Chestertown Transcript.

TUESDAY, DEC. 17, 1878.

Mr. C. F. Stam issues a Christmas Journal, entitled THE LITERARY NEWS, which contains many illustrations, and notices of desirable books, both for Christmas presents and for the library. Call and get a number.

MOTHERS, do not let your darlings suffer with the Whooping Cough, if you have a remedy so near at hand. Use Dr. Bull's Cough Syrup, and the little sufferers will soon find relief. Price 25 cents.

Handsome Stone.—W. S. Register is finishing a very handsome stone for the grave of the son of Lewin Usilton, Esq., who died last spring, just as he was blooming into manhood. It is a neat piece of workmanship, and does Mr. Register credit.

IF you should have a lame horse, and have used every remedy without success, invest 50 cents in a bottle of Keller's Roman Liniment, and if *that* fail's you may rest assured that he is a gone case.

A Fine Ox, belonging to William Ford, Esq., living near town, while passing through Chestertown, on Saturday last, trod on the blade of a shoe-knife, which ran about two inches into his right fore-foot, entering at the opening of the hoof at the back of the foot. Mr. Louis K. Stam, after the blade was withdrawn, applied a healing liniment to the wound.

Wedding.—Many persons were compelled to break in on their usual morning snooze last Wednesday, in order to get up in time to see the wedding ceremony at the M. P. church. The groom was Mr. Newnam of Alexandria, Va., and the bride Miss Jessup of this county. The Rev. Dr. J. T. Murray performed the ceremony, and the bridal party left on the steamer B. S. Ford.

Two of our young merchants have also, lately, left the evil ways of old-bachelordom, and have settled down to the earnest business of life, by taking to themselves each a young wife; we refer to Mr. A. J. Cahall, who has taken Miss Ruth Moody to be queen of his household, and to Mr. James Bradley, who has selected Miss Jo Davis to reign over his heart and home. Both the couples took a brief wedding tour. May their wedding tour through life be long, and attended with many blessings.

Reopening.—The M. E. Church, at Sassafras, having undergone thorough repair, was reopened last Sabbath. Rev. J. B. Mann, of Union M. E. Church, Wilmington, preached both morning and night. The building being of brick, the walls were very damp, but this has been remedied by studding and lathing. The walls have been nicely papered, and the whole interior repainted. The whole cost $350, which was secured by cash and subscriptions at the morning and night collections.

The Small Boy is an institution that has to be tolerated every where, but he sometimes makes himself an unmitigated nuisance. Some of the small boys of this town have several ways of amusing themselves, that are neither funny nor witty, so far as we can see. One way is for a congregation to assemble in front of a house, after dark, when they cannot be recognized, and howl, like a lot of lonesome dogs of a moonlight night. Another trick of these youngsters is to fill their pockets with peas or beans, and throw them against the large panes of the show-windows. We speak of these as small boys, because we think a large boy would have more self-respect than to prowl around of nights, making himself a nuisance, in such a small way. We believe the number is limited to a very few, and would advise our boys who respect themselves not to be seen with those youths who are inclined to petty outlawry.

More Big Hogs.—We gave last week some weights of big hogs, but it seems we left some of the deceased porkers off our list, that were fully entitled to honorable mention. William Perkins slaughtered four weighing respectively 459,—423,—387,—and 381 lbs. Catherine Tumy, one weighing 426, the three largest of the above mentioned hogs aggregate 1308½ lbs. They were of the Jersey breed, and were only sixteen months old. A pig bought of James Toulson, only six months old, weighed 207 lbs.

Since the above was put in type we learn of some other large hogs: Mr. E. S. Clothier, of Poplar Neck, killed three which weighed 1,894 pounds, an average of 631 pounds each. Mr. Frank Baker, at Bakersville, killed three which aggregated 1,490 pounds. Mr. John N. Usilton killed four weighing 1,606; Sheriff Davis five weighing 1,605; Mr. Milton Baker one weighing 464; Mr. George Cannon one weighing 334; Mr. John Carroll two weighing 810; Mr. Ambrose Carroll one weighing 346; James Russell one weighing 289 pounds.

Church Dedication.—Next Sunday, the 22d inst., is the day for the dedication of the new Catholic Church, which is now nearly completed. As the finishing touches are being put upon it, it is evident that the church is going to be a handsome one. The upper or audience room is handsomely finished, the ceiling and walls being white-coated and ornamented in a tasteful manner. Stained glass windows shed a mellow light into the chamber. The altar is a beautiful piece of workmanship. The pews are well arranged and have, including those in the gallery, a seating capacity of about three hundred. Outside, the church is attractive in appearance as inside; the front door is approached by a flight of massive granite steps, and there is in front quite an ornamental iron fence. The edifice reflects credit upon those who planned and upon those who put the planning into execution. The brickwork was done by Mr. Robt. R. Calder. Mr. H. M. Stuart did the carpentering, Mr. Chas. H. Taylor the plastering, and Mr. John Davis the painting. All these gentlemen are home mechanics, and the building altogether testifies to the skill of their workmanship. Rev. George S. Bradford has worked, from the beginning of the church up till the present, with an energy that would insure success in almost any undertaking.

CHRISTMAS IS ALMOST HERE,

Indeed we think, some of our young folks are beginning to snif it in the air and to feel it in their bones—if we may so express it—and if the older folks don't know that Christmas is coming by the same signs, all they have got to do to convince themselves of the fact, that Christmas is not far off, is to walk out and take a look around the streets of Chestertown. If they see people hurrying along, with mysterious boxes and packages, under their arms it's a pretty good sign. If they see fat turkeys laying around bottom upwards, on goods boxes, looking as though they were all ready to be roasted, that's another pretty good sign. But if those tokens do not convince you that Christman is almost here, just step inside some of our town store-rooms, and you will have the matter reduced to a positive certainty. First our druggist,

C. F. STAM,

has many things that are both beautiful and useful. Bohemia Toilet sets, all kinds of vases, ladies work baskets, card receivers, jewelry cases, writing desks and books beyond description elegantly bound, and beautifully printed. If you want to make somebody a present you cannot well fail to find what you want,—but if you do not find exactly what you are looking for, just step over to

T. W. WICKES'

who has also recognized the fact that Christmas is coming, and has laid in a supply of books of poetry, fiction, essays, travels, all the portfolios, photograph albumes, dressing cases, picture frames, for Christmas presents that we haven't room to tell about.

And now we say unto you, young man, if there is any young lady in this town or elsewhere, whom you have been keeping up late of nights during the past year, and whose mother's parlor chairs you have occupied *several* times, don't forget it's Christmas and don't forget that T. W. Wickes and C. F. Stam have something that that young lady would highly appreciate as a Christmas present.

And by the way, there is our popular confectionery man

SPARKS,

who has also laid in many elegant articles suitable for Christmas gifts, such as clocks, fine scroll work, beautiful styles of lamps, jewelry, toys of various kinds and descriptions, beside all kinds of confectionery, grapes, foreign fruits, and lots of other beautiful things and good things that we have failed to mention.

Perhaps some of our lady friends want a new bonnet or something in the millinery line, there is

MRS. H. USILTON

just below Wickes' drug store, and

MRS. FIDDIS'

nearly opposite the M. E. Church at either of which places you may be fitted out in bonnets, ruffles, feathers, flowers, or most anything else that the feminine fancy may call for. Further down the street, just opposite the bank is

MRS. MELVIN'S,

who has laid in a large assortment of handkerchiefs, collars, cuffs, pictures, picture frames, oil chromos, and many other things.

The people who generally take most stock in Christmas we believe are the boys and girls, and there are lots of things that are gotten up specially for their benefit.

V. BURGESS

opposite the bank, is well supplied with dancing monkeys, drums, kitchen and tea sets, pianos besides candies, fruits, nuts and other nice things for both old folks and young.

HUDGINS

the baker, makes not only good pastry and pies, but has got in a large lot of fruits for Chrisimas, currants, figs, raisins, dates, &c., &c., and there is

J. G. HUDGINS

who also has a large stock of butternuts, almonds, candies, toys, lemons, oranges, etc., etc.

Christmas is the time when everybody wants something good to eat and there is

C. W. KENNARD

who keeps country produce, fish, sausage, jellies, buckwheat and other things good for the inner-man. We had like to have forgotten

MRS. K. M. KILL

opposite the Voshell House, who has started a new millinery and fancy store, and has a full line of bonnets, ribbons, feathers and flowers and

J. L. GILL

has also a ladies shoe store under the same roof, where you can get the finest shoes or the most substantial ones you may want.

J. K. ALDRIDGE

our hardware man has stoves of all varieties, cook, parlor, or any other kind, all kinds of cutlery, beautiful platedware, guns and most every thing that can be thought of in the hardware line.

J. W. HINES,

below the bank also keeps a large variety of stoves and also a large line of agricultural implements.

T. W. ELIASON, Jr.,

has a large assortment of new goods, all kinds of ladies dress goods, from the finest down to the cheapest calicoes, shawls, balmoral skirts, kerseys, blankets, carpets in great variety.

WICKES & BROTHER

can fit you up in a new suit fit for Christmas or any other time. Also keeps good old rye whiskey, port wine, beside other goods of various kinds.

J. F. CONNELLY & Co.,

clothiers, also have a full line of hats, caps, notions, hosiery, neckware, undershirts and various other kinds of goods.

J. B. SAPPINGTON

deals in first class groceries, also in tobacco, segars, queensware, stone and glassware, dry goods and notions, boots, shoes and country produce.

JOHN BELL,

opposite the bank, keeps family groceries, tin, wood and willow ware, domestic and foreign fruits, nuts, &c., and takes county produce in exchange.

J. E. TAYLOR

wants to buy or freight 50,000 bushels of grain, gives the highest market price, and attends to all business intrusted to him promptly.

WM. PERKINS

keeps a restaurant where good oysters may be had, served in any style, also has shell lime for sale.

New Organ.—Amicable Lodge of Odd Fellows, of this town, have purchased a 12-stop Beatty organ, a very handsome instrument, for use in their hall.

Jo Thompson's lecture, last Tuesday night, was very slimly attended, owing to the very inclement weather.

The Cheapest Newspaper in America.—The Centreville (Md.) *Observer*, a large-eight column weekly, has cut is subscription price down to *seventy-five cents a year*, being just about the cost of the white paper and the ink. This makes the *Observer* the cheapest newspaper published in America. It is a first-class journal, and is now certainly cheap enough for everybody to subscribe to it who wants a paper at all.

The *Observer* and the *Record* of Centreville have got into warfare, the *Record* reduced subscription rates to $1.00 and the *Observer* follows suit by cutting to 75 cents. People are willing to do the fair thing by a county paper, and our friends over the river are simply bleeding themselves. 75 cents about pays the primitive cost of paper and ink, and there is no remuneration to the publisher in such a price. We think the sooner our friends come to an agreemegt upon a fair price, the better it will be for them financially. It is too thin a move to catch new subscribers,—persons who want a county paper at all, will not grumble if the editor makes a fair profit on his paper, as the merchant does on his goods.

Orphans' Court, Tuesday, Nov. 26.—Present, Judges Nicholson, Shalleross and Wilson. R. Hynson, exec'r of John L. Bowers, returned an inventory of the personal estate of said deceased, and received an order for sale of same. A power of attorney from Milnor Jones to Wilmer & Wirt, of Baltimore city, was received and ordered to be recorded.

[COMMUNICATED.]

From the Chestertown Telegraph, of 2d June, 1826.

TO THE CITIZENS OF KENT COUNTY.

The undersigned having been appointed a committee for the purpose of adopting measures to suppress the evil practice of electioneering by treating, deem it right and proper to submit the subject to the consideration of the citizens of Kent county generally, and they therefore beg leave to request a meeting of the citizens of said county, to be held at the Court House, in Chestertown on Tuesday the 13th inst, at 11 o'clock A. M., to devise some plan for preventing the continuance of a practice which is contrary to morality, religion and the principles of good government.

PUBLIC MEETING.

At a meeting of a considerable number of citizens of Kent county convened at the Court House in Chestertown, on Tuesday, the 13th day of June, 1826, agreeably to public notice, William Barroll, Esq., was called to the chair and Alexander B. Hanson appointed secretary.

On motion, Resolved, unanimously, that a committee of five persons be appointed by the chair for the purpose of submitting to this meeting some plan for preventing a continuation of the evil practice of electioneering by treating and other improper means, whereupon Messrs. John B. Eccleston, Joseph T. Mitchell, Edward Anderson, Francis Lamb and John Hanson were appointed said committee, who having retired for a short time, and considered the subject, returned and submitted the following report and resolutions, viz:

The committee appointed to submit to this meeting some plan for preventing a continuation of the evil practice of electioneering by treating and other improper means, having considered the subject and believing that the free and unbiased exercise of the elective franchise will always prove the best security against dangerous innovations, and the designs of bad men, in republican governments, and being fully convinced, that the free use of ardent spirits in electioneering can never be necessary to enable voters to arrive at correct conclusions upon important political questions or to ascertain the merits of a candidate, the committee would recommend the adoption of the following resolutions.

Resolved, that hereafter in giving our votes at elections we will select among the candidates such individuals, as will not, either by themselves or their friends, with their concurrence, attempt to influence votes, by gifts, treating, or other improper practices.

Resolved that the following gentlemen be requested to obtain signatures to the aforegoing resolutions, viz—

For the lower district, Doctor Thomas Willson, William R. Durding, Captain Thomas Harris, William Copper, Daniel Copper, William B. Willmer, Captain Thomas B. Hynson, Emory Edwards, James P. Gale, Francis Lamb, Thomas Miller and Major Richard Graves.

For the middle district, Edward Anderson, John Wroth, Levi Wroth, Solomon Scott, John H. Kennard, William H. Barroll, Joseph Rehue, Doctor Peregrine Wroth, John B. Eccleston, Edward Nicholson, John Hanson, William Maxwell, Benjamin Price, John Turner, Charles Stanley, James Mansfield, Doctor Joseph N. Gordon, John Constable and Jeremiah C. Boots.

For the upper district, Doctor Edward Scott, John Turner, Samuel G. Osborn, John H. Nowland, Nicholas Smith, George W. Wilson, Joseph Mann, William Palmer, George Maginnis, James Hurtt, Nathaniel Comegys, Doctor Jon. Frazier, Isaac Taylor, Daniel Jones and Lambert Wickes.

The aforegoing report and resolutions, having been read, discussed, and maturely considered, were adopted by the meeting.

Resolved, that the proceedings of this meeting be published in the *Chestertown Telegraph*.

WM. BARROLL, Chairman.

A. B. HANSON, Secretary.

SAMUEL HORNEY, Esq., who lives a mile or two from Winchester on the farm known as the "Wading-place" met with quite a surprise a few days ago. His aunt some twenty years ago and who is now dead, gave him an old chest. This old chest Mr. Horney had used for many purposes; but having become old and rotten and being totally unfit for further use, it was thrown on the wood-pile. Mr. Horney a day or two ago concluded to break up the old chest and to manufacture the same into kindling wood. He took it up and hearing something jingle about it looked to see what it was. He turned it over and over several times. He could get nothing; still the jingling went on. He then concluded to cut the "old chest" up which he accordingly did, and to his great surprise found that it contained a false bottom. In the vacancy between the bottoms was found a purse containing $30 in gold. The money was counted in six five dollar gold pieces. A note was also found, but the writing was so badly defaced that it could not be read. No doubt it was something from the old lady touching upon the contents of the purse.—*Record.*

THE DUER-HEARN SHOOTING CASE IN WORCESTER COUNTY, MD.

SNOW HILL, MD., Dec. 9.—The remains of Miss Ella Hearn, who was shot about six weeks ago at the residence of her father, James Hearn, in Newtown, Worcester county, Md., were buried on the 5th inst. On the day of the occurrence Miss Lilly Duer paid Miss Hearn a visit. After the two young ladies had conversed pleasantly in the parlor for some time they went to the front door. In a few minutes the mother of Miss Hearn heard the explosion of a pistol, and going into the passage found her daughter with a wound over the right eye. A ball had penetrated the head, from which it never was extracted. Miss Duer, who was standing by, stated that she had been showing the pistol to Miss Hearn, when it accidentally exploded. The young ladies were each about eighteen years of age, highly respectable and quite pretty. Hopes were entertained for some time of the recovery of Miss Hearn, but she gradually grew worse until she died on Friday last. It was rumored that she stated repeatedly during her illness that the shooting was intentional, but the rumor is not authenticated. It is generally believed, however, that the sad affair was accidental. The coroner's inquest decided that Miss Hearn's death resulted from prostration caused by the pistol shot; and Miss Duer was subsequently arrested and held to bail in the sum of $2,500 for her appearance at court.

THE RECIPROCITY TREATY MOVEMENT.—Mr. James Hodgers, a member of the Baltimore Finance Board, who was one of the American delegates to the Paris conference for a reciprocity treaty between the United States and France, has received advices from Paris that M. Leon Chotteau, the French gentleman who was instrumental in bringing about the conference, will arrive in this country next month, for the purpose of urging upon Congress the necessity for a treaty, such as the conference has recommended, between the two governments. M. Chotteau will be accompanied by M. Daniel Wilson, a distinguished Frenchman, a member of the French Chamber of Deputies, and who has often been spoken of for a cabinet portolio. M. Wilson is the son of an Englishman who gained wealth and distinction by his engineering works in France, and who substituted the use of gas for that of oil in Paris. He left fifty million of francs to his two children, a son and a daughter. The latter purchased the Chatteau de Chenoncean, an ancient castle built in 1512, and located about ten miles from Paris. Mr. Hodges and other Americans were guests at this palace. It is believed that several other Frenchmen, who were members of the conference, will accompany M. Chotteau to this county, to urge Congress to adopt the treaty. They will be seconded in these efforts by the American members of the late conference. Mr. Hodges states that he is in favor of a reciprocity not only with France would have the effect of putting a stop to the smuggling of French silks and other manufactures into this country, which is now largely practiced, and which prevents honest merchants from importing similar goods, as the smugglers are enabled to sell their goods at more than forty per cent. less than those who are not engaged in defrauding the government. A treaty with China and Japan would cause a large export trade to those countries, and would consequently revive business and put to work mechanics and artisans who are now compelled to remain in idleness.

OZONE.

The advance of general intelligence and the progress of science has rendered it necessary that the medical profession re-investigate the

NATURE AND CAUSE OF DISEASE

and if possible discover new and more potent remedies for its cure. It is a well known fact that the science and art of medicine has in no wise kept peace with the advancement of the collateral sciences. Although great improvements have been effected within the last fifty years, as evinced by the fact that blood-letting, blistering, heroic doses or mercury and other

UNSUCCESSFUL METHODS OF TREATMENT

have been superseded by a far more rational system of practice, yet the knowledge of diseases and of remidies for their cure is almost exclusively monopolized by members of the medical profession, while the universal requirements for medical knowledge and remidies to cure disease render it

IMPORTANT THAT EVERY FAMILY

SHOULD BE IN POSSESSION OF SUCH FACTS AS WILL ENABLE THEM TO PERPETUATE LIFE AND ALLEVIATE SUFFERING.

PROF. W. PAINE, . M. M, D.,

The author of numerous works or medicine, and a teacher of more than thirty years in all departments of medicine and surgery, observing that nearly all the information of a medical character designed for the people, emanated from charlatans or medical mountebanks, has determined upon introducing the results of his

SCIENTIFIC INVESTIGATIONS AND DISCOVERIES

DIRECTLY TO THE AFFLICTED, so that all may receive the benefits of a long and arduous life of medical and surgical research and triumphant discoveries. The result of his researches is that Ozone is the

ANTISEPTIC ELEMENT

that prevents decay, fermentation and disease of all organic structures; that the atmosphere is pure and healthy only when

CHARGED WITH OZONE;

that its absence generates disease; that salt preserves meat when ozonized, and when the Ozone is removed the meat decays; that when the body is properly charged with Ozone,

DISEASE CANNOT EXIST,

and that its absence gives rise to almost every conceivable malady, such as CATERH, CONSUMPTION, DYSPEPSIA, KIDNEY DISEASE, SKIN AFFECTIONS, NERVOUS DEBILITY, NEURALGIA, ALL FORMS OF FEVERS, RHEUMATISM, DIPHTHERIE, CANCER, and the growth of PARASITES.

The parasites, or microscopic germs, that creates disease, exist in the air, water and food, as well as in all portions of the body, but they are prevented from affecting the healthy tissues as long as the

BODY IS PROPERLY OZONIZED.

The Doctor has discovered a method of producing Ozone both a POWDER AND LIQUID FORM.

LIQUID OZONE,

OR CATARRH VAPOR, when nhaled or take into the stomach, antagonizes IVRY FORM OF DISEASE, PURIFIES THE BLOOD, and almost immediately RESTORES THE PATIENT TO HALTH. It is perfectly innocent, and may be used with the greatest freedom by every one. It is put up, WITH FULL DIRECTIONS, in four ounce bottles at 50 cents, and eight ounce bottles, $1.

He also has prepared a pill, the

LIVER RENOVATOR,

that is highly ozonized, so that, while it purges the Liver, it disinfects the body and kills the germs of disease. 25 cents a box. The

BLOOD, STOMACH AND LIVER TONIC

gives tones to the stomach and body and enriches the blood. $1 per bottle. The

ANTISEPTIC OR ANTIPERIODIG POWDERS OR PILLS

will cure every form of

CHILLS AND FEVERS,

leaving the system free from disease. $1 per box.

The Professor has also fitted up a large and elegant HOTEL, THE PFABODY, NINTH ST., BELOW WALNUT, PHILADELPHIA, in which he has private consulting offices, and where he receives patients FROM ALL PARTS OF THE WORLD, and cures thousands of cases of Catarrh, Consumption, Cancer, etc., that NO OTHER TREATMENT CAN REACH. No one visiting Philadelphia should fail to stop at the

PEABODY HOTEL.

Invalids wishing to place themselves under the Doctor's professiona, carel may obtain SPECIAL RATES.

Medicines sent when ordered, and for sale by druggists and agents.

The Doctor has also for sale the following works, written and published by himself.

Domestic Practice of New School Remidies, 600 pp., $3.00.

Large Practice, 1000 pp., $6.000.

His "short Hand" Practice will when ordered be mailed on receipt of a three cent stamp.

A Talk With Fruit Growers.

I HAVE now growing, on my farm, a fine seedling Peach Nursery, (from the seed of the Smock,) of over 200,000 trees.

Being from Smock seed, and growing on land that never grew trees before, they must prove especially hardy and prolific.

I shall bud 50,000 (commencing June 15th) for this Fall's planting; such trees will run from 3 to 4 feet in height.

I shall bud the balance in August, for planting the following fall. As must all planters have preference for special varieties, I propose to take orders, before the budding is done, customers furnishing their own buds if they prefer; so that all may be accommodated. Do not fail to give this matter proper consideration, and send in your orders early. By so doing you can secure just the varieties you want; but if delayed till you are ready to plant, nurserymen may not have the kinds you prefer. I will give instructions how to forward buds, upon inquiry.

I HAVE A GENERAL ASSORTMENT OF ALL KINDS OF NURSERY STOCK.

Twenty years' experience as an extensive Fruit Grower and Nurseryman, certainly entitles me to a reasonable share of patronage on this peninsula.

To My Old Patrons and the Public.

PRICES REDUCED TO SUIT THE TIMES.

I RESPECTFULLY desire to say, by this method, to the old friends of my father, who for many long years, was so well and favorably known to this entire community as the *leading* Undertaker, that I am still devoting myself untiringly to its prosecution, in all its departments. And in this connection I desire, particularly and emphatically to say that I can furnish Caskets and Burial Cases, of all kinds, upon the shortest possible notice, at prices much below ANY ONE ELSE engaged in the business in this vicinity. I can do this because I am at less expense than others, and I guarantee full satisfaction in every case, both as regards quality and price.

☞When away on other business, orders may be left with my mother, who resides next door to the shop, and they will receive equal attention as if left with me in person, as she thoroughly understands the business in every particular. I will allow nothing else to interfere with the prompt and efficient execution of all orders with which I am favored.

HEADACHE NEURALGIA PILLS

CELERY PILLS

Dr. C. W. BENSON, a practicing physician, at 106 N. Eutaw St., Baltimore, Md. (who has paid much attention to nervous diseases,) has discovered that Extract of Celery and Chamomile combined in a certain proportion invariably cures either bilious, dyspepsic, nervous or sick headache, neuralgia and nervousness. This is a triumph in medical chemistry, and sufferers all over the country are ordering by mail. He prepares it in pills, at 50c. per box. The doctor is largely known and highly respected in Baltimore."—*Epis. Meth.*

BALTIMORE, July 27, '72

Dr. C. W. Benson's Celery and Chamomile Pills have cured my wife of sick and nervous headache of ten years' standing; she had it every week or ten days, and suffered almost everything but death with it. We think these pills worth their weigth in gold.
