TO-MORROW.

The morning hours had passed one by one;
The noon came with its world of gold;
The petty household tasks were done,
And friends were gathered, new and old;
And all the wedding mirth begun,
And jests were made and tales were told
But still he came not, though the sun
Chased shadows from the wood and wold.

Within her chamber, new arrayed
In laces' fairy gossamer,
She sat and wondered, half afraid,
And starting at the breezes' stir;
And starting if a bird betrayed
Its nearness by a chirp or whir—
Amazed, and doubting, since he stayed,
What cause his coming might defer.

"He may be ill." "If that were so
He must have sent us some brief word,"
"We had the note two days ago."
"Perhaps some new delay occurred."
"I never knew the time so slow."
Said one, in whispers scarcely heard,
"How strange! If we could only know!
His coming *could* not be deferred!"

"And then, what *will* the people say?"
"Oh hush! speak lower; she may hear."
"Is that a dust-cloud, far away
Upon the road, and coming near?"
"It is! it is! I hope and pray
It may be Roger! Litile fear
But that it is. A wedding-day
Without a bridegroom *would* be queer."

The noise of wheels had reached her ear,
The tramp of horses driven fast;
How quickly every brow grew clear
That clouds of doubt had overcast!
And, laughing out with sudden cheer,
She cried, "Ah, he is come at last!
I knew I had no cause for fear,
But yet, thank Heaven, the fear is past!

"I wonder what has kept him so!
And see—my eyes are swollen and red;
They're only at the bridge. How slow!
Tell me when they are near!" she said.
She smoothed the laces' tumbled snow,
Bewreathed the flowers that crowned her head,
Smiled at the mirror's pretty show,
And paced the floor with restless tread.

"They're here, and there is Roger!"
"Nay,
That is not Roger!" "Why, who then?"
"A stranger, and his hair is gray,"
"But Roger's with him. Look again!"
"No. Now he's at the door: but stay—
Listen. They ask him 'where?' and 'when?'
What was it that I heard him say?
The Erie Railway? Found at ten?"

A knot of people in the door,
And voices loud, then hushed and low:
"How many killed?" "You say at four?"
"A crowded train!" "If *she* should know!"
"Dead when you found him?" "Long before—
And killed, I think, by one hard blow,
He must have lain six hours or more
Netted within the ruins so.

"He had this letter in his hand;
It is said he was to wed to-day.
I thought, perhaps—you understand—
The news might come some harder way.

Only a girl's despairing cry
Ringing across the sunny air,
A murmur, fading to a sigh,
Then sudden silence every where,
And none had known that she was by,
And none had thought to save or spare,
They stared, aghast. "Was she so nigh?"
"You did not tell me *she* was there!"

And still the summer breezes fanned
Each tiny leaf and bloomy spray,
And still throughout the happy land
The blossoms told that it was May;

For hearts may break and loves grow cold
Betwixt the morning and the eve,
And still the sunset gives its gold
To those who smile, to those who grieve;
And graves are filled and men grow old,
And still the busy seasons weave
New lives and loves; and last year's mould
Covers the dust of those they leave.

VALUE OF SPARE MINUTES.—Madame de Genlis composed several of her charming volumes while waiting in the school room for the tardy princess to whom she gave daily lessons.

Dagnessea, one of the Chancellors of France, wrote an able and bulky work in the successive intervals of waiting for dinner.

Elihu Burritt, while earning his living as a blacksmith, learned eighteen languages and twenty-two dialects, by simply improving his "odd moments."

A celebrated physician in London translated Lucretius while riding in his carriage upon his daily rounds.

Dr. Darwin composed nearly all his works in the same way, writing down his thoughts in a memorandum book, which he carried for the purpose.

Samuel Smiles says, in a late work, that he personally knew a man who learned Latin and French while carrying messages as errand-boy in the streets of Manchester.

Burney, the musical composer, learned French and Latin while riding horseback from one pupil to another.

Kirke White also learned Greek while walking to and from a lawyer's office.

"Who uses minutes, has hours to use,
Who loses minutes, whole years must lose."

AN old Dutch tavern-keeper, who had his third wife, thus expresses his views of matrimony: "Vell, you see de first time I married for love—dat was goot; den I married for beauty—dat was goot, too, about so goot as de first; but dis time I married for monies—and dis was so better as both.

Valuable Farm

FOR SALE.

THE undersigned, as heirs-at-law of the late James W. Skirven, of Kent county, will expose to Public Sale, to the highest bidder, on

TUESDAY,

The 17th day of June, 1873,

at the Voshell House in Chestertown, at eleven o'clock, A. M., all

That Valuable Farm in Worton,

in Kent county, usually known as

"GREEN POINT,"

formerly the property of the late Samuel G. Kennard, and afterwards of the late John S. Kennard, containing

About 402 Acres,

of which about 100 acres are in WOOD and RAIL TIMBER.

This Farm lies on navigable water on Worton creek. There is also a Landing on the property, which affords facilities for lading and unlading vessels.

The soil is good, and grows Wheat, Oats and Grass very finely, and also Corn. There are about

2,000 PEACH TREES,

Of Choice Varieties,

ABOUT TWO YEARS OLD.

Also, about 600 PEAR TREES,

in excellent condition, and about two years old.

The location is one of the finest in the county, and as a site for a dwelling is probably unsurpassed. The Banks are high and command a beautiful view of the Bay and of the Harford shore, and the country surrounding the premises is also healthy, and the neighborhood one of the best in the county. The Farm is under excellent fencing, and a considerable quantity of Cord Wood might be sold, independent of the Fence Timber left for improvement.

The Farm is divided into seven fields and two lots, and there are two Frame Tenant Houses on the premises.

The BUILDINGS consist of a FRAME DWELLING, quite commodious; Kitchen; New Shed Stabling; Granary, Meat House new; also new Carriage House. Garden paled and Yard well fenced.

The Farm can easily be divided into two farms.

The land adjoins the property of Mr. J. W. Edwards, and others. Mr. Charles Jewel, the tenant, will show the premises to any who may call to examine them.

THE TERMS OF SALE ARE—One fourth cash on the day of sale, or in ninety days from the day of sale, and the balance in three equal instalments in one, two, and three years from the first day of January next, with interest from that time, to be secured by Bond and Mortgage on the estate, with assignment of Policy of Insurance on the Buildings, the proceeds of which, in case of fire, to be appropriated to rebuilding.

which can be cured by a timely resort to this standard preparation, as has been proved by the hundreds of testimonials received by the proprietors. It is acknowledged by many prominent physicians to be the most reliable preparation ever introduced for the relief and cure of all Lung complaints, and is offered to the public, sanctioned by the experience of over forty years. When resorted to in season it seldom fails to effect a speedy cure in the most severe cases of Coughs, Bronchitis, Croup, Whooping Cough, Influenza, Asthma, Colds, Sore Throat, Pains or Soreness in the Chest and Side, Liver Complaint, Bleeding at the Lungs, &c. Wistar's Balsam does not dry up a Cough, and leave the cause behind, as is the case with most preparations, but it loosens and cleanses the lungs, and allays irritation, thus removing the cause of the complaint.

HALL'S VEGETABLE SICILIAN HAIR RENEWER

Every year increases the popularity of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPARATION for its intended purposes."

Sold by all Druggists, and Dealers in Medicines.
Price One Dollar.

Buckingham's Dye.

FOR THE WHISKERS.

As our Renewer in many cases requires too long a time, and too much care, to restore gray or faded Whiskers, we have prepared this dye, in *one preparation;* which will quickly and effectually accomplish this result. It is easily applied, and produces a color which will neither rub nor wash off. Sold by all Druggists. Price Fifty Cents.

Ayer's Sarsaparilla

Is widely known as one of the most effectual remedies ever discovered for cleansing the system and purifying the blood. It has stood the test of years, with a constantly growing reputation, based on its intrinsic virtues, and sustained by its remarkable cures. So mild as to be safe and beneficial to children, and yet so searching as to effectually purge out the great corruptions of the blood, such as the scrofulous and syphilitic contamination. Impurities, or diseases that have lurked in the system for years, soon yield to this powerful antidote and disappear. Hence its wonderful cures, many of which are publicly known, of **Scrofula,** and all scrofulous diseases, **Ulcers, Eruptions,** and eruptive disorders of the skin, **Tumors, Blotches, Boils, Pimples, Pustules, Sores, St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm,** and internal **Ulcerations of the Uterus, Stomach, and Liver.** It also cures other complaints, to which it would not seem especially adapted, such as **Dropsy, Dyspepsia, Fits, Neuralgia, Heart Disease, Female Weakness, Debility,** and **Leucorrhœa,** when they are manifestations of the scrofulous poisons.

It is an excellent restorer of health and strength in the Spring. By renewing the appetite and vigor of the digestive organs, it dissipates the depression and listless languor of the season. Even when no disorder appears, people feel better, and live longer, for cleansing the blood. The system moves on with renewed vigor and a new lease of life.

THE

EUREKA FANNING MILL.

The Greatest Invention

OF THE 19th CENTURY!

FARMERS, LOOK TO YOUR INTEREST.

THE attention of Farmers and Mechanics is particularly directed to the combined economy, utility and practicability of the Eureka Mill, and to the many other adyantages it possesses over every othhr Fanning Mill which has been introduced to the public. It is the fruit of long and patient investigation by the inventor, who has made it his constant study for over twenty years. He has secured several patents for Mills, and has always been rewarded with the best of success. But not feeling satisfied with his former attainments, he determined to reach the climax, and now he now believes that his new invention will warrant him in exclaiming in the joy of his heart, like the philosopher, Phythagoras, EUREKA, signifying in the Grecian language, "I have found it." This has given the name to this new Mill.

In this Mill are all the former improvements, to which have been added several more, adding still greater advantages than were at first anticipated, or even thought possible by the inventor himself. It embraces the three great essentials necessary in every invention.

It combines Utility, Economy and Practicability!

THE EUREKA MILL

Is small and lighter, and is capable of doing more and better work in a given time than any other Mill ever invented. It is the only Mill that will successfully remove from wheat such pests as Cockle, Garlic, Oats, Rye, &c.

Should an extra quality of grain for seed or gristing purposes be required, it can be so arranged as to catch in one box perfect grain, and in the other, grain fit for market or mill. Here is made a great saving usually lost sight of: for nearly one-quarter of the grain cleaned in the common Mills is lost when sown, on account of shrunken kernels and inferior grain. The Eureka Mill saves all this, and gives seed every kernel of which will grow when put into the ground, and this saving will, in a short time, pay for the Mill.

HINES & BURCHINAL,

Chestertown, Md.,

Owners of the Mill, are having them manufactured at the Sash Factory and Planing Mill of NOLAND & Co., Port Deposit, Md., which is a guarantee they will be put up in the very best manner.
