NEW YORK, Aug. 12, 1892.

MR. S. C. ROSENBERG, 123 N. Eutaw St., Baltimore, Md.—*Dear Sir:* The Twilley's Liniment you gave me to try for neuralgia has entirely cured me, and I have almost one-half bottle left. I thank you very much for it, and when I come to Baltimore on or about Dec. 25th, I will call on you to get the directions of Mr. Twilley, so I can get a new supply of Liniment, as I would not be without it on my travels.

Yours truly, JOHN CURTIS.

A Great Salt Lake In Siberia.

The great salt lake at Obdorsk is 9 miles wide and 17 miles long, yet except in a few places it is solidly roofed over with a deposit of salt which is getting thicker and thicker every year.

Our guide, who is an old man, said that he could remember when the salt crystals first began to gather upon the surface of the water. Year by year, owing to the evaporation of the water, the crystals became more numerous and then caked together till this great roof formed.

In 1878 the water beneath this salt crystal roof found an underground outlet into the River Obi. This lowered the lake's surface about three feet, leaving that distance between the water and the roof.

Looking down through one of the openings made for the purpose in the roof, we saw a low sided small boat. Our guide put us one at a time into the boat. We lay flat on our back and looked up at the curiously beautiful salt ceiling overhead. We propelled the boat by pushing with our hands against the irregularities of the roof.

The guide held a long rope attached to the boat to prevent our going too far and getting lost—a thing he said it was easy to do.

Many springs surround this lake. Their water flows over the roof and evaporates there, and thus continually adds to its thickness. After many years the springs will probably become choked with their own deposits, and then the whole will gradually become covered with earth, and so a great salt mine will be formed—a treasure for the Siberians hundreds of years to come.—Cor. Geographical Magazine.

People Who Whistle.

"Most people look upon whistling as a nuisance," said Herbert C. Sutliffe, "but there is no doubt that a whistling man has a good deal to recommend him. I have a friend who is a warden in a large penitentiary, and he states that in all his long experience he never knew a habitual whistler condemned to a term in the institution, and he says, moreover, that although the rules as to quiet and order are frequently broken he never remembers to have heard an attempt at a musical whistle within the terrible looking walls of the institution. Whistling seems to be the natural safety valve of good spirits and satisfaction, and the grumbling man couldn't whistle if he tried.

"I had a man to work for me once who was a model in every respect except that he kept my teeth constantly on edge by a series of whistling solos of anything but a cheerful character, although the good man was evidently trying to reproduce the latest operatic hits. I broke him of the habit by continuous scolding, but the man became so idle and indifferent in consequence that I was very glad to encourage him to resume a habit which at first had given me so much annoyance. I try to get out of the way when the spirit moves him to announce in whistling tones some important or romantic event, but I am perfectly certain that as long as he whistles he will work as hard as his hands and arms will let him."—St. Louis Globe-Democrat.

The Trouble With a Cold.

"S'matter?"

"I got an awful cold," replied Colonel Morney.

"Have you"——

"Yes, I have. I have polished my bronchial tubes with 'Conlin's Consumption Coughine."

"No, but have you"——

"Yes! Course I have. I've had goose grease rubbed all over my throat and chest, and I"——

"But, I say hold on, have you"——

"I tell you there's nothing I haven't tried. I took a hot bath, drank a pint of boiling lemonade and rubbed my hide almost off with Mustang liniment, but"——

"Now, listen! Have you"——

"Yes, I have. Tried them all, but they're no good. Why, last night I"——

"That's all right, but have you"——

"Have I what?"

"Have you time to go over to Flynn's and have something?"

"Why the deuce didn't you talk sense at the start?" responded the colonel. "I'm with you."—Exchange.

Colors of Sapphires.

Sapphires have of late years become fashionable gems. The blue of the sapphire is very seldom pure or spread over the whole substance of the stone. Sometimes it is mixed with black, which gives it an inky appearance, sometimes with red, which, although imperceptible by daylight, yet by artificial light gives it an amethystine appearance. Two sapphires which by daylight may appear of the same hue often differ extremely in color at night. If the stone be held in an ordinary pair of forceps an inch beneath the surface of very clear water, the parts of the stone colored and uncolored will be distinctly apparent. This remark applies to all other gems.—Cincinnati Enquirer.

The Poverty of Printed Language.

"God will keep up his end of the row if you give him a chance." That was the language used by Moderator Craig in his sermon, which had direct reference to the controversies before the general assembly. As it appears in print the sentence requires an expository note. Whether the word "row" rhymes with "how" or "hoe" becomes an important question.—Washington Star.

Strength of the Horse.

A horse can draw on the worst kind of earth road about four times as much as he can carry on his back. On a good macadamized road he can pull 10 times as much; on a plank road 25 times as much, and on a street railway 58 times as much.—Chicago Journal.

THE FACT

That AYER'S Sarsaparilla CURES OTHERS of Scrofulous Diseases, Eruptions, Boils, Eczema, Liver and Kidney Diseases, Dyspepsia, Rheumatism, and Catarrh should be convincing that the same course of treatment WILL CURE YOU. All that has been said of the wonderful cures effected by the use of

AYER'S Sarsaparilla

during the past 50 years, truthfully applies to-day. It is, in every sense, The Superior Medicine. Its curative properties, strength, effect, and flavor are always the same; and for whatever blood diseases AYER'S Sarsaparilla is taken, they yield to this treatment. When you ask for

AYER'S Sarsaparilla

don't be induced to purchase any of the worthless substitutes, which are mostly mixtures of the cheapest ingredients, contain no sarsaparilla, have no uniform standard of appearance, flavor, or effect, are blood-purifiers in name only, and are offered to you because there is more profit in selling them.
