"Woman's Christian Temperance Union."

Ed. Transcript:—We very much regret the necessity that has arisen to mention politics in relation to our feeble efforts in the Temperance cause, but as the political phase of the W.C.T.U. has been circulated somewhat to our disadvantage, I have authority from Mrs. Dr. J. C. Thomas, president of the W. C. T. U. of Md., to say that, "as an organization, we are not going into politics," and we think it but justice to our ladies under whose auspices the meeting at Still Pond will be held to say, that it will be conducted by one who can speak "nobly" for temperance without advocating the "third party."

Synopsis of the minutes of a meeting held in Chestertown Sept. 2d, 1884,—Devotional services conducted by Rev. Mr. Aldred. President in the chair. Moved and adopted that Mrs. M. E. Brown, of Chestertown, Mr. and Mrs. E. P. Janvier and Mrs. J. Frank Wilson, of Still Pond, serve as committee of arrangements for the temperance meeting at Still Pond on Oct. 16th, 1884, held under the auspices of the W. C. T. U., and that Mrs. J. W. Corey be invited to read an essay at that time as one of the features of the occasion. Moved and adopted, that the superintendents, pastors and teachers of the Sabbath schools be solicited to serve as a committee for Sunday school work, according to instructions in the "Plans of Work" of the W. C. T. U. Rev. Mr. Aldred moved that Mrs. M. E. Brown and Mrs. T. R. Hubbard be appointed to inquire of the official boards of the several churches of Chestertown in regard to the use of unfermented wine at their sacramental service, also that the district vice-presidents of the county be solicited to use their influence to that effect in their several places of worship, trusting that all good people may be convinced that the pure juice of the grape should be substituted for wine at the Lord's table. There has been obtained for distribution $5 00 worth of temperance literature from the superintendent of that department, and if the district vice-presidents can be present at our next meeting they will receive a package from the chairman of our literary committee for distribution in their several localities. The president and secretary were requested to appoint committees on the lines of work not already provided for. It is hoped that as many as can will be present at our next meeting. Adjourned to meet in the M. E. Church of Chestertown on Tuesday, Oct. 7th, at 10 o'clock A. M. REC. SEC'Y.

THE KENT FAIR.

THE FIRST DAY'S RACES.

Smuggler Disappoints the Congregation

SOME FINE STO K.

Though Tuesday came in hot, dry and dusty almost to suffocation, there was a large turnout to the Kent fair. Carriages passed through the gate in an almost continuous string from nine in the morning till high noon. The trains on the railroad from each end came loaded with passengers. The 12:40 train from Chestertown had fully one hundred passengers in each coach, though the coaches at best can only accommodate fifty each. Standing room, even, was difficult to find. The big attraction of the day was the Smuggler—Cyclops race. Smuggler was the favorite, and among the betting fraternity odds of two to one were offered on him, with no takers. It was generally understood among those who have inquired after Smuggler during the past week, that he had been in bad condition, but it was believed that he was feeling better on Tuesday. The sweepstake race between Smuggler and Cyclops was the first race. When Smuggler made his appearance on the track, he was received with a cheer. A little later Cyclops came out, and his Queen Anne's friends cheered him. As the horses jogged around, a great many experienced horsemen remarked that Smuggler was going lame. His friends, however, thought that when he warmed up his lameness would disappear, and still Smuggler stock was at a premium.

THE RACES.

It was well on toward three o'clock when the race was called. Smuggler drew the pole. It was thought by everybody, that there being only two horses in the race, there would be no trouble getting a start. This however, proved to be a mistake. There began a tiresome process of scoring, which continued well on to an hour. Here Smuggler's friends began to lose faith. He went across the line every time in a lope. More than a dozen times the horses were called back by the bell in the judges' stand. Finally, when everybody had grown tired waiting for the start, the judges gave the go. Cyclops had the pole, though Smuggler was entitled to it. This however made little difference. Smuggler loped around the track at a five-minute gait, never once coming down to his feet. When he crossed under the wire the first half mile, his driver galloped him off to the stable, and the race was over. It was no race at all. Smuggler simply refused to go, and didn't go. Cyclops made the heat in 2:31¾ and took a clean $500. It was probably the "softest snap" Cyclops will ever meet with. After the race, the Queen Anne's people were a very proud set. What do you think of Smuggler now? they would ask scornfully. The genial editor of the Centreville *Record* was on hand, backing his beloved Cyclops with all the ardor of an ardent nature. Before the race began his enthusiasm was very little above zero, but by the time the first half mile was finished it had raised 275 degrees, and would have gone higher, if it could have got higher. The Kent couney people were a very sick set. They had gone to the race with implicit faith in Smuggler. Startt, the driver of Smuggler, could not account for his failure to go. He said he had been unable to bring him to his feet, and thought he must be sick. He had never known him to act in any such manner before. Cyclops is a magnificent looking stallion, and is undoubtedly a very fine horse. The majority of people on this side the river however, are yet strong in their belief, that in a race where both horses go, Smuggler would win.

The other three races of Tuesday were all interesting. In the 2:40 class, purse $200, there were seven horses made their appearance in the first heat. The race was won in three straight heats by "Happy Maid," of Philadelphia. The score was as follows:—

2.40 CLASS.

Wm. R. Merrifield, s m Burrel, Baltimore, 2, 5, 2; E. Postens, r m Lillie S., West Philadelphia, 4, 2, 4; J. S. Garrett br g Randolp, Village Green, Pa., 5, 3, 5; J. D. Kidd br g Tanner Boy, Baltimore, dis.; John Amy, b m Happy Maid, Phila., Pa., 1, 1, 1; R. P. Stetson, b g Fearnaught, Phila., Pa., 3, 4, 3; Jas. Mooney b g Commodore, 6, 6, dr. Time, 2.40½, 2.45, 2.39½.

In the 3.30 class, purse $100, Dazie, of Kennedyville, could have shut out the other horses on first heat. Her driver forbore, however, and his generosity cost him the race. The score stood as follows: Wm. T. Lane gr m Dazie, Kennedyville, Md., 1, 2, 0, 2, 2; Dr. T. H. Cooper, b m Madge B., Chestertown, Md., 3, 1, 0, 1, 1; A. W. Prettyman, br g Thomas D., Ellendale, Del., 2, 3, 3, dis.; C. H. Hurlock, b s Joe Hooker, Hanesville, Md., dr. Time, 2.58, 2.45½, 2.45, 2.48, 3.04.

In the wagon race, for horses owned on the peninsula, "Hop," a horse from Chesapeake City, won in three straight heats. The score was as follows:

WAGON RACE.

Wm. B. Stephens b. g. Don, Melitota, Md., 2, 2, 2; Thos. W. Wickes chs. s. g. Prince, Chestertown, Md., dr; Romie Byron b g Chief, Chestertown, Md., dis; G N. Bennett b m Bessie, Chesapeake City, Md., 3, 3, 3; Lewis Bouldin cr g Hop, Chesapeake City, 1, 1, 1; C. W. Kennard g m Daisy, Chestertown, dr; J. W. Hines b m Jennie, Chestertown, dr. The sun was cold down when the races closed.

SOME FINE STOCK.

There is in Kent county, some as fine stock as is to be found in the country. The raising of improved stock is not confined to a few in the county, but is getting to be very general. Indeed it is difficult to find a prosperous farmer in this county who is not turning his attention in a greater or less extent to raising pure-bred stock. There is not as much of this stock exhibited as there should be at the Kent fair, but there is as much as the capacity of the stock houses will accommodate.

The exhibit in sheep is especially fine. There were two bucks that attracted special attention. One the yearling South-down buck, recently imported from England by J. Gale of Hanesville, the other a Hampshire-down buck, also recently imported from England by Walter Skirven of Fairlee. Both these bucks are of distinguished pedigree, and are from the finest flocks in England. Mr. Gale has also on exhibition, three South-down ewes from the flock of Anderson of Ohio. These ewes took the first premium at the recent Pennsylvania State fair, where Mr. Gale purchased them from the original owner. Beside the above mentioned, he has also on exhibition 10 ewes and 5 lambs, all pure bred South-downs. W. Skirven in addition to his imported Hampshire-down buck, has five thoroughbred Hampshire-down ewes from the flock of Walters of Pennsylvania. He has also five Oxford-down ewes of his own raising. J. H. Baker of Pomona, has the largest exhibit of improved stock at the fair. He has a flock of thoroughbred Shropshire-down sheep, numbering 31, and including several fine bucks.—Rhinar Stavely has a Merino buck and five Merino ewes, all registered. Alday Clements 10 ewes, 10 lambs and a fine buck, pure Shropshire-downs.

The cattle exhibit is also large and attractive. Henry Massey, near Chestertown, has a fine short horn bull, five short horn cows and several calves of the same species; J. Hendrickson, of Kennedyville, a Hereford bull, four cows and two heifers, all thoroughbred Herefords; M. Price, of Still Pond, exhibits two steers and four cows, short horns; George Rodenheiser, one short horn bull; J. Gale, one Hereford bull, entitled to register, two cows and three heifers, all Herefords; there is also in his lot a bull calf which he has sold for $75. George Biddle exhibits a handsome Hereford bull; Edward Hepbron, a Holstein bull; W. H. Stewart exhibits two Holstein bulls, a Holstein cow and calf, all registered; also six Holstein heifers. J. H. Baker has a very large and interesting exhibit of Jerseys; "Granger" is a registered Jersey bull purchased from J. H. Gale, who bought him from a breeder in Chester county, Penna: the mother and father of "Granger" were both imported. His mother, "Seagull," had a butter record of 20 lbs a week. Mr. Baker exhibits in all twenty thoroughbred Jerseys, the herd including two bulls. W. Geikie exhibits one bull, two cows and three heifers, all thoroughbred Jerseys. J. W. Corey exhibits two yearling Herefords, a bull and a heifer. J. W. Corey J. H. Baker and J. Gale each exhibit a yoke of oxen.

POULTRY AND FRUIT &C.

There is a large and interesting exhibit of improved poultry. The difficulty with regards all the exhibits however, is to get reliable information concerning them, as there is no intelligence given accompanying the exhibits. There are some interesting exhibits in fruit and vegetables also, but it was next to impossible to gather information concerning these. In the domestic department there are also numerous attractive exhibits of woman's handiwork. These too, preserve a grim silence as to their authorship. The just judges who are to award the premiums are forbidden to know who the owners are.

MACHINERY AND FARMING IMPLEMENTS.

There are a lot of fine road carriages cn exhibition, the carriage exhibits being from Philadelphia, Smyrna, Dover and Chestertown. Messrs. Chapman & Lambert of Chestertown, have three carriages on exhibition, and the finish and style of these are among the most attractive in the exhibit. There is an interesting exhibit of farm machinery. There are five different makes of traction engines displayed and some new fangled machinery that is probably of recent invention. There is to be during the fair a trial of steam plows, of which there are several makes on exhibition. Messrs. Elliott & Gemmill have quite a large exhibit of farm machinery. They have constructed a turbine windmill. They have on exhibition two traction engines and a thresher. The thresher which they have on exhibition is one that has threshed 20,000 bushels of wheat this season, and looks as good as new. They have also farm wagons, cultivators, drills, plows, plow sulkies, hay tedders &c.

W. A. Hyland, from his factory at Chestertown and Galena, also has a large exhibit of his own manufacture. He has an interesting display composed of horse powers, farm wagons, dearborns, carts, rollers, corn shellers, harrows, plows, farm bells, &c.

The exhibits this year are of an interesting nature, in all the departments. But the managers of the fair have no improvement in buildings. The accommodations on Tuesday were very inadequate. A grand stand more than twice as large could have been filled. It is to be hoped that by next season, the desired improvements will be made.

Literary Notes.

The *Art Interchange* of September 11 contains a charming design in color of a vase decorated with pink morning glories. The addition of bronze to this design makes it most equisite for decoration in mineral colors.

The October *Century*, which closes the twenty-eighth volume of the magazine, contains the announcements of some of the features of the coming magazine year, chief among which is a profusely illustrated series on 'Battles and Leaders of the Civil War,' most of which will be written by generals, either upon the Federal or the Confederate side, actually in command during the various engagements. Prefatory to these articles is the opening paper in this number, on "Lights and shadows of Army Life," by George F. Williams, the well-known war correspondent whose descriptions and anecdotes of the camp, the march, and the battlefield, and reminiscences, of famous generals, are supplemented by engravings after the etchings of Edwin Forbes, the pictorial war correspondent.

The October issue of the *Eclectic* will commend itself heartily to our readers in its happy diversity of grave and gay, giving us, as it does, the choicest articles from the foreign periodicals. Prof J. R. Seeley's paper on 'Goethe' is a vigorous exposition of the character and influence of the great German poet. A singularly strong article is that by Lucien Wolf, entitled 'What is Judaism? A Question of To-Day.' Francis Galton's 'Measurement of Character' and Prof. Proctor's 'Upright Man' are clean, light scientific papers.

The last number of the present volume of *St. Nicholas* maintains the high standard of excellence tnat has marked it during the year—the best pledge of continued improvement in the future. The number opens with a paper, historical, critical, and practical, on 'Slang,' by Lucia Gilbert Runkle, entertaining and valuable to parents and children alike. With the title of 'Another Indian Invasion,' Mrs. Lizzie W. Champney contributes a pleasant anecdotal account of the Government School for Indians at Carlisle, Pa. It is copiously illustrated by J. Wells Champney, and from photographs and drawings by the scholars.

Lippincotts Magazine for October opens with a very pleasant and well-illustrated article on the 'Pictured Rocks of Lake Superior,' by D. D. Banta. The 'Personal Reminiscences of Charles Reade,' which have excited general interest, are brought to a close. Readers interested in the progress of education cannot fail to be struck by the description of 'A School Without Text-Books,' by S. H. M. Byers, American Consul at Zurich.

We are getting as a people, more to appreciate art in our every-day life; we are growing more refined, and beauty as well as utility is being given a large share of attention in the building and decoration of our houses, and in our every day surroundings. The *Art Amateur*, published in New York, is a journal that is finding its way into many cultured homes; it portrays not only the higher art of the brush and pencil, but the art of more general interest of decorating and making beautiful the home and home surroundings. The *Art Amateur* is a journal that will gratify the taste of both the artist, and the *Art Amateur*. The October number is out.

Elliott & Gemmill's

Farmers' Agency

Will furnish at short notice and Bottom Prices, any Implement manufactured in the United States.

We make a specialty of the Iron Turbine Wind Mill, manufactured by Mast, Foos & Co.; also, the Buckeye Force Pump, especially adapted to deep wells and forcing water.

Any one needing a Wind Mill we say try a Turbine. They are strength and durability itself. We control this Mill for the county, and have no sub-agents. Will make prompt estimates for any one desiring a Mill.

We would also call the attention of Farmers to our

NEW BUCKEYE GLASS FEED FERTILIZER DRILL,

which we pronounce, after thorough testing it last season, to be the best combined Grain and Fertilizer Drill ever offered to the trade. Our reasons are—

First, It is a perfect Wheat Seeder Second, You have no cog wheels to take off or put on to chance quantities.

Third, With the Glass Feed for Phosphate you can sow any quantity of Fertilizer without clogging, gumming or pasting, from 100 to 500 lbs., and can make the changes while walking along.

Fourth, Both wheat and phosphate are distributed within plain view of the operator.

Fifth, It has double force feed for wheat, which makes it sow regular in whatever position it may be placed, especially when seeding side hills. All other drills will seed more or less according to position.

Call and examine it before buying, it will pay you.

Farmers clubbing together can make it pay.

Remember we have no sub-agents Save money by giving us your orders direct.

We have in use in Queen Anne's county eighty-three of the Buckeye Drills. In 1882 we sold there 28; in 1883 we sold 55.
