THE ELEVENTH HOUR.

BY ANNA L. RUTH.

Whist, sir! Would ye plaze to speak aisy
And sit ye down there by the dure?
She sleeps, sir, so light and so restless,
She hears every step on the flure.
What ails her? God knows! She's been weakly
For months, and the heat dhrives her wild;
The summer has wasted and worn her
Till she's only the ghost of a child.

All I have? Yes, she is, and God help me!
I'd three little darlints beside,
As purty as iver ye see, sir,
But wan by wan dhrooped like, and died.
What was it that tuk them, ye're asking?
Why poverty, sure, and no doubt!
They perished for food and fresh air, sir,
Like flowers dhried up in a drought.

It was dreadful to lose them? Ah, was it!
It seemed like my heart-strings would break,
But there's days when wid want and wid sorrow
I'm thankful they're gone—for their sake!
Their father? Well, sir, saints forgive me!
It's a foul tongue that lowers its own!
But what wid the sthrikes and the liquor,
I'd betther be sthrugglin' alone!

Do I want to kape this wan? The darlint,
The last and the dearest of all!
Shure you're niver a father yourself, sir,
Or you wouldn't be askin' at all!
What is that? Milk and food for the baby!
A doctther and medicine free!
You're huntin' out all the sick children,
An' poor toilin' mothers, like me!

God bless you! an' thim that have sent you!
A new life you've given me, so,
Shure, sir, won't you look in the cradle
At the colleen you've saved, 'fore you go?
O mother o' mercies! have pity!
O darlint why couldn't you wait!
Dead! dead! an' the help in the dureway!
Too late! O my baby! Too late!

CURBING THE TEMPER.—Both a philosophy and a moral may be found in the following, which we heard fall from the lips of the very learned Rev. Dr. Schaff, of this city. It was at a meeting of ministers of the Reformed Church, gathered in the lecture-room of the church which until recently stood at the corner of William and Fulton streets. There was a running discussion on the delicate point how far we might judge a man's piety. The learned divine took very sensible ground, viz., that a large margin of charity should be given, as some men, because of difference of constitutional temperament, might do things that in them would be less sinful than in others more favorably constituted. He said that a certain minister of the Reformed Church was presiding at a meeting of the consistory of his church, when one of the officers considered it his duty to differ from his minister on a point of church policy. The paster at this lost his head, and advancing to the elder delivered himself in violent language, whereat another elder ventured a remonstrance:

"Dominie, you should restrain your temper!"

"Restrain my temper!" reiterated the old man. "I'd have you to know, Sir, that I restrain more temper in five minutes than you do in five years."

"EPISCOPALIANS."—"Are there any Episcopalians in this vicinity, madam?" asked a tall, thin stranger of Mrs. Artemus, as she stood in the open door, in answer to his knock.

"Any which?"

"Episcopalians."

"Now, if Mrs. Artemus had a failing it was that she never would admit that she could possibly be ignorant of anything. She always knew all about any subject mentioned. So she answered:

"Episcopalians! Wall, we don't exactly know. My John—he's my son—he see somethin' out'n the cornfield yisterday. He didn't really know what it was, but I told him I guessed it was a chipmonk. But now you speak on't, I'll bet it was a Episkerpalium. And my next neighbor, Farmer Hawkins, he said he shot at somethin' that same day that John see his strange critter, and Farmer Hawkins he thought it was some wild critter that had got out of some managery somewhere. Anyhow, I think that's a Episcopaling, too. Be they bigger'n a chipmonk?"

"You misunderstand me, madam."

"Wall, you needn't feel uneasy. Ef there's any Piscomallums in this here neighborhood, you can just make up your mind that they'll git shot! We air too feelin' a community to let things run at large which mout destroy and devour somebody. Come in, won't ye!"

☞ A single word may disquiet an entire family for a whole day. One surly glance cast a gloom over the household, while a smile, like a gleam of sunshine, may light up the darkest and weariest hours. Like unexpected flowers which spring up along our path, full of freshness, fragrance, and beauty, so the kind words, and gentle acts, and sweet dispositions, make glad the home where peace and blessing dwell.

No matter how humble the abode, if it be garnished with grace and sweetness, with kindness and smiles, the heart will turn laughingly toward it from all the tumult of the world, and home, if it be ever so homely, will be the dearest spot beneath the circuit of the sun.

Iron in the Blood

PERUVIAN AN IRON TONIC SYRUP

MAKES THE WEAK STRONG.

The Peruvian Syrup, a Protected Solution of the Protoxide of Iron, is so combined as to have the character of an ailment, as easily digested and assimilated with the blood as the simplest food. It increases the quantity of Nature's Own Vitalizing Agent, Iron in the blood, and cures "a thousand ills," simply by Toning up, Invigorating and Vitalizing the System. The enriched and vitalized blood permeates every part of the body, repairing damages and waste, searching out morbid secretions, and leaving nothing for disease to feed upon.

This is the secret of the wonderful success of this remedy in curing* Dyspepsia, Liver Complaint, Dropsy, Chronic Diarrhœa, Boils, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Diseases of the Kidneys and Bladder, Female Complaints,** ***and all diseases originating in a bad state of the blood, or accompanied by debility or a low state of the system. Being free from Alcohol, in any form, its energizing effects are not followed by corresponding reaction, but are permanent, infusing strength, vigor, and new life into all parts of the system, and building up an Iron Constitution.

Thousands have been changed by the use of this remedy, from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial.

See that each bottle has* PERUVIAN SYRUP *blown in the glass.

Ayer's *Hair Vigor,*

For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *It soon restores faded or gray hair to its original color, with the gloss and freshness of youth.* Thin hair is thickened, fallen hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning grey or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.

Practical and Analytical Chemists,
LOWELL, MASS.

Ayer's *Cherry Pectoral,*

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Among the great discoveries of modern science, few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of **Consumption**, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing **Coughs**, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of Childhood, CHERRY PECTORAL is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome **Influenza** and painful **Bronchitis**, when they know how easily they can be cured.

Originally the product of long, laborious, and successful chemical investigation, no cost or toil is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected.

THE

EUREKA FANNING MILL.

The Greatest Invention OF THE 19th CENTURY!

FARMERS, LOOK TO YOUR INTEREST.

THE attention of Farmers and Mechanics is particularly directed to the combined economy, utility and practicability of the Eureka Mill, and to the many other advantages it possesses over every othhr Fanning Mill which has been introduced to the public. It is the fruit of long and patient investigation by the inventor, who has made it his constant study for over twenty years. He has secured several patents for Mills, and has always been rewarded with the best of success. But not feeling satisfied with his former attainments, he determined to reach the climax, and now he now believes that his new invention will warrant him in exclaiming in the joy of his heart, like the philosopher, Phythagoras, EUREKA, signifying in the Grecian language, "I have found it." This has given the name to this new Mill.

In this Mill are all the former improvements, to which have been added several more, adding still greater advantages than were at first anticipated, or even thought possible by the inventor himself. It embraces the three great essentials necessary in every invention.

It combines Utility, Economy and Practicability!

THE EUREKA MILL

Is small and lighter, and is capable of doing more and better work in a given time than any other Mill ever invented. It is the only Mill that will successfully remove from wheat such pests as Cockle, Garlic, Oats, Rye, &c.

Should an extra quality of grain for seed or gristing purposes be required, it can be so arranged as to catch in one box perfect grain, and in the other, grain fit for market or mill. Here is made a great saving usually lost sight of; for nearly one-quarter of the grain cleaned in the common Mills is lost when sown, on account of shrunken kernels and inferior grain. The Eureka Mill saves all this, and gives seed every kernel of which will grow when put into the ground, and this saving will, in a short time, pay for the Mill.

HINES & BURCHINAL,
Chestertown, Md.,

Owners of the Mill, are having them manufactured at the Sash Factory and Planing Mill of NOLAND & Co., Port Deposit, Md., which is a guarantee they will be put up in the very best manner.
