CHESTERTOWN, MD.,

Thursday Morning, Sept. 8, 1881.

S. E. SULLIVAN. C. G. WOODALL.

SULLIVAN & WOODALL,
Editors and Proprietors.

DEMOCRATIC TICKET.

For Comptroller of the Treasury:

THOMAS J. KEATING,
OF QUEEN ANNE'S COUNTY.

COUNTY TICKET.

FOR HOUSE OF DELEGATES:

Samuel Cacy,
Thomas A. Hulme.

FOR SHERIFF:

Robert W. Calder.

COUNTY COMMISSIONERS:

1st Dist—Charles P. Loper,
2d " —Tilghman Shafer,
3d " —Richard C. Smyth,
4th " —V. Hendrickson,
5th " —T. Romie Strong.

THE PRESIDENT was moved to Long Branch Monday. He left Washington about half past six Monday morning, on a special train that had been supplied by the Pennsylvania railroad. A car was fitted up for him with every possible comfort and convenience, and his journey was made as easy as it could be made. A cottage at Long Branch, within a hundred yards of, and overlooking the ocean, had been fitted to receive him. A railway track was laid from the depot to the door of the cottage, a distance of half a mile, so that the President might undergo as little inconvenience as possible. He made the trip without any serious mishap and arrived at the cottage shortly after noon.

BESIDE the deadly drouth, terrible fires are raging in various sections of the country,

THE PENNSYLVANIA RAILROAD took formal possession of the P. W. & B. road on last Thursday, the first day of September.

THE Centreville *Record* claims to have reliable information, that the colored people of Queen Anne's county design bringing out this fall, a simon pure colored ticket. The white Republicans have heretofore made the ticket, while the colored people have done the voting. This fall, in making the ticket, the colored Republicans propose to ignore their white brethren. The ticket is to be made by the colored people, and for the colored people.

THE DESTRUCTION OF CROPS by drouth, has not been confined to Maryland. Throughout Pennsylvania, and the great grain growing States of Illinois, Iowa, Minnesota and Michigan the drouth has been even more destructive than with us. There is no doubt but that the corn crop will be much shorter than the wheat crop for this season. Corn for November delivery is now selling at seventy-five and seventy-six cts. The belief is entertained by many, that before Christmas it will reach a dollar. Even this price will not compensate farmers for the shortness of the crop.

FLIPPER AND WHITAKER, two colored youths, were each educated at the United States Military Academy at West Point, as experiments. Flipper succeeded in passing his examinations, and afterward was advanced to the rank of lieutenant in the army. Whitaker did not possess the requisite ability to pass his examinations, and in order to create for himself a sympathy, he punched holes in his own ears, and pretended that it was the result of an outrage. He was given the benefit of two trials, and each time it was decided that he mutilated himself. And now Flipper has gone down as ignominiously as Whitaker, by appropriating to his own use, moneys that belonged to the government.

THE GARRETTS of the Baltimore and Ohio Railroad, have sold their interest in the Virginia Midland, the great railway system of the South, for $3,000,000. Mr. John S. Barbour and others, representing the Richmond and Danville syndicate, are the purchasers. The Baltimore papers seem disposed to hurrah for the change, and to look upon it as being the best thing that could have happened for the interests of Baltimore, as they claim the change will give that city a wider connection with the South. The New York *Sun*, in an article which we copy in this issue, intimates that there has been no real sale, further than an exchange of stocks between the two corporations, which shall insure each corporation unencumbered right of way over the other's tracks. If this be the true state of the case, the change must necessarily be to the best interests of Baltimore.

THERE IS ANOTHER GRAIN GLUT in Baltimore. This time the glut is not in the Baltimore and Ohio elevators, but in the elevators of the Northern Central. Much stir has been created in the grain market by the proposal of the railroad authorities to largely increase charges for storage. Last winter's glut demonstrated that Baltimore had not enough elevator room to accommodate her grain trade in an emergency. The Baltimore and Ohio road has about finished a new elevator, that nearly doubles the storage accommodation of that road. The elevators of the Northern Central are still very inadequate. The subject of a State elevator for water borne grain is again being agitated by the grain men, and it is said that a bill will be introduced in the legislature this winter providing for the building of a State elevator. It is a fair subject for inquiry, why the rich grain buyers who so thoroughly understand the need of more elevator room, do not themselves build an elevator.

After being placed in the cottage at Long Branch, his pulse rose to 124. This is thought to have been caused by the excitement attending the trip. It is hoped by his physicians that after he is somewhat used to his surroundings, and after breathing for awhile the salt sea air, there will be a decided change for the better.

Peninsula News.

St Michaels has a dog that climbs up on top a house by means of a ladder.

Jacob Tome, the banker, has commenced the cultivation of tobacco on a large scale, near Port Deposit.

The Morning *News* reports that several cases of pleuro-pneumonia have occurred among the cattle around Wilmington.

The Wilmington Morning *News* is run by a little he editor, and a big she editor. We gather these facts inferentially from the Middletown *Transcript*.

William M. Veach, who went to Kansas less than a year ago, from Cecil county, to engage in farming, is on the road back to Elkton with a drove of cattle.

Pride, the newspaper man who organized and carried through a successful camp meeting has already received his reward. His wife has presented him with a girl baby.

Albert Constable, Esq., who has been confined to his bed from a severe attack of pleurisy, is in a fair way for recovery. At one time his case was critical.—*Cecil Democrat.*

The *Transcript* is not afraid to venture the opinion that in less than three years Middletown will be one of the most extensive fruit, vegetable and poultry canning centres on the Peninsula.—*Middletown Transcript.*

There are at the present time about fifty stills at work in Sussex county, making apple brandy. The average daily capacity of each still is about fifteen gallons. Four bushels of apples are required to make a gallon of brandy. The apples are bought at ten and twelve cents per bushel.

The Easton, Talbot county, *Ledger* of last week says: "The farmers are in the midst of fodder saving, and many who depend on this as provender for their stock have fears that all nutrition has been lost, in consequence of the burning dry weather, and that a substitute must be found with which to feed the horses and cattle through the winter. Many of the farmers will not top and blade the corn but expect to cut all together."

An Elkton sportsman shot a squirrel. The squirrel did not fall to the ground, but lodged in the fork of the tree. The sportsman climbed the tree to get the squirrel. On his way up, a limb broke, and the sportsman would have dropped to the ground, but another friendly limb caught him in the seat of the trousers. The friendly limb held him suspended in the air. He wriggled his legs and arms in an effort to catch hold of something, but there was nothing to catch hold of. Another sportsman helped him safely down.

DOVER WATER-WORKS.—The system of water-works for the town of Dover, is to consist of 2,200 feet of 8 inch iron water pipe, 4,700 feet of 6 inch water pipe, 6,125 feet of 4 inch water pipe; 27 double-discharge Holly fire dydrants, 7 stop gates, a well and steam-pumps.

The water will be taken from a well 15 feet in diamiter and 21 feet deep, to be dug on the point of land purchased by the town of Mr. E. O. Eccles, just across the bridge on the road to Smyrna. It will be taken up and distributed through the town, by two high pressure steam-pumps of Gaskill's patent, with a capacity of about 1,000,000 gallons in 24 hours. The water will be forced through the mains without the intervention of reservoir or stand pipe, and a uniform pressure maintained by valves and automatic regulators peculiar to the Holly system. The engine house will be of brick 20x39, covered with slate or tin, with iron smokestack. The wall of well will be 18 inches thick, of brick laid in cement.

A contract has been made with the Holly Manufacturing Company of Lockport, New York, for the whole work, at a cost of $19,500, and the work will be commenced in a week or two, and paid for as it progresses according to monthly estimates, 15 per cent. being reserved till the whole is completed and satisfactorily tested. Owing to the delay in contracting, and the difficulty of obtaining the pipe, the work is not to be completed till February 1st, 1882, though it will be to the interest of the company to do it as much sooner as possible.

Water will be delivered for all domestic purposes, under a pressure at the works of about 20 or 30 pounds to the square inch, and in case of fire, all that will be needed, will be to attach the hose to the fire hydrant, and the pressure increased to 50 or 55, and instantaneously we can have one, two or three fire streams, one inch in diameter and 100 feet high.—*Delawarean.*

SOME unexpected dangers of picnics are illustrated by the experience of young Patrick Stanton, who went to a picnic, there meeting Miss Lambert, with whom he danced, after which pleasure he got drunk and went home. A few days later he was informed that during his intoxication he had married Miss Lambert; and now she produces the clergyman's certificate and flaunts it in his face. Patrick's history should be a warning even to occasional as well as habitual picnickers.

MANY of the recent emigrants from Germany are young men under 18, who thus escape the long and burdensome military service. Were they to remain after reaching their eighteenth year, their emigration would not be permitted. Bismarck is reported not to like their departure at all. He is alarmed to find his stock of food for powder rapidly diminishing.

A NEW RAILROAD COMBINATION AND HOW IT WORKS.

The announcement of the sale of the Virginia Midland Railroad by the Baltimore and Ohio Company to the Richmond and Danville Company covers a transaction and consequences which are not inferrible from the terms of the statement. If we suppose it to be true, the inference necessarily follows, incredible though it be, that the Baltimore and Ohio has abandoned its persistant and energetic plans of forming Southern connections, and that it has succumbed to the rivalry of the Pennsylvania Central, which is known to be closely connected with the Richmond and Danville. The theory of a bona fide sale, therefore, is utterly inadmissible, and the transaction must be explained in some other way.

But to those who understand the railroad situation in the South there can be little difficulty in solving the problem. The Baltimore and Ohio Company, in its southern extension, had reached Danville, Virginia, which is situated on the border of North Carolina. The Richmond and Danville Company several years ago made a long lease of the Piedmont road from Danville to Greensborough, North Carolina, and the North Carolina road thence through Salisbury to Charlotte, where it connects with the road to Atlanta. The Baltimore and Ohio, in order to secure a right of way or interest in the roads south of Danville, announced its purpose some months ago of building a parallel road through the upper Piedmont counties of North and South Carolina to Spartansburg in the latter State, where it was to meet with a projected road from Augusta, Georgia. The counties interestcd were called on to subscribe liberally. They did so. Surverys were made, and the work of grading has been begun, with sanguine hopes indulged by the people of completing the (to them) great work in a very short time. What, then, must be the disappointment of these people when they learn that the Baltimore and Ohio Company has sold the Virginia Midland to the Richmond and Danville Company, and therefore ceased to have the slightest interest in the southern extension! If the sale has actually taken place, the Baltimore and Ohio can have no more interest in building a railroad over the elevated and rugged table lands of North and South Carolina than it has in the roads of a foreign country, for it will have cut off its connections entirely by the whole length of the Virginia Midland. It is equally clear that the Richmond and Danville Company can have no interest in building a rival to its own line through North and South Carolina, while it had the strongest motive for buying off the rivalry of the Baltimore and Ohio, which it could easily do by granting the equal right of way over its roads through those States, via Greensborough and Charlotte. There was therefore no reason for the former company to pay the latter $3,000,000 for the Virginia Midland, and there is not the slightest probability that a dollar has passed one company to the other. There may have been a nominal purchase and sale by an exchange of stocks, but that is the most of it. Why should the Richmond and Danville Company buy the Virginia Midland, with which it has no connection at the northern end of the latter road? And why should the Baltimore and Ohio Company sacrifice the prize for which it has struggled for years—a Southern connection?—*N. Y. Sun.*

SOME of the good people who do not despair of the conversion of the wickedest people in the world are laboring with Guiteau. As they cannot have personal access to that malefactor, they undertake to evangelize him by means of postal cards. Most of these persons are of the order usually denominated "cranks." One of the cards addresses him as "My Brother Sinner," and says, among other things: "Now, Jesus commands all men to pray, to repent, to believe on His name, to be soundly converted (or born again, see John 3, 5) to be baptized, that is dipped. We are to live pure and holy lives, free from strong drink, tobacco, opium, coffee, tea, flesh of swine, etc. We are to live above sinning and saved by the precious blood of Jesus." This crank will be happy to know that a majority of the articles from which he desires the "Brother Sinner" to abstain are those which he could not have if he wanted ever so badly. There are those who, if they had the immersion of this "Brother Sinner" in their hands, would take care that he should be immersed so thoroughly that he would not be worth lifting out of the water.

THE Philadelphia Press announces that the Star route prosecutions are not to be abandoned; that, although public attention has been diverted from the subject by the condition of the President, Messrs. MacVeagh, James, Gibson and Cook have been hard at work in the interval, and have evidence classified and ready, more than sufficient to convict Dorsey, Brady, Megrew, and others.

THE Pope's nephew lately applied to him for assistance to marry. The Pope borrowed $5,000 and gave it him, saying that he should never be able to do more for him. Soon after, he made over to his family some $15,000, the whole of his small patrimony. What a contrast to papal nepotism in other days.

ON seeing two girls in earnest conversation at Caro, Mich., a young man blew his brains out. He had made a marriage engagement with each, and rightly guessed that they were discussing his duplicity.

THE beautiful district known as Estes Park, in Colorado, is chiefly owned by Lord Dunraven. The Estes Park Hotel is run by Mr. Stetson, formerly of the Astor House.

SENSIBLE ADVICE.

You are asked every day through the columns of newspapers and by your Druggist to use something for your Dyspepsia and Liver Complaint that you know nothing about you get discouraged spending money with but little success. Now to give you satisfactory proof that GREEN'S AUGUST FLOWER will cure you of Dyspepsia and Liver Complaint with all its effects, such as sour stomach, Sick Headache, Habitual Costiveness, palpitation of the Heart, Heartburn, Water-brash, Fullness at the pit of the Stomach, Yellow Skin, Coated Tongue, Indigestion, swimming of the head, low spirits, &c., we ask you to go to your Druggist..... and get a Sample Bottle of GREEN'S AUGUST FLOWER for 10 cents and try it, or a regular size for 75 cents. Two doses will relieve you.

DIED.

NEWTON.—On Thursday night, Sept. 1, 1881, at the residence of Thos. N. Fraiser, near Chestertown, Md., Miss MARY MATILDA NEWTON, in the 45d year of her age.

WHALAND.—At Rock Hall, July 20th, 1881, ROBBIE M., aged 5 years, 1 mo and 3 weeks, son of Lawrence L. and Sarah A. Whaland.

HURLOCK.—August 21, of cholera infantum, BESSIE BOYER, daughter of C. S. and A. Hurlock, aged 6 months.

PIPPIN.—Fell asleep in Jesus, Sunday morning, September 4, 1881, ANNIE MERRITT, precious little daughter of Robert K. and Annie Pippin, aged 11 years, 3 months and 4 days.

The loss of a child is always a sorrow which we deeply lament, but the loss of one so gentle, so kind and so loving as little ANNIE throws a sorrow o'er us all from which we refuse to be divorced, though every recollection is a pang. Scarcely eleven years old, she exhibited in all her actions a sympathy and solicitude for the welfare of those around her, consonant with an age far more advanced than her own. Especially did she manifest this precociousness in her constant and watchful care of her two little brothers, always watching them with the tenderest solicitude wherever they went, anticipating every little wish that might add to their comfort: guiding their little wayward feet lest they should wander too far, she proved a blessing the loss of which creates a wound in the mother's heart which merciful time can only heal. Even when death had begun to cast its dark shadow o'er her little form, and her mind began to wander, she still showed that same concern for the little ones, which, when living, won for her the sobriquet of "little mother." Her gentle and loving character won for her many friends, especially among her associates in Sunday school, who were constantly at her bedside, eager and anxious to perform some little kindness to express their love. A rare little flower, transplanted to a warmer clime, where the cold winds of trouble and sorrow cease to wither. Farewell, dear little ANNIE! God has called you to his home, and while we sorrow for thy loss, we bow in humble submission, knowing that He doeth all things well.

Sept. 8, 1881—2t.

TRUSTEE'S SALE.

BY VIRTUE of a Decree of the Circuit Court for Kent county, in Equity, the undersigned, as Trustee, will offer at Public Sale, on

SATURDAY,
The 10th day of September,
1881, at 11 o'clock A. M.,

at the Hotel in Galena, Kent county, Maryland, the following real estate to wit:

The Farm
called
MOUNT AIRY,
Containing
132 ACRES,
more or less,

in the First Election District of Kent county, on the public road from Galena to Georgetown, and adjoining the lands of Capt. A. Woodall and others.

The situation is desirable, being convenient to Churches, Schools, &c. It is only four miles from Lambson's Station, on the Kent County Railroad, and within a mile of the public and steamboat landing at Georgetown; and has a front of ¾ of a mile on Sassafras river, and a good landing. A few years since the landing was improved by a Granary, from which was shipped a fair share of the grain raised in the neighborhood. It is also directly on the route of the contemplated ship canal.

The improvements are a
FRAME DWELLING,
and the usual Out-buildings, not in very good condition.

A Peach and Apple Orchard,
Thrifty and Bearing.

The fruit of these orchards is of the best market varieties.

THE TERMS

prescribed by the decree are as follows:—One-third of the purchase money to be paid on the day of sale, or on its final ratification, at Trustee's option, residue or balance in three equal installments of six, twelve and twenty-four months from the day of sale. The whole purchase money to bear interest from the day of sale, to be paid with each installment of principal. Payments to be secured by bond of the purchaser with surety or sureties approved by the Trustee.

RICHARD HYNSON,
Aug. 18, 1881—tds. Trustee.

PUBLIC SALE
OF VALUABLE
REAL ESTATE,
—AT AND NEAR—
I. B., QUEEN ANNE'S COUNTY.

BY virtue of a Power of Attorney from B. H. C. Massey, and Bershebs Massey, his wife, and Charles T. Massey and Mary H. Massey, his wife, the undersigned will offer at Public Sale, in front of the Storehouse of T. H. Gafford, in Church Hill, on

Saturday, Sept. 17th, 1881,
at 3 o'clock P. M.,

ALL THAT FARM
OR TRACT OF LAND

situated at and near I. B. and on the public road leading from Church Hill to I. B., and also on the public road from Rolph's Wharf to Sudlersville, known as the

"MASSEY TRACT,"

adjoining the lands of the heirs of Philemon Potts, deceased, and now in the possession of James A. Chambers, the lands known as Andersontown, and containing by recent survey made by B. S. Elliott, Esq., County Surveyor,

333 ACRES,

2 Roods and 30 Perches of Land,

which will be offered first in the following parts as laid off and surveyed by the said B. S. Elliott:

PART NO 1.—On the right of the road from Church Hill to I. B., the part upon which the dwelling or Homestead is located, containing

100 ACRES OF LAND,
ALL ARABLE.

The improvements upon this part consists of an old

FRAME DWELLING

and OUTBUILDINGS and a SMALL STABLE nearly new, and has on it a FINE YOUNG

PEACH ORCHARD
OF ABOUT 5,500 TREES.

Soil is kind, easily improved and in a good state of cultivation.

PART NO. 2.—Partly in the rear of part No. 1 and abutting partly on the public road from Rolph's Wharf to Sudlersville, and adjoining the Anderson farm, containing

100 ACRES OF LAND,
NEARLY ALL ARABLE.

There are no buildings upon this part.

PART NO. 3.—Adjoining part No. 2, abutting upon the said last mentioned public road and partly on the road from Church Hill to I. B., located between said part No. 2 and part No. 5, hereinafter described, and containing

90 Acres and 1 Rood of Land,

This part consists chiefly of WOODLAND. Is well set in CHESTNUT, OAK and PINE. The improvements upon this part are a new frame TENANT HOUSE, occupied by J. Milbourne.

PART NO. 4.—Is on the right of the road from Rolph's Wharf to Sudlersville, containing

24 Acres, 1 Rood & 6 Perches

of LAND, consisting mostly of Valuable WOODLAND. Has upon it a Frame DWELLING HOUSE, occupied by H. Corney, and OUTBUILDINGS.

PART NO. 5.—Located in the angle formed by the two public roads above mentioned, containing

19 Acres & 24 Perches of Land,

consisting principally of WOODLAND.

The improvements on this part are a Two-Story and A-Half DWELLING HOUSE, nearly new, and Outbuildings.

Parts No. 2 and 3 have each running streams of water, and there is a fine meadow on part No. 2, and VALUABLE MARL BED.

After offering in parcels as above set forth, the whole tract will then be offered, sale to be determined by the manner in which the more money is realized.

The whole tract is under good fencing, and offers fine inducements to those seeking homes or to those who may be seeking investments in real estate and timber lands.

Plats showing the division of the whole tract and parcels as above set forth, and made by B. S. Elliott, surveyor above named, can be seen by application to the office of T. J. & B. P. Keating, Attorneys, Centreville, Md., to whom parties desiring to purchase are referred for any information they may desire.

TERMS OF SALE.

One-fourth of the purchase money to be paid in cash on day of sale, the balance in five equal annual instalments from the day of sale, the deferred payments to bear interest from the day of sale, and secured by mortgages from the respective purchasers on the parts sold. No personal security required. Deeds and mortgages to be at the expense of the purchasers.

Further particulars made known on day of sale. G. BETTON MASSEY.

Attorney for B. H. C. Massey and others.
THOMAS J. & B. PALMER KEATING,
Sept. 1, 1881—tds. ATTORNEYS.

COLIN F. STAM,
Sept. 1, 1881. DRUGGIST.

WM. LEA & SONS and C. A. Gambril & Co's. Best Grades of Flour.
For sale by T. W. ELIASON, Jr.

LIME PAINT.

It is good for Frame Houses, outside being Water Proof

The attention of Housekepers, Farmers and others is called to the above Useful and Valuable Preparation for Whitewashing and Sanitary Purposes. It costs less in comparison than Common Whitewash, or the unslacked lime, and its durability and beauty are two-fold greater. It never loses its strength. It can be kept for years. When applied, it forms a surface as smooth as calsomine, without glue or plaster. It can be used conveniently and economically in making Mortar, Finishing Insides, and for all purposes in which sand and lime are employed. We solicit a trial. We refer to the Knickerbocker Ice Co., and others. Sold at wholesale, by the barrel, and in smaller packages, at the Manufactory.

TO WHEAT GROWERS.

The undersigned, *PIONEER* in the manufacture of FERTILIZERS in this city, and *ORIGINATOR* in 1858 of the formulas and processes of manufacture of

"Excelsior" and Ammoniated Phosphate

So well and favorably known by the agricultural public, relying upon his experience and personal reputation hitherto acquired in the uniform excellence of these FERTILIZERS, as manufactured by him, continues to offer them to the Farmers and Planters of Maryland and Virginia, with the assurance that the *High Standard* *Quality* of each will be maintained as heretofore.

The above are the most concentrated *FERTILIZERS* ever offered to the farmer, combining all the stimulating qualities of Peruvian Guano and the ever durable fertilizing properties of Bones in fine, dry powder, prepared expressly for drilling.

For growing wheat, it is the universal opinion of the farmers of Maryland and Virginia, after over twenty years' experience in the use of these Fertilizers manufactured by me, that an application of 100 pounds is equal in its effects to 200 pounds of any other Fertilizer or Guano, therefore fully 50 per cent. cheaper.

With my present advantages and superior facilities for manufacturing, I challenge competition with any Fertilizer sold in the United States, in quality, mechanical condition and price.

By strictly adhering to my original formulas, using only the most concentrated materials and superintending in person their manufacture, as for the past *twenty-three years,*

UNIFORM QUALITY IS GUARANTEED.

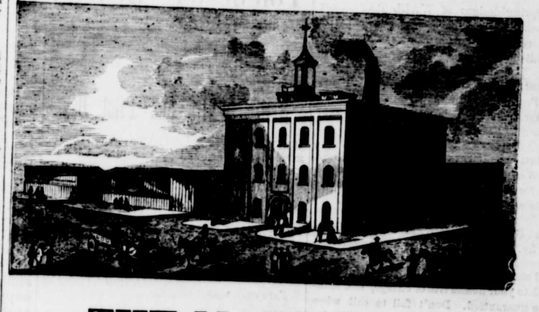

☞ Farmers, to secure the ONLY GENUINE *EXCELSIOR* and *PHOSPHATE* prepared according to my original formulas established in 1858, should see that every bag is branded as above, with the ANALYSIS and MY NAME IN RED LETTERS.

J. Q. A. HOLLOWAY,

T. W. WICKES,
AGENT FOR
Maryland Co's. Phosphate

THE MARYLAND
Fertilizing and Manufacturing Co.

ARE PREPARED TO FURNISH THE FOLLOWING WELL-KNOWN BRANDS OF FERTILIZERS:

ALKALINE SUPER PHOSPHATE,
AND
LINDEN PHOSPHATE.

The ALKALINE and LINDEN PHOSPHATES have special reference to the growth and development of the Grain, and are intended for lands that produce a sufficient growth of Straw, but small crops of Grain. They have been used for several years by some of the best farmers of Maryland and Virginia, alongside the highest grades Ammoniated Phosphates, and in some sections have almost superceded them.

The Fine Mechanical condition of our FERTILIZERS is such, that they Drill readily, and we recommend the use of the Drill as being the most profitable way of applying Fertilizers.

The steadily increasing demand for above goods in the neighborhoods where it has been used, attests its success as an unexcelled Wheat Fertilizer.

One evidence of the value of our Fertilizers is that all the parties named below who used our goods last year, have increased their orders for this year. These namesare genuine, and we refer farmers to the parties themselves:

Capt. E. B. Woodall,	E. F. C. Perkins,	Richard Smyth,
Charles England,	S. J. Roseberry,	T. J. Vickers,
T. F. Hurlock,	W. O. Shallcross,	J. W. Howard,
E. S. Clothier,	Robert Kimble,	J. T. Kelly,
J. T. Dixon,	F. Rash,	F. D. Lamb,
Wm. H. Whitely,	G. W. Jones,	Amos Lynch.

Many others too numerous to mention.

☞ All orders should be left at once with

THOS. W. WICKES.
