ORPHANS' COURT.—Present Judges Beck, Scott and Hepbron.

The Court passed a number of claims against the estates of deceased parties.

George T. Hollyday, executor of George W. Beck, dec'd., returned an inventory of the personal estate of deceased. Received and ordered to be recorded, and on application was ordered to sell at private sale, on the most advantageous terms, the corn, corn blades, lambs and calves on hand.

Elizabeth A. Coleman, by her att'y. H. M. Thomas, returned an inventory of the personal estate of Darius Coleman, dec'd., and obtained an order for the sale thereof.

F. Hyland Taylor, admr. of Samuel P. Benny, dec'd., returned an inventory of the personal estate of his decedent, and obtained an order for the sale of the same at private sale.

The Register of Wills was appointed an Auditor to state an account between the Trustee and the Real Estate of John Clark, late of Kent county, deceased.

The last will and testament of Williamina T. Skeggs, late of Kent county, dec'd., was admitted to probate and ordered to be recorded.

ELECTION OF VESTRYMEN.—The following gentlemen were elected Vestrymen of Chester Parish, Chestertown, on Easter Monday, April 14th, 1873: Samuel Comegys, George W. T. Perkins, Joseph A. Wickes, William S. Walker, George B. Westcott, William N. E. Wickes, James A. Pearce.

SALES TO TAKE PLACE.—John B. Brown, Esq., as Trustee, will sell at Public Sale, at Maxwell's Hotel in the town of Millington, this afternoon, between the hours of 1 and 3 o'clock, a valuable farm. For particulars see the advertisement on our fourth page.

Mrs. Elizabeth A. Coleman, admr'x. of Darius Coleman, will sell at Public Sale, at his late residence in Swan Creek Neck, on Friday next, the 25th instant, at 10 o'clock A. M., some valuable personal property. See the advertisement for particulars.

SURPRISE.—The ladies of Chester Parish, Chestertown, on Monday evening last paid an Easter visit to their pastor, the Rev. Mr. Roberts, bearing with them substantial supplies for the pantry and the household. The visit was managed so quietly that some of the members even, were left in the dark. An hour was spent in social conversation, and the ladies retired with the thanks of their pastor and his wife.

CIRCUIT COURT.—The April Term of the Circuit Court for this county commences on Monday next. The criminal docket is small so far, and the prospects at present are that there will not be much criminal business to detain the Court.

The condition of Green will not admit of a trial in the case.

Governor Whyte has granted a Nolle Prosequi in the cases removed from Queen Anne's county, of the State against Hiram Goodhand, indicted for breaking into the house of Frank C. Thomas with intent to commit a felony, and for an assault upon John C. Legg with intens to kill.

If we may judge by the number of subpoenas being issued for witnesses in civil cases, an unusual number of cases will be for trial.

The lists of Jurors have been published heretofore.

THREE REMARKABLE STARS NOW VISIBLE.—A brilliant starry triangle is now visible in the early evening. It is made up of the three brightest stars that are ever seen in our latitude, with the exception of Mars, when in opposition. Venus, Jupiter and Sirius form the shining points of the celestial triangle, and make the geometrical marvel easy to recognize. Venus must be looked for in the west, Jupiter towards the zenith in the east and Sirius in the South.

The contrast in color and apparent size between these stars is strongly marked. Venus takes the lead as she hangs like a golden lamp in the glowing west; Jupiter is of a deeper tint, shading towards orange, while Sirius, glittering with beaming rays, is of a softened white, tinged with a blending of the most delicate shades of green and blue.

The real contrast between the stars is far greater than the seeming one, and in an inverse ratio. Venus is a little globe, no larger than ours; Jupiter is a giant planet, fourteen hundred times as large as the earth while Sirius is a glorious sun, twenty millions of millions of miles away, and yet one of our nearest stellar neighbors, although far more powerful and many times exceeding in size the sun, our symbol of omnipotence.

In a few weeks the starry triangle will be broken up, its members taking new positions and forming new combinations, while new stars will take their places upon our field of evening observation, and furnish the never-ending variety, which is one of the charms of the science of astronomy.

The mnnicipal election in Trenton, New Jersey, on Monday last, resulted in a substantial Democratic victory, the Democracy electing their Mayor, and carrying five of the seven wards into which the city is divided. Trenton is only following the spring fashions.—Throughout the country the people have recently exhibited, in the most marked and decided manner, their condemnation of Radicalism, and by their votes have shown their utter want of confidence in the party now in power.

Later despatches from Rome represent that the Pope is in excellent spirits, that his condition is not critical, nor his disease dangerous, though it may continue to trouble him for some time.

PENINSULA ITEMS.

CECIL COUNTY.

Mrs. Hannah J. Murray, wife of John C. Murray, residing near Bay View accidentally shot herself with a gun while sweeping a room. On the next day, after partly recovering consciousness she asserted that she did the act intentionally. The circumstances, however, outweigh that theory.

The *Whig* is opposed to both grand and petit Juries. It says "The Grand Inquest of the body of Cecil County is a humbug, and the Petit Jury is not much better."

QUEEN ANNE'S COUNTY

The walls of the old Hotel at Centreville are continuing to fall, and in the course of another year, there will scarcely be one left.

Wm. Kent Sparks, has been appointed, collector of taxes for the third district.

The remains of Gus Davis, the notorious burglar, was disinterred last week, and left in an exposed condition.

CAROLINE COUNTY.

The American Union, Republican, says: The time has come when organizations have become so rotten and corrupt that the very stench is offensive to honest men, and no good man can, without stultifying his conscience, justify party measures. We speak thus not of one, but of both the political parties of the country. It is about time that both were buried out of sight and the old fossil and corrupt leaders were consigned to oblivion.

The *Union* ought to be good evidence when it speaks for its own party.

The Union seems to think that candidates for the clerkship will have to consult Jesse K. Hines—Mr. Hines is not a candidate for re-election.

The trial of John Henry Barwick, indicted for the wilful murder of George C. Arrington, of Talbot, on the 30th of October 1872 was taken up on Thursday of last week, Judges Wickes and Stump on the bench.

WICOMICO COUNTY.

C. F. Holland, H. Humphreys, E. L. Wailes, W. S. Gordy, and Thomas B. Smith, have been elected Commissioners of Salisbury. The streets of the town have been re-named.

MIDDLETOWN, DELAWARE.—The Transcript reports two fires last week, and it is thought to be the work of an incendiary. The Commissioners have offered a reward of $1,000 for the detention of the party or parties.

WOMAN'S RIGHT TO PRACTICE LAW.—The case of Myra Bradwell against the State of Illinois, has been decided adversely to the plaintiff by the Supreme Court of the United States. Myra Bradwell asked the Supreme Court of Illinois to issue a license to her to practice law in the courts of Illinois, which was refused, whereupon she appealed to the Supreme Court of the United Stases, alleging that she was born in Vermont and had removed to Illinois, and claiming under the fourteenth amendment to the constitution that a citizen of one State was entitled to all the rights of citizenship in other States. The court decided that the amendment declares that citizens of the United States are citizens of the State in which they reside, and that therefore the plaintiff at the time of her application was a citizen of Illinois, and the fourteenth amendment could not therefore give her any protection against the laws of Illinois, and that the right to grant license belongs solely to the State courts, and which is not transferred to the protection of the Federal courts.

A LETTER FROM BRIGHAM YOUNG—*What he has Done and Expects to Do.*—The New York Herald publishes a letter from Brigham Young, dated Salt Lake City, April 10th, and transmitted by telegraph. The celebrated old sinner, or saint, gives a concise account of his achievements and intentions. He says:

"For over forty years I have served my people, laboring incessantly, and am now nearly seventy-two years of age and I need relaxation. My resingnations as trustee in trust for the church, as president of Zion's Co-operative Mercantile Institution and of the Deseret National Bank are made solely from secular cares and responsibilities; and do not affect my position as president of the church. In that capacity I shall still exercise supervision over buisness, eccleslastical and secular, leaving the minutae to young men."

After referring briefly to the successful management of the Mormon financial institutions, he continues:

"Our railroads are in good condition. The Utah Central is thirty-seven miles long; its gross earning for 1872 were $420,000. The expenses in round numbers were $210,000; the next earnings were $210,000. I state these facts, as efforts may be made to damage the credit of these institutions. There is another railroad here also doing good business. The Utah Southern is built about thirty-two miles, narrow gauge. Roads connecting with this are being constructed into Little Cottonwood, Bingham Canyon and American Fork, to meet the demand for transportation to and from the various mining camps of these regions. The Utah Northern is being constructed from a junction with the Central Pacific through our principal northern settlements into Southeastern Idaho, and other narrow-gauge roads are in construction or in contemplation.

"We intend establishing settlements in Arizona, in the country of the Apaches, persuaded that if we become acquainted with them we can influence them to peace in accordance with President Grant's Indian policy, and open up that country to settlement by the whites. Our cities, towns and villages now extend about four hundred miles in that direction: and in view of the railroad crossing that country, we hope to be prepared to assist in its construction, and when completed bring a large portion of our emigration that way to settle the country."

He next alludes to the policy of his government to promote the agricultural interest, and its great success, and calls attention to the iron and coal mines of Utah, for the development of which he relies mainly on foreign capital. He denies the often repeated story that he has several millions pounds sterling deposited to his credit in the Bank of England. He sums up as follows:

"The result of my labors for the last twenty-six years, briefly summed up, are: The peopling of this Territory by the Latter-Day Saints of about one hundred thousand souls; the founding of over two hundred cities towns and villages, inhabited by our people, which extend to Idaho in the north, Wyoming in the east, Nevada in the west and Arizona in the south, and the establishment of schools, factories, mills and other institutions calculated to benefit and improve our community."

THE COST OF GOVERNMENT.—Nobody, says the New York World, not even the most Radical of Republicans, unless he has a personal share in public plunder, can fail to be both surprised and shocked at the exhibit which we made on Saturday of the increase in the expenses of the Government. It is nothing less than frightful to see the increase in appropriations for all departments even within a year or two past—even during the last session of Congress. It is monstrous that sixteen millions should have been appropriated in that session of three months more than the total appropriations for the preceding session of seven months. All this is without the pressure of any unusual exigency whatever. The appropriation for the new men-of-war is the only expense that we can now recall which is out of the commonest routine. This extravagance is simply extravagance. It is the result of a careless prodigality of public money and a slackness in inspecting work and scrutinizing estimates which have never before been approached in the history of the country. What wonder it is when at the head of what it pleases him to call a civil service, and what he still more ludicrously puts forward pretensions of a desire to make a reformed civil service, sits President Grant, and does his best by potent and shameless examples to debauch every department of it? In one department of the public service we have heretofore had some assurance that we had ware for our wages. But even in this the malign influence of President Grant is felt. His Porters and Dents and Babcocks and Leets, in the latest and most shameful instance of all, the promotion of his own son to a post he was ridiculously unfit for, have been so many admonitions to the officers of the army that henceforth they were to look to favor and not to merit for their promotions, and that it was not by fidelity in public trusts and economic administrations of public funds, but by pulling private strings of influence, that they could hope to thrive. There is, we are proud to believe, a sentiment of honor and patriotism in the army too strong for Grant to break down; but we grieve to think that it is to be subjected to his assaults for four years more. That he has had some effect even upon this last stronghold of public virtue we have fresh evidence in what we are constrained to call the disingenuous report of the Chief of Engineers upon the Goat Island job. In all other departments we might have expected that such a President would produce precisely the waste and theft which he has produced, and of which the enormous expenditure of the last session is the newest evidence.

CORN IN HILLS AND DRILLS.—At the Michigan Agricultural College, in 1868, two plots of land were set apart, substantially equal in character of soil, each measuring forty-eight rods in width. The ground was plowed May 5, and manure was spread evenly and worked in by cultivator and harrow. Yellow Dent corn was planted May 21, in rows four feet apart; one of the plots being planted in hills, the other in drills. The plots were cultivated and hoed June 15, and again July 7; the plants being thinned so as to leave the same number of stalks on each plot, including the equal distribution of plants throughout the subdivision of the plots. As nearly as possible, each of the two plants received the same amount of labor and cultivation. The stalks were cut September 17, and stacked in good order; three weeks afterward the corn was husked and weighed. The stalks were then again carefully stacked and hauled and weighed, in good condition, October 12. The corn on the portion planted in hills was better in quality than on that planted in drills. But the drilled portion produced seventy-four and one-sixth bushels of shelled corn, and three tons of stalks to the acre, against sixty-five and one-half bushels of shelled corn, and two and two-thirds tons of stalks per acre produced by the portion in hills.—*Rural World.*

SALT YEAST.—Put a gallon of cold water on the fire; let it come to a boil, and then put into it eight good Irish potatoes and boil until well done, when they must be mashed fine together with one teacupful of salt and one of white sugar. Directly after taking out the potatoes, put a handful of hops into the water, and let it boil while you are preparing the potatoes. Mix these with hop water, which must be boiling hot when added, and unstrained. When nearly cold, add one cup of lively yeast, stir well and set aside to rise in a warm place for twenty-four hours. Then strain, bottle and cork it up tightly. Strain through a seive only, that as much potato as possible may pass through. Allow half a teacupful of this yeast to a quart of good flour in cold weather; in summer a less quantity is required. Keep the bread warm while rising.

WISTAR'S BALSAM OF WILD CHERRY

THE GREAT REMEDY FOR

CONSUMPTION

which can be cured by a timely resort to this standard preparation, as has been proved by the hundreds of testimonials received by the proprietors. It is acknowledged by many prominent physicians to be the most reliable preparation ever introduced for the relief and cure of all Lung complaints, and is offered to the public, sanctioned by the experience of over forty years. When resorted to in season it seldom fails to effect a speedy cure in the most severe cases of Coughs, Bronchitis, Croup, Whooping Cough, Influenza, Asthma, Colds, Sore Throat, Pains or Soreness in the Chest and Side, Liver Complaint, Bleeding at the Lungs, &c. Wistar's Balsam does not dry up a Cough, and leave the cause behind, as is the case with most preparations, but it loosens and cleanses the lungs, and allays irritation, thus removing the cause of the complaint.

A CARD

To the Democratic and Conservative Voters of Kent County.

A REPORT having been circulated that I have withdrawn as a candidate for nomination for the office of Clerk of the Circuit Court of Kent county, I take this method of positively denying the truth of that report, and to re-announce myself as a candidate subject to a fair and proper nomination. I belong to no ring or clique, and rely upon the people for support. The State seems to have been under "Ring" influence for several years, but it is to be hoped that our county will be free from all such combinations.

As a just and fair way of nominating candidates for the various offices, I would respectfully suggest that committees be run for Clerk; a separate committee for Register, and so on for Sheriff and Legislature in the respective districts; let the committees thus chosen meet in Chestertown on a day to be named, and hold a convention for each officer to be selected.

The justice and fairness of this plan is easily demonstrated: Suppose that Mr. A, a candidate for sheriff in the first district, should be very popular and have many friends; he will elect a committee favorable to his own nomination. That committee may not be favorable to B, who has a majority for clerk in the same district, nor for C, who may have a majority for register of wills, nor for D or E, who may have a majority for the legislature. It is apparent that a committee elected for a sheriff cannot represent the wishes of the district for all the officers to be nominated; the same thing may occur in other districts—a committee selected to nominate a clerk may control all the other nominations against the wishes of the district.

Another plan is suggested: Let each candidate be voted for by ballot, and the candidates having the majority or plurality shall be supported by the committee from that district, and which shall be pledged to that support.

One of these methods seem to be necessary to preserve harmony in the party, to prevent combinations, to give satisfaction to the voters, and to secure success at the polls. The free will and sense of the people should prevail in reference to each candidate.

With my thanks to those who have tendered me support, and with assurance that if elected I shall perform the duties personally and impartially, not forgetting my friends, my party and the public, I remain,

Respectfully, yours,
WM. A. VICKERS.
