NEW YORK FASHIONS.

DOUBLE BREASTED POLONAISE.

One of the most fashionable garments of the season is the loose front double-breasted polonaise. This is sometimes called the blouse-polonaise, and has lately been given the name of Alexandria, and was really the first original great-coat polonaise worn in this country. It was not successful at first, but at present is the favorite over-dress for all suits except those designed for full dress. It is a graceful and comfortable garment of very simple construction; is adapted to thick and thin material alike; may be used as part of a suit or else as an independent garment; is worn appropriately by young middle-aged and old and is therefore popular on the score of availability as well as beauty.

TO BE COMME IL FAUT,

it must be very long, with ample fullness in the skirt and abundant soft drapery; after the collars, cuffs, buttons, pockets and sash are added, all other trimming is superfluous, and detracts from its style.—It may be worn flowing loosely in front, is in favor for the simple stylish costumes of spring woolen goods worn for morning and afternoon promenades, shopping, and traveling, and it is being used in profusion for summer wash goods, such as linen, batiste, percale, calicoes, and lawns; more dressy grenadines and alpacas have the outside belt passed all around the waist, instead of being confined to the back only.

MATERIALS, ETC.

The materials most used for loose front polonaises at present are summer camel's hair and cashmere in the stylish colors, with silk skirts of a darker shade, or else black; entire suits are made of de baize and alpaca. Thick repped silk like the the lower skirt is used for the collar, cuffs, sack, and pockets of woolen polonaises; these are lined with thin silk, and interlined with stiff foundation muslin to keep them in shape; velvet and watered silk are also used for trimming, and will be worn all summer. The buttons are large round wooden moulds two inches in diameter, covered with trimming silk, with a row of item-stitching between the tucks this is not the real hem-stitching done with the needle, but is done by machinery, like Hamburg embroidery. Black velvet buttons and sash accompany white piques. The neck of pique polonaises is finished with a voluminous Medeci fraise.

PERCALES, CAMBRICS, LAWNS,

and the plainest calicoes have this negligé polonaise and a short skirt with a single deep flounce cut straight and scant. A pretty lawn suit—white, with blue and rose-colored lines—had two narrow ruffles heading a deep Spanish flounce on the skirt; a four-inch ruffle edged the long polonaise, and was gathered as a ruff around the neck, with an inner ruffle of Valenciennes. The belt was four lapped folds of pale blue silk, and the pendent blue sash was lined with rose-colored silk. Cambrics and calicoes have bias bands stitched on the polonaise, or else a two-inch fold edges the garment, headed by a very narrow piping.

FRENCH FLOWERS.

Fresh importations of French flowers show quantities of mosses in their natural brownish-green shades, which are so much in favor under the name of olive tints. Tops of bonnets are covered with tiny beds of these fine mosses. Coronets are formed of them, or else they are mounted in clusters with blue forget-me-nots and tiny pink buds, or slender fern leaves. Black Brussels net bonnets are effectively trimmed with moss coronets and ribbons of mossy green. Drooping bell-like fringes of oak husks are shown in the favorite olive hues, and tulles, crape and Brussels net are used of the same shade. Among the novelties are beautiful

"GOFFERED LEAVES,"

with satin-like finish, that look as if they were made by embroidery.

Quantities of wild roses are shown in clusters, branches, coronet wreaths and trailing sprays: pink, crimson and white wild brier roses are mounted together.—Next there are many-petalled dwarf roses English hedge-roses, and branches of thick, pouting buds. Green rosebuds not yet bursted shows the favorite olive and moss colors. These flowers are mounted so that they will serve either as a coronet or as a comb-like ornament on the back of the bonnet. Jet leaves have a lace foundation, in which fine jet beads are sewed, and are no longer heavy and cumbersome. Pompons are the favorite feathers ornaments for summer hats. They are closely-curled ostrich feathers at the base, with a long, slender heron's feather erect in them; pompons made up of game feathers are also imported.

FRENCH LINGERIE.

Pleated percale ruffs and undersleeves of black or blue stripes on white have half inch bands of linen stitched near the edge. Ecru linen lingerie is in the regular English collar shape, with square cuffs fastened by three linen buttons.—All-white sets are very sheer linen ruffles in side pleats, with an inch-wide hem turned up on the outside and hem-stitched. Frills and fraises grow fuller and longer gradually, until ladies are assuming what is ridiculed as the "pouter pigeon" fashion. High standing linen collars have embroidered edges flaring outward in Medecis style, with a soft full box-pleated frill inside, made of muslin edged with Valenciennes lace. Almost all collars have the chemisette attached. —*Harper's Bazar.*

Mortgagee's Sale
OF VERY VALUABLE
REAL ESTATE
IN KENT COUNTY.

BY VIRTUE of authority conferred by a Power of Attorney contained in a mortgage made by Abel J. Rees and Mary Augusta Rees, his wife, to William J. Rasin, and dated March 24th, 1869, and duly recorded among the Land Records for Kent county, in Liber J. K. H., No. 7, folio 624, &c., which mortgage was duly assigned to James S. Gemmill, June 1st, 1869, and by said Gemmill duly assigned to Joseph B. Baker, December 17th, 1869, the undersigned will offer at Public Sale, at the Voshell House in Chestertown, Maryland, on

TUESDAY,

The 10th day of June, 1873,

AT THREE o'clock, P. M.,

All That Valuable Property

described in said mortgage, situated in the Fifth Election District of Kent county, and known as

"REES' CORNER,"

containing in the whole,

346 ACRES, 3 ROODS,

AND 18 PERCHES,

and comprises the following parcels, viz:

ALL THAT TRACT

CALLED "FAIR HARBOR," AND "GRESHAM'S LEVEL,"

Containing 249 Acres,

2 ROODS, AND 14 PERCHES,

and also all that Tract adjoining the last named, called

"PART OF ARCADIA,"

Containing 94 Acres,

1 ROOD, AND 30 PERCHES.

Also, all that Lot adjoining "Fair Harbor," known as the "*CORNER LOT*,"

Containing 2 Acres,

3 ROODS, AND 14 PERCHES.

This property is very valuable and desirable, and should command the attention of purchasers. The soil is of excellent quality for the production of all the Cereals and Fruit, and is in good condition. There is also

A LARGE PEACH ORCHARD

upon the land, which is all cultivated in one Tract at present.

It is within three miles of a Steamboat wharf, giving daily communication with Baltimore, and the Kent County Railroad, now under contract for construction from Chestertown to Bel Air, will give a Depot within five miles of the farm.

THE DWELLING connected with the Farm is an excellent *BRICK HOUSE*, in good repair, with the usual Outbuildings.

THE CORNER LOT is improved by a *LARGE and COMMODIOUS*

Brick Store House,

and the stand is one of the best for country trade in the State. The population is large and thrifty in that section of the county, and a large business is done there. There are also on this Lot

SEVERAL GOOD DWELLINGS, AND A BLACKSMITH AND CARRIAGE SHOP.

all of all which command good rents, and add largely to the value of this property.

Persons wishing to purchase are invited to examine.

THE TERMS prescribed by the Mortgage are cash on the day of sale, but twenty days time would be given if found desirable. Stamp, Deeds, &c., at cost of purchaser.

Iron in the Blood

PERUVIAN AN IRON TONIC SYRUP

MAKES THE WEAK STRONG.

The Peruvian Syrup, a Protected Solution of the Protoxide of Iron, is so combined as to have the character of an aliment, as easily digested and assimilated with the blood as the simplest food. It increases the quantity of Nature's Own Vitalizing Agent, Iron in the blood, and cures "a thousand ills," simply by Toning up, Invigorating and Vitalizing the System. The enriched and vitalized blood permeates every part of the body, repairing damages and waste, searching out morbid secretions, and leaving nothing for disease to feed upon.

This is the secret of the wonderful success of this remedy in curing Dyspepsia, Liver Complaint, Dropsy, Chronic Diarrhœa, Boils, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Diseases of the Kidneys and Bladder, Female Complaints, and all diseases originating in a bad state of the blood, or accompanied by debility or a low state of the system. Being free from Alcohol, in any form, its energizing effects are not followed by corresponding reaction, but are permanent, infusing strength, vigor, and new life into all parts of the system, and building up an Iron Constitution.

Thousands have been changed by the use of this remedy, from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial.

See that each bottle has PERUVIAN SYRUP *blown in the glass.*

Ayer's *Hair Vigor,*

For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *It soon restores faded or gray hair to its original color, with the gloss and freshness of youth.* Thin hair is thickened, fallen hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning grey or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so unsightly and offensive. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.

Ayer's Cathartic Pills,

For the relief and cure of all derangements in the stomach, liver, and bowels. They are a mild aperient, and an excellent purgative. Being purely vegetable, they contain no mercury or mineral whatever. Much serious sickness and suffering is prevented by their timely use; and every family should have them on hand for their protection and relief, when required. Long experience has proved them to be the safest, surest, and best of all the *Pills* with which the market abounds. By their occasional use, the blood is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of life restored to its healthy activity. Internal organs which become clogged and sluggish are cleansed by *Ayer's Pills*, and stimulated into action. Thus incipient disease is changed into health, the value of which change, when reckoned on the vast multitudes who enjoy it, can hardly be computed. Their sugar coating makes them pleasant to take, and preserves their virtues unimpaired for any length of time, so that they are ever fresh, and perfectly reliable. Although searching, they are mild, and operate without disturbance to the constitution, or diet, or occupation.

Full directions are given on the wrapper to each box, how to use them as a Family Physic, and for the following complaints, which these *Pills* rapidly cure:—

For Dyspepsia or Indigestion, Listlessness, Languor, and Loss of Appetite, they should be taken moderately to stimulate the stomach, and restore its healthy tone and action.

For Liver Complaint and its various symptoms, Bilious Headache, Sick Headache, Jaundice or Green Sickness, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For Dysentery or Diarrhœa, but one mild dose is generally required.

For Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back, and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For Dropsy and Dropsical Swellings, they should be taken in large and frequent doses to produce the effect of a drastic purge.

For Suppression, a large dose should be taken, as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

THE

EUREKA FANNING MILL.

The Greatest Invention OF THE 19th CENTURY!

FARMERS, LOOK TO YOUR INTEREST.

THE attention of Farmers and Mechanics is particularly directed to the combined economy, utility and practicability of the Eureka Mill, and to the many other advantages it possesses over every other Fanning Mill which has been introduced to the public. It is the fruit of long and patient investigation by the inventor, who has made it his constant study for over twenty years. He has secured several patents for Mills, and has always been rewarded with the best of success. But not feeling satisfied with his former attainments, he determined to reach the climax, and now he believes that his new invention will warrant him in exclaiming in the joy of his heart, like the philosopher, Payt agoras, EUREKA, signifying in the Grecian language, "I have found it." This has given the name to this new Mill.

In this Mill are all the former improvements, to which have been added several more, adding still greater advantages than were at first anticipated, or even thought possible by the inventor himself. It embraces the three great essentials necessary in every invention.

It combines Utility, Economy and Fracticability!

THE EUREKA MILL

Is small and light, and is capable of doing more and better work in a given time than any other Mill ever invented. It is the only Mill that will successfully remove from wheat such pests as Cockle, Garlic, Oats, Rye, &c.

Should an extra quality of grain for seed or grisling purposes be required, it can be so arranged as to catch in one box perfect grain, and in the other, grain fit for market or mill. Here is made a great saving usually lost sight of; for nearly one-quarter of the grain cleaned in the common Mills is lost when sown, on account of shrunken kernels and inferior grain. The Eureka Mill saves all this, and gives seed every kernel of which will grow when put into the ground, and this saving will, in a short time, pay for the Mill.

HINES & BURCHINAL,

Chestertown, Md.,

Owners of the Mill, are having them manufactured at the Sash Factory and Planing Mill of NOLAND & Co., Post Deposit, Md., which is a guarantee they will be put up in the very best manner.
