Chestertown Transcript.

THURSDAY, SEPT. 16, 1880.

Macrame Lace.—We call attention to Miss BELLA SLINGERLAND's advertisement of this description of lace, which is to be found on exhibition at the Kent Fair.

We learn from the *Greensboro Free Press* that Mr. Frederick Malone, who graduated at Washington College at the conclusion of the last scholastic year, is to enter the University of Virginia this Fall.

Sale of Land.—H. W. Vickers, Esq., as trustee, sold at public sale, on Tuesday, a farm in Broad Neck, known as "Stepney," containing 227 acres. Purchased by T. W. Eliason, Jr., for the sum of four thousand dollars.

The Catholic Church Fair.—We call attention to the advertisement, to be found elsewhere, of the fair now open at the Catholic Church. Many valuable articles will be found advertised to be disposed of at chances.

The Steamer L. G. Cannon having finished up the peach season, will cease to make daily trips to Baltimore. Trips hereafter will be made twice a week. The hours and days for leaving and arriving will be published hereafter.

A Health Trip.—Rev. E. B. Newnam, who left on September the 1st for a trip North for the benefit of his health, returned home Tuesday after a two weeks' vacation, looking fresher and more vigorous. He enjoyed a trip up the beautiful Hudson to Albany, and thence to the famous Niagara falls.

Among the Most Attractive Features of the Fair at Worton Station is the *large* display of Clothing from the well known Clothing House of C. N. OEHM & SON, Baltimore, Md. Mr. G. Lacy Eaton has charge of the exhibition, and will be pleased to have the people of Kent county call and examine his stock.

A First Premium for Kent.—We learn that Messrs. HYLAND & Co. have taken the first premium at the Baltimore County Fair on their Corn Shellers. This is much of an honor, as at a fair so near to Baltimore city as Baltimore county fair, they must have come in competition with several other manufacturers.

Baltimore Grain Market.—From the *Sun* of Wednesday, we make the following quotations: Southern Wheat is in active demand, chiefly for milling. Sales are at 95 cents a $1 for common red; 1 03a$1 07 for good to prime Fultz, and 1 08a$1 14 for fair to prime long-berry. Southern white Corn sold at 54½ and yellow at 55 cents per bushel.

Dedicated.—The new Methodist Protestant Church at Lynch's Station was dedicated last Sunday, Rev. Dr. S. B. Southerland preaching a very able sermon on the occasion. There was, we learn, an indebtedness of about $550 remaining on the building, which was raised by collection in a few minutes, and then it was formally dedicated to the service of Almighty God.

A Good Speculation.—Mr. James W. Chapman who (as published in our issue last week) bought the Dr. Worrell farm, at public sale, on the 7th instant, the very next day sold the farm to Mr. Edward J. Watson at an advance of one thousand dollars; and Mr. W., we learn, is so well pleased with his purchase that he would not take two thousand dollars advance for it.

The Sale of Phosphate this season has been much larger than ever before. The trouble with our dealers, just now, is not in finding purchasers, but how they may fill the orders already in. KENNARD & Co. last Monday were compelled to set their machinery in operation again, and will be able to fill all their orders; but the demand has been so great as to tax their resources to the utmost extent.

A New Hardware Store.—Elsewhere will be found advertised Messrs. THOS. L. HINES & Co's new hardware store. Mr. Hines has refitted the large store-room next to the bank, recently occupied by J. W. Hines, Esq., and has purchased a large and varied stock of hardware. Almost any conceivable article in the hardware line needed by the farmer, mechanic, housekeeper, or anybody else, can be found in his stock. Mr. William A. Wheatley is with Mr. Hines, and will take pleasure in showing customers goods. Read the advertisement, and give the new store a call.

The Peninsula Fair at Middletown, Del., commences Tuesday, September 21st, and will continue four days. Every fair this Association has held has been an entire success, and judging from the number of applications for space that have already been received from exhibitors, there is every assurance that the Fair of 1880 will eclipse all its predecessors. The entries in trials of speed are large, and some of the fastest trotting ever witnessed on the Peninsula may be expected. For the accommodation of those who come by rail, a platform has been erected at the Fair Ground, at which all passenger trains will stop during the Fair.

Runaway.—The bay mare, Little Annie, belonging to Mr. William A. Twilley, of Cambridge, while being driven from Chestertown to the Fair Grounds on Monday, for the purpose of entering the 3:30 race on Tuesday, took fright at a white cow before reaching the grounds, and started back in a full run. Mr. Twilley himself was driving. In her fright the mare managed to overturn the light trotting buggy, throwing Mr. Twilley to the ground. Fortunately he received no other injury than a slight sprain of the ankle. The mare broke loose from the buggy and continued to run until she reached Chestertown, where she was taken up.

The Kent County Fair.—In many respects the Fair at Worton this year surpasses any exhibition that has before been held there. Especially in the ladies' department, there is an unusually varied exhibit. We are afraid to make any special mentions in this department for two or three reasons. In the first place no ordinary man need undertake to describe the mysteries of woman's workmanship. There are laces of artistic design, beautiful somethings done in silk, gossamer, &c., &c.,—dainty baby-dresses, fancy bed-spreads, and many other things in which the hearts of the gentler sex delight. There are some very pretty wax-work exhibits, and several oil paintings, crayon drawings, &c. When we struck into the *things good to eat*, we felt more at home, at least we would have felt more at home if we had have had a free invitation to help ourselves. This department contains some beautiful fruits, an abundance of jellies, pastries, &c., &c. We learned the name of only one exhibitor in this department, that of Mrs. John C. Voshell, of this town, who exhibits in a glass case a lot of most delicious cake. We looked longingly, tenderly, lovingly on that cake, but we had to pass on. The Chestertown exhibits that we noticed in the exhibit building were a handsome case of silver ware by Mr. C. F. Stam, and another handsome case of silver ware by Mr. Henry A. Sparks. Mr. J. K. Aldridge exhibits some sample stoves. Kennard & Co. have an extensive bottled display of phosphates. We had very little time to examine the outside exhibits, but noticed casually a very good display of agricultural implements and machinery. Of the live stock exhibit we saw very little, though we should presume it to be good from the little we saw. The showmen, the candy manufacturers, and other outside arrangements are in about the usual force. To-day is the last day of the Fair.

Tuesday's Races.—There was an unusually small attendance at Worton Tuesday. The grand stand and the quarter stretch were both thinly peopled. The racing, however, was of more than usual interest. The first trial was for the 3.30 class and all the horses entered for the race appeared upon the track. They drew position as follows: Sam Patch took the pole, Jenny Grace 2nd, Crazy Jane 3d, Mary Jane 4th, Little Annie 5th. On the first heat Little Annie, a Cambridge mare, though she had the outside place, shot ahead and won the heat with so much ease, that spectators began to think the race a foregone matter. The trotters crossed the line as follows—Little Annie 1st, Mary Jane 2nd, Jennie Grace 3d, Crazy Jane 4th, Sam Patch distanced, Time, 2.56. On the second heat Little Annie came in easily ahead again, though somewhat more closely pressed by Jennie Grace a good second, Mary Jane 3d, Crazy Jane distanced. Time, 2.48. The third trial resulted in a dead heat between Little Annie and Jennie Grace. On the fourth heat Jennie Grace and Little Annie came in almost nose and nose. Many people thought Little Annie to be the winner, but the judges decided in favor of Jennie Grace, Little Annie 2nd, Mary Jane 3d. Time 2.47. It was plain to be seen that Little Annie was losing endurance. On the 5th heat she fell considerably to the rear, Jennie Grace coming in 1st, Mary Jane 2nd, Little Annie 3d. Time, 2.50. After the 5th heat, being late, the judges decided to postpone the finish of the race till eleven o'clock on Wednesday.

THE SECOND RACE.

In the second trial, 2.38 class, for purse of $300, there were six entries all of which appeared upon the track. They drew position as follows—Modoc the pole, Alice Adison 2d, Sleepy Dave 3d, Alvy 4th, Elwood K. 5th, Annie V. 6th. The first heat resulted as follows, Alice Adison 1st, Modoc 2d, Elwood K. 3d, Alvy 4th, Annie V. 5th, Sleepy Dave 6th. Time, 2.42. On the 2d heat Alvy came in 1st, Elwood K. 2d, Modoc 3d, Alice Adison 4th, Sleepy Dave 5th, Annie V. 6th. Time, 2.43. On the third heat Annie V. withdrew, Alvy came in 1st, Modoc 2nd, Alice Adison 3d, Sleepy Dave 4th, Elwood K. 5th. Time, 2.40. On the 4th heat, Alvy came in 1st, Modoc 2d, Alice Adison 3d, Elwood K. 4th, Sleepy Dave 5th. Time, 2.37. Alvy was declared the winner of the race, taking the first money, Alice Adison second money, Modoc third money.

Yesterday's races were concluded too late for to-day's issue. The races for to-day are for the 2.48 class, purse of $200. The four-year-old race, purse $50, and the 2.34 class, purse $250.

Delegates to Ocean City.—The Kent county delegates to the Republican Congressional Convention which meets at Ocean City to-day, are Charles T. Westcott, Richard T. Turner, and W. Joseph Vannort.

Capsized.—Mr. W. A. Biscoe made a trip to Rolph's wharf, down the river, yesterday morning in the fast-sailing canoe "Little Sister," having along with him a youth, Baraud Hanson. There was a brisk wind blowing on the return trip, and striking the "Little Sister" foul, she was capsized in the middle of the river, opposite Mr. J. W. Loud's house, emptying the occupants out. Mr. Biscoe made Baraud hold fast to the upset canoe, and then, being a strong swimmer, he struck for the shore, which was a considerable distance away, pushing the "Little Sister" ahead of him. When he reached shore he righted the boat, and again set sail for Chestertown, where both he and Baraud arrived safely, though very much soaked.

A Hancock and English Club was organized at Kennedyville, September 13th, with the following officers: President, L. C. Justis, Jr.; 1st Vice-President, J. Medders; 2d do., Dr. J. K. H. Jacobs; Secretary, J. M. Pennington; Treasurer, T. Shafer. Committee to procure a Pole—T. Shafer, J. M. Pennington, T. Wiltbank. Committee to procure a Flag—G. W. Jones, J. Medders, L. C. Justis, Jr.

These committees are to provide flag and pole in time for a grand Pole-raising, which is to take place at 2 P. M. on Saturday the 25th inst. Several eminent speakers will be present, and an old-fashioned Democratic meeting may be expected. Our membership is quite large, and we intend to make it the largest Hancock and English Club in the county. The public generally are invited to be present on the 25th. If we mistake not this is the first Club organized in the county.

KENNEDYVILLE H. & E. CLUB.

Orphans' Court, TUESDAY, Sept. 14, 1880.—Present, Judges Nicholson, Shallcross and Willson.

On application, letters of administration on the personal estate of Henry Gilbert, colored, were granted and committed unto Charles H. Baker, who filed his bond in the sum of $500, which was approved and ordered to be recorded, and Bartus Trew and John Hadaway were appointed to appraise the estate.

J. Horton Kelly and Henry T. Jump, executors of John Kelly, returned their second and final administration account, which was examined, passed as stated and ordered to be recorded.

Cornelius J. Scott, administrator of James B. Hance, returned an account of sales of the personal estate of said deceased, which was received and ordered to be recorded.

M. B. Roberts' Horse Powders have been used with astonishing results in the stables of Mr. Pierre Lorillard, so much so, that the Englishmen have been ordering it in large quantities; since Parole, Wallenstein and other American horses, have won thousands of dollars for their owners.

No more sick Chickens. Save your poultry and cure them of disease, by using Roberts' Poultry Powder. It has never failed to cure Cholera, and all diseases to which fowls are subject. Price 25 cents per package.

How often do we hear the remark: O, he only took a slight cold at first, and he thought it would go as it came! He took nothing for it, and it fastened on his lungs, and now he is in the last stages of consumpeion. Prevention is better than cure. Sine's Syrup of Tar, Wild Cherry and Hoarhound cures Coughs, Colds, Asthma and Lung Affections. It has a reputation of over 40 years. Price 25 and 50 cents per bottle. Your druggist has it.

A life of torture is often endured by the rheumatic; their pangs may, however, be relieved by the use of the old reliable remedy, Roberts' Embrocation. Sold over 50 years. No mushroom growth, its reputation excels all other remedies. Price 35 cents per bottle. Try it just once.

Peruvian Chill Cure

AN INFALLIBLE REMEDY FOR THE CURE OF

Chills,

INTERMITTENT AND REMITTENT

Fevers,

DUMB AGUE, PERIODICAL HEADACHES, AND ALL MALARIAL DISEASES.

Peruvian Chill Cure is entirely Vegetable, and is the only remedy taking the place of Quinine Cinchonidia and other Alkaloids which many nervous and sensitive people cannot use.

Peruvian Chill Cure is a remedy for all. Builds up the system, while cleansing it of all malarial poison, and leaves no bad effects.

ASK FOR THE ABC BOOK.

$1. for a Large Bottle. Sold by all Druggists. Prepared only by **Brown Chemical Comp'y,** Baltimore, Md.

For Sale by C. F. STAM.

EMORY'S
Bone and Potash.

THIS article, which has been successfully tested with other high-grade Fertilizers, is offered to farmers at a price which will justify its use.

FOR SALE BY
W. S. WALKER, Chestertown.
G. W. C. SHUSTER, Buck Neck.
THOMAS C. MASLIN, Gray's Inn.

August 5, 1880—2m.

W. A. E. WICKSE.

Agent for the Sale of

Lister's Standard Phosphate.

This Phosphate, so extensively used, is offered to the Wheat Growers of Kent county, at Lower Rates than heretofore.

The merits of "*LISTER'S PHOSPHATE*" are so well known and universally acknowledged, that the publication of certificates is deemed unnecessary.

Any Farmer who has used and tested it, is referred to as to its qualities as an IMPROVER, a Grain Producer and a great promoter of the growth of Clover, &c.

Early orders are solicited.

☞ In my absence, information can be obtained at *WICKES & BROTHERS*, and orders left with them will receive prompt attention.

It is in good condition for Drilling.

August 19, 1880—3m.

A REMARABLE WHEAT YIELD.

John N. Endwoods, living on the Oldham Massey farm, one half mile east of Chesterville, realized last harvest the following yield of wheat: On 10 acres he seeded 1 bushel and 1 peck to the acre, used 300 lbs. of the MARYLAND CO'S PHOSPHATE to the acre, and reaped a yield of 33 bushels of wheat to the acre. On 25 acres he seeded 1 bushel of wheat to the acre, used 200 lbs. of the same fertilizer to the acre and reaped 24 bushels of wheat per acre, making in all a crop of 920 bushels from 27½ bushels seeding. His fertilizer cost him only $30 per ton on time. Who can beat it? Beside the above named grower we refer also to Albert Medders, Chesterville, and Medford Copper, who threshed the wheat, and others of the neighborhood who will testify to the correctness of the yield.

T. W. WICKES,
Agent for the Maryland Co's Phosphates.

THE MARYLAND

Fertilizing & Manufacturing Co.,

Are prepared to furnish the following well-known Brands of Fertilizers:

"Ammoniated Super Phosphate."

A Complete Manure for ALL CROPS, adapted to Lands that require a full development of the Crop, both Straw and Grain.

"ALKALINE SUPER PHOSPHATE."

An article very rich in SOLUBLE PHOSPHATE OF LIME and the ALKALINES.

"DISSOLVED PHOSPHATE."

A High Grade SUPER PHOSPHATE OF LIME.

The ALKALINE and DISSOLVED PHOSPHATES have special reference to the growth and development of the Grain, and are intended for lands that produce a sufficient growth of Straw, but small crops of Grain. They have been used for several years by some of the best farmers of Maryland and Virginia, alongside the highest grades Ammoniated Phosphates, and in some sections have almost superceded them.

The Fine Mechanical condition of our FERTILIZERS is such, that they Drill readily, and we recommend the use of the Drill as being the most profitable way of applying Fertilizers.

We refer to the following persons who used the above goods last season:

John C. Sutton,	Garrett Foxwell,	W. Hurlock,	J. Hodgson,
S. W. Aldridge,	Noble Pennington,	Richard Smith,	J. Newcomb,
Levi Fiddis, Sr.,	William A. Wood,	Samuel Coppage,	John Noland, and others.

All orders should be left at once with

THOS. W. WICKES,
Sole Agent for Kent County,
CHESTERTOWN, MD.

Aug. 19, 1880—3m.

TO WHEAT GROWERS

THE undersigned, PIONEER in the manufacture of Fertilizers in this city, and ORIGINATOR in 1858 of the Formulas and processes of manufacture of

'Excelsior' & Ammoniated Phosphate

So well and favorably known by the Agricultural public, relying upon his experience and personal reputation hitherto acquired in the uniform excellence of these Fertilizers, as manufactured by him, continues to offer them to the Farmers and Planters of Maryland and Virginia, with the assurance that the high standard quality of each will be maintained as heretofore.

The above are the most concentrated FERTILIZERS ever offered to the farmer—combining all the stimulating properties of Peruvian Guano, and the ever-durable fertilizing properties of Bones, in fine, dry powder, prepared expressly for drilling.

For growing Wheat, it is the universal opinion of the farmers of Maryland and Virginia, after over twenty years experience in the use of these FERTILIZERS manufactured by me, that an application of 100 pounds is equal in its effects to 200 pounds of any other Fertilizer or Guano, therefore fully 50 per cent. cheaper.

With my present advantages and superior facilities for manufacturing, I challenge competition with any Fertilizer sold in the United States, in Quality, Mechanical Condition and Price.

By strictly adhering to my Original Formulas, using only the most concentrated materials, and superintending in person their manufacture—as for the past *twenty years*—

Uniform Quality is Guaranteed.

☞ Farmers, to secure the ONLY GENUINE EXCELSIOR and PHOSPHATE, prepared according to my Original Formulas established in 1858, should see that every Bag is branded as above, with the ANALYSIS and MY NAME IN RED LETTERS.

J. Q. A. HOLLOWAY,
Originator and Manufacturer,

T. W. ELIASON, JR.'S

No. 1 Ammoniated

Superphosphate of Lime and Potash,

COMPOSED OF

Dissolved Animal Bones, Acid Phosphate, and Salts of Potash and Soda.

Guaranteed Not to contain a SINGLE POUND of adulterating Material, but on the contrary Every article used in its manufacture is a FERTILIZER.

PRICE: $32 PER TON CASH. $34 per Ton on Time.

☞ The success this article met with last year was such that I was unable to supply the demand for it; and it is gratifying to be able to say that to-day *it is more highly esteemed by those who used it the past season than it was then.*

So far, wherever there has been a COMPLETE TEST of the value of this goods, as compared with other manufactured goods on the market, by actual measure and weight of wheat grown that has come to my knowledge, No. 1 has proved itself fully equal to, and in a number of cases better, than other goods costing much more money; in one case giving *Eight Bushels of Wheat to the Acre more than* —— ——, costing $5 per ton more than No. 1.

Please read carefully the letters appended:

CHESTERTOWN, MD., July 20, 1880.

MR. T. W. ELIASON, JR.—*Dear Sir:* In reply to your inquiries concerning your "No. 1 Ammoniated Super Phosphate," I would say that I am pleased with it. It gave me a *much better* yield of wheat than —— —— ——, and —— —— costing me *five dollars more per ton than yours.* I cheerfully recommend its use, believing it to be equal if not superior to any goods on the market.
(Signed) THOMAS P. DIXON.

CHESTERTOWN, MD., July 16, 1880

MR. T. W. ELIASON, JR.—In answer to your inquiry concerning your "No. 1 Ammoniated Superphosphate," I would say, that it has given me *entire satisfaction.* I used it by the side of a goods costing me $5.00 per ton more, and applied the two goods on the same field, at the same rate per acre, the land being same quality on which both goods were used. I threshed the two parts separately; the part on which *your* goods was applied gave me *EIGHT BUSHELS OF WHEAT MORE TO THE ACRE* than the other goods; the wheat having, also, a prettier color. I regard your goods as fully equal, if not better, than any on the market.
(Signed) J. E. NEWCOMB.

FAIRLEE, July 15, 1880.

MR. T. W. ELIASON, JR.—*Dear Sir:* In reply to your inquiry as to the results of your No. 1 Ammoniated Super Phosphate, on my Wheat, this last season, it gives me pleasure to be able to say that I am very much pleased with it. I regard it as a No. 1 article.
(Signed) JOHN P. NICHOLSON.

CHESTERTOWN, July 17, 1880.

MR. T. W. ELIASON, JR.—*Dear Sir:* Your No. 1 Ammoniated Super Phosphate of Lime has given me complete satisfaction. With its use my yield of wheat was better than I ever had before. Your goods is, in my estimation, equal to any on the market *without regard to price.*
(Signed) Yours, J. W. PRICE.

CHESTERTOWN, July 8, 1880.

MR. T. W. ELIASON, JR.—*Dear Sir:* I used your No. 1 Ammoniated Super Phosphate on my wheat last fall with other goods costing me five and seven dollars per ton more. I am satisfied that your No. 1 did as well for me as any of them; and regard it as second to no fertilizer on the market for wheat.
(Signed) Yours, respectfully, S. LECATES.

CHESTERTOWN, July 20, 1880.

MR. T. W. ELIASON, JR.—*Sir:* Your No. 1 Ammoniated Super Phosphate has given me *entire satisfaction.* I used it on my wheat the past two seasons, and am satisfied that it is a first-class article.
(Signed) ROBERT NICHOLSON.

CHESTERTOWN, July 24, 1880.

MR. T. W. ELIASON, JR.—*Dear Sir:* I used your No. 1 Ammoniated Super Phosphate two years ago on my wheat, and also —— ——, costing me five dollars per ton more. The results were such, that I abandoned the —— ——, your goods doing so much better for me. This last fall I used it by the side of two others, both costing me considerable more than yours. It gave me *much more* wheat than one of these goods, and was fully equal to the other in yield. I take pleasure in saying that I am very well pleased with it. It drills nicely; and I expect to use it again.
(Signed) SAMUEL G. LEE.

CHESTERTOWN, July 24, 1880.

MR. T. W. ELIASON, JR.—In reply to your inquiries concerning the results of your No. 1 Ammoniated Super Phosphate, which I have used upon my wheat the two past seasons, I would say that the first season I used it, it was by the side of —— —— ——, costing me seven dollars per ton more than yours. After cutting and threshing my wheat, I was satisfied that your No. 1 gave me a *much larger yield*, and a *finer, plumper grain.* So marked was the difference, that I discontinued the use of —— ——, for your goods. Last fall I used it by the side of —— ——, costing me five dollars more per ton than your No. 1. I applied it at the same rate per acre. After threshing my wheat, I found that your No. 1 had given me 3¾ bushels per acre more, and a fuller, better colored grain. Of course, with these results I am pleased with it, and shall use it again.
(Signed) Yours truly, E. J. WATSON.

CHESTERTOWN, July 13, 1880.

MR. T. W. ELIASON, JR.—*Dear Sir:* In reply to your inquiries concerning your No. 1 Ammoniated Super Phosphate, I would say, that I am very much pleased with it. I used it by the side of goods costing me, in one instance five dollars per ton more, and in the other six dollars per ton more than yours—the latter being a goods very popular and of long established reputation. Your No. 1 gave me, I am satisfied, the *largest yield.* I regard it as the *best* goods on the market.
(Signed) Yours, &c. J. S. TREW.

CHESTERTOWN, July 15, 1880.

MR. T. W. ELIASON, JR.—*Dear Sir:* I have used your No. 1 Ammo. Super Phosphate, for the two past seasons, with *entire satisfaction.* Your goods doing for me much better than anything else I tried, I consider it the best goods on the market.
(Signed) Yours, JOHN F. COPPER.

Ohio Chilled Plow.

For lightness of draught, durability and superior work, this Plow cannot be equaled and has never been by any yet introduced; this may be considered by some a broad claim, but a trial will soon convince as to the correctness thereof. All who purchased of us last spring were so much pleased that they seem to delight in talking about them to their friends, and this fact alone has made for us a number of sales even this early in the season, hence it can be truly said that the OHIO CHILLED advertises and sells itself.

The following parties can furnish any information:

W. W. Stephens,	D. C. Blackiston,	Isaac Matthews,
Wm. Stewart,	Thos. P. Dixon,	W. G. Skirven,
G. S. Biddle,	Jas. T. Dixon,	Samuel Brown,
T. Romey Strong,	J. Robinson.	Jas. Gemmill,
T. J. Vickers.		

Bickford & Huffman's
Farmers' Favorite Grain Drills.
The PIONEER DRILL of AMERICA.

These Drills are so well known and in such universal use that it is not necessary to advertise its many points of superior merit, and we simply insert this more as a notice of the change of agents than as an advertisement of the Drill. Call and see us before purchasing.

Perry Spring Tooth Harrow.

Improvements in agricultural implements having finally reached the Harrow, we now present to our friends and patrons, claiming for it the great advantage of being both a time and labor-saving implement. Our neighbors of other States and counties of this State inform us that they are fast taking the place of the old solid tooth and from their representation and our own judgement, we firmly believe that ere long they will have entirely displaced all the old ones ever amongst us. Try one and judge for yourselves.

All of the above are for sale by

$2.00 Reduction for Cash

MANUFACTURED BY

KENNARD & CO.

:O:

THE late crops where the above were used are the strongest possible testimonials, and it is with pleasure we can say that our goods have equalled and in may cases, surpassed any article in the market, and along side the old standard brands they have been proven to be of the most superior quality.

The low price at which we sell is alone attributable to the fact that we pay no commission to agents, and are satisfied with a close margin ourselves.

Our Factory is always open to the farmers, and a cordial invitation is extended them to visit us there and inspect for themselves.

We also carry a full line of chemicals which with any special mixture desired we will furnish at Baltimore prices.

We might insert numerous testimonials, but prefer to hold them at our office subject to the perusal of all, and simply add the names of a few who have used our goods and to whom we respectfully refer as to their merits:

Stations marked thus (*) have no agents.

Freight for Delanys and Bingham's must be prepaid.

The morning trains make connection at Clayton with the Delaware Railroad going North and South.

Passengers on morning train to and from Baltimore change cars at Wilmington or Delaware Junction.

Freight carried at low rates to all points and must be at Stations 30 minutes before starting time, in order to insure dispatch.

☞ Trains run on Philadelphia time, which is 5 minutes faster than Baltimore time.

FRED. GERKER,
Lessee.

July 29, 1880.

LIME! LIME! LIME! LIME!

Shells! Shells! Shells! Shells
30,000 bushels of each for sale.

THE undersigned is prepared to furnish LIME and SHELLS to the citizens of Kent, Queen Anne's and Cecil counties; and will land the same on the Chester and Sassafras rivers, or any of their creeks where there is a depth of five feet of water, of the best quality and at the lowest prices.
