OUR LOCAL DEPARTMENT.

ORPHANS' COURT.—Present, Judges Beck and Scott.

The Court passed a number of claims against the estates of deceased parties.

Sewell Hepbron, admr. C. T. A. of Lemuel Skeggs, dec'd., returned an inventory of personal property of dec'd., and obtained an order for the sale thereof.

James A. Pearce and George W. Greenwood, admrs. of John Greenwood of Benj., dec'd., returned a list of debts due dec'd.

The last will and testament of John Frazier, dec'd., and codicils, were admitted to probate. Letters testamentary on the estate were granted to Richard A. Frazier of Kent county, and James H. Scowdrick of New Castle county, Dela., who executed their bond with B. F. Caulk of Kent, and Irwin J. Griffith, of Cecil county, Md., as sureties, in the penalty of twenty thousand dollars. E. E. Miller and Thos. A. Jacobs were appointed to appraise the personal estate. The usual notice to creditors was ordered to be published.

Letters of administration on the personal estate of Aaron L. Gooding, dec'd., were granted to Rebecca V. Gooding and Franklin M. Gooding, who executed their bond with Wm. O. Shalleross and Wm. T. Miller, as sureties, in the penalty of forty thousand dollars. E. E. Miller and David Clements were appointed to appraise the said estate, and the usual notice to creditors ordered to be published.

On application, letters of administration on the estate of Elias S. Watson, dec'd., were granted to James A. Pearce, (the party entitled having first filed her renunciation) who executed his bond with W. N. E. Wickes and John L. Stam, as sureties, in the penalty of four thousand dollars. Samuel H. Blackiston and Gilbert Wood were appointed to appraise said estate. The usual notice to creditors was ordered.

The petition of G. W. Sutton, one of the heirs of Orlando F. Sutton, dec'd., to appoint appraisers to value the real estate of deceased and summon the parties defendants, was filed and ordered to be recorded.

James M. Hyrons, guardian to Agnes S. and Margaret Hyrons, returned final guardian accounts: passed, and ordered to be recorded.

Geo. W. Crossley, guardian to Joseph S. and Sarah Ann Moffitt, returned his first and final guardian accounts: passed, and ordered to be recorded.

Wm. K. Copper, admr. of John A. Parsons, returned his first administration account: passed, and ordered to be recorded.

John K. Bosee, executor of John Bosee, returned his third and final account: passed and ordered to be recorded.

Bartus Trew, admr. of Benj. Linsey, (colored) returned his first and final administration account and dividend! passed and ordered to be recorded.

Jas. A. Pearce and Geo. W. Greenwood, admrs. of John Greenwood of Benj., returned their first administration account: passed and ordered to be recorded.

LOOK TO YOUR MEATHOUSES.—Some thief or thieves entered the meat shop of Mr. James Brice, next door to Stam & Bro's., on Wednesday night last, and took some 60 pounds of beef, selecting the best parts. Numbers of our idle population are no doubt next door to starvation, unless supplied in this manner.

On Thursday last, the steamer Chester made her first trip to our town since the close of navigation, and left again for Baltimore yesterday. We presume the Chester will continue her trips, unless again prevented by the ice.

CIRCUIT COURT.—The January Term of the Circuit Court for this county commenced on Monday last, Judge Wickes presiding. The Court was chiefly occupied with the civil dockets. On motion of James A. Pearce, Esq., State's Attorney, J. M. Barr, Esq., recently of Wilmington, Del., and Michael Bannon, Esq., of Anne Arundel county, were admitted to the Kent bar.

Court adjourned to Monday next.

FINE FARMS AT PUBLIC SALE.—Michael Bannon, Esq., mortgagee, will sell at Public Sale, on Tuesday next, at 12 o'clock, M., at the Voshell House, two very fine farms near Chestertown. For particulars see advertisement in to-day's paper.

WE EXTRACT the following information from the Annual Report of Levin Woolford, the Comptroller of the Treasury Department:

The Clerk of the Circuit Court paid into the treasury for the fiscal year ending September 30, 1872, the sum of $4,000.

The Register of Wills paid for the same period the sum of $640.13.

Receipts during the same period from collectors of tax, $10,887.00.

Balances in the hands of collectors of Kent, for the year 1872, $13,628.58.

Balances in the hands of Kent county collectors, for the years prior to 1872, $14,079.46.

Total receipts of the Clerk's office for one year to Dec. 1, 1871, $2,720.35. Expenses $1,900.

Total receipts of the office of Register of Wills, for the same period, $1,570.02.

Assessed value of property in 1872, $7,899,150, being $38,578 less than in 1867.

GERMAN LABOR.—The success attending the importation and employment of German farm laborers in the lower section of Queen Anne's county, has given rise to the formation of an Emigrant Club, composed of citizens of Kent and Queen Anne's counties, for the purpose of procuring labor for this locality. It is proposed to furnish laborers for at about eleven dollars per head. Persons desiring laborers of this club can leave their names with Mr. Louis K. Stam, with the number required. A number of farmers have already made application for them. Members are requested to be prepared on Tuesday next to pay $11 for each hand they require, $6 of which is to be deducted from the laborer's first wages.

The difficulty the farmers have experienced in procuring reliable farm labor during the past year, will doubtless prompt them to avail themselves of the services of this club. The German agricultural laborer is well known as a patient, faithful servant, and soon forms local attachments.

The emigrants selected by this club will be only agricultural laborers, and will be chosen by a competent German.

THE SHIP CANAL.—A correspondent of the Milford (Del.) News and Advertiser, gives some interesting statements in reference to the proposed routes. After giving some details of the first survey, (now completed) the writer further says:

Next is the Chester river route from Chestertown to Bombay Hook; third from Queenstown in a *direct* course for the mouth of the Capes *via.* Greensborough, Harrington and Milford; fourth, from Queenstown to Lewes, direct; and fifth, the Choptank route through by East New Market, Seaford and Georgetown. Whether all of these will be surveyed will be determined in the New York office. Each one has its peculiar claims and its disadvantages. The one just surveyed has less miles of earth to remove, but lays far out of the direct course and is but a few miles nearer than the Delaware and Chesapeake canal.

The Chester river is better in that it is more direct. But the most direct course is the one through Greensborough; and while this presents more miles of earth to remove it yet opens to ship navigation more of the Peninsula than can any one of the others, and as such appeals most strongly to the States of Maryland and Delaware for State encouragement. This route also presents one of the best outlets on the Delaware Bay, while its entrance at Chester river cannot be equalled. Into it would flow the Wye, Tuckahoe and Choptank rivers, making of each an unsurpassed ship canal. Those routes which terminate behind the Breakwater have a claim in its protection.

The whole cost of a ship canal across the Peninsula is placed at less than ten millions of dollars, and if the States of Maryland and Delaware will each give the proper aid, they will receive back in direct revenue more than it costs, and insure the quick absorption of the stock by capitalists, while the indirect advantages that must accrue in a thousand ways will be immense.

AFTER a long delay the case of Foster, the New York car-hook murderer, has been decided, at Albany, adversely to the prisoner. The case was taken up to the Court of Appeals, where the judgment of the court below was affirmed, and an order issued that "the sentence be executed." There is hope for New York yet.

☞Laughing-gas is nothing new; but the laughing-plant is a novelty. It is native of Arabia, grows about six inches high, and bears yellow flowers. Two or three black seeds are produced, which, when pulverized and administered, operate in a curious way. For about an hour the person who has taken it laughs, sings, dances, and conducts in the most ludicrous and extravagant manner. After the excitement has passed he falls into a profound slumber, on awaking from which he is unconscious of what has occurred.

THE

EUREKA

FANNING MILL.

The Greatest Invention

OF THE 19th CENTURY!

FARMERS, LOOK TO YOUR INTEREST.

THE attention of Farmers and Mechanics is particularly directed to the combined economy, utility and practicability of the Eureka Mill, and to the many other advantages it possesses over every othhr Fanning Mill which has been introduced to the public. It is the fruit of long and patient investigation by the inventor, who has made it his constant study for over twenty years. He has secured several patents for Mills, and has always been rewarded with the best of success. But not feeling satisfied with his former attainments, he determined to reach the climax, and now he now believes that his new invention will warrant him in exclaiming in the joy of his heart, like the philosopher, Phythagoras, EUREKA, signifying in the Grecian language, "I have found it." This has given the name to this new Mill.

In this Mill are all the former improvements, to which have been added several more, adding still greater advantages than were at first anticipated, or even thought possible by the inventor himself. It embraces the three great essentials necessary in every invention.

It combines Utility, Economy and Practicability!

THE EUREKA MILL

Is small and lighter, and is capable of doing more and better work in a given time than any other Mill ever invented. It is the only Mill that will successfully remove from wheat such pests as Cockle, Garlic, Oats, Rye, &c.

Should an extra quality of grain for seed or gristing purposes be required, it can be so arranged as to catch in one box perfect grain, and in the other, grain fit for market or mill. Here is made a great saving usually lost sight of: for nearly one-quarter of the grain cleaned in the common Mills is lost when sown, on account of shrunken kernels and inferior grain. The Eureka Mill saves all this, and gives seed every kernel of which will grow when put into the ground, and this saving will, in a short time, pay for the Mill.

HINES & BURCHINAL,

Chestertown, Md.,

Owners of the Mill, are having them manufactured at the Sash Factory and Planing Mill of NOLAND & Co., Port Deposit, Md., which is a guarantee they will be put up in the very best manner.
