Chestertown Transcript.

THURSDAY, JULY 22, 1880.

Hancock and English Clubs are being formed up and down the peninsula.

Watermelons, the first of the season, were sold in Chestertown market last Saturday.

The Fine Rains of the past few days will be of great service to grass, fruit, and corn.

Butter has been scarce for the last week or two, and what little there was to be had was not first-class.

Presiding Elder Martindale preached a very fine sermon to a large congregation at the M. E. Church in this town, last Sunday morning.

Look Out for the contemplated Cape May excursion, on Wednesday, August 4th, by the Methodist Episcopal Sunday School.

The Fishing from Chester river bridge is unusually good this season. White perch, rock and croakers are quite plentiful, and anglers are having fine sport.

Personal.—Hon. James B. Groome, our Eastern Shore United States Senator, was in Chestertown last Monday and Tuesday, attending to some legal business.

Three Passenger Cars filled with excursionists, started from Chestertown station yesterday morning on the Methodist Protestant Sunday School excursion to Cape May. A large party also boarded the train at Worton station.

The Excursion of the Methodist Episcopal Sunday Schools of Galena Circuit, to Woodland Beach, last Thursday, by rail, was a very pleasant and successful affair. Fifty dollars net was realized. All the children attached to the schools went free.

Frequent Rains may be expected, according to an old superstition, for the next five or six weeks. It rained here last Thursday, St. Swithin's Day, and, according to tradition, we will be blessed with fine, growing showers almost every day for the next forty days.

Drum Fish, to the number of 180, and averaging fifty pounds each in weight, were caught in Worton creek, near Buck Neck wharf, and sent to Baltimore last Monday, by the steamer Trumpeter. Such a haul of drum fish in the waters of Kent county was, we presume, never before known.

The Kent Cornet Band, we are requested to say, contemplate having an excursion to Cape May, on the 18th of August, timely notice of which will be given by advertisement. Should it be positively determined on, brother Way, of the *Middletown Transcript*, will receive the most cordial kind of a complimentary ticket.

The Catalogues of the Tenth Annual Fair of the Kent County Agricultural Association are out. The Fair is to be held on the 14th, 15th and 16th days of September. The Association aims to be progressive, and to give each year a better exhibit than on the year before. Liberal premiums are offered in the various classes of exhibits, and the purses in the trials of speed sum up $1200.00.

The Census Enumeration gives much dissatisfaction in the first and second election districts of this county. Investigation of the census lists by gentlemen who are well acquainted with the upper districts, show that many families in those districts have been left entirely out of the count. It is believed that hundreds who live in what is known as the "Kent Forest," have been missed. Those who know the forest region, estimate its population at more than a thousand.

Married on the Train.—On the excursion train to Woodland Beach last Thursday, there was quite a romantic marriage. Mr. Horace Skeggs from the vicinity of Locust Grove has, for some time, been paying his devotions to Miss Arey E. P. White, of Barnard's wharf. The excursion of last Thursday was fixed upon as a favorable opportunity for tying the Hymenial knot. A gentleman who desired to make the couple happy, secured a license and took it along. Before reaching the Delaware line the mail car was cleared, and the Rev. Mr. Bryan united the happy couple.

Cutting Affray.—Mack Graves, a colored boy, son of Ned Graves, severely cut George Jones, also colored, last Tuesday. Jones is a Chestertown carter, and Graves is in his employ. Jones had lost a pair of trowsers and he suspected Graves of having stolen them, and accused him of the theft. Graves resented the accusation by springing upon him and inflicting a stab with a barlow knife. Jones did not consider himself much hurt, but went to Mr. C. F. Stam's drug store to have his wound examined. The cut was on the right side, just below the ribs and was about an inch in length. It did not prove to be dangerous, but if it had gone the sixteenth of an inch deeper it is said it would have killed him.

Emigrants for the Peninsula.—A dispatch from Wilmington, Del., to the *Philadelphia Press* says: "Three thousand German emigrants are being formed into a body by J. Thomas Budd, land agent, of this city. They are wheat raisers, frugal, sober, and are of the most desirable class. They come from the banks of the Volga and other parts of Southern Germany, and they are to be brought here direct from a port in Germany and will be landed in New Castle, from whence they will be distributed through various portions of the peninsula. The terms upon which they come is that they shall be given a considerable tract of land to improve upon, and ten years shall be given them for payment of the same. Mr. Budd is using every endeavor to secure land, and has at the present time over 5,000 acres. His efforts will not terminate with the emigration of this colony, but will be carried on extensively until the vast areas on the Eastern Shore and Delaware, which are now tracts covered with dense undergrowth, and in many places inundated with water, are converted into fruitful farms. There is at present one colony which is situated near Snow Hill, Md., established by philanthropic individuals of New York, which is an acknowledged success. These colonies as soon as brought here will be fostered by the railroad companies and other corporations, and every effort will be made to make the enterprise a success."

The Annapolis Excursion.—The Kent Guards last Friday, turned out with full ranks, and, after a short parade, headed by Weber's band, at seven o'clock marched to the wharf and embarked on the steamer Chester, for Annapolis. The Guards were accompanied by about two hundred and fifty excursionists, principally from Chestertown. The object of the trip was to shoot the return match with the Governor's Guards. The run, though pleasant, refreshing and enlivened by first-rate music, occupied a much longer time than was anticipated, the boat not reaching her destination until half-past 1 P. M. The Governor's Guards met our boys at the wharf, and the two companies paraded the streets of Annapolis, and then marched to Horn Point, where the match was to be shot. The shooting team of the Governor's Guards were: Privates Arnold, Banks, Boucher, Clayton, E. Denver, Frazier, Heise, Hutchinson, Benj. Jones, C. A. Pindell, W. H. Stewart, C. C. Tydings, Watkins, Wells, C. N. Welch, Corporals League, Jones and Green, Sergeants Porter and Davis. The Kent Guards team were Lieuts. Bordley and DeFord, Sergeants Kennard, Calder and W. Wheatley, Corporal Dill, Privates Bordley, Connelly, Fiddis, Joiner, Dwyer, Boyd, Beck, Hamilton, Walbert, Gudgeon, Malin, Biscoe, Burgess and Russell. The range was one hundred yards, and the result a greater victory for the Kent Guards than at the first contest. The official count of the score shows the general average of the teams as follows:—Kent Guards 13 427-480, Governor's Guards 20 47-48. Private C. N. Welch made the best average shot in the Governors' Guards team. Private Malin made the best shot, Lieut. DeFord second, and private Bordley the third best shot in the Kent Guards team. The difference between the two teams was seven inches and a fraction in favor of our boys, who all shot remarkably well, a very small percentage of the balls failing to reach the target. The Judges on the part of the Kent Guards team were J. Evan Thomas and H. C. Chase, Esqs., and Dr. Samuel G. Fisher. The firing occupied nearly two hours, when the military returned to Annapolis to practice at the hospitable board that had been prepared for them by the Governor's Guards at Boone & Anderson's restaurant. Our boys speak in glowing terms of the elegant repast prepared for them, and regret that they had not time to do it justice, the captain of the steamer refusing, in the face of urgent remonstrances, to wait longer than half-past five. The handsome silver service, inscribed "Presented by the citizens of Kent county to —— Guards, successful contestants in rifle practice with —— Guards, ——, 1880," returned with the company. We learn that the Guards contemplate extending a challenge to any company of the fifth regiment, of Baltimore, to compete for the possession of the service. We hope that they will do so, and that the challenge may be accepted.

The Annapolis correspondent of the Balto. *Gazette*, in Monday's issue of that journal. says "the bad defeat that the Governor's Guards got at the hands of the Kent Guards is attributed to the use by the Annapolis soldiers of 900-range cartridges to shoot at a 100-range target, whilst the Chestertown team had 200-range cartridges."

So far from the statement above being correct, an officer of the Kent Guards informs us that both teams used 1000-yard range cartridges—that they were measured and found to be precisely alike, and that Capt. Vickers offered to exchange cartridges with the team of the Governor's Guards.

Wednesday's Wheat Market.—Southern Wheat is easier and closed dull at 1a2 cents decline on the early prices. Steamboat lots were sold at 1 00a$1 03, and for cargoes the closing figures were 1 05a$1 08 for Fultz, and 1 09a$1 12 for long-berry. No. 1 Maryland red sold at 1 18a$1 20.

Judge John H. Kennard, formerly of this county, recently lost a very interesting little son, whose death is thus noticed by the *New Orleans Christian Advocate*, of July 8th, 1880:

Edward McGehee Burruss, son of Judge John H. and Annie McGehee Burruss Kennard, died at the residence of his parents in this city, July 1, aged nine years and six months. He was the grand-son of John W. Burruss, deceased, and great-grand-son of Judge Edward McGehee of Woodville, Mississippi. Our little friend Burruss was a manly Christian boy, winning in his ways, and wonderfully mature in mind and character. He suffered with patience through an illness of ten days, and died trusting in the Saviour, and was cheered and supported by the hope of heaven. Such fortitude, and trust, and calmness in suffering and dying, are rarely witnessed in the experience of the maturest Christians. We extend to the stricken family our sympathy in this great sorrow. It is well with us, if we lean upon the Saviour as the dear boy leaned upon him, in walking through the valley of the shadow of death.

Orphans' Court, Tuesday, July 20, 1880.—Present, Judges Nicholson, Shallcross and Willson.

Wm. G. Trew, guardian to Wm. T. Brown and Harry Brown, returned his guardian account for said wards for the year 1879, which was examined, passed as stated and ordered to be recorded.

On application, Wm. M. Slay was appointed trustee to sell the real estate of Alexander Wilson, col., deceased, who filed his bond in the sum of $600, which was approved and ordered to be recorded.

The Midsummer Scribner (August number) opens with a remarkable frontispiece engraving by Cole, from the famous picture of Savonarola, by Fra Bartolommeo. This portrait accompanies "The Plain Story of Savonarola's Life," written by the English wife of the Italian Professor Villari. The work by the latter on the great Florentine preacher, patriot and martyr is now considered the standard biography; and it would be difficult to find in English a more succinct and correct sketch of the life of the great Italian than that now offered by Madame Villari. The paper has illustrations of the tragic life and death of Savonarola, by Mr. Van Schaick, the American artist living in Florence. Another brief summary of a large subject is Richard Henry Dana's "Sketch of American Diplomacy." The most novel and interesting art feature of the Midsummer Scribner is Philip Gilbert Hamerton's study of "Mr. Seymour Haden's Etchings." It has been left to an American magazine to first enter upon the literal illustration of Dickens, by employing artists to look up the original scenes of his stories. The first of this series appears in the August Scribner. The magazine also contains an unusual amount of interesting matter.

St. Nicholas for August.—A pleasant feature of this vacation number of the boys' and girls' magazine is the profusely illustrated article, "A Happy Thought for Street Children." This details the working of the *Evening Post* "Fresh Air Excursions" under Mr. Willard Parsons, through whose efforts, seconded by willing farmer-families, thousands of city-worn little ones taste every year the delights of a summer fortnight in the country. The most notable of the short stories are: "Marjorie's Peril," illustrated by McCutcheon, a true story of a small Scottish lassie lost among lions in the bush of Zululand; "The Fox and the Stork," illustrated by Sheppard, a tale of boy-life, by Susan Coolidge; "Why the Black Cat Winked," illustrated by Brennan, a bright Pennsylvania-Irish story of a stirring incident in the great petroleum district; and the "Coral Castle," a funny narrative, with six comic pictures by Hopkins, of how the fishes failed in an attack upon the work of coral-polyps. Altogether, the number is a most admirable one.

The August number of St. Nicholas will not be ready until July 24th.

The Leaders of Fashionable Dress and Low Prices.—C. N. Oehm & Son, proprietors of the largest one-price double Clothing House, Baltimore, now occupy two entire three-story buildings with their splendid stock of Men's, Youth's, Boy's and Children's Clothing. Having bought and manufactured their entire stock before the great advance of woolens, they are selling great bargains in every department for spring and summer wear, which none can afford to overlook. We feel it our duty to call the attention of our readers to this truly famous and reliable establishment, corner of Pratt and Hanover Sts. No one in need of clothing, ready-made or made to order, should fail to call on Oehm & Son and see the low prices at which the most choice and perfect fitting garments are selling.

Literary Revolution and Universal Knowledge.

An Encyclopædia in 20 Volumes, over 16,000 Pages; 10 per cent more matter than any Encyclopædia ever before published in this country, and sold, handsomely and well bound, in cloth for $10, in half morocco for $15, and printed on fine heavy paper, wide margins, bound in half Russia, gilt top, for $20—an enterprise so extraordinary that its success, beyond all precedent in book publishing, may be fairly claimed to inagurate a *Literary Revolution.*

The Library of Uuiversal Knowledge is a reprint of the last (1879) Edinburgh edition of "Chamber's Encyclopædia," with about 40 per cent. of new matter added, upon topics of special interest to American readars, thus making it equal in character to any similar work, better than any other suited to the wants of the great majority of those who consult works of reference, and altogether the latest Encyclopædia in the field.

Specimen Volumes in either style will be sent for examination with privilege of return on receipt of proportionate price per volume.

Special Discounts to all early subscribers, and extra discounts to clubs. Full particulars with descriptive catalogue of many other standard works equally low in price, sent free.

Leading principles of the AMERICAN BOOK EXCHANGE:

I—Publish only books of real value.

II—Work upon the basis of *present cost* of making books, about one half what it was a few years ago.

III.—Sell to buyers direct, and save them the 50 to 60 per cent. commission commonly allowed to dealers.

IV.—The cost of books when made 10,000 at a time is but a fraction of the cost when made 500 at a time—adopt the low price and sell the large quantity.

V.—Use good type, paper, etc., do careful printing, and strong, neat binding, but avoid all "padding," fat and heavily-leaded type, spongy paper and gaudy binding, which are so commonly resorted to to make books appear large and fine, and which greatly add to their cost, but do not add to their value.

VI.—To make $1 and a friend is better than to make $5 and an enemy.

RAMBO LIME.

LAST year I purchased from Nathan Rambo the Blue Quarry upon the lands devised to him by his father, the elder Nathan Rambo. It was out of this Quarry that the Limestone came which gave this Lime its high reputation.

This, and this only, is the GENUINE RAMBO LIME.

I own ALL of the land on which this stone lies. This Quarry was discontinued only because a vein of earth cut off the face. I have cut through this and re-opened these Quarries upon the original stone which old Nathan Rambo quarried as long as he could find it.

W. Register's MARBLE WORKS,

Chestertown, Md.

ALLOW ME to tender my sincere thanks for the past patronage of the public, and hope to receive their approval and patronage this present year. I am prepared to cut and finish every design in the marble business.

I have a very handsome assortment of my own finished

TOMBSTONES.
Some of the Latest Designs,

HANDSOMELY FINISHED,

Copied from the Late Paris Exhibition.

A large assortment for children, different patterns, some as low as $6.00, lettering included. Some fifty different patterns for grown persons, handsomely finished, some of them as low as $15.00, lettering included. Also, a fine line of different patterns, expressly for the

QUAKER BURYING GROUNDS,

very thick and heavy and handsomely finished of the best marble.

Marble Posts, marble Vases with Pedestal, Marble Coping, Tombstones and Monuments, of all sizes and styles.

Marble or Sandstone worked to order. I warrant all my work not to color or blister—time has no effect on it. I set up all of my work, thus relieving the purchaser of all trouble or risk.

Come one, come all, that are in want, and examine my work and learn my prices. I will be thankful. Don't send the money out of your own neighborhood.

Call and see me. I do not like to canvass for work, for I think it too sad a business to barter with relatives or friends.

My work can be seen in all the cemeteries of Kent and the adjoining counties.

KENNARD & Co's. "Sterling Phosphate,"

$23.00 CASH or $25.00 TIME.

HAVING been used with such great success last Spring on Corn and Vegetables, we have enlarged our Factory, added new and improved machinery thereto and again offer it to the farmers with every confidence in its great worth. We also announce the fact that our capacity will enable us to fill promptly and without a failure, all orders for our goods.

The following are a few of the many testimonials as to the benefits derived from the use of the "STERLING PHOSPHATE" last Spring:

Chestertown, Md., February 21st, 1880.

Dear Sirs: Your Phosphate that I used on my corn last Spring, gave me great satisfaction. I also used your wheat Phosphate last Fall, it is now looking as well as other phosphates on the same land at a higher figure. I expect to use your goods next Spring.

Yours truly, COMEGYS BROWN.

Chestertown, February, 1880.

Kennard & Co.: In reply to your question regarding the action of your Fertilizer, I will just state that I have only tried it on sugar beets. I applied it to my beets last Spring, putting it in the drill before I planted the seed, and notwithstanding the unfavorable circumstances to which the beets were subjected, the yield was far ahead of my most sanguine expectations.

Yours, &c., I. C. TAYLOR.

Chestertown, Md., March 5th, 1880.

Messrs. Kennard & Co—*Gentlemen:* I used your Phosphate last Spring on my corn; applied it at the rate of one handful to three hills, and where I put it the yield was about twenty-five bushels to the acre, and where I did not put any the yield was about ten bushels to the acre. On a portion of the same land I applied barn-yard manure, and the result was about twelve bushels to the acre. Where I used your stuff, the ear was large, well filled and I could not find a worm in a hundred ears, the grains were large and close together. Where I did not use the Phosphate a great many ears were wormy and poorly filled. I can cheerfully recommend it, and will use more this Spring.

Truly Yours, GEORGE W. LONG,

We also keep on hand at all times a full line of

Pure Dissolved and Raw Bone and other Chemicals

for manipulating, and respectfully invite the farmers to procure our prices before purchasing elsewhere.

OHIO CHILLED PLOW, The Victor!

Read the Plowman's Opinion and Come and Purchase of

KENNARD & CO.

Actual Results as compared with other Plows:

SYNOPSIS OF REPORT OF JUDGES TO THE KENT COUNTY AGRICULTURAL CLUB.

The "OHIO CHILLED" plow was the lightest, and the "Advance" was the heaviest.

The "OHIO CHILLED" was 27.03 lighter to the cubic foot than the "*Oliver Chilled*," 33.57 lighter to the cubic foot than the "*Roland Chill*," and 169.08 lighter to the cubic foot than the "*Advance*."

and letters to and from plowman:

Chestertown, Md., March 6th, 1880.

J. E. Newcomb, Esq.,—*Dear Sir:* You having been selected, by the Judges, as plowman in the late plow contest held on the farm of Mr. Wm. Morris, Tuesday, the 2d inst., we would be pleased to have your opinion of the "Ohio Chilled" and "Imperial" plow, entered by ourselves. Respectfully requesting an early reply, we remain, Very truly yours, KENNARD & CO.

Worton Station, March 8th, 1880.

Messrs. Kennard & Co—*Gentlemen:* In answer to your question of March 6th about the plows tried at Mr. Wm. Morris's of which I was plowman, I will simply state to you what I said to the Kent County Agricultural Club this afternoon, that of all the plows I handled, viz: the Advance, Roland, Oliver Chilled, Ohio Chilled and Gibb's Imperial, that the Ohio Chilled and Gibb's Imperial as sold by you were the best that I have ever handled. I state this in justice to your plows, not being pleased with them at first, am glad to say I was agreeably disappointed.

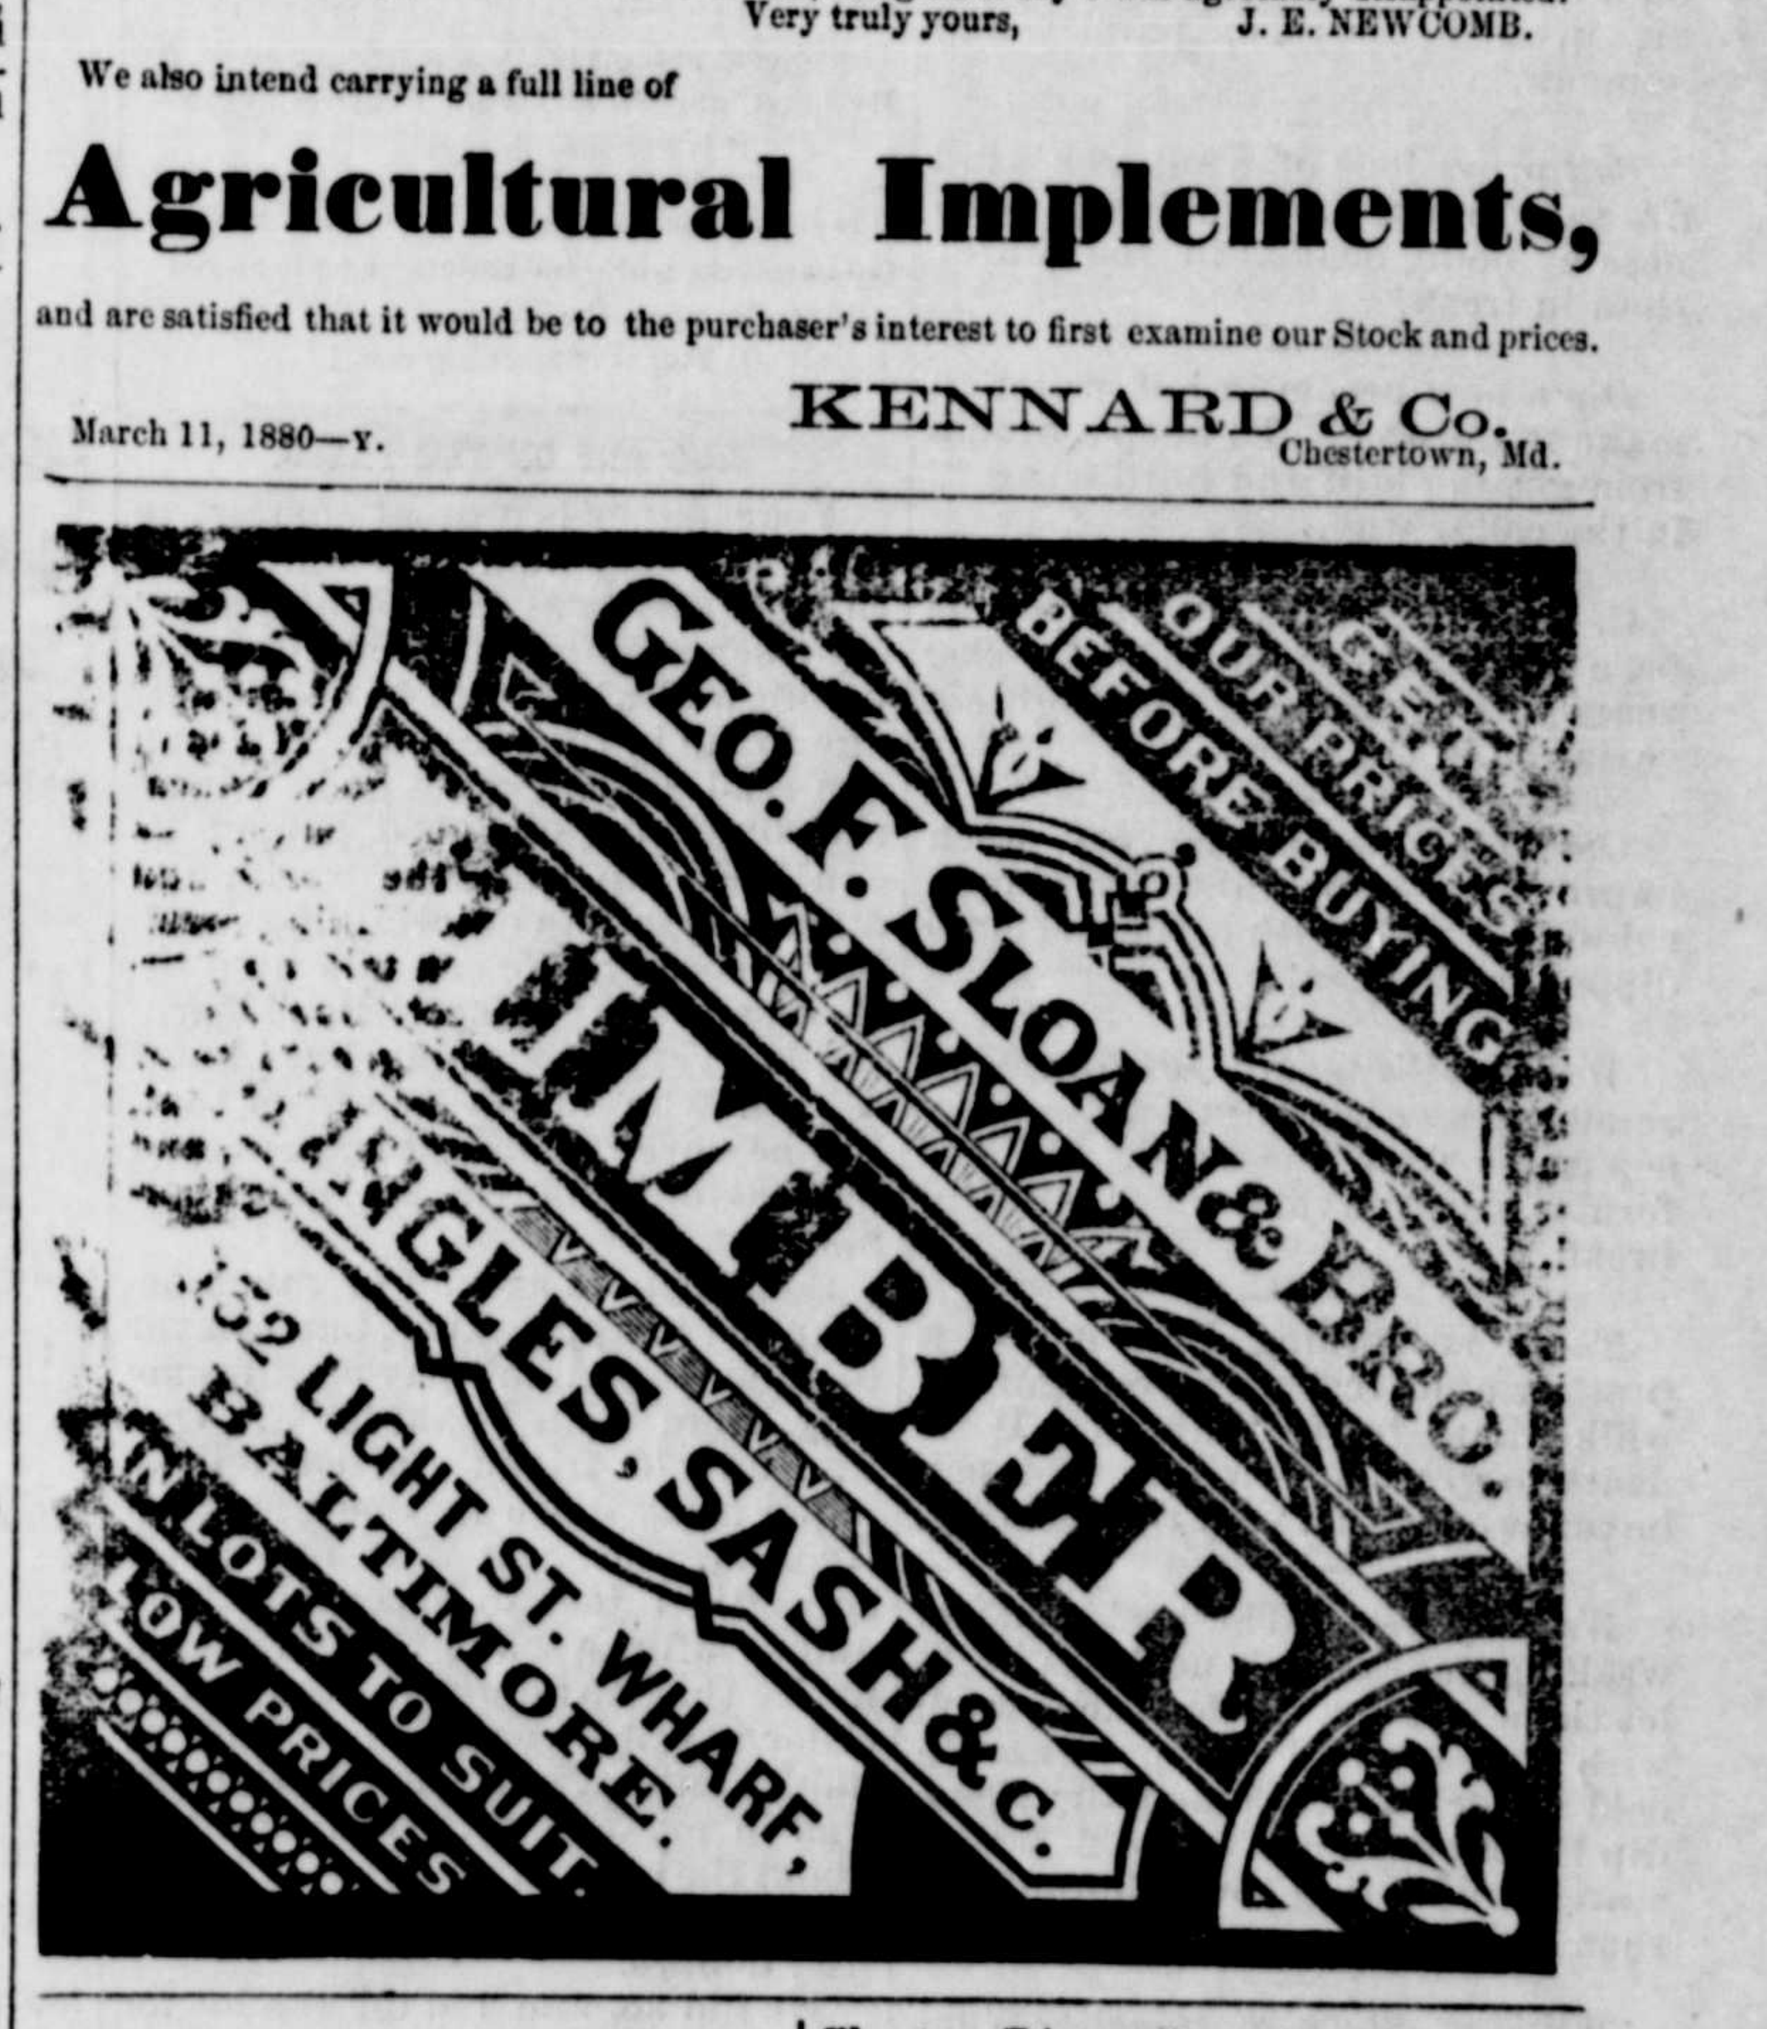

Very truly yours, J. E. NEWCOMB.

We also intend carrying a full line of

Agricultural Implements,

and are satisfied that it would be to the purchaser's interest to first examine our Stock and prices.
