SALE OF A FARM.—L. C. Graves, Esq., agent for James A. Sutton, sold on Wednesday of last week, the farm of the latter, containing 101 acres, near Lynch's Station on the Kent Co. railroad, at public sale, for $65 per acre.

THANKS.—We are indebted to Postmaster General Creswell for a copy of "The Postal Laws and Regulations, issued by authority of the Postmaster General," a work of 434 pages, and containing much valuable and necessary information. The work was compiled by Wm. M. Ireland and J. M. McGrew, clerks in the Post Office Department.

THE WHEAT PROSPECTS.

All statistical information on the subject of the wheat products of the world point to the important fact that the United States is the only country able to supply the unprecedented demand for wheat this year in nearly all European countries. The returns of the imports of Great Britian to September 30th show that the gross value of the imports of wheat for nine months is about $93,000,000, of which the United States supplied $41,000,000 worth. The proportion of wheat received from Russia has fallen from 13,000,000 to 7,000,000 hundred weights, as compared with 1872, while that received from the United States has increased from 5,000,000 to 13,000,000 hundred weights. Wheat is usually exported from the north of France, but this year it will have to be imported and the importations of the south of France will be largely increased. Germany, Hungary and Southern Russia are also deficient in their crops, and that European dealers have accepted the returns as thoroughly reliable may be judged from the fact that their exports from New York alone during the fourteen days ending October 9th were 3,508,469 bushels, an amount unparalleled in the history of that port. On the other hand the receipts of wheat at Milwaukee and Chicago have been largely increased, the receipts at the former place of the present crop being 8,555,770 bushels, against 5,044,805 bushels for same period in 1872. The Milwaukee Journal of commerce in discussing the effects of the financial panic on the future of wheat says that this year the country will have to move twice as much wheat as last year, to say nothing of the cotton.

☞ The great destruction of the common chincona (Peruvian bark), resulting from increased consumption and demand, has driven the Peruvians to look for it in new localities. They have found it among river sands near great mountains. The genuine, heretofore known only in lower Peru, is found to be surpassed by the Bolivian, whose bark is silver gray, and its leaf ribbed with carmine. It has hardly entered into commerce yet, so difficult is it to find and bring to market. But one tree will seed a forest.

PENINSULA ITEMS.

CECIL COUNTY.

The tannery and other property of Mr. J. L. Maxwell, in Port Deposit, was sold last week to Mr. Kauffman Katts for $4,050, being, it is said, about one half its real value.

QUEEN ANNE'S COUNTY.

A Dastardly Act.—On Saturday night the barn and stable of Mrs. Jonathan Williamson, residing near Bridgetown, in this county, was set on fire and consumed, together with two horses, a lot of corn, wheat, farming implements, provender, &c. Mrs. Williamson was aroused from sleep by the light of the fire, and as she looked toward it she saw the face of a man at her window looking in at her. This face she recognized as that of Wm. Campbell. On Sunday she came to town and made complaint before Esquire Forman who placed a writ for the arrest of Campbell in the hands of Deputy-Sheriff Bailey, who went out and arrested the prisoner and lodged him in jail to answer the charge of arson.—*Centreville Observer.*

J. B. & E. H. Brown, as Trustees, sold at public sale on Tuesday last the farm belonging to the late James D. Gooding, near Centreville, and containing 202 acres, at $28.10 per acre. Geo. W. Taylor, Esq., purchaser.

THE DOVER (DEL.) TRAGEDY—LAST ACT.

DOVER, DEL., October 29.—Dr. Isaac Collins West, who was some time since charged with the murder of Gooch Turner, colored, skinning the body and setting fire to the premises, tried and acquitted of the murder, was to-day put on trial for arson. West was arraigned at the opening of court to-day on the charge of attempting to fire a dwelling house, and pleaded guilty. He was then fined $500 and costs, and sentenced to two years' imprisonment. The other indictments against him were dropped.

WISE PHILANTHROPY.—The late Wm. Wheelwright, of Newburyport, who died in London a few weeks since, was one of those few men who knew how to use his money wisely while living and distribute it discreetly at death. His estate is understood to amount to upwards of nine hundred thousand dollars. He has left to the city of Newburyport 200,000 to establish a scientific school in that city. Besides this munificent bequest, the books of Mr. Wheelwright show that he has given away during the last ten years $600,000.

☞ Louisville, Ky., imported a number of English sparrows a few years ago to rid the city of worms. But the experiment seems to be a failure. There is a heavy fine for killing one of the birds, and they are given every opportunity to propagate; but they gather around the houses and let the trees alone, while the worms, according to the *Courier-Journal*, average "four pecks to the square inch, more or less." It is proposed to increase the force of sparrows.

Dr. Bull's Cough Syrup is particularly recommended for children. It cures Coughs, Colds, Croup, Sore Throat and Whooping Cough, is pleasant to the taste, and acts like a charm.

AUGUST FLOWER.—This great Dyspepsia Panacea has the largest sale of all other preperation in the world. Why, because we say to every one that is afflicted with Dyspepsia, Liver Complaint, Costiveness, Head-ache, Heartburn, Waterbrash, Sour Stomach, Indigestion or any disease depending upon pure blood, healthy Liver and Stomach, to call at C. F. Stam & Bro's. Drug Store, in Chestertown and get one of our sample bottles free of charge. Regular size 75 cents. Two or three doses will relieve any case.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent, and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ringworms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

THE

EUREKA

FANNING MILL.

The Greatest Invention

OF THE 19th CENTURY!

FARMERS, LOOK TO YOUR INTEREST.

THE attention of Farmers and Mechanics is particularly directed to the combined economy, utility and practicability of the Eureka Mill, and to the many other advantages it possesses over every othhr Fanning Mill which has been introduced to the public. It is the fruit of long and patient investigation by the inventor, who has made it his constant study for over twenty years. He has secured several patents for Mills, and has always been rewarded with the best of success. But not feeling satisfied with his former attainments, he determined to reach the climax, and now he now believes that his new invention will warrant him in exclaiming in the joy of his heart, like the philosopher, Phythagoras, EUREKA, signifying in the Grecian language, "I have found it." This has given the name to this new Mill.

In this Mill are all the former improvements, to which have been added several more, adding still greater advantages than were at first anticipated, or even thought possible by the inventor himself. It embraces the three great essentials necessary in every invention.

It combines Utility, Economy and Practicability!

THE EUREKA MILL

Is small and lighter, and is capable of doing more and better work in a given time than any other Mill ever invented. It is the only Mill that will successfully remove from wheat such pests as Cockle, Garlic, Oats, Rye, &c.

Should an extra quality of grain for seed or gristing purposes be required, it can be so arranged as to catch in one box perfect grain, and in the other, grain fit for market or mill. Here is made a great saving usually lost sight of; for nearly one-quarter of the grain cleaned in the common Mills is lost when sown, on account of shrunken kernels and inferior grain. The Eureka Mill saves all this, and gives seed every kernel of which will grow when put into the ground, and this saving will, in a short time, pay for the Mill.

HINES & BURCHINAL,

Chestertown, Md.,

Owners of the Mill, are having them manufactured at the Sash Factory and Planing Mill of NOLAND & Co., Port Deposit, Md., which is a guarantee they will be put up in the very best manner.

All indebted to Thomas H. Whaland will be good enough to settle. It would give him much pleasure to indulge for any length of time if it were possible, but he owes some money which must be paid either by collections, borrowing at a premium, or assigning paper at a discount, which he ought not to be compelled to do with the amount of money he has due, and which ought to have been collected a long time ago. His professional engagements will not allow him to make individual calls. Hoping this notice will relieve him from any more unpleasant proceedings, he remains,
