The Transcript.

THURSDAY, JUNE 26, 1884.

Subscription $1.50 per year; 75 cents for six months, in advance.

Advertising Rates.

Transient advertising will be charged at the rate of *one dollar* per square for first three insertions, and twenty-five cents per square for each subsequent insertion. A space equal to eight lines of brevier, constitutes a square. Figure-work will be charged fifty cents per square additional for first three insertions.

JOB WORK.

Handbills, large and small; flyers, dodgers, letterheads, billheads, envelopes, cards, tags, programmes, and other kinds of job work will be done neatly and reasonably.

Correspondence upon matters of local interest desired. Anonymous communications will not be inserted.

It is desirable that communications be in by Saturday night if possible, and in any case no later than Monday night or Tuesday morning.

Simple notices of marriages and deaths, inserted free. Obituary notices will be charged at the rate of five cents per line.

—Chestertown has been usually quiet during harvest time.

—The public schools of Kent county close to-morrow for a two-month vacation.

—The annual church picnic, on the grounds of Mr. J. H. Raymond's residence, is advertised for July the 9th.

—Angling is good off the Chestertown bridge, but the fish are of a quality that encourage only the small boy.

—The county commissioners advertise in this issue for proposals to build the new jail. Plans at commissioners office.

—The new room to be occupied as a drug store by Mr. M. A. Toulson approaches completion. The store will have a tasty plate glass front.

—Chestertown has a club that sits on corner goods boxes and discusses propositions in geometry.. The "Pons assinorum" has been safely passed.

—Mr. T. D. Gambrill advertises a vocal and instrumental concert, to be held at the town hall, Chestertown, on the evening of Tuesday, July the 15th.

—G. H. Toadvine of Salisbury, wants peach growers to know that he has 300,000 patterns of peach box shooks to supply this season's crop. See his advertisement.

—The Balto. & Del. Bay R. R. will change the schedule on and after June 30th; will leave Chestertown at 6:45 A. M. and put the passengers in Philadelphia at 10:52 A. M.

—We have received from Mr. S. T. Gardner, 213 East 8th st., Wilmington Del., "the horseman's pocket-book," which contains much useful and practical information concerning the horse.

—Boating on the river is something of a pastime with Chestertowners, but is not as much of a pastime as it ought to be. Chestertown really does not properly appreciate her big, broad river.

—Never was there a hot day,—a real hot day, that some perspiring citizen did not mop his brow and ask 'did you ever see hotter weather?' We have had considerable of that sort of weather during the past week.

—M. Bannon, Esq., as trustee, will offer for sale at the hotel in Millington, on Saturday, June 28th, the valuable real estate of which the late Richard Moffet died possessed. The estate is divided into three improved tracts.

—The plate glass front of the hardware store of Mr. John K. Aldridge is completed except the painting. The storeroom since its enlargement, is very roomy and handsome. The front will also undoubtedly be one among the handsomest on the peninsula. The woodwork of the front is to be finished in imitation oak.

—Last week thirteen carloads of ties were scattered along the Baltimore & Delaware Bay Railroad between Smyrna and Woodland Beach. A gang of men have been at work repairing this part of the road, and it is proposed to put it in thorough order to be ready for summer travel.

—Daniel Brattan, Esq., State's attorney for Cecil county, will deliver the annual address before the Mt. Vernon Literary Society, on the evening of July 8 proximo, at the Court House in Chestertown. The commencement exercises of the College will be held at the Court House on Wednesday, July 9th, beginning at 10 o'clock A. M.

—John Howell, the man who attempted a rape last week on a middle-aged white woman, near Lambson's Station, has not yet been arrested. The assault was a peculiarly atrocious one, and the perpetrator should be made to suffer the consequences. Howell was kept from accomplishing his design by an eleven-year-old boy and a colored man.

—The *Transcript* office turned out on last Tuesday from garret to cellar, from the devil who is responsible for all the typographical errors, to the editor and the hired poet. The occasion of the turn out was a freezer full of ice cream and a basket of cake from Cummins' ice cream saloon. Cummins makes good cream and good cake and is open every evening.

—While the *Transcript* is glad to receive news of local interest from any part of the county, it cannot publish matter of an offensively personal nature or that in any mannerreflects upon the character of any member of the community. In any case, a writer who makes derogatory personal allusions, must appear before the public in his proper name.

—The little daughter of Mr. Edward Cooper, near Chesterville, while riding a blind horse in a field, last week, was not cautious about the unevenness of the ground, and in consequence the horse fell, throwing her off and then rolled over on her. Her screams brought assistance from a neighbor and she was carried to the house. A physician pronounced no bones broken, but she was badly bruised about the hips and body and was unable to be out of bed for several days. She is only about eleven years old, is very fond of horses, and will ride or drive almost any one they will let her.

—The Kent County Public School Association will meet at the school room, in Chestertown, on Monday, June the 30th, at 10 o'clock A. M. The following will come up as unfinished business:

Solve $x^2+y=7$,

and $y^2+x=11$, by elementary algebra.

There will be a report of committee on temperance. The regular questions are:

1. What shall be done with the left-handed pupils?
2. How shall we teach History?

Officers for the ensuing year will be elected. Miss Mary E. Gilpin will read the essay.

—The Chestertown public school closes for the year to-morrow evening with an entertainment by the graduating class assisted by members of the other classes. The features of the entertainment will be the reading of essays by members of the retiring class. The reading of "The Echo," a school paper, and several duets and quartettes by the boys and girls of the lower grades. The Kent Cornet Band is on the programme for music between parts. Parents and the public generally are invited to be present.

—Most of the wheat in this county will be down by sundown this evening. Pretty nearly every wheat field in the county has been cut by a self-binding reaper. The binding reapers have entirely changed the aspect of harvest time. Twenty years ago, when the wheat crop was saved by cradles, harvest was an occasion of great hilarity. It was no uncommon thing for a field to have as many as a dozen cradlers, each followed by a binder, and these with the carriers and shockers made quite a troop. Now a self-binding reaping machine and three or four hands do the harvesting.

SAFE FROM THE ORIOLE THIS YEAR.

BALTIMORE'S CELEBRATION WILL NOT COME IN PEACH SEASON.

The peach growers of this county and Peninsula have what can be relied upon as satisfactory assurance that the Baltimore Oriole celebration will not again this year cause them a like loss as was experienced during the two past years. The growers have the assurance of Mayor Latrobe that he will use his influence to prevent the interference of the Oriole this season with the peach growers' interests. Below we publish the Mayor's letter:

MAYOR'S OFFICE, Baltimore, June 20, 1884.

C. G. Woodall, Esq.—DEAR SIR: I have your letter of June 19th, also copy of the *Transcript*, containing the protests of numerous peach growers in Kent county against an "Oriole" celebration in Baltimore during the month of September. I think it very doubtful whether the fete will be repeated this season, but I am sure that, should the managers determine upon another exhibition, respect will be paid to the wishes of those engaged in peach growing against having it at a time when not only their interests but also the interests of the packers are interfered with.

The object of Baltimore should be to encourage in every way the trade of its neighbors in the counties, any interference with their interests correspondingly affects ours.

Should, therefore, another Oriole be contemplated—which, as I have said, is very doubtful—you may rely upon any influence I may have in the matter being used to induce a selection of such a time as will not interfere with the business of either packers or growers of fruits.

I am very truly yours,

FERDINAND C. LATROBE,
Mayor.

The peach growers are also largely indebted to the Baltimore *Sun*, which has laid before the Baltimore public the *Transcript's* statements of the injury caused the peach interests by the Orioles of 1882-3. The Baltimore *American* and the Manufacturers *Record* also espoused the fruit growers cause. The *Transcript* is glad to have served the growers in laying the true state of the cause before the Baltimore authorities.

The Water-Works.

The meeting called for last Monday night for the organization of a home company to supply Chestertown with a system of water-works, came to naught. Those who have talked in favor of a home company failed to demonstrate that there is any practical design of establishing such a company. The commissioners, we understand, propose now to open to foreign bidders, and to accept the most favorable proposition from a responsible party. The contractor will be required to contract for works on a sufficient scale of magnitude to guarantee a full supply of water for present and probable future needs. He will also be required, under contract, to push the work to immediate completion, January, 1885, being the furthest limit for putting the system in full operation. The board have had communication with a large number of water-work companies, and there will probably be a number of bidders, beside Col. Taylor.

Sales of Real Estate.

Richard Hynson, Esq., trustee, has sold the "Green Point" farm of the late Lewin Usilton, containing about 402 acres, to Mr. Richard T. Turner for $13,100.

J. A. Pearce, Esq., sold at Still Pond on Wednesday the late Col. George Gale farm, containing 118 acres, to Mr. E. M. Bonwell for $57.50 per acre.

Sheriff Parsons sold at the court-house door in Chestertown on Tuesday the farm of Wilbur C. Stephens in Worton Point. The farm contains some 70 or 75 acres, and there was a mortgage of $1,200 against it, held by John W. Corey. The farm was bought by Hope H. Barroll, Esq., for $50 per acre. We learn that it was re-sold on the same day by Mr. Barroll to I. Richard Leaverton at an advance. There were liens against the place aggregating nearly $2,700.

Messrs. J. B. & E. H. Brown sold at Sudlersville, on Saturday last, the home farm of the late Wm. J. Anderson, containing 150 acres, to Mr. Charles W. Clements, for $71.80 per acre, aggregating $10,770.

NOTES BY THE WAY.

Thomas F. Bayard's national reputation, statesmanship and pure character make him the strongest candidate of the Democracy. His nomination would raise the standard of Democracy higher and create more enthusiasm than that of any other man in the country. While a large majority of the Democratic voters want Bayard, it is probable the "boys at Chicago" will choose the policy man, Cleveland; and Blaine will take possession of the White House in 1885.

If the fruit growers of this peninsula would co-operate, they could accomplish much that would be of benefit to them. At present, we raise fruits, ship them and receive what the salesmen choose to give us. The gathering of statistics, opening of new markets, importation of labor, protecting against dishonest tree agents, regulating freights, and a hundred other things, might be dealt with by co-operating. To co-operate, there must be a central organization with branch associations in every section of the fruit-growing districts. This peninsula is destined to be the garden for the Northern and Eastern States, and to make it the gem of the earth the co-operation of its fruit growers is needed. Let the West supply the bread and meat while we supply the luxuries.

Insect blight has been very destructive to the young wood of some varieties of pear and apple trees. The Bartlett pear and Smith's cider apple are affected the most.

From present prospects there will be about as many peaches in this section as there were in '80.

Peach baskets are selling for six cents, this does not look much like an enormous crop on the peninsula.

General wheat harvest to-day. The yield per acre in this section will not be much below the average.

Rev. L. E. Barret's Sabbath evening lectures are very instructive and entertaining.

It is rumored that Mr. Turner intends to have a wharf, and lumber and coal yard at Green Point on Worton creek. Mr. T. is the man to make an enterprise of this kind a success.

Edward Young has taken charge of the wheelwright shop at Lynch's.

Still Pond, June 23, 1884.

Facts and Fancies from Galena.

On Sunday last a young colored man, for several years past in the employ of Mr. George Oldham, of Cecil county,—Samuel Smith by name—was drowned in the Sassafras river at Fredericktown while bathing. Getting beyond his depth and being unable to swim he thus met an untimely end.

Dr. Jas. A. Robinson, an old resident of this section, has been paying Galena and Vicinity a visit in the interest of the Provident life insurance company, of which he is general Eastern Shore agent. He represents a good insurance company, and is personally a genial man.

A skillful surgical operation, not generally undertaken by country practitioners, was performed for Mr. Philip Raison on the 22d inst. by Dr. J. W. Latimer, of Galena. It was a complex case of *Fistula in Ano*. Dr. W. G. Phelps, of Galena, administered ether to the patient, keeping him under its influence until the delicate operation was skillfully performed.—Mr. Raison is doing as well as could be expected. The first district has reason to be proud of such successful surgeons and practitioners as Dr. Latimer and several others that might be named.

The Rev. Father Bradford, of the Roman Catholic Church, meets with some obstacles in the erection of the parsonage at Galena; but with a man of his pluck and determination these hinderances will not long embarrass him. We refer to the failure of the Smyrna party who contracted to do the brick work, to put in his appearance; also, to the failure, so Rev. Bradford asserts, of the purchaser of the parsonage at Lambson to take it at the agreed price ($1500). This neat and well-constructed house is therefore still offered for sale at the nominal sum of $900 as it stands. The $15,000 church of the near future, now in the minds-eye of Bradford and his faithful flock, will, with the parsonage, soon to be erected, form striking features of our attractive village.

Anything that can relieve the somewhat anxious and depressed minds of the peach growers as to a future market for peaches is of course welcome, so we quote from a late letter of a prominent New England fruit grower. He says: "You say the peach crop will be immense, and fears entertained that the price will rule too low for much profit, but allow me to state a few facts that may alter your opinion. Upon the fateful nights of May 29th and 30th we had the hardest frosts known in this section for 40 years at corresponding seasons. It not only extended all over New England and New York, but to the water-protected precincts of Long Island (great fruit and trucking region), and much of the North and West. It killed ¾ of the strawberry crop and nearly all early vegetables, most of the grapes and pears, while in many localities even the apples. All market gardeners throughout New England and near New York city were nearly ruined. Strawberries jumped from 14 to 25 cents, retail price, and all kinds of vegetables arose materially in price. The trees in this vicinity look as if a fierce fire had passed over them. Ice formed over ½ inch thick in many places and snow fell in other sections. The result will be that the North and West will look to the South for fruit to eat and preserve. Your peaches will bring good prices, both fresh and evaporated." Of course, this is the opinion of but one man, but we give it for what it is worth. May it bring some comfort to the readers of the wide-awake *Transcript* who may own a share of the 8,000,000 baskets soon to be "rushed off!"

OBSERVER.

Letter from Worton.

WORTON LODGE OF GOOD TEMPLERS, UNION CHURCH FESTIVAL, &C.

A tree is known by its fruits, a man by the company he keeps; if in the same ratio we are to judge an institution (by its works), then the Worton lodge of Good Templers is in a lamentable condition. I attended that lodge on the 9th inst., and for the first time received intelligence of a movement on foot to kick a member out. It would be expedient to expell or discharge any member that had violated the by-laws of the lodge, but for such a motion as the aforesaid one to be made and recorded upon the minutes of the lodge, shows a deficiency on the part of the governors of that institution.

On 10th and 11th inst. the Union Church held a festival on the fair grounds here. The net proceeds being about $75, to be appropriated for repairing the church.

SUNRISE DANA.

Peninsula Items.

The *American Union*, of Denton, announces a change in the management of that paper commencing with the next issue. Mr. Emerson retires with reluctance from a work that has been almost a life-long one with him. Mr. E. W. Emerson will succeed his father in the proprietorship of the *Union*.

The managers of the Cecil County Agricultural Society have purchased the land contained in the fair grounds, with two additional acres. The grounds will be extended as soon as practicable, and proposals have been invited for the construction of additional buildings, one of them to be 40 by 200 feet.

Col. Oswald Tilghman, a prominent member of the Talbot county bar, son of the late General Tench Tilghman, and grand-son of Lieut. Col. Tench Tilghman, of Revolutionary fame, was married in Christ Church, Easton, on Tuesday of last week, to Miss Patty Belle Harrison, youngest daughter of Dr. Samuel A. Harrison, of talbot county.

The "turkle" dinner at Quantico, Thursday, was a success. The Salisbury representatives, as usual, took the pennant for eating. A member of the bar stowed away thirty-one eggs. A justice of the peace brought home under his vest about three large reptiles. Others were not far behind, and competitors from the rest of the county were compelled to withdraw.—*Salisbury Advertiser.*

It is probable that the Peninsula editors will meet at Rehoboth and go around to New York by the Old Dominion Line again this summer. The most of them still have pleasant remembrances of Dr. Thompson's "Bedford Water," the great Rehoboth malaria annihilator and everlasting life invigorator. The executive committee of the association will arrange for the trip in the course of a week or two.—*Middletown Transcript.*

A young man of this county whose girl went back on him, and yet refused to give up the engagement ring, sued her for it, whereupon her father sued the young man for the fire wood and coal oil that were burned in the parlor while the love-making was going on, for the meals that the young man ate at the house during his courtship, and for the fodder and corn that was fed to his horse during the same time. The case was decided in the old man's favor. This young fellow will doubtless do his courting in a dark room and on an empty stomach hereafter.—*Sussex Journal.*

The Delaware Conference of the M. E. Church, colored, which has been in session in Easton, Talbot county, Md., for the past week, having concluded business, made the following appointments for Easton District, which includes this county. Presiding Elder, L. G. Cox; Centreville, A. W. Hamilton; Chestertown, J. H. Riddick; Church Hill, J. H. Johnson; Crumpton, A. Grinnage; Denton, I. Broughton; Easton, J. D. Elbert; Edesville, J. S. Wallis; Fairlee, J. H. Winters; Greensborough, J. C. Carroll; Kent Island, S. G. Waters; Marydel, H. Morris; Millington, C. H. Hutchins; Royal Oak, J. H. Nutter; St. Michaels, A. Brown; Sassafras, A. J. Wallace; Skipton, S. E. Adams; Still Pond, J. H. Mason; Talbot, J. Z. Dennis; Trappe, Peter Burrows.

LABORERS IN REVOLT.

TROUBLES OF ITALIANS ON THE B. AND O. EXTENSION, AND THREATS BY A MOB.

From the Baltimore Sun.

ELKTON, June 23.—There has been considerable discontent among the Italians working on the new Baltimore and Ohio Railroad in Cecil county for the last week, and the matter culminated today in violence. It is stated that last week one of the sub-contractors on the section near Principio, named Donnelly, went off, leaving the workmen without their pay. This greatly exasperated the laborers, and threats of violence were heard on all sides. Later in the week, it is stated, another sub-contractor named Wallace also disappeared just before pay day, which would have been Saturday, leaving all his Italian workmen unpaid. This so infuriated them that they became uncontrolable. In large numbers they followed a son of Wallace, and O'Leary, partner of Wallace, wherever they went, making threats repeatedly.

On Sunday morning the Italians at Principio seized young Wallace and O'Leary, tied them and confined them in one of the shanties, mounting guard over them and threatening to hang them if not paid today. They also procured a rope, which is suspended from a tree with a noose at the end, and swore they would hang them. Sheriff Smith, with a posse of four men, went from Elkton to release the prisoners, and the State's attorney awaited a dispatch from him before starting.

When the sheriff and posse arrived on the scene they found matters not exaggerated. There was a mob of Italians in force, numbering about one hundred men. They surrounded his wagon greatly excited. Through an interpreter the sheriff informed them that they were officers, armed with authority, and that Wallace, the absconding man, was only a sub-contractor under Hannum & McHugh, the real contractors for the section with the Baltimore and Ohio, and that they would be compelled to pay the debts of the defaulter. This satisfied the mob, and the sheriff demanded young Wallace, and finally got him. O'Leary had escaped from the shanty during the night. His life at one time was in great danger, a rope having once been put around his neck. Only two men were seized and confined by the mob. Hannum and McHugh escaped and came to Elkton, after being hunted by the mob. O'Leary was seen escaping, and fought his way through with pistol in hand. But for the interpreter much trouble would have ensued. The sheriff thinks that had the officers not arrived young Wallace would certainly have been lynched.

The arrival of one of the B. and O. engineers at one o'clock from Washington helped to quiet the mob. The two prisoners were seized late Sunday afternoon, and the mob had bright lights around the shanty all night and kept watch on the prisoners. Wallace was badly frightened when rescued. The sheriff seized all the personal property of Wallace, and numerous attachments have been laid. The engineer tried to induce the men to go to work, assuring them of payment. They refused to work until paid. Wallace tried to send a letter through the mob on guard asking that the militia be sent from Elkton. The letter was intercepted and afterwards given to the sheriff. If the prisoners had not been peaceably given up the State's attorney intended to summon the Groome Guards and release them by force. Sympathy is with the Italians, who have worked a whole month, and now get no pay.

Literary Notes.

The July *Century* contains a remarkable contribution to United States history in "The Ku Klux Klan: Its Origin, Growth, and Disbandment," by the Rev. D. L. Wilson, of Pulaski, Tenn., who vouches for his facts, most of which are new to the public, and will prove a revelation to many who consider themselves well-informed on all the outgrowths of the late conflict, in the South. This paper also furnishes the text for the leading editorial, in "Topics of the Time."

The Frontispiece is an engraving from a full-length photograph of John Bright, accompanying a careful and discriminating estimate, by T. H. S. Escott, editor of "The Fortnightly Review." Mr. Escott includes in his article several amusing and characteristic anecdotes of the great English radical.

The July *Eclectic* contains a very fine steel engraving of Gen. Gordon, whose fate is now a matter of such interest to England, and, indeed, to the world. It also presents as usual many excellent points, and includes a number of seasonable and weighty articles. The place of honor is given to a paper on "Cardinal Newman" one of the most remarkable men of the age, by Richard H. Hutton. Prof. Edward H. Freeman is represented by a fascinating article entitled "Some Neglected Points of History," in which this brilliant historian is seen at his best. Mathew Arnold's American lecture on "Emerson" is reprinted as an essay, and will excite renewed interest in this form.

The *Art Interchange* of June 19 will contain designs for fish dish and a half-dozen fish plates. These designs show marine plants, fishes and shells arranged in a charmingly decorative way. A design in color for sofa pillow decoration, by the Boston Society of Decorative Art, is also to be given. A unique design of oak leaves and acorns, for the larger dishes of dinner service, and an exquisite woodland scene, "The Ruined Abbey," by Lalanne, are also to be found in this issue.

St. Nicholas for July is a brilliant "Fourth of July" number, which should arouse the interest and enthusiasm of every patriotic American girl and boy. The number opens with, "How the Tories broke up 'Meeting,'" by Emma W. Demeritt, a spirited sketch of revolutionary times. "A Fourth of July among the Indians" tells of a very modern celebration of our national holiday, on the plains, by a large company of the nation's wards; the author, W. P. Hooper, writes amusingly, and has illustrated it at once truthfully, humorously and profusely.

PEACH BOX SHOOKS.

We are prepared to furnish

300,000 Patterns,

BRIGHT AND THOROUGHLY SEASONED

Delivered to all points accessible by rail or water.

First Class Work

GUARANTEED

BY THE OLD RELIABLE FIRM,

CHAPMAN & LAMBERT.

We are manufacturing some of the best work that was ever built in this State. We sell First-Class Work. If you want a Good Carriage it will be to your interest to buy of us as we are now—after Twenty years' experience—better able to suit you in every respect. Call and see our

Light Phætons, Brewster Spring Buggies, Dayton and Jump-Seat Carriages.

We do not offer this work in competition with the common shoddy work, but sell it on its merits, and our reputation.

All Kinds of Repairing Done Neatly

and with dispatch. We give special attention to painting up second-hand jobs. Those wantin a nice job of painting should give us a call.
CHAPMAN & LAMBERT.

Our WAGONS,

CARTS & DEARBORNS

Have a reputation throughout this Peninsula. We have sold them in New Castle county, Del., and in Cecil county, Md., and as far as Salisbury, Md. We have over ONE THOUSAND of these running to-day, and as far as our personal knowledge extends we do not know of twelve set of tyres cut in the whole of them. This is evidence enough of what kind of lumber we use in making them.

We could give you testimonials enough to fill one side of the *Chestertown Transcript* to establish this fact if it were necessary, but the public already knows of the standing of these goods.

We have justly earned the high reputation we hold as manufacturers by our manner of doing business—

We give our own personal supervision to every minutia in building;

We see that all lumber is well seasoned before it is used, and every other part is what it should be.

We do all kinds of

JOB-WORK & REPAIRS

furnish estimates for Bridge work, and repair all kinds of machinery.

We also sell

Plow Castings and Plows,

such as Wiley's, Concaves, and Minor & Horton's. These Castings are all ground and polished and sold cheap.

We also have on hand and make to order all kinds of

HARROWS,

Such as Twin and Double, and Single A's.

You will find a large lot of Single, Double and Three-horse Trees of the best hickory, well ironed; also, Plow Hames.

You will see by calling at our works that we have too much at stake to do mean or shoddy work.

Thankful for past patronage and hoping for a continuance of the same,

We are respectfully,
CHAPMAN & LAMBERT.

March 27, 1884.

TO THE FARMERS
—OF—
KENT, QUEEN ANNE'S & CECIL

IT is universally acknowledged by the most practical farmers that the Ohio Chilled Plow is the best plow in the world for neatness of work, and lightness of draft to the team. As I have ordered a large number of these plows, both two and three-horse, farmers will do well to give me an early call.

We also keep on hand, the Old Reliable Concave Nos. 9, 10 and 11, Polished Minor and Horton, Wiley Nos. 3 and 4, and Two-Furrowed Plows, and Harrows, Twin, Single A, and Double A A, Cultivators and Cultivator Teeth unsurpassed by any manufacture. Single, Double, 3 and 4 Horse-Trees and Hames.

As there have been a great many Chilled Plows sold in these counties, and as farmers have been put to a great deal of trouble to get Castings for them, if they will only give the name and number of the Plow, I will endeavor to keep them on hand at my shops in Galena and Chestertown. I always have on hand Plain and Slip Shares for the Ohio, Oliver, Roland, Advance and Syracuse.

If any of you are in need of anything in my line, please give me a call, as I intend to sell them *low* for the *cash*.

Thankful for past patronage, I solicit a continuance of the same.

W. A. Hyland,
Galena and Chestertown.

Feb. 21—tO1.

Sparks

J. H. SIMPERS.

ELLIOTT & GEMMILL!

Centreville and Chestertown,

DEALERS IN

Agricultural Implements!

Evans' Two-Horse Corn Planter

is the only Machine with a successful Phosphate Attachment for dropping in the hill. The Evans is a strong, simple machine; excelled by none as to quality and price.

BUCKEYE RIDING CULTIVATOR!

This implement is well known in Kent County. It excells all other machines in the following points:

It has Rotary Shields, the best and only practical shield made. The shovels are strong, scour well, are adjustable to throw earth to or from the corn. Depth is regulated from the seat without stopping the team. Has high wheels, and will pass over corn in the last plowing. Is worth twice its cost in preparing fallow and corn ground for wheat.

Is easier to manage than any other Cultivator now before the public.

Buckeye Twine Binder

Appleby Binding Attachment, Wrought Iron Drive-wheel, Strong Frame.

Handy Double Adjustable wheel, B-shaped cutter box.

Easily managed, perfectly automatic.

The Buckeye is an old standard machine, and was as near perfect three years ago as other Binders are to-day

TO FARMERS

We say don't buy a delicate Self Binder, it may do nice work one year, but you will have need of sympathy about the second or third year you use it. Buy a Standard machine, one that won't rack to pieces in two or three years.

No Binder in the market is as thoroughly-stayed and braced as the Buckeye. Call on our agent and have him explain it to you. Examine the

BUKEYE LOW DOWN OR PLATFORM BINDER.

Lightest and Smallest Binder out. It will go through a ten foot six inch gate. Has no Elevator, Compact, Handsome, DURABLE.

Nichols, Shepard & Co.

Engines and Vibrators

THE N. S. & CO. TRACTION ENGINE

Is the Strongest built, Most Powerful and Easiest Handled Machine yet produced. These points were thoroughly illustrated on the streets in Chestertown, Tuesday, April 22d last. All persons who saw how quickly our competitors left the field will readily understand that they did so because they saw that their engine would not handle as easily and quickly as the N. S. & Co. Engine. We challenge any and all engines on the market for quality of material, strength of build, finish, ease of management, economy in fuel and water, and power.

VIBRATOR.

Nichols Shepard & Co., of Battle Creek, Michigan, built the first Vibrator ever produced, and have continued to build them for 33 years, So sweeping has been the success of these machines that all other builders of threshing machines have been driven to imitating them. The most valuable features of these machines are fully covered by letters patent and cannot be used on any other machine.

Simplicity, Durability, Ease of management, Great Capacity are the strong points of this machine.

Our 36 inch Vibrator with a sufficient numbers of teams and men will, if kept full, thresh sure and clean 1800 bushels per day, and do it better than any apron machine ever made. We leave to your own engineers and threshermen to pass judgment on these machines.

Repairs for Both Always on Hand.

BUCKEYE GLASS-FEED DRILL.

NO MORE CLOGGING.
NO MORE RUSTING.
NO MORE UNEVEN SEEDING OF PHOSPHATE.

The Phosphate Feeders in this Drill are made of ½ inch thick glass. Won't rust, won't corrode. Phosphate drops in plain sight of man following the Drill. Quantity changed from 100 to 800 lbs. per acre in one second. No cogs to change. This Drill is the best result of all previous Grain Drills, combined and improved. We noticed one crop of wheat a short distance above Chestertown, so poorly drilled that the owner will lose enough wheat to pay for two Drills. No implement on the farm should be selected with more care than a Grain Drill. Upon its good work depends the whole crop of wheat. This is an important matter. The number of these Drills to be obtained this year is limited, and farmers must place orders at once to be sure of obtaining them.

Sample Machine Now on Exhibition.
