STAM & BRO., Booksellers, Chestertown, have on hand a variety of interesting and useful books, among which will be found "The Horse in the Stable and Field," by McLure and Harvey, a valuable book for farmers; Hiram Woodruff's Trotting Horse of America; Horace Greeley's 'What I Know of Farming,' French's Farm Drainage; Youatt and Martin on the Hog. Novels, Romances and Tales, by best authors.

☞ The Cecil Democrat, speaking of the refusal of Judge Carmichael to serve as a candidate for Congress, says:

"We suggest that they solve the difficult problem by nominating Judge Wickes as they did Judge Carmichael—by acclamation—, without, however, resorting to seventy more stubborn ballots.

If Judge Carmichael had consented to be elected, his return to Congress would have been after the longest absence instanced in the history of our government. Judge C. was a member of Congress from 1833 to 1835. His reappearance would have been after the lapse of just forty years from his entrance, during which time he has seen no service in that body."

A SHOOTING AFFAIR.—We learn that a difficulty occurred on Kent Island on Saturday last between Messrs. Hiram Goodhand and Wm. H. Jeffers, in which a gun was brought into use by Mr. Goodhand, who, while intending its contents for Mr. Jeffers, missed its aim, and shot Mr. John Legg, but not in a serious manner. Both parties were arrested on Monday. Mr. Jeffers was fined $5 and costs for assault and battery on Mr. Goodhand, and Mr. G. was held to bail for his appearance at Court, to answer for an assault upon Messrs. Jeffers and Legg with a gun.—*Centreville Citizen.*

Teachers' Salaries.

THE following scale of Salaries was adopted by the School Board at a regular meeting, and ordered to be published: the same to take effect on and after Monday, September 2d, 1872.

Where the School's average for a Term is 10 pupils or less, the Teacher shall receive the sum of	$95 00
More than 10, and not exceeding 15 scholars,	$100 00
More than 15 and not exceeding 30 scholars,	$110 00
For more than 30 scholars the Teacher shall receive	$115 00
In schools where an Assistant is employed the Principal shall not be paid more, per quarter, than	$110 00

For each and every day lost by the Teacher he shall be subject to a deduction of $3, except when the time is lost from sickness, when the deduction shall be in proportion to the salary paid for that quarter.

THE EUREKA
FANNING MILL.
The Greatest Invention
OF THE 19th CENTURY!

FARMERS, LOOK TO YOUR INTEREST.

THE attention of Farmers and Mechanics is particularly directed to the combined economy, utility and practicability of the Eureka Mill, and to the many other advantages it possesses over every other Fanning Mill which has been introduced to the public. It is the fruit of long and patient investigation by the inventor, who has made it his constant study for over twenty years. He has secured several patents for Mills, and has always been rewarded with the best of success. But not feeling satisfied with his former attainments, he determined to reach the climax, and he now believes that his new invention will warrant him in exclaiming in the joy of his heart, like the philosopher, Phythagoras, EUREKA, signifying in the Grecian language, "I have found it." This has given the name to this new Mill.

In this Mill are all the former improvements, to which have been added several more, adding still greater advantages than were at first anticipated, or even thought possible by the inventor himself. It embraces the three great essentials necessary in every invention.

It combines Utility, Economy and Practicability!

THE EUREKA MILL

Is small and lighter, and is capable of doing more and better work in a given time than any other Mill ever invented. It is the only Mill that will successfully remove from wheat such pests as Cockle, Garlic, Oats, Rye, &c.

Should an extra quality of grain for seed or gristing purposes be required, it can be so arranged as to catch in one box perfect grain, and in the other, grain fit for market or mill. Here is made a great saving usually lost sight of: for nearly one-quarter of the grain cleaned in the common Mills is lost when sown, on account of shrunken kernels and inferior grain. The Eureka Mill saves all this, and gives seed every kernel of which will grow when put into the ground, and this saving will, in a short time, pay for the Mill.

HINES & BURCHINAL,
Chestertown, Md.,

Owners of the Mill, are having them manufactured at the Sash Factory and Planing Mill of NOLAND & Co., Port Deposit, Md., which is a guarantee they will be put up in the very best manner.
