THE LAMENT OF GRANDMOTHER GRUMBLE.

BY HELEN J. ANGELL.

What has become of the suppers,
The suppers we used to know,
When David I were youngsters,
In the beautiful long ago,
When people got up in the morning
And slept the night hours through?

I hate the glare of gas-light
And the smell of kerosene;
Their tapers of wax are better
But they have a Romish lean,
And the blessed sun is the best light
That these old eyes have seen.

But, for fear of fading their carpets,
They darken the house like a tomb;
They're not a particle better
Than those from my mother's loom,
That looked so gay with the sunlight
Or the firelight in the room.

They talk of charming pictures,
Of "A Sunrise by the Sea,
And a "Morning in the Burnese Alps;"
But they just make fun of me
If I praise the real sunrise,
A sight they never see.

It is not according to Nature
To lie in bed till ten,
And come half-dressed to breakfast,
As if it were early then.
When my children got up grumbling,
I sent them to bed again.

They dress for morning callers,
Or sit up-stairs and read
Of horrors that never happened
And never could, indeed;
Or spend whole hours a shopping;
When there isn't a thing they need.

But they buy ice creams and candies,
And are home for lunch at two;
Then practice what they call music,
Perhaps, for an hour or two;
And then crochet or take a nap,
For they've nothing else to do.

At half-past six comes dinner,
With the best of meats and wine,
And the men-folks finish with cigars,
And there's cake and tea at nine;
But they're not so happy as we were,
With all their fixings fine.

They have what they call suppers,
Sometimes, at dead of night,
When they rig up in their finery
And all "our set" invite;
The women are walking pigeon-fashion,
And the men wear coats too tight.

But there's nothing left of the suppers
That cheered our spirits so
When David and I were married,
Nigh three-score years ago,
When 'twas fashion to dine at twelve o'clock,
And sup when the sun was low.

MARK TWAIN'S TRIBUTE TO WOMAN.

At an annual banquet of the Washington Correspondent's Club, the following toast was read:

"Woman. The pride of the professions and the jewel of ours."

To which Mark Twain responded as follows:

Human intelligence cannot estimate what we owe to woman, sir. She sews on buttons, she ropes us in at the church fairs, she confides in us, tells us whatever she can find out about the private affairs of her neighbors, she gives us a piece of her mind sometimes, and sometimes all of it. In all relations of life sir, it is a just and grateful tribute to say of her "she is a brick!"

Where you place woman, sir, in whatever position or estate, she is an ornament to the place she occupies, and a treasure to the world. Look at the woman of history! Look at Desdemona! Look at Lucretia Borgia! Look at mother Eve! I repeat, sir, look at the illustrious names of history! Look at Elizabeth Cady Stanton! Look at George Francis Train! And, sir, I say with bowed head and deepest veneration look at the mother of Washington! She raised a boy that could not lie, but he never had a chance. It might have been different if he had belonged to a newspaper correspondent's club.

Mark looked around placidly upon his excited audience and resumed:

I repeat, sir, that in whatever position you put a woman, she is an ornament to society, and a treasure to the world. As a sweet-heart she has few equals, and no superior. As a wealthy grandmother with an incurable temper she is gorgeous. As a wet-nurse she has no equal among men. What, sir, would the people of the earth be without women? They would be scarce, sir, almighty scarce! Then let us give her our support, our sympathy—ourselves, if we get a chance.

But, jesting aside, Mr. President, woman is lovable, gracious, kind of heart, beautiful, worthy of respect, of all esteem, of all deference. No one here will refuse to drink her health right cordially, for each and every one of us has personally known, loved and honored the best of them all—his own mother.

PERIOD OF GESTATION.—The following will be found correct as the shortest, mean and longest period of gestation:

Turkey.—Shortest period 24 days, mean 27, longest 30.

Hen.—Shortest period 19 days, mean 21, longest 24.

Duck.—Shortest period 28 days, mean 30, longest 32.

Goose.—Shortest period 27 days, mean 30, longest 32.

☞ These two young girls are unmarried, and young men are informed that it costs only $20 to travel to Battle Creek. Lizzie and Lydia Taylor have been setting type in the office of the Battle Creek, Mich., Journal for five years, earning from $8 to $20 a week. From their earnings they have supported their mother, as housekeepers have lived well, bought a piano, taken music, given $100 towards the building of the Baptist Church at Battle Creek, and have saved $1,200.

ORDER OF PUBLICATION.

JAMES SPEAR
vs.
WILLIAM H. WEST, R. Y. TOWNSEND, and others.

Bill on the Equity side of the Circuit Court for Kent County.
June 12th, 1873.

The object of this Bill is to secure the performance of an agreement by William H. West, one of the defendants, made with the complainant for the purchase from him of a House and Lot of Land in the town of Millington, and the improvements thereon, formerly the property of John W. Osborn, and in case of failure, a sale of the said property to pay the complainant's lein on the same, as the purchase money agreed by said West to be paid for the same.

The Bill states, that on or about the 8th of December, 1871, the complainant sold and delivered to the said William H. West, a House and Lot of Land, with other improvements, in the town of Millington, for the price of eighteen hundred dollars to be paid as follows: $500, with interest on the whole sum, on or before the 8th of December, 1872,—the sum of $500, with interest on the sum unpaid, on or before the 8th of December, 1873,—and the residue of $800, with interest, on or before the 8th of December, 1874, and executed a Bond for the payment of the same in the manner before stated: that the sum of $500, and interest on the whole sum of $1800, was due and payable, on the 8th of December, 1872, and remains unpaid; that the said William H. West has removed from the State of Maryland to another State, and resides beyond the jurisdiction of all the Maryland Courts: that he has left no property or assets in the State of Maryland, and is insolvent, a considerable number of Judgments having been recovered against him in the Circuit Court of Kent county, which are due and unpaid, and recovered by persons, non-residents of the State of Maryland, to wit: R. Y. Townsend, William F. Greene, Frank Bro's. and Company, William F. Hansell, S. B. Rowley, Hood, Bonbright and Company, H. B. Claflin, and John Luff.

It is thereupon adjudged and ordered, that the complainant, by causing a copy of this order to be inserted in some newspaper published on the Eastern Shore of Maryland, once in each of four successive weeks before the 19th day of July next, give notice to the said absent defendants of the object and substance of this Bill, and warn them to appear in this Court, in person or by solicitor, on or before the first day of October next, to answer the premises, and show cause, if any they have, why a Decree ought not to pass as prayed.

which can be cured by a timely resort to this standard preparation, as has been proved by the hundreds of testimonials received by the proprietors. It is acknowledged by many prominent physicians to be the most reliable preparation ever introduced for the relief and cure of all Lung complaints, and is offered to the public, sanctioned by the experience of over forty years. When resorted to in season it seldom fails to effect a speedy cure in the most severe cases of Coughs, Bronchitis, Croup, Whooping Cough, Influenza, Asthma, Colds, Sore Throat, Pains or Soreness in the Chest and Side, Liver Complaint, Bleeding at the Lungs, &c. Wistar's Balsam does not dry up a Cough, and leave the cause behind, as is the case with most preparations, but it loosens and cleanses the lungs, and allays irritation, thus removing the cause of the complaint.

Ayer's Sarsaparilla

Is widely known as one of the most effectual remedies ever discovered for cleansing the system and purifying the blood. It has stood the test of years, with a constantly growing reputation, based on its intrinsic virtues, and sustained by its remarkable cures. So mild as to be safe and beneficial to children, and yet so searching as to effectually purge out the great corruptions of the blood, such as the scrofulous and syphilitic contamination. Impurities, or diseases that have lurked in the system for years, soon yield to this powerful antidote and disappear. Hence its wonderful cures, many of which are publicly known, of **Scrofula,** and all scrofulous diseases, **Ulcers, Eruptions,** and eruptive disorders of the skin, **Tumors, Blotches, Boils, Pimples, Pustules, Sores, St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm,** and internal **Ulcerations of the Uterus, Stomach, and Liver.** It also cures other complaints, to which it would not seem especially adapted, such as **Dropsy, Dyspepsia, Fits, Neuralgia, Heart Disease, Female Weakness, Debility,** and **Leucorrhœa,** when they are manifestations of the scrofulous poisons.

It is an excellent restorer of health and strength in the Spring. By renewing the appetite and vigor of the digestive organs, it dissipates the depression and listless languor of the season. Even when no disorder appears, people feel better, and live longer, for cleansing the blood. The system moves on with renewed vigor and a new lease of life.

Ayer's *Hair Vigor,*

For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *It soon restores faded or gray hair to its original color, with the gloss and freshness of youth.* Thin hair is thickened, fallen hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning grey or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.

THE

EUREKA FANNING MILL.

The Greatest Invention
OF THE 19th CENTURY!

FARMERS, LOOK TO YOUR INTEREST.

THE attention of Farmers and Mechanics is particularly directed to the combined economy, utility and practicability of the Eureka Mill, and to the many other advantages it possesses over every othhr Fanning Mill which has been introduced to the public. It is the fruit of long and patient investigation by the inventor, who has made it his constant study for over twenty years. He has secured several patents for Mills, and has always been rewarded with the best of success. But not feeling satisfied with his former attainments, he determined to reach the climax, and now he now believes that his new invention will warrant him in exclaiming in the joy of his heart, like the philosopher, Phythagoras, EUREKA, signifying in the Grecian language, "I have found it." This has given the name to this new Mill.

In this Mill are all the former improvements, to which have been added several more, adding still greater advantages than were at first anticipated, or even thought possible by the inventor himself. It embraces the three great essentials necessary in every invention.

It combines Utility, Economy and Practicability!

THE EUREKA MILL

Is small and lighter, and is capable of doing more and better work in a given time than any other Mill ever invented. It is the only Mill that will successfully remove from wheat such pests as Cockle, Garlic, Oats, Rye, &c.

Should an extra quality of grain for seed or gristing purposes be required, it can be so arranged as to catch in one box perfect grain, and in the other, grain fit for market or mill. Here is made a great saving usually lost sight of; for nearly one-quarter of the grain cleaned in the common Mills is lost when sown, on account of shrunken kernels and inferior grain. The Eureka Mill saves all this, and gives seed every kernel of which will grow when put into the ground, and this saving will, in a short time, pay for the Mill.

HINES & BURCHINAL,
Chestertown, Md.,

Owners of the Mill, are having them manufactured at the Sash Factory and Planing Mill of NOLAND & Co., Port Deposit, Md., which is a guarantee they will be put up in the very best manner.
