[Ch]estertown Transcript.

THURSDAY, JULY 15, 1880.

A Story, by "Alice Leighton," will appear in our next issue.

The Greensboro' Brass Band is dead. One more crime that lies at the door of the *Middletown Transcript.*

New Advertisements.—The Empire Drill will be found advertised elsewhere. Also, a large number of other new advertisements.

The Annual Picnic of St. Dennis' congregation takes place next Thursday, the 22d inst., and a real good time may be expected. Read the advertisement in another column.

The Oil Painting by John Redue, which Mr. E. B. Jones placed in the Catholic fair last Christmas to be disposed of by chances, will be drawn for on next Saturday, 17th inst, at 10 A. M.,,in Mr. John Hines' office. All interested are invited.

Commission Merchants.—We call the attention of fruit and grain growers and other shippers, to the cards of two reliable Baltimore Commission Merchants, to be found in our advertising columns,—D. N. Robinson and John A. Stephens & Son.

Personal.—Dr. T. S. Holton, who has for a number of years been a practising physician in Chestertown, has removed to Baltimore. The doctor has for a long time been suffering from ill health, and he has gone to Baltimore with the hope that a change may prove beneficial.

The first excursion of the season from Baltimore to Chestertown, came on Monday. A few of the excursionists secured the armory and spent their stay in dancing The balance roamed around in the beautiful 100-degree country sunshine. The party came on the steamer Keyport, and numbered about 450.

Remember the military excursion to-morrow. Every arrangement has been perfected, and the "Guards" promise a delightful time to all who go. Do not allow a possible rainy morning to prevent you from going, as the afternoon might prove a beautiful one. Delightful music, both brass and string, constantly playing. Go and have a good time.

A Large Addition in numbers to the Kent Guards is about to be made by the young men of Still Pond. We learn that last Saturday evening Lieuts. Bordley and DeFord received twenty-seven applications, (with a promise of five or six more) for membership in the Guards. The Still Pond members, we learn, will form a squad and drill at the village; on all parades they will unite with the Guards in full uniform.

Cape May.—Next Wednesday, the 21st inst., is the day for the first excursion of the season to Cape May. Beside the fine bathing and other usual attractions, it is rumored that Gen. Hancock, the Democratic nominee for President, and other notables, will arrive there that day. The Fifth Maryland regiment, of Baltimore, will go into camp at Cape May on Saturday and very probably will be there on Wednesday the 21st instant.

Hot Weather.—Last Tuesday was the hottest day we have had this summer. The thermometer reached 100° in a position where, we learn, it has hung some eighteen years, but never before reached above 98°. In the Transcript office, however, it was quite pleasant. A strong N. W. wind swept through during the entire day, making it necessary to weight down copy and exchanges in order to prevent the breeze from carrying them away.

Purchase of a Steamer.—Messrs. Hines, Taylor & Co., have purchased the steamer Massachusetts, and intend running her regularly from Crumpton to Baltimore. We learn they have had her machinery thoroughly overhauled and she is now pronounced by the U. S. inspectors to be in a splendid condition. She will commence her regular daily trips, as will be seen by advertisement in another column, on Monday, July 19th. The Massachusetts is fitted up with sleeping accommodations for 100 passengers.

A Burglarious Attempt to enter the dwelling of Rev. E. B. Newnam, in this town, was made, at a late hour last Sunday night, but was frustrated just as the burglar was about to enter the kitchen through one of the windows. Miss Newnam had not retired, and before doing so, as it fortunately happened, in looking out of her chamber window, her attention was arrested by a figure stealthily creeping toward the rear of the house, which she kept in view, and gave an alarm as she saw him about to effect an entrance. The fellow fled at Miss Newnam's outcry, and made his escape.

Handsome Altars.—Mr. E. C. Reiche, of our town, has just finished and put in place in the Catholic church, here, two handsome and tasty side altars. They are of Gothic design. Each altar is surmounted by a statue, one representing Mary, the beloved mother of God, with the infant Saviour in her arms, and the other St. Joseph, the humble spouse of Mary. These statues stand in very beautifully designed and ornamented niches, the back ground of which being of the richest carmine,imparts a delicate tint to the statues, which are painted a pure white, and causes them to present a beautiful appearance to the beholder.

These altars fill the vacant places on either side of the main altar and add considerably to the beauty and appearance of the interior of this tasty little church.

The altars were a gift of a distinguished lady.

The workmanship on the altars is very fine and reflects great credit upon Mr. E. C. Reiche, and goes to prove that if our people here would only appreciate their mechanics and give them a chance instead of running away to parties in many cases inferior to their own mechanic at home, things would brighten up in our little town and it would acquire quite a reputation.

The Drowning of Captain Clayton---His Body Recovered.—On last Thursday afternoon, on the return trip from Baltimore to Morgan's creek, Capt. W. W. Clayton, of the schooner Osprey, was accidentally knocked off his boat and drowned, just after having passed through the draw of the Chester river bridge. After passing through the draw he jibed the vessel for the purpose of stopping to leave some provisions for his family, which reside in Chestertown. In doing so the cleat to which the mainsail's rope was fastened was jerked off and swung violently across the deck, it and the rope striking the Captain, who was at the helm, and knocking him into the river. The vessel was under considerable headway, and before assistance could be rendered the Captain had disappeared, having been seen upon the surface but once. It is supposed that he was materially injured by the stroke, as he was known to be a good swimmer and otherwise could have kept afloat sufficiently long to have been rescued. His body was not found that afternoon nor on the following day; but on last Saturday morning it came to the surface, and was found floating down the river, nearly opposite Hubbard's phosphate factory and not far from the Queen Anne's shore. The body was not more than a quarter of a mile from the place of drowning. The body when brought ashore was much swollen and considerably disfigured. An inquest was held over the remains, the jury deciding that deceased came to his death by accidental drowning, being knocked overboard by the giving away of a cleat. The remains were buried on Saturday afternoon.

Captain Clayton was a widower, and leaves behind him four helpless and grief-stricken children, aged from six to twelve years. There is one boy and three girls. Their pitiful condition appeals to everybody for kindly sympathy and, if need be, for more substantial aid. The father was kind and affectionate, and greatly beloved by his children, who have given way to unbounded grief since his death.

The drowning of Captain Clayton on Thursday, was only worse than a former misfortune, in being fatal. Several years ago he was attacked in his cabin while lying at a Baltimore wharf, his head and face mutilated with a hatchet, and robbed of a large sum of money. His life was despaired of for many weeks, but he finally recovered with the loss of an eye.

Found Dead in Bed.—Wm. Thomas, son-in-law of Thos. P. Dixon, Esq., near Chestertown, was, we learn, found dead in bed yesterday morning, at the residence of the latter, where he made his home. Mr. Thomas, it is said, had recently been using spirituous liquor to excess.

Wednesday's Grain Market.—Southern Wheat was again 1 cent lower for the extreme grade, and the market closed easy, with the outside figure scarcely obtainable. Sales were at 95 cents at $1 05 for very common, 1 12a$1 14 for Fultz, and at 1 14½a$1 16 for long-berry.

Drowning Accident at Tolchester.—Tuesday last, about noon, James H. Brownley, aged 14 years, was drowned whilst wading in the pond. The lad, with his mother, sister and a younger brother, had just landed from the Baltimore steamer, and obtaining his mother's permission, waded out a short distance into the pond, when, stepping into a deep hole, he sank. His mother, (who with the two other children had remained at the margin of the pond,) rushed to his rescue, and also sank, and would have drowned, but the younger son waded in and pulled her out by the skirt of her dress. The boy's body was soon recovered from the water, but all efforts at resuscitation proved vain.

An Old Document.—A gentleman of Chestertown, in looking over some old papers a short time ago, came across a document that dates back very nearly a century—to 1782 and 1783. It will prove interesting to the people of Kent and of every other county in Maryland, as it will enable each county to ascertain the progress it has made in the last century. The figures represent pounds, shillings and pence, and it will require a little arithmetic to effect a comparison between our financial standing at present and our financial standing one hundred years ago:

Amount of Property within this State for ye year 1782 and 1783:

	1782	1783
St. Mary's	546,227.7.2	561,629.19.4

Claims of the United States against the State of Maryland:

Due on the resolution of Congress the 10th of March 1780, 127,745.9.10. There is also due Congress under the requisito of 1782, 322,975, 18.6; but it is probable this sum the first one included in this State's quota of the Continental debt above mentioned.

Cr.—By advances made by this State in part of the Continental debt 140,000.0.0. By 1/11th of the back lands.

Supposi. 1/11th of the whole of the Continental debt as liquidated by Congress, 1783, 1,431,-875,0.0.

It will be seen that in 1782 property in Kent county was assessed at about $2,547,245 and in 1783 at $2,742,140. In 1879, ninety-seven years later, property in Kent was assessed at $7,532,221, or nearly three times the amount of a hundred years back.

The Population of Kent.—Much to the astonishment of everybody, the population of Kent only foots up about 17,249. Ten years ago it was 17,102, so that the apparent increase is only 147. In Chestertown the increase of population is 490. This would make it appear that outside of Chestertown there has really been a decrease of 343 in the county's population.

The enumeration by districts, for 1870 and 1880, is as follows:

Districts.	1870	1880	Increase.	Decrease.
First	4,419	3,673	000	746
Second	3,247	3,222	000	25
Third	2,454	2,533	79	00
Fourth	3,639	4,235	596	00
Fifth	3,343	3,586	243	00
Total	17,102	17,249	147	

It will be seen from the above that there has only been an increase in the third, fourth and fifth districts. In the first district there is seemingly an enormous decrease. One might suppose that all the young men who have grown up in that district in the last ten years have gone West, and have taken with them their mothers, their sisters, their cousins and their aunts The increase in the population of Galena is said to be 200. The increase of Millington and Massey's may safely be placed at 200 more. Allowing an increase of 400 in the villages, it will cause a decrease of 1,146 in the district outside of the villages. The whole of Kent county has been prosperous in the last ten years, and it was pretty generally supposed that there would be an increase all over the county of at least ten per cent.

In 1870 Queen Anne's county had a population of 16,171, or nearly a thousand less than that of Kent The present census, according to the *Centreville Record*, will give it between 19,000 and 20,000, or an increase of 3,000. There is much complaint of the census in Kent, and many do not hesitate to express the belief that from fifteen hundred to two thousand names have been missed. It is hard to believe that outside of the towns and villages of Kent, the population should have undergone a large decrease, as would seem to be shown by the census returns.

Orphans' Court, Tuesday, July 13, 1880.—Present, Judges Nicholson, Shallcross and Willson.

The Leaders of Fashionable Dress and Low Prices.—C. N. Oehm & Son, proprietors of the largest one-price double Clothing House, Baltimore, now occupy two entire three-story buildings with their splendid stock of Men's, Youth's, Boy's and Children's Clothing. Having bought and manufactured their entire stock before the great advance of woolens, they are selling great bargains in every department for spring and summer wear, which none can afford to overlook. We feel it our duty to call the attention of our readers to this truly famous and reliable establishment, corner of Pratt and Hanover Sts. No one in need of clothing, ready-made or made to order, should fail to call on Oehm & Son and see the low prices at which the most choice and perfect fitting garments are selling.

Literary Revolution and Universal Knowledge.

An Encyclopædia in 20 Volumes, over 16,000 Pages; 10 per cent more matter than any Encyclopædia ever before published in this country, and sold, handsomely and well bound, in cloth for $10, in half morocco for $15, and printed on fine heavy paper, wide margins, bound in half Russia, gilt top, for $20—an enterprise so extraordinary that its success, beyond all precedent in book publishing, may be fairly claimed to inagurate a *Literary Revolution.*

The Library of Universal Knowledge is a reprint of the last (1879) Edinburgh edition of "Chamber's Encyclopædia," with about 40 per cent. of new matter added, upon topics of special interest to American readars, thus making it equal in character to any similar work, better than any other suited to the wants of the great majority of those who consult works of reference, and altogether the latest Encyclopædia in the field.

Specimen Volumes in either style will be sent for examination with privilege of return on receipt of proportionate price per volume.

Special Discounts to all early subscribers, and extra discounts to clubs. Full particulars with descriptive catalogue of many other standard works equally low in price, sent free.

Leading principles of the AMERICAN BOOK EXCHANGE:

I—Publish only books of real value.
II—Work upon the basis of *present cost* of making books, about one half what it was a few years ago.
III.—Sell to buyers direct, and save them the 50 to 60 per cent. commission commonly allowed to dealers.
IV.—The cost of books when made 10,000 at a time is but a fraction of the cost when made 500 at a time—adopt the low price and sell the large quantity.
V.—Use good type, paper, etc., do careful printing, and strong, neat binding, but avoid all "padding," fat and heavily-leaded type, spongy paper and gaudy binding, which are so commonly resorted to to make books appear large and fine, and which greatly add to their cost, but do not add to their value.
VI.—To make $1 and a friend is better than to make $5 and an enemy.

W. Register's

MARBLE WORKS,

Chestertown, Md.

ALLOW ME to tender my sincere thanks for the past patronage of the public, and hope to receive their approval and patronage this present year. I am prepared to cut and finish every design in the marble business.

I have a very handsome assortment of my own finished

TOMBSTONES.

Some of the Latest Designs,

HANDSOMELY FINISHED,

Copied from the Late Paris Exhibition.

A large assortment for children, different patterns, some as low as $6.00, lettering included. Some fifty different patterns for grown persons, handsomely finished, some of them as low as $15.00, lettering included. Also, a fine line of different patterns, expressly for the

QUAKER BURYING GROUNDS,

very thick and heavy and handsomely finished of the best marble.

Marble Posts, marble Vases with Pedestal, Marble Coping, Tombstones and Monuments, of all sizes and styles.

Marble or Sandstone worked to order. I warrant all my work not to color or blister—time has no effect on it. I set up all of my work, thus relieving the purchaser of all trouble or risk.

Come one, come all, that are in want, and examine my work and learn my prices. I will be thankful. Don't send the money out of your own neighborhood.

Call and see me. I do not like to canvass for work, for I think it too sad a business to barter with relatives or friends.

My work can be seen in all the cemeteries of Kent and the adjoining counties.

KENNARD & Co's "Sterling Phosphate,"

$23.00 CASH or $25.00 TIME.

—:O:—

HAVING been used with such great success last Spring on Corn and Vegetables, we have enlarged our Factory, added new and improved machinery thereto and again offer it to the farmers with every confidence in its great worth. We also announce the fact that our capacity will enable us to fill promptly and without a failure, all orders for our goods.

The following are a few of the many testimonials as to the benefits derived from the use of the "STERLING PHOSPHATE" last Spring:

Chestertown, Md., February 21st, 1880.
Dear Sirs: Your Phosphate that I used on my corn last Spring, gave me great satisfaction. I also used your wheat Phosphate last Fall, it is now looking as well as other phosphates on the same land at a higher figure. I expect to use your goods next Spring.
Yours truly, COMEGYS BROWN.

Chestertown, February, 1880.
Kennard & Co.: In reply to your question regarding the action of your Fertilizer, I will just state that I have only tried it on sugar beets. I applied it to my beets last Spring, putting it in the drill before I planted the seed, and notwithstanding the unfavorable circumstances to which the beets were subjected, the yield was far ahead of my most sanguine expectations.
Yours, &c., I. C. TAYLOR.

Chestertown, Md., March 5th, 1880.
Messrs. Kennard & Co—*Gentlemen:* I used your Phosphate last Spring on my corn; applied it at the rate of one handful to three hills, and where I put it the yield was about twenty-five bushels to the acre, and where I did not put any the yield was about ten bushels to the acre. On a portion of the same land I applied barn-yard manure, and the result was about twelve bushels to the acre. Where I used your stuff, the ear was large, well filled and I could not find a worm in a hundred ears, the grains were large and close together. Where I did not use the Phosphate a great many ears were wormy and poorly filled. I can cheerfully recommend it, and will use more this Spring.
Truly Yours, GEORGE W. LONG,

We also keep on hand at all times a full line of

Pure Dissolved and Raw Bone and other Chemicals

for manipulating, and respectfully invite the farmers to procure our prices before purchasing elsewhere.

OHIO CHILLED PLOW,

The Victor!

Read the Plowman's Opinion and Come and Purchase of

KENNARD & CO.

Actual Results as compared with other Plows:

SYNOPSIS OF REPORT

OF JUDGES TO THE KENT COUNTY AGRICULTURAL CLUB.

The "OHIO CHILLED" plow was the lightest, and the "Advance" was the heaviest.

The "OHIO CHILLED" was 27.03 lighter to the cubic foot than the "*Oliver Chilled,*" 33.57 lighter to the cubic foot than the "*Roland Chill,*" and 169.08 lighter to the cubic foot than the "*Advance.*"

and letters to and from plowman:

Chestertown, Md., March 6th, 1880.
J. E. Newcomb, Esq.,—*Dear Sir:* You having been selected, by the Judges, as plowman in the late plow contest held on the farm of Mr. Wm. Morris, Tuesday, the 2d inst., we would be pleased to have your opinion of the "Ohio Chilled" and "Imperial" plow, entered by ourselves. Respectfully requesting an early reply, we remain, Very truly yours, KENNARD & CO.

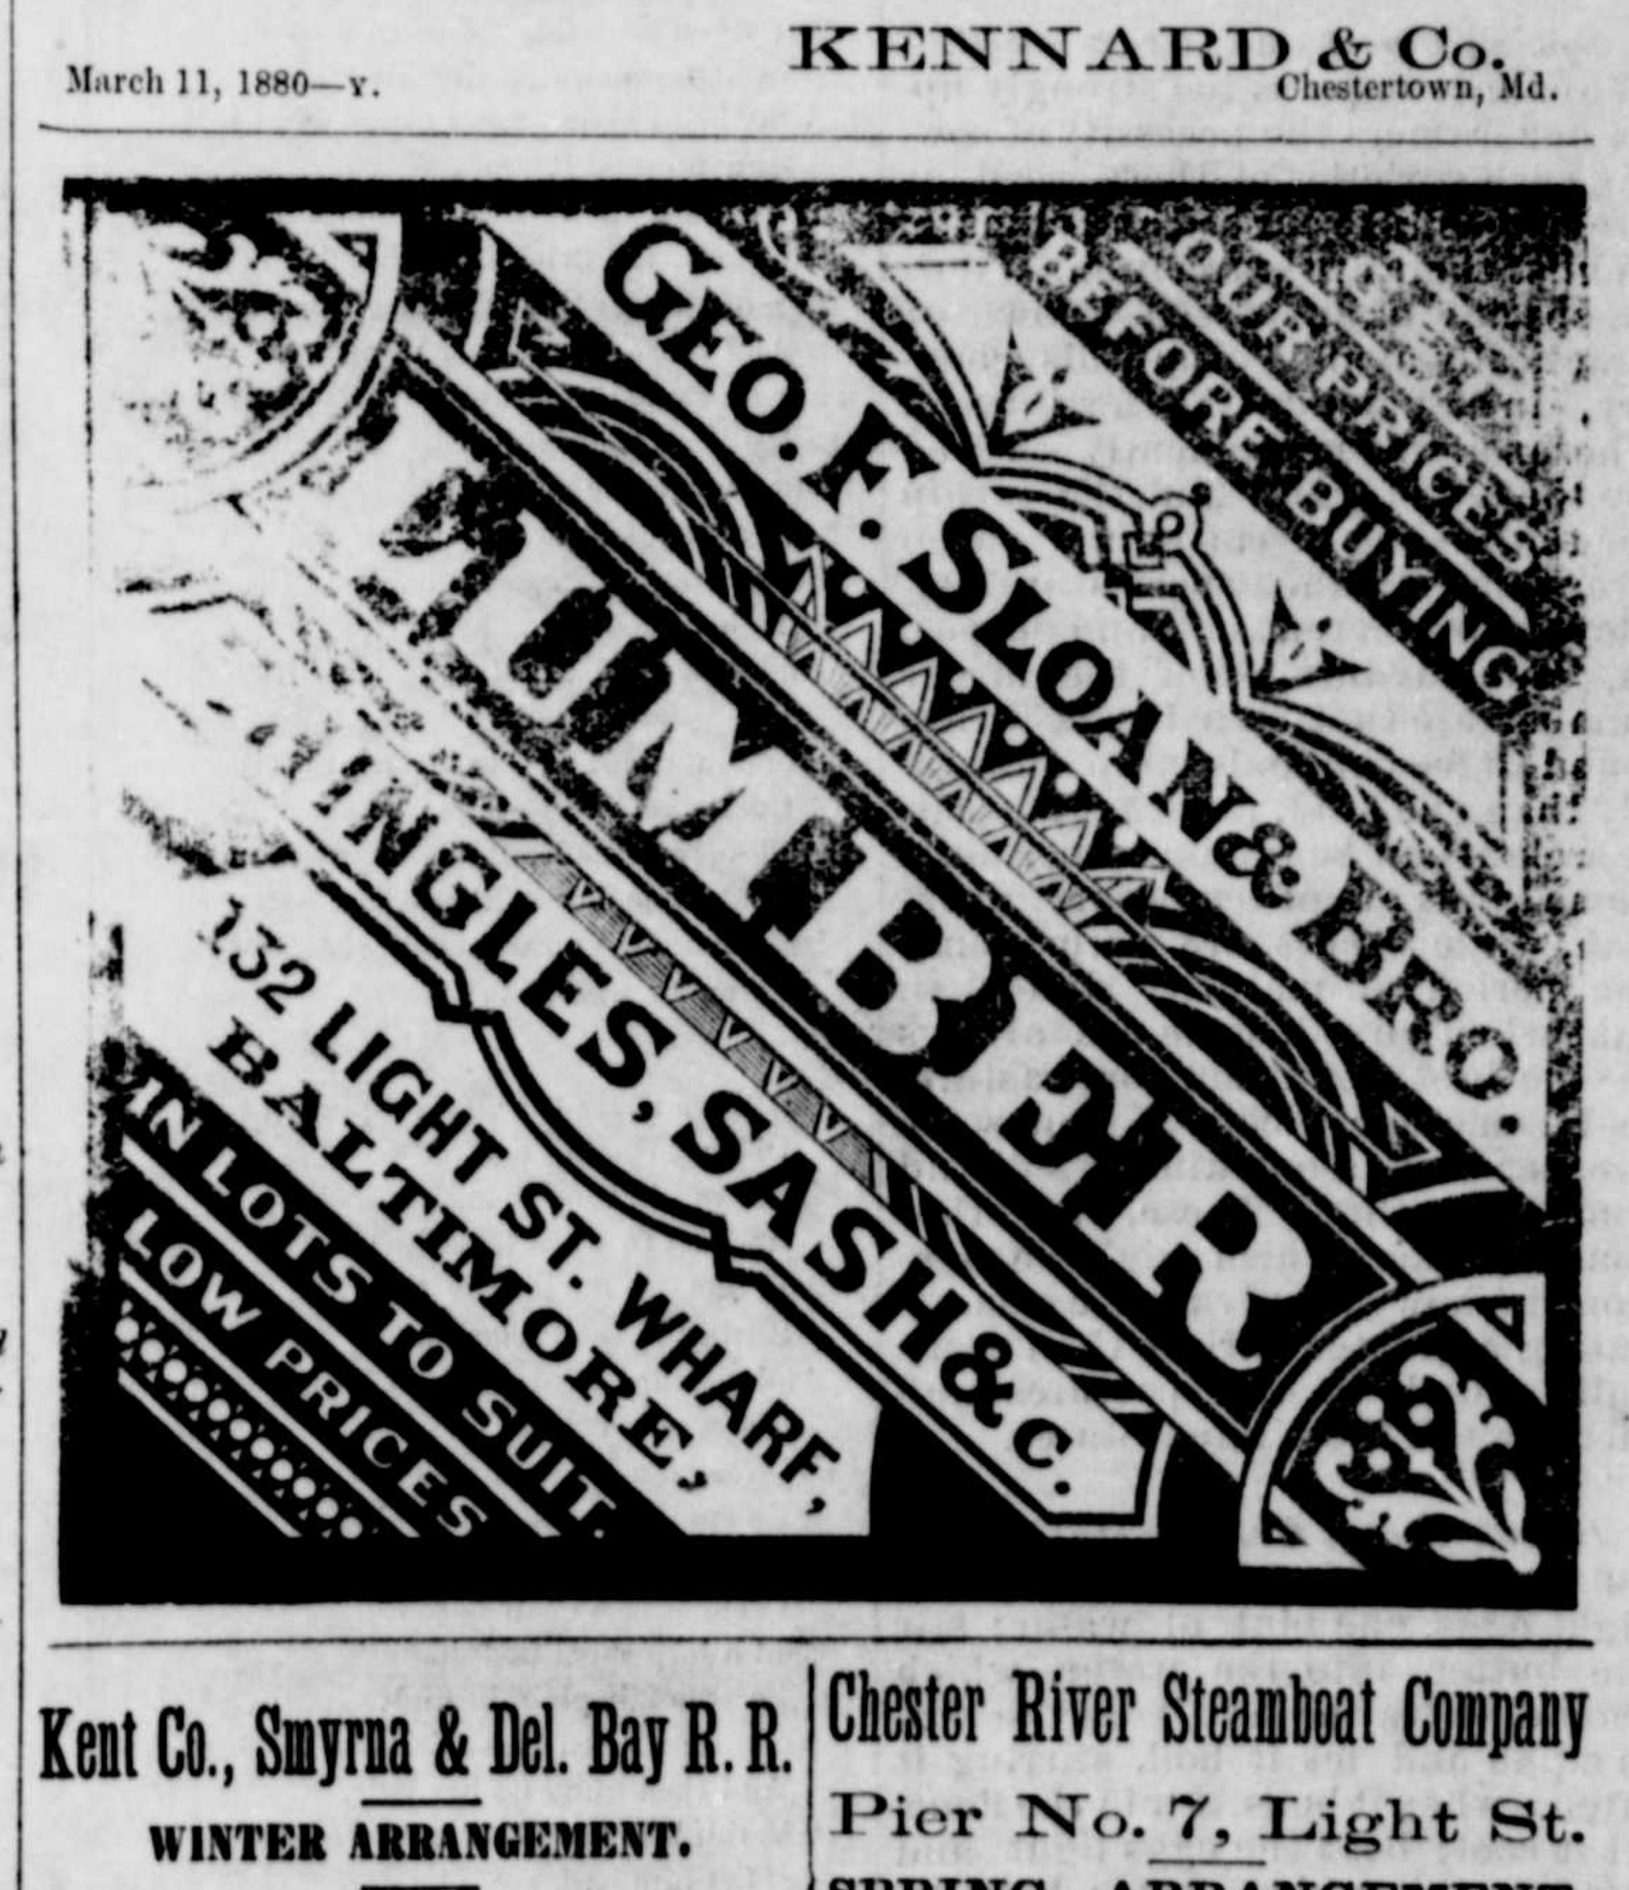

Worton Station, March 8th, 1880.
Messrs. Kennard & Co—*Gentlemen:* In answer to your question of March 6th about the plows tried at Mr. Wm. Morris's of which I was plowman, I will simply state to you what I said to the Kent County Agricultural Club this afternoon, that of all the plows I handled, viz: the Advance, Roland, Oliver Chilled, Ohio Chilled and Gibb's Imperial, that the Ohio Chilled and Gibb's Imperial as sold by you were the best that I have ever handled. I state this in justice to your plows, not being pleased with them at first, am glad to say I was agreeably disappointed.
Very truly yours, J. E. NEWCOMB.

We also intend carrying a full line of

Agricultural Implements,

and are satisfied that it would be to the purchaser's interest to first examine our Stock and prices.
