cents, payable in four equal instalments of six, twelve, eighteen, and twenty-four months from the day of sale.

The Petition further charges that John Kilpatrick was, at the time of his death, indebted to James Myer & Co., in the sum of one hundred and fourteen dollars and twenty cents, with interest from April 14, 1868, upon a promissory note dated April 17th, 1867, and for the sum of two hundred and four dollars, payable to James Myer & Co., sixty days after date, on which was endorsed a credit, April 14, 1858, of $100.00. The Bill further charges that the said John Kilpatrick was in his lifetime indebted to John McCauley, in the sum of two hundred and sixteen dollars and twenty cents, with interest thereon from July 8, 1868, upon an open account.

The Bill further states that Letters of Administration upon the Personal Estate of said John Kilpatrick, were granted by the Orphans' Court of Kent County, to John B. Kilpatrick, who has since duly and fully administered the same.

The Bill further charges that the said Personal Estate was insufficient to pay all debts due and owing by said intestate, and that upon a full administration thereof, James Myer & Co. received a dividend of $17.66, which has been duly credited upon the note aforesaid, and still leaves a balance of $117.09, with interest from April 14, 1871. And John McCauley received a dividend of thirty-two dollars and ninety-six cents, which has been duly credited, and still leaves a balance of $208.08, with interest from April 14, 1871.

It is thereupon, this 10th day of June, 1872, ordered that the complainants, by causing a copy of this Order to be inserted in some newspaper published in Kent county, once in each of three successive weeks, prior to the 15th day of July next, give notice to said absent defendants of the object and substance of this petition, and warn them to appear in this Court, in person or by solicitor, on or before the 10th day of October next, to answer the premises and show cause, if any they have, why a Decree ought not to pass as prayed.

Ayer's Sarsaparilla

Is widely known as one of the most effectual remedies ever discovered for cleansing the system and purifying the blood. It has stood the test of years, with a constantly growing reputation, based on its intrinsic virtues, and sustained by its remarkable cures. So mild as to be safe and beneficial to children, and yet so searching as to effectually purge out the great corruptions of the blood, such as the scrofulous and syphilitic contamination. Impurities, or diseases that have lurked in the system for years, soon yield to this powerful antidote and disappear. Hence its wonderful cures, many of which are publicly known, of **Scrofula,** and all scrofulous diseases, **Ulcers, Eruptions,** and eruptive disorders of the skin, **Tumors, Blotches, Boils, Pimples, Pustules, Sores, St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm,** and internal **Ulcerations of the Uterus, Stomach, and Liver.** It also cures other complaints, to which it would not seem especially adapted, such as **Dropsy, Dyspepsia, Fits, Neuralgia, Heart Disease, Female Weakness, Debility,** and **Leucorrhœa,** when they are manifestations of the scrofulous poisons.

It is an excellent restorer of health and strength in the Spring. By renewing the appetite and vigor of the digestive organs, it dissipates the depression and listless languor of the season. Even when no disorder appears, people feel better, and live longer, for cleansing the blood. The system moves on with renewed vigor and a new lease of life.

PREPARED BY
Dr. J. C. AYER & CO., Lowell, Mass.,
Practical and Analytical Chemists,
SOLD BY ALL DRUGGISTS EVERYWHERE.

Ayer's *Hair Vigor,*
For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *It soon restores faded or gray hair to its original color, with the gloss and freshness of youth.* Thin hair is thickened, fallen hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning grey or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.

TO THE
Peach Growers
OF THE PENINSULA.
YOU can now have your Peach Trees budded to order, in such varieties as you desire. I am prepared, by a new method of cultivation, to bud to order, during the month of June, Peach Trees for next Fall and Spring planting. The superior location of my Nursery enables me, by this new mode, to furnish trees of good size and with better roots than those from any other Nursery.
In addition to the varieties that are cultivated by the nurserymen, I imported from Mr, Rivers, the great Orchardist, near London, three new varieties—Early Beatrice, Early Louise, and Early Rivers. These Peaches have all been fruited in my orchard, and ripen in the order in which they are named, beginning about the 20th of June. They are hardy, and bear transportation as well as Troth's Early. Last season I shipped a few crates to New York, and will have this year a very considerable quantity; quite enough to demonstrate their value to the Peach Growers of this Peninsula, whose patronage I respectfully solicit, as I feel assured that my trees will give entire satisfaction.
COL. EDWARD WILKINS, of Riverside, Kent Co., Md., has planted this season 5000 trees from my Nursery, and I confidently refer to him as to the quality of my trees.
For particulars please address
SAM'L. G. BILYEU,
BUTTERWOOD NURSERY,
Littleton, North Carolina.

PEACH BASKETS.
PEACH Growers and Shippers are respectfully informed that we are now manufacturing the justly celebrated "Mitchell Patent Peach Basket." This Basket is constructed on a principle which prevents the fruit from settling or crushing, and is positively endorsed and recommended by all the leading Commission Houses in New York and Philadelphia as the best Basket in use. Our Baskets are made of the choicest material, and none but the best experienced workmen will be employed in their construction; and we desire to call special attention to the fact that we are using in the basket this season a malleable nail, manufactured expressly for our use, and which adds materially to its firmness, strength and durability.
Having purchased the newest and most improved basket machinery, we are prepared to sell the *best* basket in the market, at a price that will defy competition. Our facilities are such that we can make 5000 baskets daily, all of which will be thoroughly inspected before leaving the factory. Orders may be sent to
