Advertising Rates.

Transient advertising will be charged at the rate of *one dollar* per square for first three insertions, and twenty-five cents per square for each subsequent insertion. A space equal to eight lines of brevier, constitutes a square. Figure-work will be charged fifty cents per square additional for first three insertions.

Simple notices of marriages and deaths, inserted free. Obituary notices will be charged at the rate of five cents per line.

JOB WORK.

Handbills, large and small, flyers, dodgers, letterheads, billheads, envelopes, cards, tags, programmes, and other kinds of job work will be done neatly and reasonably.

Correspondence upon matters of local interest desired. Anonymous communications will not be inserted.

It is desirable that communications be in by Saturday night if possible, and in any case no later than Monday night or Tuesday morning.

—St. Patrick omitted the usual formalities of his birthday this year.

—The roads are again growing passable. The period of bad roads has been unusually prolonged this year.

—Messrs. Connelly & DeFord advertise their brands of phosphate in this issue, and J. W. Hines advertises "Old Kent."

—Late reports from commissioner Smyth, who has been laid up with a broken ankle, say that he will soon be out again.

—Mr. S. W. Aldridge, of Chesterville vicinity, is about to establish a large green house in connection with Mr. D. B. Senart.

—W. F. Taylor and R. H. Vandyke, of this county, graduated from the Maryland University as Doctors of Medicine at the recent session.

—D. J. Gordon, the photographer, is yet located in Chestertown, between the *Transcript* Office and the Market House, and is still doing a brisk business.

—Deputy Sheriff Dugan and wife celebrated the seventh anniversary of their marriage last week, in a variety wedding. The presents were numerous and handsome.

—Miss A. E. Leaverton, first assistant teacher in the Chestertown public school, was awarded a life certificate by the State Board of Education at its recent meeting in Annapolis.

—Major Thomas B. Hynson has been confined to his room by sickness during the past week. His physician reports him improving however, and it is hoped that he will shortly be out again.

—The President of the Kent County Agricultural Club has announced the following executive committee: Samuel Vannort, James Brice, Joseph E. Gilpin, W. P. Norris, Wm. T. Nicholson, John Gale, W. W. Stephens and J. M. J. Byron.

—The name of the writer should always be sent with a communication to a newspaper. A failure to observe this rule consigns the communication to the waste basket, unless the editor knows who the correspondent is without a signature.

—The stack yard on the farm of Mrs. E. R. Wickes, situated within a mile of Chestertown, was burned on Sunday last. The stacks caught from dead grass that was either thoughtlessly or purposely fired near by. A large quantity of straw was destroyed, but no other damage was done.

—A little child of Mr. F. P. Roe, residing on the Westcott farm, two miles east of Chesterville, on the Millington road, fell into a vessel of boiling water, recently and was so badly scalded that she died on Tuesday of last week. Her mother had just set the boiler containing the water down on the hearth and turned, when the child fell into the water. She was about four years old.

—The dwelling and meat house on the farm of the late Capt. Geo. W. Watts, in Worton, in the tenancy of Wm. B. Plummer, were destroyed by fire Tuesday afternoon of last week. None of the family were at home at the time. Luckily the fire was discovered soon after it broke out, and most of the furniture and the meat were saved by neighbors. The origin of the fire is unknown. Loss about $1,000. No insurance.

—An exchange gives the following as a good whitewash recipe:—"Slake, say one peck of lime, and while hot and at the thickness of cream, add a quart of linseed oil and one-quarter pound of glue. Let stand a half day before using. Rains will not wash it off, nor will it prove such a nuisance on indoor walls as common whitewash. It should, of course, be thinned with water while using as ordinarily."

—Chestertown has a hand fire engine that is probably the oldest in the State that is yet prepared to do active service. The engine in question dates back to 1804. It is a little leaky, but is considered competent to throw a stream of water on top of a three story house. The town also has a new hand engine, which though an improvement in many respects over the old engine, is yet not as good a water thrower as the old.

—Orphans' Court, Tuesday, March 18, 1884—Present, Judges Walker and Hyland.

George H. Watts filed the last will and testament of George W. Watts, dec'd, which was received, admitted to probate, and ordered to be recorded.

On application, letters testamentary upon the personal estate of George W. Watts, dec'd, were granted unto George H. Watts, who filed his bond in the penal sum of $1200, with security approved by the court.

On application, letters of administration upon the personal estate of John William Toulson, dec'd, were granted and committed unto Mary M. Toulson, who filed her bond in the penal sum of $400, with approved security.

Wm. A. Cleaver, executor of Wm. Bowman, dec'd, filed his third and final administration account, which was received, passed as stated, and ordered to be recorved.

NOTES BY THE WAY.

The temperence reform movement in England has increased the demand for fruits in that country. Fruit, milk and vegetables are taking the place of beer in thousands of English families, who cannot afford (free trade country) to eat meat oftener than once a week. In 1871 this country sent fifty-six thousand bushels of raw fruits to England; in 1882 over one million bushels. The consumption of fruits has increased in all parts of the world as well as in England. Great discredit has been thrown on our manufacturers of canned fruits, owing to the inferior quality of the fruit and the want of care in its preparation. This can be remedied by packing in glass bottles instead of tin cans. There seems to be no limit to the demand for our dried fruits, and the evaporated peach is likely to command fairer prices in the future than it has in the past. On the whole there never was such a bright prospect spread before the fruit growers of this country. The world will consume our fruit if we will prepare it with care.

W. D. Penington predicts a crop of peaches here this season. About this time last year Mr. P. predicted a very light crop—which we had.

Ex-Senator Hephron predicts the nomination of Mr. Tilden (by the National Democratic Convention) for the Presidency. Four years ago this month, Mr. H. predicted the nomination of Hancock.

The stock holders of the Still Pond hall company have elected the following gentlemen as a board of directors to serve for one year, namely: Norris Barnard, J. F. Wilson, G. W. Harper, M. F. Clark, J. B. Parrott, W. D. Penington, J. H. Clinton, W. S. Busick and E. M. Bonwill. *Still Pond*, March 17, 1884.

The M. P. Conference.

The Maryland Methodist Protestant Conference opened at Pocomoke City on Wednesday morning. Dr. Murray presiding. The president's report represented the year as one of peace and success. It indulged in strictures upon the mode of assessing the churches, and insisted upon the importance of more generous support of the ministry. The older pastors were reduced to sore straits and the younger tempted to seek other connections for employment. The Theological Seminary was commended to the zealous support of the church. Dr. J. Thomas Murray was elected president for the second year. Thomas H. Lewis, secretary; R. T. Smith, conference steward; S. R. Murray, Foreign missionary steward; W. T. Valliant, Home missionary steward; F. T. Tagg, superannuated fund steward; the standing district committee, W. S. Hammond, J. D. Kinzer, W. Dale, H. F. Zollicoffer, J. W. Herring. The first Wednesday in April was fixed as the time for next conference. A committee on appeals, T. D. Valliant, D. L. Greenfield, J. D. Kinzer, J. Carrow and H. Hurrough, was announced. After debate the general conference was clothed with conventional powers. This will so change the law that each conference will have power to decide whether the pastoral terms shall be limited.

Some Notes From Chesterville.

CHESTERVILLE, March 17, 1884.

Did you ever hear of a village in Kent called Chesterville, dropped from the clouds half a century ago, and left in its Van Winkle sleep, undisturbed, until the moss had threatened to cover it entirely? Well, wonderful to relate, there is still life left in Chesterville and its surrounding neighborhood, and as the mud dries up the people begin to realize that spring is come. They are arousing in earnest and thinking of spring work in field and garden. Speaking of gardens brings to mind that of S. W. Aldridge—always beautiful, but promising new delights this summer. Mr. A. has erected handsome new green houses and has in prospective a magnificent supply of flowers—roses in particular. Our best wishes are for his success, as his heart is in the work. It is always a treat to visit his garden. He knows how to arrange a tasteful boquet.

Dr. J. B. Schwatka, formerly of our village, paid a visit to his friends in this locality last week. Report says Dr. S. is succeeding wonderfully well for so young a practitioner. May his shadow never grow less. Rev. Mr. Neavitt, of M. E. Church South, is absent at Conference in Baltimore. His people confidently expect his return for another year, that he may enjoy the comforts of the handsome parsonage he so largely assisted to erect. I suppose you know we have a little store around the corner, and a live proprietor. If you could just spend an hour there (say at mail time) you would be convinced that there is no further need of choosing lawgivers for the U. S., as each individual man has a plan of his own for saving the country—and *still* you have rarely mentioned Chesterville.

Peninsula Items.

Easton has organized a chess and checker club.

The March term of the circuit court for Cecil county began on Monday.

Sixty-eight thousand dollars has been subscribed for a bank in Salisbury.

The Easton *Star* reports Comptroller Turner as confined to his bed with inflamatory rheumatism.

A Milford, Del., turning mill has an order for 3,000 maple base-ball bats, 36, 38 and 40 inches in length.

The directors of the Denton National Bank have advertised for sealed proposals for the erection of a banking house.

It is reported that hundreds of red head ducks are being killed on Tilghman's Island by the use of big guns on sneak boats.

Terrapin hunting in some parts of Dorchester is quite a paying industry, parties making as high as $25 in a single day, but the average profit per day of an experienced catcher is from three to five dollars.

The building of a narrow guage railroad from Easton to Tilghman's Island, by way of Royal Oak, St. Michaels and the villages and post offices in Bay Hundred district, is now much discussed by the people of the Second and Fifth districts, Talbot county.

The Delaware Game Protective Association has recently received one hundred quail from Tennessee, and a brood of prairie chickens from the West. They are to be let loose in different parts of the State as an experiment as to the adaptability of the climate for these birds.

CONFERENCE NOTES.

The next conference will be held at Snow Hill.

There were 850 conversions on Easton District last year, and during the last two years the average of preachers' salaries has been raised from $700 to $780.

The report of the committee on education gave the gross earnings of Wilmington Conference Academy to June last, $11,015.96; expenses, $9,081.33; profits, $1,934.53; cost of improvements, $139.47; with other expenses leave a credit balance of $108.70. In the preparatory department of the academy there were 58 pupils; academic, 70; specials, 18; total, 146; enrolled to date, 167. The land on which the building stands is valued at from $20,000 to $25,000, and the buildings cost $40,000; the debt of the institution is $20,866.40; bonded debt, $15,000.

A resolution was passed that the Wilmington Conference take upon itself the responsibility of the debt of the academy. A subscription was opened, and in a short time $3,030 was subscribed toward the payment of the $8,800 indebtedness to be met in August 1885.

REPUBLICAN POLITICS.

MEETING OF THE STATE CENTRAL COMMITTEE—CALL FOR THE PRIMARIES.

From the Baltimore Sun of the 13th inst.

The Republican State Central Committee of Maryland met yesterday in this city at Dushane Post Hall, corner Lexington and St. Paul streets, to arrange the details for sending delegates to Chicago, and putting a Presidential electoral ticket in the field. There was a good attendance of members of the committee, and a number of party leaders were on hand. Chairman Jas. A. Gary, when he called the central committee to order at noon with closed doors, none but members being admitted to the hall, congratulated the Republicans of Maryland upon the brightness of their prospects. The Democracy, he said, are in a demoralized condition, and with harmony in the Republican ranks their chances for victory are excellent. Last fall the Republican vote was the heaviest ever polled in Maryland. A number of Democrats of old Whig proclivities had indicated their intention to identify themselves with the Republicans in the future.

A general discussion of the political situation ensued, and a number of resolutions were presented. It was decided to name a sub-committee of one member from each congressional district, to whom all resolutions were to be referred without debate. The committee selected were as follows: First district, James C. Mullikin, of Talbot; second, E. H. Webster, of Harford; third, Wm. F. Airey, of East Baltimore; fourth, Gen. Adam E. King, of West Baltimore; fifth, Dr. Geo. D. Mudd, of Charles; sixth, Dr. Wm. H. Perkins, of Washington county. This committee was in session about two hours, when they reported resolutions embodying a plan for the primary campaign. This report was adopted, after amendment in the central committee, and is as follows:

Resolved, That the Republican State convention to held in Hagerstown on Thursday, May 1, at noon, to select four delegates at large and four alternates to represent the State of Maryland in the national convention to be held in Chicago on June 3; and also by sub-conventions to select two district delegates for each congressional district that shall not previously elect its delegates to represent such district in said national convention; and also to nominate two candidates for presidential electors at large, and by sub-conventions to nominate a district elector for each congressional district that shall not previously have nominated a candidate for elector.

2. That congressional district conventions be held on Thursday, April 24, as follows: First district, in Chestertown; second, in Waverly; third and fourth, in Baltimore; fifth, in Annapolis, and sixth in Rockville. That each convention when assembled shall either nominate a candidate for elector for such district and two delegates to represent the district in the national convention, or refer such nominations and election to the delegates who shall represent such district in the State convention, as it may prefer.

3. That primary elections and county conventions be held in each county to elect delegates to said district and State conventions, these primary elections and county conventions to be held at such places and hours and subject to such rules and regulations as may be prescribed by the members of the State central committee for the various counties. In the event of the State central committee of any county declining to act, their powers shall be exercised by the local county committee; or if they prefer to delegate their power to their county local committee they are at liberty to do so. The matter of holding the primaries in Baltimore city and arranging their representation in the congressional and legislative district conventions shall be arranged by the members of the State central committee for this city, the members of the committee to be convened by the executive committee of the State central committee for Baltimore, or a majority thereof. To effect a temporary organizaton in such conventions held under the call the chairman of this committe (Mr. Gary) is directed to name some member of the State committee in the congressional district to call said conventions to order and to prescribe until an organization is effected.

4. That the seventeenth ward of Baltimore city be entitled in the fifth congressional district convention to three votes; the sixth and seventh precincts of the fifteenth ward, first precinct of the sixteenth ward and first precinct of the eighteenth ward be collectively entitled to one vote, and the first and thirteenth districts of Baltimore county collectively have one vote.

This programme for separate congressional district conventions to select delegates to Chicago was recommended by the national committee of the party. The State central committee have, as shown in the resolutions, taken full control of all the machinery in this city and the counties for arranging and controlling the primaries. The city local executive body is not mentioned in that connection. The Republicans will send 16 delegates to Chicago, of whom four will be for the State at large. Each is entitled to a full vote in the national convention. For delegates at large the names of Messrs. Holton, Creswell, Milton G. Urner, Harrison Andreon, Charles T. Westcott, of Kent, and Gen. Adam E. King are mentioned, and there is a numerous company of aspirants for the places in each congressional district. The contest will be mainly personal, as the Maryland Republicans are not so wholly committed to the cause of any Presidential aspirant as to be ready to inscribe his name upon their banners. President Arthur is just now perhaps the favorite.

OCEAN BIRD GUANO!

OFFICE OF T. R. HUBBARD & SON,

Manufacturers of Hubbard's Standard and Extant Bone Superphosphate

AND SOLE PROPRIETORS AND IMPORTERS OF O. B. GUANO.

SEE ANALYSIS:

BALTIMORE, February 27, 1883.

Messrs. T. R. Hubbard & Son:—Sample of your Ocean Bird Guano sent me gives the following result:

Moisture Det. at 100	10 40	Alkaline Salts	2 62
Organic matter	13 34	Or total Nitrogen: equal to Ammo	1 12
Capable of producing Ammo	0 03	Bone phos. of lime available	26 59
Inorganic matter	76 26	Bone phos. of lime undecomposed	13.51
Containing Nitric Acid	0 57	Salts of potash and soda	2 62

G. A. LIEBIG.

The above Guano was introduced here last Spring and nearly 200 tons were used by our best farmers with satisfactory results. As an application to PEACH TREES it is unsurpassed. As seen by the analysis it contains a very large per cent. of available Bone Phosphate, and yet there is a large per cent. of undecomposed Bone to benefit the after crops. We have already taken numerous orders from our largest and most successful PEACH GROWERS, who mix it half and half with Kainit, sow it broadcast and plow it in. Those desiring to try it will do well to send in their orders early, as our supply will be limited unless our next cargo arrives in time for Spring use.

CHESTERTOWN, Feb. 20, 1884.

T. R. HUBBARD & SON—GENTLEMEN: In reply, as to the action of your O. B. Guano on our orchards we can only say that it was entirely satisfactory. Last spring we purchased of you 37 tons Kainit and 5 tons O. B. Guano, and bought 5 tons Fish Guano in Baltimore, (the latter costing over $40 per ton.) We mixed the Guanos ½ to ⅔ Kainit, and applied the same 200 lbs. per acre, sown broadcast; and also applied double the amount of Kainit as a test. Parts of the different goods were used on an orchard 17 years old, and must say that where your Guano and Kainit were used, there was a dicided difference in its favor, perceptible to several of our neighbors, in the trees as well as fruit. In past applications to our orchards we have always preferred Fish Guano, but are frank to say that we regard your O. B. Guano as THE BEST PEACH MANURE WE HAVE EVER USED, and shall require 12 or 15 tons to apply next month.

JOHN A. GROVES,
S. M. WILKINS.

TO THE FARMERS

—OF—

KENT, QUEEN ANNE'S & CECIL

IT is universally acknowledged by the most practical farmers that the Ohio Chilled Plow is the best plow in the world for neatness of work, and lightness of draft to the team. As I have ordered a large number of these plows, both two and three-horse, farmers will do well to give me an early call.

We also keep on hand, the Old Reliable Concave Nos 9, 10 and 11, Polished Minor and Horton, Wiley Nos. 3 and 4, and Two-Furrowed Plows, and Harrows, Twin, Single A, and Double A A, Cultivators and Cultivator Teeth unsurpassed by any manufacture. Single, Double, 3 and 4 Horse-Trees and Hames.

As there have been a great many Chilled Plows sold in these counties, and as farmers have been put to a great deal of trouble to get Castings for them, if they will only give the name and number of the Plow, I will endeavor to keep them on hand at my shops in Galena and Chestertown. I always have on hand Plain and Slip Shares for the Ohio, Oliver, Roland, Advance and Syracuse.

If any of you are in need of anything in my line, please give me a call, as I intend to sell them *low* for the *cash*.

Thankful for past patronage, I solicit a continuance of the same.

W. A. Hyland,
Galena and Chestertown.

Stoves! Stoves! STOVES!

Our line of Cook and Heating Stoves is complete.

We guarantee every one we sell! Our New Emerald, Virginia Farmer Girl, New Regulator, Southern Girl, and New Charm Cook Stoves, can not fail to do us credit, and the purchaser good service.

Our Ranges have been thoroughly tested and proven a blessing in our community. The leading names are: The Happy, The Maryland, Reliance, Clifton, Daisy and Cozy.

The Happy Cook or Range is for either wood or Coal, and in our judgment has no equal for good baking.

Our "Splendid"

FIRE PLACE HEATER

TAKES THE LEAD!

Every one sold gives entire satisfaction. We guarantee them.

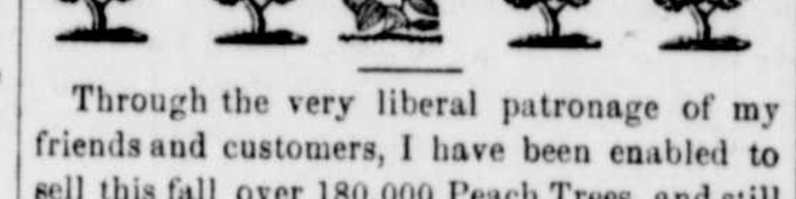

Our stock of Heating Stoves comprises all the latest improvements and are elegantly finished.

NURSERY STOCK.

Through the very liberal patronage of my friends and customers, I have been enabled to sell this fall over 180,000 Peach Trees, and still have remaining

8000 first-class trees

and about

30,000 Second Class,

consisting of the leading popular varieties.—These 2d Class Trees will run from 2 to 3 feet in height; have good roots, and are healthy Trees. Almost all my own planting has been of this class, and some even prefer them. Price $30 per 1,000; 1st class, $60 per 1,000.

Other Nursery Stock, and especially Strawberry, Raspberry and Blackberry Plants, for sale in quantity. Catalogues ready.

Thankful for past favors I hope to merit a liberal share of patronage.

N. BARNARD,
Stanely, P. O., Kent co., Md.

We, the undersigned, having known Mr. N. Barnard for the past 15 or 20 years, take pleasure in recommending him as reliable and trustworthy, and trees that we have purchased from him have proven satisfactory and true to name.

W Register's MARBLE WORK

Chestertown, Md.

ALLOW ME to tender my sincere thanks for the past patronage of the public, and hope to receive their approval and patronage this present year. I am prepared to cut and finish every design in the marble business.

I have a very handsome assortment of my own finished

TOMBSTONES.

Some of the Latest Designs

HANDSOMELY FINISHED,

COPIED FROM THE LATE PARIS EXHIBITION.

A large assortment for children, different patterns, some as low as $6.00, lettering included. Some fifty different patterns for grown persons, handsomely finished, some of them as low as $15.00, lettering included. Also, a fine line of different patterns, expressly for the

QUAKER BURYING GROUNDS,

very thick and heavy and handsomely finished of the best marble.

Marble Posts, marble Vases with Pedestal. Marble Coping, Tombstones and monuments, of all sizes and styles.

Marble or Sandstone worked to order. I warrant all my work not to color or blister—time has no effect on it. I set up all of my work, thus reieving the purchaser of all trouble or risk.

Come one, come all, that are in want, and examine my work and learn my prices. I will be thankful. Don't send the money out of your own neighborhood.

Call and see me. I do not like to canvass for work, for I think it too sad a business to barter with relatives or friends.

My work can be seen in all the cemeteries of Kent and the adjoining counties.
