Prospectus for 1873.—Sixth Year.

The Aldine,

An Illustrated Monthly Journal, universally admitted to be the Handsomest Periodical in the World. A Representative and Champion of American Taste.

Not for Sale in Book or News Stores.

THE ALDINE, while issued with all the regularity, has none of the temporary or *timely* interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light, and graceful literature; and a collection of pictures, the rarest specimens of artistic skill, in black and white. Although each succeeding number affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it has been bound up at the close of the year. While other publications may claim superior cheapness, as compared with rivals of a similar class, THE ALDINE is a unique and original conception—alone and unapproached—absolutely without competition in price or character. The possessor of a complete volume cannot duplicate the quantity of fine paper and engravings in any other shape or number of volumes *for ten times its cost; and then, there are the chromos, besides!*

ART DEPARTMENT.

Notwithstanding the increase in the price of subscription last Fall, when THE ALDINE assumed its present noble proportions and representative character, the edition *was more than doubled* during the past year; proving that the American public appreciate, and will support, a sincere effort in the cause of Art. The publishers, anxious to justify the ready confidence thus demonstrated, have exerted themselves to the utmost to develop and improve the work: and the plans for the coming year, as unfolded by the monthly issues, will astonish and delight even the most sanguine friends of THE ALDINE.

The publishers are authorized to announce designs from many of the most eminent artists of America.

In addition, THE ALDINE will produce examples of the best foreign masters, selected with a view to the highest artistic success, and greatest general interest; avoiding such as have become familiar through photographs or copies of any kind.

The quarterly tinted plates, for 1873, will reproduce four of John S. Davis' inimitable child-sketches, appropriate to the four seasons. These plates, appearing in the issues for January, April, July, and October, would be alone worth the price of a year's subscription.

The popular feature of a copiously illustrated 'Christians' number will be continued.

To possess such a valuable epitome of the art world, at a cost so trifling, will command the subscriptions of thousands in every section of the country; but, as the usefulness and attractions of *THE ALDINE* can be enhanced, in proportion to the numerical increase of its supporters, the publishers propose to make 'assurance double sure,' by the following unparallelled offer of

Premium Chromos for 1873.

Every subscriber to *THE ALDINE*, who pays in advance for the year 1873, will receive, without additional charge, a pair of beautiful oil chromos, after J. J. Hill, the eminent English painter. The pictures, entitled 'The Village Belle,' and 'Crossing the Moor,' are 14 X 20 inches—are printed from 25 different plates, requiring 25 impressions and tints to perfect each picture. These rare chromos are sold for $30 per pair, in the art stores. As it is the determination of its conductors to keep *THE ALDINE* out of the reach of competition in every department, the chromos will be found correspondingly ahead of any that receive a certificate, over the signature of the publishers, *guaranteeing* that the chromos delivered shall be equal to the samples furnished the agent, or the money will be refunded. The distribution of pictured of this grade, free to the subscribers to a five dollar periodical, will mark an epoch in the history of Art; and, considering the unprecedented cheapness of the price for *THE ALDINE* itself, the marvel falls little short of a miracle, even to those best acquainted with the achievements of inventive genius and improved mechanical appliances. (For illustrations of these chromos, see November issue of *THE ALDINE.*)

The Literary Department

will continue under the care of Mr. RICHARD HENRY STODDARD, assisted by the best writers and poets of the day, who will strive to have the literature of *THE ALDINE* always in keeping with its artistic attractions.

Terms.

$5 PER ANNUM, IN ADVANCE, WITH OIL CHROMOS FREE.

THE ALDINE will, hereafter be obtainable only by subscription. There will be no reduced or club rate; cash for subscriptions must be sent to the publishers direct, or handed to the local agent, *without responsibility to the publishers*, except in cases where the certificate is given, bearing the *fac-simile* signature of JAMES SUTTON & Co.

Agents wanted.

THE EUREKA FANNING MILL.

The Greatest Invention OF THE 19th CENTURY!

FARMERS, LOOK TO YOUR INTEREST.

THE attention of Farmers and Mechanics is particularly directed to the combined economy, utility and practicability of the Eureka Mill, and to the many other advantages it possesses over every other Fanning Mill which has been introduced to the public. It is the fruit of long and patient investigation by the inventor, who has made it his constant study for over twenty years. He has secured several patents for Mills, and has always been rewarded with the best of success. But not feeling satisfied with his former attainments, he determined to reach the climax, and he now believes that his new invention will warrant him in exclaiming in the joy of his heart, like the philosopher, Phythagoras, EUREKA, signifying in the Grecian language, "I have found it." This has given the name to this new Mill.

In this Mill are all the former improvements, to which have been added several more, adding still greater advantages than were at first anticipated, or even thought possible by the inventor himself. It embraces the three great essentials necessary in every invention.

It combines Utility, Economy and Practicability!

THE EUREKA MILL

Is small and lighter, and is capable of doing more and better work in a given time than any other Mill ever invented. It is the only Mill that will successfully remove from wheat such pests as Cockle, Garlic, Oats, Rye, &c.

Should an extra quality of grain for seed or gristing purposes be required, it can be so arranged as to catch in one box perfect grain, and in the other, grain fit for market or mill. Here is made a great saving usually lost sight of: for nearly one-quarter of the grain cleaned in the common Mills is lost when sown, on account of shrunken kernels and inferior grain. The Eureka Mill saves all this, and gives seed every kernel of which will grow when put into the ground, and this saving will, in a short time, pay for the Mill.

HINES & BURCHINAL,

Chestertown, Md.,

Owners of the Mill, are having them manufactured at the Sash Factory and Planing Mill of NOLAND & Co., Port Deposit, Md., which is a guarantee they will be put up in the very best manner.
