National Democratic Ticket.

FOR PRESIDENT:

GROVER CLEVELAND,
OF NEW YORK.

FOR VICE PRESIDENT:

THOS. A. HENDRICKS.
OF INDIANA.

FOR CONGRESS:

CHAS. H. GIBSON,
OF TALBOT COUNTY.

The Congressional Nominees.

The Democratic Convention which met at Cambridge on Wednesday of last week, nominated C. H. Gibson of Talbot county, on the 52d ballot. Mr. Gibson was nominated by three votes from Kent, two from Queen Anne's, four from Talbot, four from Wicomico and four from Worcester, making seventeen while sixteen votes only were necessary to a choice. The other counties also changed to Gibson, making his nomination unanimous. Kent, which was represented by S. Cacy, D. J. Nowland and S. Vannort, gave her first ballot to Gibson, and stuck to him faithfully, but also showed her good feeling for Brown of Queen Anne's and Downes of Caroline by an occasional vote.

Mr. C. H. Gibson, the nominee, is a leading member of the Talbot county bar. He is 42 years of age, is of fine appearance, remarkably pleasant address, and is an orator of considerable force and brilliance. Though a comparatively young man, he has a large acquaintance with prominent public men, and is in many ways fitted to do honor to the first district as a representative in Congress. He will undoubtedly win the good opinion of voters outside as well as within his county, when he takes the stump a little later on. Mr. Gibson was born near Centreville in Queen Anne's county, and was educated at Washington College, this county. There are many people in Chestertown who have kindly recollections of him as a student.

In the second district convention which met at Elkton, there was a decided hitch. Over thirteen hundred ballots had been cast Friday evening, when the convention adjourned to meet in Baltimore to-day. All through the balloting at Elkton, Talbot of Baltimore county received ten out of the twenty votes, six from his own county and four from Cecil. Hopkins of Harford got five votes from his own county, and Shaw from Carroll also got steadily his five county votes. One additional vote at the convention which meets in Baltimore to-day will nominate Talbot, but it may be just as hard to get as it was at Elkton, in which event a Cecil county man will be likely to win the prize.

In the third district Dr. Wm. H. Cole of Baltimore was nominated with little opposition. Dr. Cole has been prominently connected with several Baltimore newspapers.

In the fourth district John V. L. Findlay was renominated without opposition. In his speech accepting the nomination, he endeavored to defend the stand he took in the last Congress on the tariff question with the protectionists and against the great body of his party.

In the fifth district, State Treasurer Barnes Compton was nominated without opposition. Mr. Compton is wonderfully popular in Southern Maryland, and it is believed that he will overwhelmingly win back to the Democratic party the fifth district which was carried for the Republicans by Holton in the last congressional contest.

In the sixth district, which has been the stronghold of the Republicans, Frederick J. Nelson, a distinguished lawyer of Frederick county, was nominated

It is conceded, that in every district so far the Democrats have put up strong and deserving candidates.

THE POLITICAL OUTLOOK.

The *N. Y. Sun*, which certainly cannot be classed as a Cleveland paper, has carefully gathered information through its Washington bureau, concerning the presidential canvass, in various sections. The results of the inquiry as published in the *Sun* are given below:

BAD OUTLOOK ON THE PACIFIC COAST.

Taking some of the States from which the committees have received bad news, it will be found that there is much to justify alarm. Beginning with California, the report comes that Blaine's reputed popularity there is confined to San Francisco. Republicans write that they fear the State is hopelessly Democratic. There will be no great Republican defection from Blaine; the German and Prohibition vote will not make any serious inroads in the party. But the truth is, the Republicans have gained no strength there for some years, while the Democrats have. The private advices received set the State down as anti-Republican by ten thousand. Yet with Ben Butler running on the Anti-Monopoly ticket, strange things may happen in California. The State has turned over to the Democracy largely because of the intense anti-monopoly feeling there. The labor vote is large, and, if thoroughly well organized, it will nearly all go to Butler. Then the Anti-Monopolists unquestionably hold the balance of power in the State, if in fact there are not a plurality of Anti-Monopolists in California. They are feeling more deeply about this matter than people in the East have any idea of. Gen. Butler will get a very large vote from them. In what proportion it will come from the two parties is one of the problems of the canvass in California. Some letters have been received here, in which the assertion is made that Butler will receive a larger vote than Blaine, and some enthusiasts there insist that he can carry the State. Cleveland's nomination caused no enthusiasm there. He simply represents an idea—the man who was elected by nearly two hundred thousand majority. If the Democratic party is whipped in California, it will simply be on account of Cleveland's nomination. Some suggestions are received from the State that the Butler party concentrate its vote on two or three electors.

No news comes from Nevada that cheers the Republican managers either by the committee here or in New York. The State is confidently claimed by the Democratic managers, and is privately conceded to them by the Republicans. The rich Republicans who once were there are there no longer, and the rich Democrats who nominally live in this absurd rotten borough of forty thousand people, will take care that money enough is provided to keep up the very good Democratic organization they have there.

QUEER ANTICS IN KANSAS.

Kansas may cut up some very queer antics, according to the information received. At the recent Prohibition Convention in Pittsburgh the Kansas delegates said that Gov. St. John would receive not less than thirty thousand votes in that State, and that nine-tenths of them would come from the old Republican organization. No more zealous Prohibitionists are in the country than those of Kansas. Aside from the earnestness with which they avow their principles they have a special reason for giving Gov. St. John all the support possible. They feel very sore because he was beaten when he ran for Governor on the prohibition issue, and they hold the Republican party responsible for that defeat.

The Republican managers do not believe that Gov. St. John can get thirty thousand votes in Kansas, but they admit that if the Prohibition canvass is correct, the State becomes doubtful. In Kansas, too, is found the curious political inconsistency which is very noticeable in some other States, and that is that the German vote is now hostile to the Republican ticket, because the conviction has seized these people that Blaine is a prohibitionist, and because the Republican party is responsible for the sumptuary laws that have been enacted in many States. Now the Prohibitionists are opposing the Republican party, because they assert that it is not for suppression of the liquor traffic. Between these two, the Republicans in Kansas run some risks of falling into a minority. There are some twenty-five thousand German voters in that State. Reports received here show very serious disaffection, one careful canvasser estimating that at least 15,000 German Republicans will not vote the Republican ticket. Some Republicans, too, are known to have repudiated Blaine because of his record, though there seems to be less of this in Kansas than in some other States. But if the 15,000 Germans and the 30,000 Prohibitionists leave the Republican party, Kansas is lost to the Republicans. But where will its vote go? Through the great agricultural States west of the Mississippi River there has grown up, within three or four years, an anti-monopoly sentiment which threatens to obliterate all party lines, and to secure political results such as the Grangers were never able to accomplish. Senator Van Wyck said recently that if the Republican managers knew the extent of that feeling in the States of Nebraska, Iowa, and Kansas they would tremble for the party in those States. The farmers have had what they regarded as grievances so great that many of them have made but a hand-to-mouth living, and they see no redress but that of the ballot box, and the success of a party committed to anti-monopoly legislation. This feeling is very strong in western Kansas. Mr. Anderson, the member of Congress from that section, could not have been renominated had he not made a record in the House as a most persistent Anti-Monopolist. Reports come that the nomination of Butler by the Anti-Monopolists has resulted in perfecting a good organization in Kansas, and that he will receive a very large vote in the State. The Democratic managers, while realizing that there will be a large defection from the Republican vote, large enough to justify hard work in the State, yet are at sea exactly how to go at the canvass. It is a dangerous thing to put tariff speeches into the State, because many Kansas Democrats are protectionists and many Republicans free traders. Cleveland's nomination arouses no enthusiasm, and there is no way of reaching the Anti-Monopolists who will quit the party and vote for Butler. The General will get a big vote in the State, but what its effect will be is one of the many problems of this curious canvass.

ILLINOIS ALSO DOUBTFUL.

From Illinois comes some interesting news, and of a kind that makes it plain that the canvass will be complicated. There are about 130,000 German voters in Illinois. Eighty per cent. of these are naturally Republican. But the high-license and local-option liquor law passed by the Republican Legislature had caused many of them to become disaffected before Blaine's nomination. They have the idea that cannot be driven from the minds of the Germans all through the West, that Blaine is himself a prohibitionist. The result is that every day the news that comes from the German districts of the State gets worse and worse. In Chicago alone the feeling is so strong that Mayor Harrison, who is running for Governor, expects to carry the city by 20,000, and he predicts that the State will give a Democratic plurality of 10,000. The Republican managers here, of course, say that Harrison's claim is absurd, but they admit that the situation in the State is one that causes them anxiety. One estimate is that at least 40,000 German Republicans will not vote for Blaine. This was made by one of the most intelligent German Republicans of Chicago. The Prohibitionists assert that their ticket will receive 50,000 votes in the State. If the estimate of the German vote that will be lost to the Republicans and the Prohibition strength be correct, it is admitted that Carter Harrison is not so far out of the way after all in his prediction. But here comes in that puzzling factor again—the Butler vote. The anti-monopoly feeling is as strong, though perhaps not so widespread, in Illinois as in Kansas. Butler's personal popularity is very great. The labor organizations of Chicago will work enthusiastically for him. Ex-Congressman Farwell predicts that Butler will get a surprisingly large vote, and that if it were not for his candidacy the Republican party would be beaten in the State. Mr. Farwell is taking some interest in politics this year, and his large purse will be at the command of the party, because he expects to succeed Gen. Logan in the Senate.

GLOOMY NEWS FROM WISCONSIN AND MICHIGAN.

The news from Wisconsin is very gloomy for the Republicans. Appeals for money are already beginning to be received from the State, coupled with the assertion that unless substantial canvassing of that sort is done at once in Wisconsin, the State is lost. Wisconsin gave a Democratic plurality of 9,000 in 1882, and while Garfield carried it by 30,000 in 1880, Hayes received only 6,000 in 1876. The same combination that threatens the Republicans in Kansas and Illinois, is still more dangerously threatening in Wisconsin. The German vote is reported to be almost solidly anti-Republican, and the Prohibitionists claim 20,000 votes. The German press of the State is hostile to Blaine, and the reports received at Democratic headquarters here are that the Republican ticket will be in a minority of ten thousand votes unless the situation changes between this and November. No news has been received by the Republican managers that warrants them in making any very energetic denial of this claim. What strength Butler will get in the State, will, it is thought, have no effect on the result there, because he will probably poll a proportionately smaller vote there than in some of the other Northwestern States.

Michigan is going to bear very close watching. Its 54,000 Republican plurality in 1880 was altered to 5,000 Democratic plurality in 1882. The tidal wave swept over the State with greater force than anywhere else excepting New York. The same causes of discontent that effected this great change still exist. It is reported, too, that there are many Republicans, especially in the upper peninsula, who have declared their inability to support Blaine, and, while there has been no effort to organize this element, some pains have been taken to learn how extensive this defection is. It is found that in the upper peninsula, in the large mining towns of Negaunee, Ispeming and Calumet the disaffection has spread like an epidemic almost. It is not confined to those who work for weekly wages, but the capitalists there many of them openly announce that they cannot support Blaine, because they believe him to have led a corrupt political life, and because they fear that he will cut up some dido in the White House that will imperil business interests. One manufacturer near Hancock, who employs some five hundred men, said that, though naturally Republican, he believed that seventy-five per cent. of them would not vote the Republican ticket, and that he should not do so himself. This personal and unorganized opposition to Blaine on account of his record is more striking in Michigan than in many other States, because it is more aggressive. The Prohibitionists expect to poll 20,000 votes in Michigan. Gen. Butler is very strong with a large number of voters in Michigan, and it was asserted by some of the Democrats from that State that had he been the nominee of the Democratic party he would have carried the State. As it is, he will receive a very large vote there, and his strength will not come entirely from the Democratic party either. The anti-monopoly sentiment in the agricultural part of the State is very strong.

INDIANA AND OHIO UNDER ADVERSE INFLUENCES.

The Republican managers hear nothing but bad news from Indiana. At the Democratic committee rooms they assert that the Republicans cannot carry the State. There will be none of the Dorsey strategy this year, though there will be a good deal of money spent by the Republicans in the State. Dorsey bought the State in 1880, but Tilden carried it by nearly 5,000 majority, and at the latest election there was a Democratic plurality of 10,000. The same German-Prohibition combination that threatens to work so fatally in other Western States promises to defeat the Republican ticket even if the State were not naturally Democratic. Blaine's nomination was received with no enthusiasm, although for that matter Cleveland's was a most grievous disappointment.

As to Ohio accounts differ. It gave Hoadly 20,000 plurality; the entire State administration is in the hands of the Democrats, the Democratic organization is said to be excellent, the Germans are reported to be almost solidly against the Republican ticket, and the Prohibitionists expect to poll 50,000 votes. With such conditions the Democratic managers claim that the State that has just given 20,000 Democratic plurality, and in which Hayes' plurality was only 7,000, may fairly be regarded as very doubtful, even if Garfield did receive 35,000. The Republican managers admit that there are some odds against them, but claim that the Republican strongholds in the State will roll up a majority large enough to overcome the adverse influences. But their information just now seems to be vague and general. They have determined to make a back-breaking effort to carry the State in October, but the Democratic managers differ as to the policy to be pursued. Some of them claim that it would be folly to risk all on a State that has always been Republican in a Federal election.

MESSRS. Houck & Barnie, managers of the Baltimore, Md., base-ball club, state, as the opinion of all base-ball players,—and no set of men are more susceptible to sprains, bruises, aches or pains—that St. Jacobs Oil, the great German remedy, is the best cure ever used, and they jointly acknowledge its merits.

Professor Thomson, in a recent lecture, informed his audience that the magnetic pole is now near Boothia, Felix, or more than 1,000 miles west of the geographical pole. In 1657 the magnetic pole was due north, it having been eastward before that year. Then it began to move westward until 1816, when the maximum was reached. This is now being steadily diminished, and in 1976 it will again point due north. Professor Thomson says that the changes which will have been observed not only in the direction, but in the strength of the world's magnetism will show that the same causes which originally magnetized the earth are still at work.

ORDER OF PUBLICATION.

MARY S. HYNSON, VIRGINIA W. MOODY,
vs.
WILLIAM T. HYNSON, ANDREW J. HYNSON, FRANKLIN P. HYNSON, GEORGE W. HYNSON, ROMEY W. HYNSON, MACY B. HYNSON, COREY C. HYNSON.

In the Circuit Court for Kent county, in Equity.

THE object of this suit is to obtain judicial construction of the last will and testament of Elizabeth Walker late of Kent county, deceased dated the Eighth day of June, in the Year Eighteen Hundred and Forty-eight, and duly probated on the 21st day of February, in the year Eighteen Hundred and Forty-nine; and also to obtain a decree for the sale of certain land devised under said last will and testament.

The bill of complaint states that the said Elizabeth in her aforesaid last will and testament, among other things devised the farm she bought from William Apsley and others, subject to the life estate therein of Mrs. Wroth, the widow of Wm. Wroth, to her daughter—the said complainant—Mary S. Hynson for life, and after her death to her grandson, Christopher C. Hynson, (the son of said complainant) in fee simple, upon the condition when he became entitled to have and possess the said farm, he should pay to his sister, Virginia W. Hynson (the said complainant, Virginia W. Moody), and his sister, each the sum of one hundred dollars; but, provided, if he should die before he got possession of said farm, that it should be divided between his sisters, as appears by a certified copy of said will filed as a part of the bill.

That at the time of the making and execution of said will, the said Christopher C. Hynson had only two sisters, Virginia W. Moody, the said complainant, and Emma A. Hynson. That the said Emma A. Hynson departed this life an infant and without issue, the said testatrix and also her mother, the said complainant, Mary S. Hynson, living, and leaving her brothers, William T. Hynson, Franklin P. Hynson, Christopher C. Hynson, George W. Hynson, and her sister Virginia, her only heirs-at-law. That the widow of the aforesaid William Wroth died many years ago.

That since the death of the aforesaid Mrs. Wroth, the said complainant, Mary S. Hynson, has had and now has the possession of said farm as devisee for life under the will.

That the said Christopher C. Hynson before he became entitled to have and possess the aforesaid farm, died, to wit: in the year Eighteen Hundred and Eighty-two, leaving his children, Romey W. Hynson, Macy B. Hynson and Corey C. Hynson, his only heirs-at-law, and Mary F. Hynson, his widow, and the said complainant, Virginia W. Moody, his only sister.

That the buildings and other improvements on the aforesaid farm are in a dilapidated and ruinous condition and that the land has depreciated in value.

That these complainants are advised under a proper construction of the aforesaid devise of said farm, since the said Emma A. Hynson died in the life time of said testatrix, and the said Christopher C. Hynson having survived the said Emma, and died before the termination of the life estate of his mother, the said complainant, Mary S. Hynson, that upon his death the remainder in said farm vested in the said complainant, Virginia W. Moody, and that they can sell, and by a joint deed convey a valid fee simple title in and to said farm.

The bill further says that the said complainants are prevented from making an advantageous sale of the aforesaid farm, because of the claim and apprehension on the part of the said William T. Hynson, Franklin P. Hynson, George W. Hynson and the aforesaid heirs of Christopher C. Hynson, as the heirs-at-law of the said Emma A. Hynson, with the complainant, Virginia W. Moody, have the remainder in an undivided moiety of the aforesaid farm.

And the bill further says that it would be greatly to the interest and advantage of all the parties entitled, to have the said farm sold, and the net proceeds arising from such sale so invested that the said complainant, Mary S. Hynson, may receive the interest thereon during her life, and after her death, the person or persons entitled to the principal may receive the same.

And that said Franklin P. Hynson and George W. Hynson are non-residents of the State of Maryland.

It is therefore ordered this 11th day of August, A. D. 1884, that the complainants, by causing a copy of this order to be inserted in some newspaper published in Kent county once in each of four successive weeks before the 12th day of September, 1884, give notice to Franklin P. Hynson and Geo. W. Hynson, the non-resident defendants, of the object and substance of this bill, and warn them to appear in this court in person or by attorney, on or before the 12th day of December, 1884, to show cause, if any they have, why a decree ought not to be passed as prayed.

First Class Work

GUARANTEED
BY THE OLD RELIABLE FIRM,
CHAPMAN & LAMBERT.

We are manufacturing some of the best work that was ever built in this State. We sell First-Class Work. If you want a Good Carriage it will be to your interest to buy of us as we are now—after Twenty years' experience—better able to suit you in every respect. Call and see our

Light Phætons, Brewster Spring Buggies, Dayton and Jump-Seat Carriages.

We do not offer this work in competition with the common shoddy work, but sell it on its merits, and our reputation.

All Kinds of Repairing Done Neatly

and with dispatch. We give special attention to painting up second-hand jobs. Those wanting a nice job of painting should give us a call.

CHAPMAN & LAMBERT.

Our WAGONS,

CARTS & DEARBORNS

Have a reputation throughout this Peninsula. We have sold them in New Castle county, Del., and in Cecil county, Md., and as far as Salisbury, Md. We have over ONE THOUSAND of these running to-day, and as far as our personal knowledge extends we do not know of twelve set of tyres cut in the whole of them. This is evidence enough of what kind of lumber we use in making them.

We could give you testimonials enough to fill one side of the *Chestertown Transcript* to establish this fact if it were necessary, but the public already knows of the standing of these goods.

We have justly earned the high reputation we hold as manufacturers by our manner of doing business—

We give our own personal supervision to every minutia in building;

We see that all lumber is well seasoned before it is used, and every other part is what it should be.

We do all kinds of

JOB-WORK & REPAIRS

furnish estimates for Bridge work, and repair all kinds of machinery.

We also sell

Plow Castings and Plows,

such as Wiley's, Concaves, and Minor & Horton's. These Castings are all ground and polished and sold cheap.

We also have on hand and make to order all kinds of

HARROWS,

Such as Twin and Double, and Single A's.

You will find a large lot of Single, Double and Three-horse Trees of the best hickory, well ironed; also, Plow Hames.

You will see by calling at our works that we have too much at stake to do mean or shoddy work.

Thankful for past patronage and hoping for a continuance of the same,

We are respectfully,

CHAPMAN & LAMBERT.
