RIVERSIDE, October 22, 1873.

Mr. Editor—I regret that in your notice of the many interesting objects on exhibition at the late Kent County Agricultural Association, the Peach Assorter, invented and exhibited by Mr. John A. Jones, of New Castle county, Dela., should have been overlooked. Mr. Jones is an extensive peach grower, and has felt the great want of a machine of this kind, in preparing his own fruit for market. Like some others, he had no fruit this season, and, with nothing to do, gave his mind entirely to the development of a machine, so desirable to the peach growers of our county; and the one shown at our Fair is the result of his ingenious reflections.

He brought his 'Assorter' to this place about the middle of last month, and, although my crop was a very light one, yet, on the day he was here, we had enough fruit to give it a fair trial; and I take pleasure in bearing testimony to its value to the peach grower. I think it one of the most efficient machines I have ever seen used: nothing could be conceived to operate more thoroughly and satisfactorily. The machine is very easily propelled, by treadle, and the fruit is assorted into three distinct sizes, with better results than could be obtained by the most careful hand-work, as it is almost impossible for a peach of one size to get in the place designed for one of another size, or for a culling to be mixed with the primes. The assorting is done with great rapidity, not less than two baskets in a minute, and without injury, the most delicate-skinned fruit passing over the machine without a bruise.

The peach growers of this whole county will know how to appreciate the genius and inventive skill of Mr. Jones. There is not one of them that can afford to do without his 'Assorter,' and in their comfort will be his reward.

Serious Accident.—On Saturday last two boys from Port Deposit were visiting a relative near Woodlawn, and after dinner they started out to gather chestnuts. One of the boys, a son of Capt. D. Vanneman, climbed an old tree near Hopewell Church. When near the top, a large limb broke, precipitating him to the ground. The fall was fifty feet. His hip was dislocated and the skull forced in above the eye. Dr. Hopkins, coming along the road at the time, put his hip in place. He was taken home insensible. It is thought he will recover.

Shooting Affair.—A shooting affair occurred on Sunday last in "Cat Swamp," about three miles from Elkton, near the Delaware line, in which John Simpson shot John Briley, Jr., with a shot gun in the breast, and dangerously wounded him. The affair, like nearly all such affairs, was the result of a drunken spree, and commenced by John Briley, the father of the wounded boy, going to Simpson's house, where a dispute arose between Briley and Simpson about a grain cradle and a small sum of money which Simpson alleges Briley owed him. An angry dispute was the immediate result, and Briley left Simpson's house, but in a short time returned with his two sons, John and Henry. The parties commenced an attack upon the house with stones and other missiles, and Simpson alleges he warned the attacking parties to desist and go away, which they refused to do, but continued to stone the house, whereupon John Simpson discharged a shot-gun at the parties, which took effect in the right breast, some of the shot penetrating the pleural artery.

CURIOSITIES OF MARYLAND LEGISLATION IN THE OLDEN TIME.

To the Editors of the Baltimore Gazette:

1765. Chapter 8, continues for twenty-one years the tax on the importation of negroes, liquors and Irishmen, and forbids the increased importation of Irish papists.

1780. Chapter 24 requires the Judges of the several County Courts to meet twice a year, or oftener if they should deem it necessary, and regulate the prices of drinks, which shall be set up within the court-house, and the respective clerks of the courts are required to furnish every tavern keeper with a copy, who shall put it up in a conspicuous place that every person may peruse the same. Penalty for charging more than the lawful price, 600 lbs. tobacco. Chapter 10 fines a clergyman ten pounds for absenting himself from his clerical duties for one month at a time, or two months in any one year.

Mr. Isaac Cole, Baltimore writes: "I had a distressing Cough, which annoyed me day and night. I was persuaded to use Dr. Bull's Cough Syrup, and its effect was magical. I am entirely cured. I know others that used it with the same happy results.

EXCITMENT AT DRUG STORES.—There has been a general rush the last month at the Drug Stores in Kent County for Dr. A. Boschee's German Syrup.

It has lately been introduced in this country from Germany, and for any person suffering with a severe cough, heavy cold settled on the breast, consumption or any disease of the throat and lungs it has no equal in the world. Our regular size bottles are 75 cents. Two doses will relieve any case. Try it. Sample bottles free of charge.

THE
EUREKA
FANNING MILL.
The Greatest Invention OF THE 19th CENTURY!
FARMERS, LOOK TO YOUR INTEREST.

THE attention of Farmers and Mechanics is particularly directed to the combined economy, utility and practicability of the Eureka Mill, and to the many other advantages it possesses over every othhr Fanning Mill which has been introduced to the public. It is the fruit of long and patient investigation by the inventor, who has made it his constant study for over twenty years. He has secured several patents for Mills, and has always been rewarded with the best of success. But not feeling satisfied with his former attainments, he determined to reach the climax, and now he now believes that his new invention will warrant him in exclaiming in the joy of his heart, like the philosopher, Phythagoras, EUREKA, signifying in the Grecian language, "I have found it." This has given the name to this new Mill.

In this Mill are all the former improvements, to which have been added several more, adding still greater advantages than were at first anticipated, or even thought possible by the inventor himself. It embraces the three great essentials necessary in every invention.

It combines Utility, Economy and Practicability!

THE EUREKA MILL

Is small and lighter, and is capable of doing more and better work in a given time than any other Mill ever invented. It is the only Mill that will successfully remove from wheat such pests as Cockle, Garlic, Oats, Rye, &c.

Should an extra quality of grain for seed or gristing purposes be required, it can be so arranged as to catch in one box perfect grain, and in the other, grain fit for market or mill. Here is made a great saving usually lost sight of: for nearly one-quarter of the grain cleaned in the common Mills is lost when sown, on account of shrunken kernels and inferior grain. The Eureka Mill saves all this, and gives seed every kernel of which will grow when put into the ground, and this saving will, in a short time, pay for the Mill.

HINES & BURCHINAL,
Chestertown, Md.,

Owners of the Mill, are having them manufactured at the Sash Factory and Plaining Mill of NOLAND & Co., Port Deposit, Md., which is a guarantee they will be put up in the very best manner.

A CARD.

AUGUST 1st, 1873.

All indebted to Thomas H. Whaland will be good enough to settle. It would give him much pleasure to indulge for any length of time if it were possible, but he owes some money which must be paid either by collections, borrowing at a premium, or assigning paper at a discount, which he ought not to be compelled to do with the amount of money he has due, and which ought to have been collected a long time ago. His professional engagements will not allow him to make individual calls. Hoping this notice will relieve him from any more unpleasant proceedings, he remains,
