I HAVE DRANK MY LAST GLASS.

No, comrades, I thank you, not any for me;
My last chain is riven, henceforward I'm free!
I will go to my home and my children to-night
With no fumes of liquor their spirits to blight,
And with tears in my eyes, I will beg my poor wife
To forgive me the wreck I made of her life!
"I have never refused you before!" Let that pass,
For I've drank my last glass, boys,
I have drank my last glass!

Just look at me now, boys, in rags and disgrace,
With my bleared, haggard eyes, and my red, bloated face!
Mark my faltering step and my weak, palsied hand,
And the mark on my brow that is worse than Cain's brand;
See my crownless old hat, and my elbows and knees
Alike warmed by the sun or chilled by the breeze;
Why, even the children will hoot as I pass—
But I've drank my last glass, boys,
I've drank my last glass!

You would hardly believe, boys, to look at me now,
That a mother's soft hand was once pressed on my brow,
When she kissed me, and blessed me, her darling, her pride,
Ere she lay down to rest by my dead father's side;
But with love in her eyes, she looked up to the sky,
Bidding *me* meet her *there*, and whispered "Good-bye."
And I'll *do* it, GOD helping! Your smile I let pass,
For I've drank my last glass, boys,
I have drank my last glass!

Ah! I reeled home last night—it was not very late,
For I'd spent my last sixpence, and landlords won't wait
On a poor fellow who's left every cent in their till,
And has pawned his last bed, their coffers to fill.
Oh! the torments I felt, and the pangs I endured!
And I begged for *one* glass—just *one* would have cured;
But they kicked me out doors!—I let that, too, pass,
For I've drank my last glass, boys,
I have drank my last glass!

At home, my pet Susie, with her soft golden hair,
I saw, through the window, just kneeling in prayer;
From her pale, bony hands, her torn sleeves were strung down,
While her feet, cold and bare, shrank beneath her scant gown;
And she prayed—prayed for *bread*—just a poor crust,
For one crust—on her knees, my pet darling plead;
And *heard*, with no penny to buy one, alas!
But I've drank my last glass, boys,
I have drank my last glass.

For Susie, my darling, my wee six-year old,
Though fainting with hunger and shivering with cold,
There, on the bare floor, asked GOD to bless *me*.
And she said, "Don't cry mamma! He will! for you see,
I *believe* what I ask for!" Then, sobered, I crept
Away from the house; and that night, when I slept,
Next my heart lay the PLEDGE—You smile! Let it pass,
But I've drank my last glass, boys,
I have drank my last glass!

My darling child saved me! Her faith and her love
Are akin to my dear sainted mother's above!
I will make her words *true*, or I'll die in the race,
And *sober* I'll go to my last resting place;
And *she* shall kneel there, and, weeping, thank GOD
No *drunkard* lies under that daisy-strewn sod!
Not a drop more of poison my lips shall e'er pass,
For I've drank my last glass, boys,
I have drank my last glass!

MANAGEMENT OF BABIES.

The only valuable work we ever saw on infancy was written by a man, Andrew Combe, of Scotland, a close observer, a sound thinker, and learned physiologist. We shall never forget how tempest-tossed we were when we found ourself the happy possessor of a male child without the slightest knowledge of what to do for his comfort and protection. An ignorant nurse fidgeted round the room day and night, sang melancholy ditties, and rocked vehemently, while the child cried continually with a loud voice, and we wept, prayed, and philosophized by turns. Reasoning on general principles, we at last came to the conclusion that inasmuch as the child was large and vigorous there must be some mistake on the part of the nurse that he was not quiet and comfortable. Accordingly, we fortified ourself in that opinion by a faithful reading of what Mr. Combe had to say on babies in general. The result of this consideration of his opinions was a prompt revolution in the whole nursery department, and a transfer of pain from the baby to the nurse, who stood humbled and chagrined as she saw her time-honored system summarily set aside, the pins, paregoric, catmint and cradle driven out, while pure air, sunlight and common sense walked in. Oh! what sighs, what groans, what doubtful shakings of the head, what suppressed laughter and whisperings in the hall we heard during the first few days after the inauguration of that dynasty of health, happiness and rest to that new-born soul.

When the three hours' cry began that day, which ancient dames assured us was a custom that had been faithfully kept by all the sons of Adam from time immemorial, we ordered the little sufferer to be promptly stripped to the skin and put in a warm bath; that brought instant relief; after which he was dressed in a few light garments hung on the shoulders, with no swaddling bands, no pressure on the lungs or bowels, and laid down to sleep. He was fed (according to Combe) every two hours by day, and but once during the night. After that we had peace, though eternal vigilance on our part was its price. The custom of pinning babies up as tight as a drum is both cruel and absurd. We asked the antiquarian who tortured our first-born in that way, why she did it. "The bones of young babies are so soft and their flesh so tender," said she, "that they are in constant danger of dissolution unless tightly pinioned together." We soothed her fears by pointing to the fact that colts and calves, puppies and kittens, all lived and flourished without bandages, and for the benefit of the race we said we would make the experiment on one of the human family.

If babies are regularly fed, bathed and comfortable dressed, and in a pure atmosphere, they will be quiet and healthy. The ignorance of women on these subjects is truly lamentable. We have seen children a year old that had never tasted water, when they should have it half a dozen times every day from the hour of their birth. We have found fathers who worked hard all day complain bitterly of being disturbed at night by crying children, hence the common use of Mrs. Winslow's soothing syrup, which only tends to increase the irritable condition of the nervous system, and permanently weaken the brain. Young mothers no doubt imagine that this Mrs. Winslow is some experienced, humane old lady, who loves little children, knows just how to soothe them to sleep and pilot them through all the pit-falls of infancy, when, in fact, this abominable syrup is compounded by some ignorant man in whiskers, broad-cloth, and boots, who lives and fattens on his ill-gotten gains, while babies are sent by the hundreds to untimely graves or made idiots and lunatics for life.

Iron in the Blood

PERUVIAN AN IRON TONIC SYRUP

MAKES THE WEAK STRONG.

The Peruvian Syrup, a Protected Solution of the Protoxide of Iron, is so combined as to have the character of an aliment, as easily digested and assimilated with the blood as the simplest food. It increases the quantity of Nature's Own Vitalizing Agent, Iron in the blood, and cures "a thousand ills," simply by Toning up, Invigorating and Vitalizing the System. The enriched and vitalized blood permeates every part of the body, repairing damages and waste, searching out morbid secretions, and leaving nothing for disease to feed upon.

This is the secret of the wonderful success of this remedy in curing* Dyspepsia, Liver Complaint, Dropsy, Chronic Diarrhœa, Boils, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Diseases of the Kidneys and Bladder, Female Complaints,** ***and all diseases originating in a bad state of the blood, or accompanied by debility or a low state of the system. Being free from Alcohol, in any form, its energizing effects are not followed by corresponding reaction, but are permanent, infusing strength, vigor, and new life into all parts of the system, and building up an Iron Constitution.

Thousands have been changed by the use of this remedy, from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial.

See that each bottle has* PERUVIAN SYRUP *blown in the glass.

Ayer's Cathartic Pills,

For the relief and cure of all derangements in the stomach, liver, and bowels. They are a mild aperient, and an excellent purgative. Being purely vegetable, they contain no mercury or mineral whatever. Much serious sickness and suffering is prevented by their timely use; and every family should have them on hand for their protection and relief, when required. Long experience has proved them to be the safest, surest, and best of all the *Pills* with which the market abounds. By their occasional use, the blood is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of life restored to its healthy activity. Internal organs which become clogged and sluggish are cleansed by *Ayer's Pills*, and stimulated into action. Thus incipient disease is changed into health, the value of which change, when reckoned on the vast multitudes who enjoy it, can hardly be computed. Their sugar coating makes them pleasant to take, and preserves their virtues unimpaired for any length of time, so that they are ever fresh, and perfectly reliable. Although searching, they are mild, and operate without disturbance to the constitution, or diet, or occupation.

Full directions are given on the wrapper to each box, how to use them as a Family Physic, and for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion, Listlessness, Languor,** and **Loss of Appetite,** they should be taken moderately to stimulate the stomach, and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers,** they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa,** but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back,** and **Loins,** they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings,** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression,** a large dose should be taken, as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

PREPARED BY
Dr. J. C. AYER & CO., Practical Chemists,
LOWELL, MASS., U. S. A.
FOR SALE BY ALL DRUGGISTS EVERYWHERE.

Every year increases the popularity of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPARATION for its intended purposes."

THE
EUREKA
FANNING MILL.
The Greatest Invention
OF THE 19th CENTURY!
FARMERS, LOOK TO YOUR INTEREST.

THE attention of Farmers and Mechanics is particularly directed to the combined economy, utility and practicability of the Eureka Mill, and to the many other advantages it possesses over every othhr Fanning Mill which has been introduced to the public. It is the fruit of long and patient investigation by the inventor, who has made it his constant study for over twenty years. He has secured several patents for Mills, and has always been rewarded with the best of success. But not feeling satisfied with his former attainments, he determined to reach the climax, and now he now believes that his new invention will warrant him in exclaiming in the joy of his heart, like the philosopher, Phythagoras, EUREKA, signifying in the Grecian language, "I have found it." This has given the name to this new Mill.

In this Mill are all the former improvements, to which have been added several more, adding still greater advantages than were at first anticipated, or even thought possible by the inventor himself. It embraces the three great essentials necessary in every invention.

It combines Utility, Economy and Practicability!

THE EUREKA MILL

Is small and lighter, and is capable of doing more and better work in a given time than any other Mill ever invented. It is the only Mill that will successfully remove from wheat such pests as Cockle, Garlic, Oats, Rye, &c.

Should an extra quality of grain for seed or gristing purposes be required, it can be so arranged as to catch in one box perfect grain, and in the other, grain fit for market or mill. Here is made a great saving usually lost sight of: for nearly one-quarter of the grain cleaned in the common Mills is lost when sown, on account of shrunken kernels and inferior grain. The Eureka Mill saves all this, and gives seed every kernel of which will grow when put into the ground, and this saving will, in a short time, pay for the Mill.

HINES & BURCHINAL,
Chestertown, Md.,

Owners of the Mill, are having them manufactured at the Sash Factory and Plaining Mill of NOLAND & Co., Port Deposit, Md., which is a guarantee they will be put up in the very best manner.
