1874. THE WORLD. 1874.

The great Democratic victories in New York, Ohio, Maryland and Virginia, the startling Republican defeats in Wisconsin, Iowa, Kansas and Illinois, foreshadow the election of a Democratic Congress in 1874, and the election of a Democratic President in 1876.

The secret of the triumph already won has been steadfast adherence to the organization, unflinching fidelity to the principles of the Democratic party. *The World* has been faithful to its trust. When faint hearts talked or a spoiled party, a dead party, a new party, it bore aloft the flag of the historic, indomitable Democratic party. That flag, inscribed with the legends of Free Trade and Farmers' Rights, Hard Money, and no Monopolies,—the Democrats of Ohio and New York carried to a glorious victory, subverting Grant majorities of 37,000 and 51,000.

A new career now opens before the Democracy—more beneficent than its past career, identified though that be with the founding of the republic, its expansion across the continent, its half century of prosperity and peace.

The open secret of its future, as of its past and present triumphs, is still a steadfast adherence to the organization, an unflinching fidelity to the principles of the Democratic party—principles never so needful as now to be applied throughout our National, State and Municipal life to heal the wounds and demoralization of war, to stop corrupt and profligate expenditure, to limit and localize powers entrusted to the people's servants, to liberate our industries from the fetters of a barbarous Taliff, our trade from the fluctuations of an irredeemable paper Currency, and our agriculture from the double plundering of both, as well as to repair the wide-spread financial ruin wrought by the fiscal policy of the Republican party. The duty of *The World* in this onward march of the Democratic hosts to victory, is the dissemination of political truth. Our work will be fruitful in proportion as *The World* is widely read.

We ask Democrats everywhere to aid us in scattering the good seed broadcast over the whole land during the period so important to the coming harvests.—Where or how can any Democrat work so efficiently for the diffusion of the principles of his party, and their triumph at the ballot-box in '74 and '76, as by procuring new readers for *The World*, now?

As a vehicle of news, *The World* will spare no expense, no energy, to maintain and advance its place in the first rank of metropolitan journals. Its fresh, abundant, various and accurate news, comprising the whole circle of current intelligence, will be discussed as becomes Trustworthy Organs of Opinion, with candor, with steady devotion to sound public and private morals, with special knowledge for special themes, and with various and wide-reaching apprehension of the manifold interests of men and women in their homes, their market-places, their workshops and their farms.

THE

EUREKA FANNING MILL.

The Greatest Invention

OF THE 19th CENTURY!

FARMERS, LOOK TO YOUR INTEREST.

THE attention of Farmers and Mechanics is particularly directed to the combined economy, utility and practicability of the Eureka Mill, and to the many other advantages it possesses over every othhr Fanning Mill which has been introduced to the public. It is the fruit of long and patient investigation by the inventor, who has made it his constant study for over twenty years. He has secured several patents for Mills, and has always been rewarded with the best of success. But not feeling satisfied with his former attainments, he determined to reach the climax, and now he now believes that his new invention will warrant him in exclaiming in the joy of his heart, like the philosopher, Phythagoras, EUREKA, signifying in the Grecian language, "I have found it." This has given the name to this new Mill.

In this Mill are all the former improvements, to which have been added several more, adding still greater advantages than were at first anticipated, or even thought possible by the inventor himself. It embraces the three great essentials necessary in every invention.

It combines Utility, Economy and Practicability!

THE EUREKA MILL

Is small and lighter, and is capable of doing more and better work in a given time than any other Mill ever invented. It is the only Mill that will successfully remove from wheat such pests as Cockle, Garlic, Oats, Rye, &c.

Should an extra quality of grain for seed or gristing purposes be required, it can be so arranged as to catch in one box perfect grain, and in the other, grain fit for market or mill. Here is made a great saving usually lost sight of; for nearly one-quarter of the grain cleaned in the common Mills is lost when sown, on account of shrunken kernels and inferior grain. The Eureka Mill saves all this, and gives seed every kernel of which will grow when put into the ground, and this saving will, in a short time, pay for the Mill.

HINES & BURCHINAL,

Chestertown, Md.,

Owners of the Mill, are having them manufactured at the Sash Factory and Plaining Mill of NOLAND & Co., Port Deposit, Md., which is a guarantee they will be put up in the very best manner.

WHITE PINE CULLINGS & SELECT SCANTLING, JOIST & BILL STUFF

REMOVAL.

WE have removed our Yard from the old stand of Wm. Vannort, to our yard in the rear of our Carpenter Shop, where we can be found at any hour.—Thanking our customers for their past patronage, we respectfully ask a continuance of the same at our New Yard up town.

UNDRTAKING will receive our special attention as heretofore.
