The CELEBRATED CLEVELAND BAY STALLION,

PRIDE OF ENGLAND,

Registered No. 161, Imported, Stands Alternate Weeks at Elkton and Chestertown, Maryland.

PRIDE OF ENGLAND, 161, is a beautiful Blood Bay Color, stands 17 hands high and weighs 1300 pounds.

Pride of England is registered in the Ontario Coach and Roadster Horse Breeders' Association of St. Thomas, Canada, as No. 161. He is a descendant of the best producing families on both sides for speed, beauty, endurance and general utility.

Tracing from Mark Twain, Moonstone and Old Clear Grit [859] as producers of speed, and through Rattler and Hornpipe to thoroughbred and imported coach horses, through Fox Hunter, Pride of England [161] sired by Mark Twain, he by Moonstone, by Old Clear Grit [859], he by Lapadist by Touchstone, the English race horse.

Mark Twain's dam Big Nell, by Foster's St. Lawrence, he by Oil St. Lawrence. Mark Twain is sire of Nellie Baker with four-year-old record of 2.32 with six weeks handling. She gave a trial mile on Woodbine track, Toronto, in 2.21¾, and a half mile in 1.08.

Moonstone's dam by Bradly's thoroughbred, he by Oliver's thoroughbred. Moonstone is sire of Nettie C., record 2.25, and several others that show their ability to trot close to 2.30.

Old Clear Grit [859], was one of the greatest Canadian sires. Sire of Amber, record 2.23, made in Australia, and the fastest record for two, three and ten miles in Europe, Flora F., 2.24¼, Bay William, 2.27½, Little Billy, 2.23¾, Billy M., pacer, 2.19¾, Fuller, pacer, 2.13½, St. Patrick, 2.30¼, and a large number that trot under 2.40.

Pride of England [161], dam Fanny [35] by McQueen's Rattler, he by Wilson's Rattler, he by Biggart's Rattler, by Sir Henry, he by the Garrett horse, by Leonidas Imported Thoroughbred. Biggart's Rattler, sire of Joe Brown, 2.23, also sire of Warner's Rattler, sire of Mary Davis, 2.26.

Pride of England [161], grand dam by Hornpipe by Imported Thoroughbred, great grand dam by Fox Hunter, he by imported coach horse.

It will be seen by the above that Pride of England is gilt-edged on both sides.

Breeders cannot possibly err in breeding their brood mares to this noble stallion, as the intensity of his breeding is in itself a certainty that his stock will partake largely of the characteristics of their sire.

TERMS OF BREEDING.—$25, one-half during the season and the other half when mare proves in foal. For more than one mare, special terms.

HOW THEY USED TO PITCH.

Those Were the Days When Base-Ball Was Worth Seeing.

"It's a square, manly game," said the captain, as we clambered through the turnstile, "a noble game, but not what it was a decade ago——"

"Why, captain, the game has steadily grown——"

"Steadily what? Talk about science! The pitchers, the whole battery of to-day don't compare with those old——"

"What were their strong points, captain?"

"Delivery. We talk now about in curves and out curves and up and down shoots, but did you ever see a 'hook' pitch?"

"No."

"Ha, ha. Then you know a heap about base-ball."

"How was it delivered?"

"Well, the best hook pitcher I ever knew was Jim Bang, the Gotham Terror. Jim had to have a special ketcher, fer no ordinary mortal wanted to wind onto his hook ——"

"What was it like?"

"Like! It was a sort of compound curve. The ball left Jim's hand as if shot from a thirteen-inch Armstrong, swerved rapidly to the right or left, and just as the befuddled batter struck at it with all his might it made a sudden rapid twirl around his neck, starting back toward the pitcher. This was also called the boomerang pitch."

"But how did the catcher get the ball?"

"Always in front of the batter, unless Jim gave him the signal and put on an extra twist, when the ball would whirl around the batter's neck twice, and the pitcher'd git it——"

"That must have been remarkable work."

"But not so remarkable as the 'bunt' pitch of Cracker Jack Short, the Cyclone of the Schuylkill."

"You mean bunt hit, don't you——"

"Who said I meant bunt hit. I meant bunt pitch."

"How was it done?"

"Well, in this throw the ball went right at the striker like an avalanche, and——"

"Straight or curve?"

"Straight——"

"Why, captain, I could hit any straight ball, however swift."

"Not Jack's. Just as the ball got almost in reach, and the batter swung himself to smash it over the fence, the ball stopped as suddenly as if striking a stone wall, and fell straight to the ground——"

"And the batter would strike at it?"

"Always."

"And how would they get him out?"

"Three strikes, every time."

"Remarkable pitching, captain, but how can it be accounted for?"

"Easy enough. I asked Jack about it. Pitching is a science, you know. Jack pitched the ball is such a perfectly straight line that the hole it bored in the atmosphere caused a vacuum and consequent suction behind it, and its speed made a firm resisting air cushion in its front. As it flew onward the lengthening hole in the atmosphere increased the suction and lessened the front resistance pressure, and so nicely did Jack calculate that the ball always dropped just in front of the plate. Base-ball is a study, a science. But here's my car now. I'll see you to-morrow afternoon at Sunday school."

MULES INSANE FROM JOY.

Brought Into God's Sunlight After Four Years in the Mines.

"I saw an odd sight in Luzerne county a few days ago," said Eckley B. Coxe, of Drifton, to a Philadelphia *Times* man. "Six mules that had for four years hauled cars in the lower workings of a coal shaft to and from the foot of the shaft, had to be brought up owing to the flooding of the mine on account of fire. The mules in all that time had seen no light stronger than the flicker of the little Davy lamps the miners carried. The sun was in its zenith when they reached the surface, and the atmosphere was as clear as crystal.

"The astonished creatures closed their eyes to shut out the flood of strong light and kept them tightly closed while they were being driven to a pasture lot a mile distant and turned loose. There they stood trembling as if they were afraid something evil was about to befall them. Presently they half opened their eyes and peered around in open-mouthed amazement. It was clear they couldn't understand it.

"When they had become accustomed to the sunlight they elevated their heads and slowly swept their gaze over culm piles, sky, mountains and horizon again and again. Toward sundown they broke into a chorus of joyous brays, the like of which was never heard from mules before.

"After a quarter of an hour of that music, they took to kicking, jumping, whirling around like tectotums and rolling on the sod as if they had gone mad. For four days they spent their time gazing at the new sights of field and sky, refusing food and water, not even nibbling at the grass, and not as much as blinking an eye in sleep."

Wet and Dry Places.

The wettest place in this country is Neah Bay, in Washington; over 123 inches of rain fall there every year. The dryest place in the United States at any point where regular observations are taken, is at Fort Garland, Col. Less than six inches of rain fall there during the year. There are, however, localities in Arizona, Nevada and Utah where rain has never been known to fall.

Knights of the Maccabees.

The State Commander writes us from Lincoln, Neb., as follows: "After trying other medicines for what seemed to be a very obstinate cough in our two children we tried Dr. King's New Discovery and at the end of two days the cough entirely left them. CASTORIA

for Infants and Children.

MOTHERS, Do You Know that Paregoric, Bateman's Drops, Godfrey's Cordial, many so-called Soothing Syrups, and most remedies for children are composed of opium or morphine?

Do You Know that opium and morphine are stupefying narcotic poisons?

Do You Know that in most countries druggists are not permitted to sell narcotics without labeling them poisons?

Do You Know that you should not permit any medicine to be given your child unless you or your physician know of what it is composed?

Do You Know that Castoria is a purely vegetable preparation, and that a list of its ingredients is published with every bottle?

Do You Know that Castoria is the prescription of the famous Dr. Samuel Pitcher. That it has been in use for nearly thirty years, and that more Castoria is now sold than of all other remedies for children combined?

Do You Know that the Patent Office Department of the United States, and of other countries, have issued exclusive right to Dr. Pitcher and his assigns to use the word "Castoria" and its formula, and that to imitate them is a state prison offense?

Do You Know that one of the reasons for granting this government protection was because Castoria had been proven to be absolutely harmless?

Do You Know that 35 average doses of Castoria are furnished for 35 cents, or one cent a dose?

Do You Know that when possessed of this perfect preparation, your children may be kept well, and that you may have unbroken rest?

Well, these things are worth knowing. They are facts.

The fac-simile signature of Chas. H. Fletcher is on every wrapper.
