☞ Mr. W. W. Stevens' horse Towhead which made the acquaintance of our citizens at the Woton Agricultural fair, has been successful at the State fair. The Sun of Thursday, gives the following account of the race:

The second race was free to all horses owned in Maryland, September 1st, 1872. Purse $300; $200 to first, $100 to second, third to save entrance, mile heats, best three in five; entries. Mary Washington, by C. A Murphy; Towhead by *W. W.* Stevens; Henry Clay, by D. Steever. The horse Towhead is a sleepy-looking little animal of a dun color, and to use the general criticism, looked more like a sheep than a trotter, but his performance gave an emphatic contradiction to such an opinion, as he won in three straight heats, out speeding his opponents throughout.

First Heat.—After two failures the three got off. Clay inside, Towhead next, the mare outside. The latter had a slight lead. Within a few hundred yards, however, the little 'sheep' shot ahead and got the inside from the stallion, Clay. The latter broke up and was pressed by the mare. Near the quarter Towhead broke, but lost nothing, getting his feet again instantly. Both Clay and the mare made breaks and skips to second, the little dun horse leading them to the half mile in 1.19 *Here* Mary Washington gained by running, Clay being far behind. Near the third quarter Clay ran some distance, and led the mare to the score for second place, Towhead winning with ease in 2. 43¾.

Second Heat,—The horses got the go on first effort, when Towhead went clear away, deserting all companionship, the mare running clear off her feet. The half mile was made in 1 21, Clay and the mare far behind. On the home-stretch Clay gained second place. Time, 2.44½.

Third Heat.—This heat was but a repetion of the second, it being plainly evident that the dun horse had it all his own way. He came in an easy winner of the heat and race in 2.46½., with Clay second.

Summary.—Towhead, 1, 1, 1; Henry Clay 2, 2, 2; Mary Washington, 3, 3, 3. Time, 2.43¾, 2.44½, 2.46½.

Orphans' Court.—*Tuesday, October 8.* Present, Judges Beck and Scott.

The Court passed a number of claims against the estates of deceased parties.

On application, letters of administration on the personal estate of James M. Lees, late of Kent county, deceased, were granted to James M. Mallalieu, who bonded with Samuel L. Blackiston and H. M. Startt, as sureties, in the penalty of one thousand dollars: approved and ordered to be recorded

T. R. Quimby and J. W. Jarman were appointed to appraise said estate; the usual notice to creditors was ordered to be published.

On application, letters of administration on the personal estate of Samuel Riley, (colored) late of Kent county, deceased, were granted to F. Hyland Taylor, (the parties entitled having first filed their renunciation) who executed a bond with Eugene Gooding and John W. Ireland, as sureties, in the penalty of three thousand dollars, which was approved and ordered to be recorded. E. E. Miller and W. H. Kennard were appointed to appraise said estate. The usual notice to creditors was ordered to be published.

H. Clay Hadaway and *Wm.* H. Lambert, admrs. of Edward Hadaway, dec'd., returned their first administration account, which was passed and ordered to be recorded.

Wm. D. Burchinal, guardian to Catharine Lively, (colored) returned his eighth guardian account, which was passed and ordered to be recorded.

Ordered, that the Register issue citation, directed to Robert M, Smyth and John T. Smyth, executors of *Wm.* F Smyth, to close the estate of said deceased. Returnable October 22, 1872.

The account of Elizabeth Welch, against the estate of Samuel *W.* Canady, and referred to the Orphans' Court as arbitrators, was allowed in full, *i. e.*, three hundred and sixty dollars.

Order of Publication.

John A. Benson,
vs.
Annie E Benson.

In the Circuit Court for Kent County. In Equity.

The object of this Bill is to procure a Divorce *a Vinculo Matrimonii* of the complainant from the defendant.

The Bill alleges that the complainant and defendant were married on or about the fifteenth day of June, eighteen hundred and sixty-four, and from that date until the twenty-fourth day of December, eighteen hundred and sixty-eight, complainant and defendant lived as man and wife: that on the twenty-eighth of December, eighteen hundred and sixty-eight, the defendant abandoned the complainant's home and protection, and removed to her father's home in the city of Wilmington, and State of Delaware, where she has ever since continued to reside; and that the abandonment aforesaid has continued uninterruptedly since the twenty-fourth of December, eighteen hundred and sixty-eight; that it is deliberate and final and beyond any reasonable hope of reconciliation. The Bill further charges that the complainant and defendant have three children by said marriage, namely: Edwin, aged seven years; Temperance, aged five years; and Lena, aged three: all of whom are now living with the said Annie E. Benson, at Wilmington, Delaware. The Bill further charges that the defendant is a non-resident of the State of Maryland, and prays the usual Order of Publication.

It is thereupon ordered by the Court, this 12th day of September, 1872, that the complainant cause a copy of this Order, together with the object and substance of the Bill, to be inserted in some newspaper published in Chestertown, once a week for four successive weeks before the 9th day of November next, giving notice to the defendant in said Bill, and warning her to appear in this Court in person or by Solicitor, on or before the 4th day of January next, to show cause, if any she has, why a Decree shall not pass as prayed.

THE EUREKA
FANNING MILL.
The Greatest Invention
OF THE 19th CENTURY!
FARMERS, LOOK TO YOUR INTEREST.

THE attention of Farmers and Mechanics is particularly directed to the combined economy, utility and practicability of the Eureka Mill, and to the many other advantages it possesses over every other Fanning Mill which has been introduced to the public. It is the fruit of long and patient investigation by the inventor, who has made it his constant study for over twenty years. He has secured several patents for Mills, and has always been rewarded with the best of success. But not feeling satisfied with his former attainments, he determined to reach the climax, and he now believes that his new invention will warrant him in exclaiming in the joy of his heart, like the philosopher, Phythagoras, EUREKA, signifying in the Grecian language, "I have found it." This has given the name to this new Mill.

In this Mill are all the former improvements, to which have been added several more, adding still greater advantages than were at first anticipated, or even thought possible by the inventor himself. It embraces the three great essentials necessary in every invention.

It combines Utility, Economy and Practicability!

THE EUREKA MILL

Is small and lighter, and is capable of doing more and better work in a given time than any other Mill ever invented. It is the only Mill that will successfully remove from wheat such pests as Cockle, Garlic, Oats, Rye, &c.

Should an extra quality of grain for seed or gristing purposes be required, it can be so arranged as to catch in one box perfect grain, and in the other, grain fit for market or mill. Here is made a great saving usually lost sight of; for nearly one-quarter of the grain cleaned in the common Mills is lost when sown, on account of shrunken kernels and inferior grain. The Eureka Mill saves all this, and gives seed every kernel of which will grow when put into the ground, and this saving will, in a short time, pay for the Mill.

HINES & BURCHINAL,
Chestertown, Md.,

Owners of the Mill, are having them manufactured at the Sash Factory and Planing Mill of NOLAND & Co., Port Deposit, Md., which is a guarantee they will be put up in the very best manner.
