Chestertown Transcript.

THURSDAY, MARCH 27, 1884.

Subscription $1.50 per year; 75 cents for six months, in advance.

Advertising Rates.

Transient advertising will be charged at the rate of *one dollar* per square for first three insertions, and twenty-five cents per square for each subsequent insertion. A space equal to eight lines of brevier, constitutes a square. Figure-work will be charged fifty cents per square additional for first three insertions.

Simple notices of marriages and deaths, inserted free. Obituary notices will be charged at the rate of five cents per line.

JOB WORK.

Handbills, large and small, flyers, dodgers, letterheads, billheads, envelopes, cards, tags, programmes, and other kinds of job work will be done neatly and reasonably.

Correspondence upon matters of local interest desired. Anonymous communications will not be inserted.

It is desirable that communications be in by Saturday night if possible, and in any case no later than Monday night or Tuesday morning

—C. W. Kennard & Co. advertise in this issue their brands of fertilizers.

Mr. W. N. E. Wickes advertises in this issue Lister's brands of fertilizers. Lister's fertilizers enjoy a wide reputation as crop producers.

—White perch and other kinds of fish are very abundant in the Chestertown market. A few herring are being caught by the seine haulers.

—The peach bud yet lives. But as it blossoms into hope, there may come a frost, a blighting frost. In other words, you can't bet on the peach till June.

—The roads are again in a condition that causes the wayfaring man to use violent English. Well, well, the roads will be solid by the 4th of July, maybe.

—The Chester River Steamboat Company has painted the steamer Corsica white. The B. S. Ford will soon lay off for repainting, and her place will be filled by the Geo. Law.

—We received a communication during the past week signed A. B. C., which contained no name, and of which we did not know the writer. A. B. C. will please remember to sign a boni-fide name next time.

—Capt. James B. Wilson, of the oyster police force, on the morning of the 14th inst., surprised a number of unlawful dredgers. He captured the pungy "Great Western," under command of George Abbett, and took her into Grey's Inn harbor. The pungy was fined $110, which has been paid.

—Messrs. Chapman & Lambert, whose advertisement and statement to the public appear elsewhere, present in their business an example of what honest work and square dealing will do in the long run. They began twenty years ago in a small way, and though they do not even now make much outward show, yet they are probably doing a larger business in their line than any firm south of Wilmington. Their's is one among the well established industries of Chestertown.

—The Kent Guards had a very pleasant supper Thursday of last week at the Voshell house under management of Mr. J. Goldsborough. The Kent band was on hand and contributed lively music. Short speeches were made by Maj. E. F. Perkins, Capt. T. S. Bordley, Mr. W. B. Usilton, Capt. W. H. Hamilton, Capt. Thos. G. DeFord and Mr. J. N. Dodd. The company is at present officered as follows: Captain, Thos. G. DeFord; first lieutenant, R. R. Calder; second lieutenant, Frank E. Duyer; 1st sergeant, W. F. Malin; 2d, Wm. H. Byrom; 3d, C. B. Lamb; 4th, W. Alcutt.

—Orphans' Court, Tuesday, March 25, 1884—Present, Judges Walker, Hyland and Stevens.

Richard Hynson, executor of Jacob Highley, deceased, returned his third administration account and second distribution of said deceased, which was received, passed as stated and ordered to be recorded.

John Frank Russell filed the last will and testament of Francis Russell, deceased, which was received and ordered to be recorded.

Chas. Basten Jr., filed an exemplified copy of the last will and testament of Olivia R. M. Beasten, late of New Castle county, State of Delaware, deceased, which was received and ordered to be recorded.

Mrs. Susan S. Gallup returned an account of sales of the personal estate of E. B. Gallup, deceased, which was received, passed as stated and ordered to be recorded.

Mary M. Toulson, administratrix of John William Toulson, deceased, returned a true and perfect inventory of the personal estate of the said deceased, which was received and ordered to be recorded.

George W. Harper filed a power of attorney from Susan S. Gallup, administratrix of E. B. Gallup, deceased, which was received and ordered to be recorded.

High Life at the Almshouse.

The Kent county almshouse has some high-spirited inmates. This fact was demonstrated on Wednesday of last week by Billy Taylor and Tommy Patterson, but principally by Billy Taylor. It appears that Billy and Tommy had a lively argument over the building of a fire. Tommy got the best of the argument, and in order to have Tommy view the matter in a different light, Billy got a long rolling pin and mauled Tommy over the head and face. Tommy still not being fully conviced, Billy brought an axe from the wood pile and very nearly chopped Tommy's right hand off. Billy came out of the affray unscratched, but Tommy has a wound on the top of his head, a cut over the right eye, a bruise on the right side of the face and the upper bone of his right wrist is severed entirely. Drs. Perkins and Beck dressed Tommy's wounds, and the latter is now doing well. Billy has had a hearing before 'Squire Johnson, and the question between him and Tommy will probably be finally settled at the April term of court.

Pocomoke City.

We clip the following somewhat glowing account of Pocomoke City from a letter to the Baltimore *Sun*:—

POCOMOKE CITY, MD., March 23.—The torpor that marked the villages of the Eastern Shore in ante-bellum times has in no other instance more thoroughly disappeared than in this populous and enterprising place. It reminds the traveler of the thriving towns of New England. In addition to the Clarke House another large three-story brick hotel, covering two fine storehouses, is about to be built. Three marine railways are operated, which turned out twenty-five new schooners and the propeller W. E. Clarke last year. Six new vessels are now being built. Their owners declare that more vessels are built and repaired here than in the ship-yards of Baltimore. A large super-phosphate factory produces 5,000 tons of goods annually sold mainly in Norfolk and North Carolina. Two steam flour mills, four grist mills, one door and sash factory, three planing mills, a fruit cannery employing 100 hands, three carriage manufactories, a number of shell, lime and brick kilns, indicate the industry of the place. A cotton factory employing 300 operatives is one of the projected enterprises of the near future.

The town is thronged with the employes of the New York, Philadelphia and Norfolk Railroad. The Eastern Shore Railroad from Delmar to Crisfield and the Peninsula Railroad from the junction to Pocomoke have been purchased, and the contractors are pushing with vigor the new road in an air line to deep water at Cherrystone, 70 miles beyond this point. The grading is nearly finished to New Church and the bridge over the Pocomoke now being built. The best Bessamer steel rails are being used. The Union Trust Company of New York furnishes the capital at the rate of $16,500 per mile. The road will be finished in August and equipped and in operation by October next. Powerful steamers are to ferry trains of 24 cars from Norfolk to Cherrystone. It is intended to make the trip from Norfolk to New York in ten hours, carrying passengers from the South and the truck of the Norfolk gardens to New York in the same time it now takes to carry them to Baltimore by the Bay Line steamers. It will, of course, carry a large portion of the best product of fruit, berries, fish, vegetables and grain from the Eastern Shore of Virginia and Maryland.

Does This Mean the Kent County R. R.?

The Baltimore *Sun* of Saturday, in discussing railroad affairs, makes a statement that seems to indicate that Mr. Robt. Garrett is now the president of the Baltimore & Delaware Bay R. R. Probably when the *Sun* speaks of a little road that runs from Delaware river into Maryland it means a road running from Delaware bay into Maryland, and the Kent Co. Road is the only one so running. The fact that the name of the road has been recently changed from "Kent Co., Smyrna & Delaware Bay" to "Balto. & Delaware Bay" would also seem to lend some support to the statement of a change of controllership. The note in the *Sun* is as follows:—

Pennsylvania Railroad surveyors are in Harford laying out a route for an extension of their Philadelphia and Baltimore Central by way of Deer Creek and Belair to some station on the P., W. and B. Road. The Belair *Ægis* says that such a road would deprive the Baltimore and Ohio's Philadelphia branch of a large amount of local traffic which it would otherwise receive. It is also conjectured that if the Baltimore and Ohio builds a branch road over their recent survey by way of Churchville and Cooksville north, it will be carrying out a scheme for reaching the Pennsylvania coal regions. Mr. Robert Garrett has been elected president of a little railroad on the Eastern Shore running from the Delaware river over into Maryland. This was a holding of the Jersey Central Railroad, which is now an ally of the Baltimore and Ohio, and the line is looked to with some interest by the Baltimore and Ohio people, who say they intend to go down the peninsula.

NOTES BY THE WAY.

The Theorists in Congress are endeavoring to ruin the fruit growers of this country by reducing the tariff on fruits (green and dried) and wines. Fruit growing in this country is only in its infancy, and the "Morrison Bill" proposes that it shall remain so.

With twenty per cent. reduction on wool what would become of the sheep raisers?

The grain farmer wants a low tariff so that thousands of non-producers (those engaged in manufacturing) can go to farming, thereby increasing the already over-production of cereals.

Is the man that advocates a "low tariff" and a "high whiskey license" consistent?

Hon. Samuel J. Tilden is seventy years of age, only five years older than James Buchanan was, when he became president. It is nonsense for any one to say "Uncle Sammy" is too old for the presidency. It is the brains and not the muscle we want at the White House.

Our public roads have been worked too much. They would be in better condition if the supervisors were paid to stay at home. Filling up holes, washes, and keeping the bridges in repair, is all that is required.

Mr. James S. Harris has an apple tree on his farm, near Fishing Valley, that measures about twelve feet in circumference. This is probably one of the largest apple trees in America.

The Betterton drifters expect to begin shadfishing this week.

W. F. Stavely says, standing on one's head is a sure cure for toothache.

Still Pond, March 24, 1884.

Peninsula Items.

The owner of the Hotel Richardson, in Dover, is advertising it for sale in the New York newspapers.

Howard Melvin has purchased an interest in the *Denton Journal*. The firm name will hereafter be Melvin Bros.

A goose farm has recently been established in Accomac county, Va., by Philadelphia capitalists. It is stocked with nineteen hundred geese to start with.

Wm. H. Lewis, a farmer living near Wye Mills in Queen Anne's county, lost along the road his pocketbook, containing $275 in cash, on last Saturday.

The Milford *Advertiser* says that one-half of the peach buds in that neighborhood are dead, but that four times as many as are necessary for a heavy crop are still alive.

A correspondent of the Wilmington *Morning News* sums up the situation as follows: "The Republican party is to-day without leaders. The Republican leaders of Delaware to-day are without a party. The body has no head and the head has no body."

The Easton *Star* of last Tuesday says,—J. Frank Turner, Esq., who has been confined to his bed with inflammatory rheumatism since last Thursday night week, under the treatment of Dr. Nickerson, homœpathist, was better on Saturday, but not so well on Sunday.

Mrs. Ann Murray, mother of John Murray, who recently killed John N. Steele, died at her room at the Creighton House, Cambridge, on March 14, aged about 84 years. She died without knowing anything of her son's difficulty, notwithstanding her room adjoined his at the hotel up to the time of his going to jail. She leaves some property to her son, variously estimated to be worth from $5,000 to $10,000.

The State Press upon State Topics.

From the Baltimore Day.

Marriage licenses will hereafter be cheap, but it remains to be seen how potent the three dollars and ninety cents saved will be in making the pot boil. Love that laughs at locksmiths will smile at the three-ninety, and love that three-ninety is too much for might better not become connubial.

From the Baltimore Sun.

This is the last week of the active life of the General Assembly and the time when the inchoate measures for good or for evil so long in preparation will be passed or will be defeated. What is to be the outcome of the session, what bills will become laws and what will pass into the dark vault, of rejected inventions no human being can at present determine. All is confusion, all is uncertainty, and probably the average member who has never before been a member, knows less of the real state of business than any of the lookers-on in Verona. Now is the harvest of the lobby, and now the time for those brilliant coups d'etat by which doomed measures are to be strangled in the face of a helpless majority favoring them, and pet measures are to be triumphantly engineered in spite of intelligent sentiment and in spite of public opinion.

From the Annapolis Republican.

What with unlawful dredgers, star-fish, legislators, and other natural enemies, the oyster seems in a fair way to be "protected" out of existence. The present General Assembly of Maryland has fixed up the Potomac river matter, but it has done nothing as to Maryland rights and wrongs in Pocomoke river and Tangier Sound. There is a ponderous bill pending as to illegal dredging, and as to a tax on each bushel of oysters, and as to laying off the oysters in certain little beds. But there is a lack of agreement as to any proper and practical plan for the future health of the oyster family.

From the Frederick Citizen.

The Republicans of Maryland are not a happy family by any means. The Arthur men and the Blaine men are making a fight for position, Holton seems to have the inside track, and intends to crack the party whip and lead the Maryland delegation to Chicago.

From the Towson Journal.

To a disinterested observer it seems very strange to read the numerous cards of some of the opponents of the Baltimore and Ohio's bill for an elevated railroad from Camden Station over Pratt street to the eastern section of the city to connect with the Philadelphia line now in course of construction. The opposition seems as narrow and contracted and illiberal as was that made against the Baltimore and Potomac Company when it constructed its tunnel for its Washington branch, and the Union Railroad Company when it constructed its tunnel to tidewater If we take the railroads away from Baltimore what would the city be?

From the Cecil Democrat.

A piece of real property in a neighboring county is said to be worth $6,000; but when the owner of it wishes to get it insured he values it at $8,000; when his neighbor wishes to buy it he values it at $10,000; when he gives it in for taxes he values it at $4,000. It makes all the difference in the world whose ox is gored and how you gore him.

[Published by special request.]

Money Can't Do It.

There are *some* things that *money* cannot buy. It can get you a big house, and carriage, and costly silks and furs, and jewels. It can bring you power, and power is sweet. It can make you mean, narrow, and unmanly. It can blind your mind to truth and duty. It can land your soul, with the rich man's, in outer darkness. But it cannot buy you love; it cannot buy you a happy home; it cannot buy you content, nor sunshine in the heart. It cannot remove the gloom of death and the grave. It cannot buy you peace with God; it cannot save your soul, nor that of your child. Without these what is your money worth? With these, what great difference does it make whether you have money or not? The regeneration and eternal happiness of a single child in your household is worth more than all the money you have got, be it ever so much.—*Ocean Grove Record*

M. P. Conference Appointments.

LITERARY NOTES.

Five profusely illustrated articles and a biographical paper with two portraits lend unusual pictorial interest to the April number of the *Century*. The frontispiece is a portrait of the late Sidney Lanier at the age of fifteen, and with the text of Dr. William Hayes Ward's essay on "Sidney Lanier, Poet," is also printed a portrait of the poet in mature age. In "Open Letters," Arthur Penn writes of "Sidney Lanier on the English Novel."

The April issue of the *Eclectic Magazine* marshals a strong array of interesting and well-selected articles, leading the way with one by Cardinal Newman, entitled "The Inspiration of Scripture," which professes to give the view of the Roman Church on this subject. Other articles bearing on the interests of religion are: "The Christian Revolution," by W. S. Lilly, and "Christianity and Politics," from the *Saturday Review*.

Lippincott's Magazine for April opens with a delightfully written article on "New Germantown and Chestnut Hill," which is likely to prove even more attractive than the article on "Old Germantown" in the February number. The illustrations are from original designs by J. Pennell and C. P. Weber, and confirm the descriptions in the text.

The *Art Interchange* of March 13th contains eighteen columns of questions and answers, in which every topic bearing upon art is intelligently discussed. Here are to be found, among many other classes of information, advices as to the artistic furnishing of apartments and houses full directions for painting in oil and mineral colors; suggestions for screen-panels, sachets, portieres, and instruction in hammered brass.

St. Nicholas for April, with its varied table of contents, reminds us, like the month itself, both of the winter that is past, and of the summer that is to come. An account of the first ice-palace, that built by the Empress Anna Ivanovna of Russia, with a picture by Blum, is offset by Mary A. Lathbury's pleasant summer sketch, called "Fairy Lodge," which the author has charmingly illustrated.

The *Art Amateur* for April gives attractive designs of passion flowers for screen embroidery and blackberries for panel painting, some interesting pages of Oriental diaper ornaments, a curious old German alphabet, and some striking designs for furniture panels after Goujou. Notable famous Castellani collection now being sold at Rome, the clever, sketches of pictures in the exhibitions of the French Water Color Society and the Boston Paint and Clay Club, and the interesting notice and examples of the work of J. A. Habert-Dys, one of the principal designers for L'Art. The practical departments are well filled.

20 YEARS EXPERIENCE

—AND—

A LITTLE TALK THEREON.

TO OUR CUSTOMERS AND FRIENDS AND THE PUBLIC.—We are happy to say that we have been in business TWENTY YEARS January 1, 1884, and from the first day we commenced business our object was to do nothing but First-Class work and be punctual and accommodating to all who favored us with their patronage. We always put in the best material and gave every customer just what he bought from us, and to-day we have the customer that gave us the first job still dealing with us; also a great many others who commenced with the young firm twenty years ago. While time was moving along the young firm was trying to keep up with the times and changes of the last decade during that time. Feeble as they were in everything but mechanical skill, health and business push and industry, they made several improvements and inventions which were beneficial to them and to the farmer and also to their competitors who either had not the ability or disposition to improve on them, but took copies of them, thereby acknowledging us to be the leading mechanics in the county. In conclusion we would say that we are still attending to our business affairs personally, and can be found at all times at our works, where our large and increasing trade has doubled in the past three years. During the last five years we have added to our business, carriage building. Since then we have been raising the standard of carriages built by us to compare favorably with the best city-built work, and, today, we can give you a better job for the money than you can get in Wilmington or Baltimore. We want everybody to come and look through our works and see the immense stock of lumber and other material used in constructing our carriages wagons and implements. Our carriages and wagons are nearly all sold before they are finished. We keep from fifteen to twenty hands in our employ—some of them from the best shops in the United States. A walk through our smith shop is well worth a visit, and is a sight not often seen in a town the size of this. To the people in general, we will say you need have no fears but what you will still have first-class shops at which to get your work done, as we have started out for 20 years more of business-life among you, feeling we are better able by our long experience to give better and cheaper work than ever before. In regard to our wagons, carts and dearbons we will say we are using best material —both wood and iron—and selling all our work as low as the quality we make can be sold. All kinds of jobbing attended to. Fine carriage painting a specialty—our foreman painter was for a long time in the employ of Brewster in New York.—Thankful for past patronage, and hoping for a continuance of same, we remain at your command, CHAPMAN & LAMBERT.

OCEAN BIRD GUANO!

OFFICE OF T. R. HUBBARD & SON,

Manufacturers of Hubbard's Standard and Extant Bone Superphosph t

AND SOLE PROPRIETORS AND IMPORTERS OF O. B. GUANO.

SEE ANALYSIS:

BALTIMORE, February 27, 1883.

Messrs. T. R. Hubbard & Son:—Sample of your Ocean Bird Guano sent me gives the following result:

Moisture Det. at 100	10 40	Alkaline Salts	2 62
Organic matter	13 34	Or total Nitrogen: equal to Ammo	1 12
Capable of producing Ammo	0 03	Bone phos. of lime available	26 59
Inorganic matter	76 26	Bone phos. of lime undecomposed	13.51
Containing Nitric Acid	0 57	Salts of potash and soda	2 62

G. A. LIEBIG.

The above Guano was introduced here last Spring and nearly 200 tons were used by our best farmers with satisfactory results. As an application to PEACH TREES it is unsurpassed. As seen by the analysis it contains a very large per cent. of available Bone Phosphate, and yet there is a large per cent. of undecomposed Bone to benefit the after crops. We have already taken numerous orders from our largest and most successful PEACH GROWERS, who mix it half and half with Kainit, sow it broadcast and plow it in. Those desiring to try it will do well to send in their orders early, as our supply will be limited unless our next cargo arrives in time for Spring use.

CHESTERTOWN, Feb. 20, 1884.

T. R. HUBBARD & SON—GENTLEMEN: In reply, as to the action of your O. B. Guano on our orchards we can only say that it was entirely satisfactory. Last spring we purchased of you 37 tons Kainit and 5 tons O. B. Guano, and bought 5 tons Fish Guano in Baltimore, (the latter costing over $40 per ton.) We mixed the Guanos ⅓ to ⅔ Kainit, and applied the same 200 lbs. per acre, sown broadcast; and also applied double the amount of Kainit as a test. Parts of the different goods were used on an orchard 17 years old, and must say that where your Guano and Kainit were used, there was a dicided difference in its favor, perceptible to several of our neighbors, in the trees as well as fruit. In past applications to our orchards we have always preferred Fish Guano, but are frank to say that we regard your O. B. Guano as THE BEST PEACH MANURE WE HAVE EVER USED, and shall require 12 or 15 tons to apply next month.

JOHN A. GROVES,
S. M. WILKINS.

☞ SAMPLES and PRICES of our O. B. GUANO can be seen at our office, and will be pleased to furnish it to the trade either from Factory at Chestertown or warehouse in Baltimore.

TO THE FARMERS

—OF—

KENT, QUEEN ANNE'S & CECIL

IT is universally acknowledged by the most practical farmers that the Ohio Chilled Plow is the best plow in the world for neatness of work, and lightness of draft to the team. As I have ordered a large number of these plows, both two and three-horse, farmers will do well to give me an early call.

We also keep on hand, the Old Reliable Concave Nos 9, 10 and 11, Polished Minor and Horton, Wiley Nos. 3 and 4, and Two-Furrowed Plows, and Harrows, Twin, Single A, and Double A A, Cultivators and Cultivator Teeth unsurpassed by any manufacture. Single, Double, 3 and 4 Horse-Trees and Hames.

As there have been a great many Chilled Plows sold in these counties, and as farmers have been put to a great deal of trouble to get Castings for them, if they will only give the name and number of the Plow, I will endeavor to keep them on hand at my shops in Galena and Chestertown. I always have on hand Plain and Slip Shares for the Ohio, Oliver, Roland, Advance and Syracuse.

If any of you are in need of anything in my line, please give me a call, as I intend to sell them *low* for the *cash*.

Thankful for past patronage, I solicit a continuance of the same.

W. A. Hyland,

Galena and Chestertown.

Stoves! Stoves! STOVES!

Our line of Cook and Heating Stoves is complete.

We guarantee every one we sell! Our New Emerald, Virginia Farmer Girl, New Regulator, Southern Girl, and New Charm Cook Stoves, cannot fail to do us credit, and the purchaser good service.

Our Ranges have been thoroughly tested and proven a blessing in our community. The leading names are: The Happy, The Maryland, Reliance, Clifton, Daisy and Cozy.

The Happy Cook or Range is for either wood or Coal, and in our judgment has no equal for good baking.

Our "Splendid"

FIRE PLACE HEATER

TAKES THE LEAD!

Every one sold gives entire satisfaction. We guarantee them.

Our stock of Heating Stoves comprises all the latest improvements and are elegantly finished.

MARBLE WORK

Chestertown, Md.

ALLOW ME to tender my sincere thanks for the past patronage of the public, and hope to receive their approval and patronage this present year. I am prepared to cut and finish every design in the marble business.

I have a very handsome assortment of my own finished

TOMBSTONES.

Some of the Latest Designs

HANDSOMELY FINISHED,

COPIED FROM THE LATE PARIS EXHIBITION.

A large assortment for children, different patterns, some as low as $6.00, lettering included. Some fifty different patterns for grown persons, handsomely finished, some of them as low as $15.00, lettering included. Also, a fine line of different patterns, expressly for the

QUAKER BURYING GROUNDS,

very thick and heavy and handsomely finished of the best marble.

Marble Posts, marble Vases with Pedestal, Marble Coping, Tombstones and monuments, of all sizes and styles.

Marble or Sandstone worked to order. I warrant all my work not to color or blister—time has no effect on it. I set up all of my work, thus reieving the purchaser of all trouble or risk.

Come one, come all, that are in want, and examine my work and learn my prices. I will be thankful. Don't send the money out of your own neighborhood.

Call and see me. I do not like to canvass for work, for I think it too sad a business to barter with relatives or friends.

My work can be seen in all the cemeteries of Kent and the adjoining counties.
