To Advertisers and Correspondents

Advertisements and Communications should be received at this office by Wednesday's mail. The *Transcript* is issued on Friday but printed on Thursday, and we go to press before Thursday's mail arrives. Any thing received by Thursday's mail, must, consequently, lie over until the next issue.

LOCAL NEWS.

Orphans' Court.

Present Judges Nicholson, Shallcross and Willson.

Letters of Administration on the personal estate of John K. Willis, were granted unto George Vickers, who filed his bond in the penalty of three thousand dollars. T. W. Russell and A. W. Sparks were appointed to appraise the said estate, and the usual notice to creditors was ordered.

The following were filed and ordered to be recorded:

Release of Samuel Caldwell and Henriette Caldwell, to R. C. Johnson, exect. of James Stanley.

Release of Jessie E. Dailey and Emma E. Dailey, to R. C. Johnson, executor of James Stanley.

Release of William Pinder and Mary A. Pinder, to R. C. Johnson, executor of James Stanley; and the releases of the same parties to R. C. Johnson, admr. of Ann E. Stanley.

An Error.

The Kent News, in publishing the advertisement of the opening of the Public Schools, made one of the errors sometimes inseparable from the types. The schools commence on next Monday, the 4th, and not the twenty-fourth.

Fatal Accident.

The eleven o'clock freight train from Chestertown, on Tuesday last, on entering the deep cut above Kennedyville, discovered a man lying on the track. Every effort was made to stop the train, in vain, and the man was literally torn to pieces, so much so that his remains were taken up with shovels. He was a sandy-haired man, could not be identified, and is supposed to be one of the numerous tramps about the county. A bottle was found near him. He was taken to Kennedyville and buried.

Our New Office.

The present number of the TRANSCRIPT is issued from our new office in the old M. E. Church building, which was purchased by the Rev. Samuel W. Thomas, and by him fitted up, where we shall be glad to see our friends. Our office is on the first floor and runs through from the Town Hall front to the front next to the hotels. On the immediate High street front are two very fine double offices, one of which has already been rented by C. H. Baker, Esq., as an attorney's office, and will be occupied in a few days. The other is not yet rented. On the second floor are two fine lodge rooms, one of which is occupied by Amicable Lodge of Odd Fellows, and the Sons of Temperance. The other is not rented, and will suit the Masonic Order much better than the Grand Jury room in the Court House, which they have occupied so long.

Our printing office fronts next to the Voshell House and communicates with our private office fronting the Town Hall. Mr. Thomas has shown a commendable public spirit in fitting up this building before he had secured a tenant for a single room. We have no doubt that every one of them will shortly be occupied. The comparative safety from fire in our present quarters, was the main inducement to abandon the premises which we occupied over fourteen years—and which are for rent the balance of the year.

Other Improvements.

The Rev. Mr. Thomas has also fitted up the old Tilghman house, on High street, converting the lower floor into two handsome store rooms. A back building has been also added, which, with the two upper stories of the main building, give a large and convenient dwelling. The house will be occupied by Mr. William Parks & Son, and daughter.

Mr. Thomas's improvements have been made by Robert K. Pippin, contractor and builder, in a rapid, neat and workmanlike manner. The painting by C. H. Davis & Bro., plastering by James U. Coleman & Sons, and bricklaying by B. H. Gardner.

Another.

Under the skillful manipulation of Mr. Montgomery Stuart, the Public School building in this town has been thoroughly changed in appearance by a handsome addition in rear and second story, giving three additional rooms. It will be surmounted by a belfry, in which the patrons of the school are expected to put a bell.

The addition will somewhat relieve the rope-walk-like appearance of the old building, and will be conveniently arranged for the several departments. There will now be five departments in this school, embracing the six primary grades, and a part of the high school course.

The school will open on Monday, with Miss Hallie Ruth as an additional teacher to the old corps.

The Public Schools will commence the [illegible] year. Parents should consider that it is almost impossible for their children to advance unless they attend school regularly.

New School House.

Mr. Robert K. Pippin has just finished a very neat school house in Worton, 20 x 27 feet, with a vestibule, and 10 foot ceiling. This is an improvement which has been long needed; indeed, the school of that district was almost without a house. The new house will have a seating capacity of about fifty, and will be seated with the Stevens school desk. Mrs. George Stephens is the efficient teacher.

Trial of a Fire Extinguisher.

The trial of the Holloway Fire Extinguisher, which came off on Thursday of last week, was too late for our issue of Friday. The extinguisher used was one of Mr. Holloway's large sized engines, with a capacity of 180 gallons. The water tanks are filled with water, in which is put a considerable quantity of carbonate of soda; in the mouth of the tank is a jar of sulphuric acid which, when action is desired, is precipitated into the soda water, forming carbonic acid gas, the pressure of which upon the tanks forces the water and gas out upon the fire, both water and gas acting as extinguishers. The experiment was made upon a large pile of boxes, barrels, &c., saturated with coal oil, and was the severest test to which the machine could have been subjected. In four minutes and a half from the time the hose were turned upon the flames it was entirely subdued. The fire was the hottest we ever felt, yet almost immediately after the engine commenced to play those in charge were able to approach the pile—the cooling process or effect, being one of the valuable points claimed for the extinguisher. The result of the experiment was entirely successful as an extinguisher, and yet we doubt the wisdom of relying upon such an engine in our community, where fires occur but seldom, and where there is no regular fire department, or skilled firemen. Again, we are not satisfied that the extinguisher would be effective against fire as distinguished from flame.

A committee was present for the purpose of making a report, which we await with some curiosity.

New Dwelling House.

Among the recent improvements the dwelling house of Thomas W. Eliason, Jr., on Spring Avenue, is worth looking at. On the lot immediately opposite his father's residence, Mr. Eliason has erected on terraced ground, a large, handsome two-story dwelling, with back buildings. The building is very commodious, conveniently arranged, and thoroughly finished from top to bottom. The papering is just being completed. The building is nicely located, and affords a fine view of the surrounding country from the upper chambers, and when the grounds are fully put in order will make a handsome improvement to the town. The carpenter's work was done by A. H. Rockwell, bricklaying and plastering by James U. Coleman and Sons, and painting by C. H. Davis & Bro.

Delegates

To the Democratic State Convention.—In the proceedings of the County Convention, as handed to us for publication, there was an error in naming one of the delegates to the State Convention—David Jones for Richard W. Jones. The delegates are, Col. George W. Spencer, William B. Wilmer and Richard W. Jones—the same as those who attended the last State Convention.

Old Kent.

Having exhausted the manuscript copy of Old Kent, furnished by Colonel Hanson, we have nothing upon that subject this week. We are not advised whether the Colonel will continue its publication as heretofore.

LARGE FIRE AT THE CENTENNIAL—GREAT EXCITEMENT AT THE ATLAS HOUSE.

A fire of considerable magnitude and entailing a large loss, occurred Saturday morning at an early hour, within an enclosure situated about an eighth of a mile from Machinery Hall, between the Atlas Hotel and the Pennsylvania railroad, within which are stored, in sheds built over them, all the packing boxes in which the goods for exhibition were transported to the centennial. These boxes were of all sizes and shapes, and were built expressly for the purpose for which they were located here until after the exhibition, when they were to have been again brought into requisition when the goods were to be returned home after the exhibition closed. The Philadelphia Bulletin says: The fire was undoubtedly an incendiary one, but no one has as yet been arrested. Owing to the distance from the tracks of the Pennsylvania railroad their trains were not detained. The heat was such that the track which runs through the lot between the sheds was considerably damaged, the ties burned and the rails bent into inconceivable shapes.

The sheds burned were those which contained the most of the English goods in the main building, the American and French exhibits in the main and art buildings, and the Mexican, Spanish, Austrian, Norwegian and German paintings in the art gallery. The loss will of course be considerable, and workmen will at once be placed at work repairing the damage.

The English and Canadian cases, as indeed were all the foreign ones, were very fine and valuable ones, being all built of heavy material, iron-bound, and lined with zinc or tin. The English loss will be about $2,0 0, the American the same, and the others far less. Very fortunately the exact shape and measurement of each box was taken before it was

As the flames rose to an unusual height the fire was visible from a great distance, and the report was prevalent for some time that the fire was raging in the Atlas Hotel. In this immense caravansary everything and everybody was in the most complete confusion. The hose had been carried from Elm avenue through the corridors, the hose in possession of the hotel company had been attached to the plugs within the building and streams of water were running in every direction. The guests were aroused from their sleep and were in a panic, scarcely knowing whether they were on hand for a deluge, or whether the end of the world had come. All rushed pell mell from their rooms in night array, with their valuables and clothes under their arms, and for a time the vacant lot in front of the hotel very much resembled a mammoth dressing establishment, lit up as it was by the flames as light as noonday. There was no sleep for the balance of the night, but at nine o'clock this morning all partook of a second supper and retired to bed to sleep off their fatigue and excitement.

☞Despatches received at London from Vienna say that the Great Powers are constantly exchanging telegrams concerning the proposed mediation between Turkey and Servia, and that a general agreement has been reached touching the principal features of the policy to be pursued, but the details are unsettled. Austria will be invited to take the initiative in submitting the mediatory proposals. Although Montenegro did not join Servia in asking for mediation, Prince Nicholas has informed Prince Milan that he (Milan) need not consider himself bound to keep the agreement entered into at the beginning of the war that neither should separately enter on peace negotiations. The Diplomatic Agents of the Powers have formally notified the Servian Prime Minister that their respective Governments have taken in hand the subject of mediation. Official advices have been received at Belgrade that an attack by the Turks on the Servian left on Monday was repulsed with heavy loss ty the former, who left their killed and a large quantity of arms and ammunition on the field. A Turkish attack on Little Zwornick was also repulsed.

WHO ROGUES SUPPORT.—The canal thieves support Ex-Governor Morgan with as much gusto as the thieves of the Whisky Ring and Indian Department suppose Hayes. Morgan did nothing while Governor, to interfere with that corrupt ring in New York State, and Hayes, while in Congress, allowed "extravagance and misgovernment," as the Tribune puts it, to go on without a protest. We do not say that all Republicans are rogues, but all rogues support Hayes and Morgan.

Iron in the Blood

PERUVIAN SYRUP AN IRON TONIC

MAKES THE WEAK STRONG.

The Peruvian Syrup, a Protected Solution of the Protoxide of Iron, is so combined as to have the character of an aliment, as easily digested and assimilated with the blood as the simplest food. It increases the quantity of Nature's Own Vitalizing Agent, Iron in the blood, and cures "a thousand ills," simply by Toning up, Invigorating and Vitalizing the System. The enriched and vitalized blood permeates every part of the body, repairing damages and waste, searching out morbid secretions, and leaving nothing for disease to feed upon.

This is the secret of the wonderful success of this remedy in curing Dyspepsia, Liver Complaint, Dropsy, Chronic Diarrhœa, Boils, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Diseases of the Kidneys and Bladder, Female Complaints, *and all diseases originating in a bad state of the blood, or accompanied by debility or a low state of the system. Being free from Alcohol, in any form, its energizing effects are not followed by corresponding reaction, but are permanent, infusing strength, vigor, and new life into all parts of the system, and building up an Iron Constitution.*

Thousands have been changed by the use of this remedy, from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial.

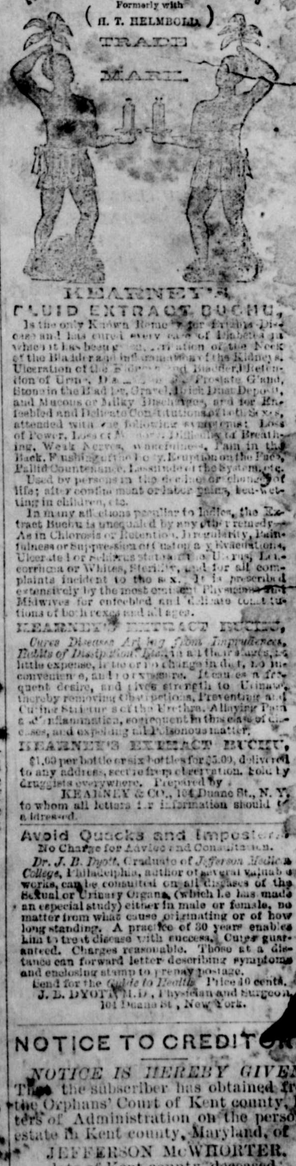

See that each bottle has PERUVIAN SYRUP *blown in the glass.*
