LOCAL NEWS.

TOWN COMMISSIONERS.—By the charter of our town, the qualified voters within the corporate limits elect annually seven persons to serve for one year as Commissioners of the town, without pay or remuneration of any kind. The law requires that they meet at least *once a month*, and if they attend strictly to the duties of their office they must necessarily give much more of their time to the public, gratuitously. The better educated class of our community and the large property holders, those who are more particularly interested, pecuniarily, in the good government of the town, uniformly decline, in fact almost contemptuously, to give their services to the public in this capacity. But the offices must be filled, and the Commissioners are elected from those, generally, who will accept, and who, we have no reason to doubt, give their best, honest efforts to the duties of their office. Now what is the sequel: the Commissioner, in the place of the pecuniary pay he should receive, is the target for the ridicule and abuse of the corporation at large, and frequently in an especial manner of the property holding citizen who has refused to take upon himself the burdens of the office. It is to be expected, that the corporate authorities will make some mistakes, being mortals like other men, but mistakes or acts which cannot be traced to corrupt motives should be dealt with in a proper manner. The tendency of public opinion in our town is to degrade the office of Town Commissioner, and deter those who might fill the office acceptably and to the comfort of the citizens.

If our authorities were properly sustained by public opinion, we have every reason to believe that the comfort and health of our town would be improved, and the natural beauties of the place added to. Let us cease to regard them in the light of plunderers and robbers, and come to look at them as public servants without pay, who deserve our sympathy and support. Instead of emptying our filth into the streets, and in one notable instance burying it on the opposite side of the street, let us dispose of it in a proper manner, and see that our neighbors do the same, or report them to the authorities. The citizen has a duty as well as the city father.

SONS OF TEMPERANCE.—The Grand Division of the Sons of Temperance met in our town on Thursday last. Some thirty of the members arrived the previous evening, on the steamer Law, and a public temperance meeting was held on Wednesday evening, and also on Thursday afternoon and evening. The following, among the grand officers, were present: L. R. Woollen, R. T. Smith, Hiram Dorsey, S. S. Addison, William McCoy and William Murdoch.

The special object of the temperance men of the State is, to secure such legislation the coming session as will enable the majority of voters in any district of a county to prohibit the sale of intoxicating drinks.

KNIGHTS OF PYTHIAS EXCURSION.—The steamer Chester, on Tuesday last, brought to our town "Chosen Friend's Lodge" of Knights of Pythis. The entire party of excursionists numbered about three hundred. The Knights made a street parade in full knightly uniform, preceded by a band of music. The uniform consists of a black frock coat and pants of the same, with a military cap, and a rich baldric of blue and gold. Each Knight carried a drawn sword. The visitors were hospitably entertained by Kent Lodge of this town, and seemed to enjoy themselves. A number of the excursionists visited the printing offices of the town. The party left about six o'clock for home.

BAKER'S WOODS CAMP.—The Methodist Protestant Camp-meeting, to commence at this old and favorite resort on Friday, the 15th instant, promises to be a larger one than usual. The committee of arrangements met on the ground Wednesday, when the sites for forty tents were selected. This is an unusually large number so far in advance of the time for commencing, and it is a moderate calculation that at least eighty tents will be on the ground when the meeting begins. The brend-tent privilege was given to John N. Dodd of this town, and the horse-pound to William Anderson, of Worton.

BOAT RACE.—On Saturday, the 9th of August, there will be a boat race at Quaker Neck Wharf, open for canoes of all sizes. We learn that premiums will be offered, and an abundance of refreshments provided.

☞ THE CHARADES at Academy Hall, Galena, have been postponed until Monday evening, August 4th. Let all who wish an evening's entertainment attend.

ORPHANS' COURT.—Present, Judges Beck, Scott and Hepbron.

The court passed a number of claims against the estates of deceased parties.

On application, ordered, that S. Ellen Spry, guardian to Caleb W. Spry, be allowed to rent the farm for next year on a grain rent.

Jonathan Hodgson was appointed guardian to Jonathan Hodgson, of Kent county, who executed his bond with William Welch and Cornelius J. Scott as sureties in the penalty of two hundred dollars, which was approved and ordered to be recorded.

Richard Hynson, admr. of Samuel W. Canady, was requested to ascertain the most profitable and safe investment to make of the money in the hands of the said administrator, in Kent county, and report the same to this Court.

The refreshing rains of the past few days, have, we see by our exchanges, been general all the Peninsula.

A MAN ATTACKED BY A SHARK.

Monday morning, about half-past six o'clock, while a party of fishermen were hauling a seine in Chester river, just opposite the mouth of Graysinn's Creek, they noticed that there was a number of monstrous fish in the seine, and they at once started towards the shore for the purpose of securing them. On nearing the land they found that the sea weeds were in such profusion that it would be impossible to land the net, and as the water where they were was only about waist deep, two of the party, James Green and James McCann, both of this city, jumped overboard and began taking up the seine, while the rest of the party pulled it into the yawl. Nearly one-half of the seine had been taken in, when suddenly the water was lashed to a foam by what seemed to be a school of monstrous fish. The men grew excited, and Green waded out several yards for the purpose of holding the net down to the bottom. Just as he took hold of it, his left leg was seized by a shark, and he was dragged under the water, where a terrible struggled ensued between the man and the shark. Green's companions were so frightened that they stood still for some time, and gazed with horror at the terrible scene. In a few moments Green came to the surface, and uttered a cry for help. This roused his friends, and they went to his assistance, when the shark retreated farther into the depths of the seine. Green was taken into the boat, when he became insensible, and remained so for some time. The shark had caught the calf of his left leg, and completely stripped the flesh from the bones from above the knee down to his foot. He was bleeding profusely from several of the larger arteries that had been severed. Mr. McCann knew enough about surgery to bind a handkerchief tight around the mangled limb, and prevented his bleeding to death. The wounded man was brought to this city about half-after 12 o'clock A. M., by the Chester river steamboat George Law, after which he was removed to the Infirmary on the corner of Green and Lombard streets, where his left leg was amputated. He is an unmarried man, thirty years of age, and lived on Williams street, a few doors west of Charles street. It seems that the fishing party had surrounded a number of sharks, as there were more than one of the savage creatures in the net. The fishermen succeeded in killing two of them, the largest of which was eleven feet in length.—*American.*

PENINSULA ITEMS.

CECIL COUNTY

The National Bank of Elkton has purchased the old Bank of Maryland Banking House and intend to occupy it as soon as it can be put in thorough repair.

The farm of Mrs. Edward Carter, on Grey's Hill, was sold last week for $5,832, purchased by Sheriff Thomas. A few years ago Mrs. Carter paid $10,000, for this property.

James S. Crawford of Elkton, has been promoted from a first to a third class clerkship in the general post-office.

A little daughter of Mr. Simmons living on Red Hill, was dreadfully burned by her clothes taking fire from the stove. The mother's arms were badly burned in putting out the fire.

Clarence C. Strickland, son of P. C. Strickland Esq., has received the appointment of clerk in the National Bank of Elkton.

QUEEN ANNE'S COUNTY.

The Observer gives the following:

THE OYSTER FINES—*An Important Decision.*—The question as to whether persons who inform upon violators of the State oyster law are entitled to half the fine imposed, having been presented to the Judges of the Circuit Court for this county, a decision was rendered by their Honors Judges Robinson and Wickes on Monday, it being their opinion that *the informer is entitled to half* of the fine.—The section of the law upon which this decision was rendered is Section 3 of Article XL of the Code, title "Fines and Forfeitures," which reads:

Sec. 3. All fines, penalties and forfeitures, when recovered, shall be paid to the county or city where the same may be imposed, unless directed to be paid otherwise by the law imposing them; *but if there be an informer, he shall have half,* UNLESS OTHERWISE PROVIDED; this section not to apply to fines or forfeitures for offences at common law.

The oyster law, failing to declare that the informer shall *not* have half the fine, the Court held that the question was covered by the section above quoted, and directed that half of the fines imposed upon violators of that law shall be paid to the informers. This decision will add an additional stimulant to the tongsmen to see that the dredgers be promptly informed upon, arrested and fined whenever caught violating the law.

THE

EUREKA

FANNING MILL.

The Greatest Invention

OF THE 19th CENTURY!

FARMERS, LOOK TO YOUR INTEREST.

THE attention of Farmers and Mechanics is particularly directed to the combined economy, utility and practicability of the Eureka Mill, and to the many other advantages it possesses over every othhr Fanning Mill which has been introduced to the public. It is the fruit of long and patient investigation by the inventor, who has made it his constant study for over twenty years. He has secured several patents for Mills, and has always been rewarded with the best of success. But not feeling satisfied with his former attainments, he determined to reach the climax, and now he now believes that his new invention will warrant him in exclaiming in the joy of his heart, like the philosopher, Phythagoras, EUREKA, signifying in the Grecian language, "I have found it." This has given the name to this new Mill.

In this Mill are all the former improvements, to which have been added several more, adding still greater advantages than were at first anticipated, or even thought possible by the inventor himself. It embraces the three great essentials necessary in every invention.

It combines Utility, Economy and Fracticability!

THE EUREKA MILL

Is small and lighter, and is capable of doing more and better work in a given time than any other Mill ever invented. It is the only Mill that will successfully remove from wheat such pests as Cockle, Garlic, Oats, Rye, &c.

Should an extra quality of grain for seed or gristing purposes be required, it can be so arranged as to catch in one box perfect grain, and in the other, grain fit for market or mill. Here is made a great saving usually lost sight of; for nearly one-quarter of the grain cleaned in the common Mills is lost when sown, on account of shrunken kernels and inferior grain. The Eureka Mill saves all this, and gives seed every kernel of which will grow when put into the ground, and this saving will, in a short time, pay for the Mill.

HINES & BURCHINAL,

Chestertown, Md.,

Owners of the Mill, are having them manufactured at the Sash Factory and Planing Mill of NOLAND & Co., Port Deposit, Md., which is a guarantee they will be put up in the very best manner.
