CASTORIA

for Infants and Children.

MOTHERS, Do You Know that Paregoric, Bateman's Drops, Godfrey's Cordial, many so-called Soothing Syrups, and most remedies for children are composed of opium or morphine?

Do You Know that opium and morphine are stupefying narcotic poisons?

Do You Know that in most countries druggists are not permitted to sell narcotics without labeling them poisons?

Do You Know that you should not permit any medicine to be given your child unless you or your physician know of what it is composed?

Do You Know that Castoria is a purely vegetable preparation, and that a list of its ingredients is published with every bottle?

Do You Know that Castoria is the prescription of the famous Dr. Samuel Pitcher. That it has been in use for nearly thirty years, and that more Castoria is now sold than of all other remedies for children combined?

Do You Know that the Patent Office Department of the United States, and of other countries, have issued exclusive right to Dr. Pitcher and his assigns to use the word "**Castoria**" and its formula, and that to imitate them is a state prison offense?

Do You Know that one of the reasons for granting this government protection was because Castoria had been proven to be **absolutely harmless?**

Do You Know that **35 average** doses of Castoria are furnished for **35 cents,** or one cent a dose?

Do You Know that when possessed of this perfect preparation, your children may be kept well, and that you may have unbroken rest?

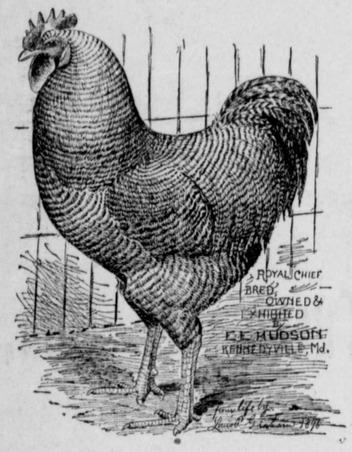

Well, these things are worth knowing. They are facts.

The fac-simile signature of Chas. H. Fletcher is on every wrapper.

Children Cry for Pitcher's Castoria.

SOUTH CAROLINA AND SECESSION.

Congressman Talbert Says They "Weren't Whipped."

WASHINGTON, Feb. 6.—Last night's session of the House was a very lively one. The debate was a continuation of the discussion of the Senate silver amendment to the bond bill.

Mr. Pearson (Rep., N. C.,) urged the silver Republicans to stand by their party, and spoke of those who in South Carolina, under the leadership of a tyrant, were building their power in class hatred and race prejudice. He urged his silver Republican friends in North Carolina not to join the Populist party at the invitation of South Carolina.

"We accepted South Carolina's invitation to secede once," said he, dramatically, "and got whipped."

"We did not get whipped!" shouted Mr. Talbert (Dem., S. C.) whose ire had been aroused. "We seceded, and would do so again. I'm proud of what we did."

"I am sorry for anyone who still believes in secession," said Mr. Pearson.

"I do," said Mr. Talbert, angrily, "and I want the gentleman to understand that we did not get whipped and never will be whipped."

This declaration caused laughter on the floor, but the galleries applauded it vigorously.

"'When hell breaks loose,' someone has said, rightly I guess," was Mr. Pearson's parting shot, "'it will break loose in South Carolina.'" (Laughter.)

FREE DELIVERY OF MAILS.

Let Chestertown Secure This Progressive Advantage.

The House Committee on Post Offices and Post Roads has ordered a favorable report on the bill of Mr. Sperry of Connecticut, concerning free delivery in small towns.

The bill provides that whenever not fewer than twenty persons who receive their mail through the same postoffice shall petition the postmaster to appoint one or more letter carriers for the delivery of mail matter to the persons addressed at their residences or places of business, and for the collection of letters and the conveyance and delivery of them to the postoffice, the postmaster shall appoint a suitable number of letter carriers for that purpose, and it shall be their duty to report at least once a week to the postmaster appointing them the number of pieces delivered and collected by them and amount paid therefor.

Local Veto Bill.

The memorials to the Legislature in favor of the local veto bill, in the hands of the Maryland State Temperance Alliance, and ready for presentation, are signed by nearly 11,000 persons.

A delegation will appear before the joint committee on temperance, recently appointed by the president of the Senate and the Speaker of the House, and urge a favorable report on the bill.

The committee endorsed the bills introduced in the United States Senate by Senator Peffer, Kan., and in the House by Representative Denny, Miss., prohibiting the Internal Revenue Department from issuing stamps for the sale of liquor in those sections where it is prohibited by law.

The local veto bill was largely endorsed in this county.

A REMARKABLE POSTOFFICE.

How an Old Mail Postmistress Allowed the Mail to Accumulate.

GEORGETOWN, IND., Jan. 30.—United States Postoffice Inspector Fletcher has just completed an inspection of the postoffice here, and put it in new hands. This is a village of 600 inhabitants. The postoffice for more than a quarter of a century has been administered by the Motweiler family, father and daughter. The father died 15 years ago. The daughter, Miss Louise Motweiler, now 60 years old, has been in charge ever since. Inspector Fletcher found the floor of the office covered five feet deep with mail. It required two days' hard work to sort it out. The old postmistress had lanes through this mass of matter. Forty cartloads of newspapers, some dating back to 1876, were dumped out where the villagers could pick out their own mail. Over 4000 undelivered letters, with unbroken seals, some of them postmarked 29 years ago, were delivered.

Miss Motweiler lived in the same house of two rooms, and had for her companions ten cats. Thirty-pounds of copper cents, which, with silver coin, amounted to $100, were found in the office.

The Oyster Laws.

Prominent members of the House and Senate, of both parties, from the oyster counties, state that there will be no radical changes in the oyster law, and the statutes now in force will not be amended in any material degree. Some of the city members favor radical changes, but if the counties unite on the subject there will be nothing done.

Chairman Dodson, whose committee on the Chesapeake Bay has charge of the oyster legislation, says that he is opposed to any changes of importance and that the present oyster law is satisfactory to the tidewater counties.

THE man who eats because he is hungry is, thus far, on a level with the brutes. The man who stops eating the moment his hunger is appeased is the wise man. Nature needs no more food than she calls for. Continued excess brings about indigestion or dyspepsia, with loss of flesh, strength, sleep, ambition and mental power; and an accumulation of aches, pains and many dangerous local maladies.

The stomach now can do nothing alone. We must appeal to some artificially digested food which can also digest other foods. That is to say, we must use the Shaker Digestive Cordial. The effect is prompt and cheering. The chronic pain and distress ceases. Appetite presently revives. Flesh and vigor gradually come back, and the sufferer recovers. But he must be careful in future. A trial bottle for 10 cents.

Laxol is the best medicine for children. Doctors recommend it in place of Castor Oil.

IF you wish to be happy, cultivate forbearance till your heart yields a fine crop of it.

IF you wish to be happy; do not talk of your private, personal, or family matters.

When Baby was sick, we gave her Castoria,
When she was a Child, she cried for Castoria,
When she became Miss, she clung to Castoria,
When she had Children, she gave them Castoria

A CAN OF TOMATOES.

Little Incident Out of a Soldier's Experience in the Civil War.

I was always fond of tomatoes and I hadn't had any for two years and eight months, the time that the regiment had been in service; then we had settled down for a little where we could get things, and the sutler got some and I bought a can. I think the cans were bigger in those days—I know the price was; I paid a dollar for that can, but I was glad to pay it.

Our camp was in a piece of woods. There was a little wooded ravine near by in which there was a cool, abundant spring that supplied the whole regiment; the surplus ran off down the ravine in a bright little brooklet, shallow, but with little pockets here and there where an eddy had burrowed out the earth, or the current ran under the root of a tree. The tomatoes had been stacked up under the roof of the sutler's tent, where it was hot; I took my can down to the ravine and sunk it in one of these pockets of cold water for an hour; then I took it back to camp.

We had a barrel that our tent had picked up somewhere that we used for a table. I set the can on the table and cut the head out of it with my jackknife. The rest of the men in my tent didn't care for tomatoes, and so it wasn't mean for me to eat the whole can. I put in a little vinegar and some pepper and salt. I had plenty of hard bread and a big spoon.

They were cool and delicious; a feast. I don't think that I have ever eaten anything more delightful.

TOMATO CROP FIGURING.

Tomatoes, Corn and Wheat Compared Acre for Acre.

Mr. W. L. Hubbard, a Talbot county fruit packer, in discussing the question of tomato prices, in the Easton *Gazette*, gives some interesting figures. He said:

"We canners are not responsible for the prices of tomatoes, and were I able I would be glad to pay six dollars, but with the present low prices in the canned goods market, it would be simply impossibly to pay what the growers ask. I have a great part of my last year's pack of tomatoes yet in my factory, the prices now being paid for such goods being too low for me to sell without a loss."

Mr. Hubbard further said that he contracted last year for two hundred acres of tomatoes at $5 per ton, and one hundred acres of sweet corn at $8 per ton, and paid to the farmers of this county for their product of 300 acres the sum of $9,400. Now by applying the figures it would be but an easy matter to determine which is the most profitable to the farmer. For instances, 300 acres of field corn, allowing 40 bushels per acre, we have 12,000 bushels. This sold at 30 cents per bushel (present price) would be $3,600 for the crop. Now the same acreage in wheat, allowing 20 bushels per acre; we have 6000 bushels, at 60 cts., making $3,600. This figuring leaves a balance in favor of tomatoes and corn, $5,800. This is really the only plan to arrive at the actual situation. Mr. Hubbard informs us that he expects to pack tomatoes and corn both, provided he can contract for them at prices he can afford to pay.

Rev. Sam Jones.

At the close of Sam Jones' sermon at Pulaski the other day, stepping down from the pulpit, folding his hands across his breast and looking solemnly over the audience, the great revivalist said:

"I want all the women in this crowd who have not spoken a harsh word or harbored an unkind thought toward their husbands for a month past to stand up."

One old woman apparently on the shady side of 60, stood up.

"Come forward and give me your hand," said the preacher.

The woman did so.

"Now turn and let this audience see the best looking woman in the country."

After taking her seat the revivalist addressed the men:

"Now I want all the men in this crowd who have not spoken a hard word or harbored an unkind thought toward their wives to stand up."

Twenty-seven great big, strapping fellows hopped out of the audience with all the alacrity of champaigne corks.

"Come forward and give me your hands, my dear boys."

Jones gave each one a vigorous shake, after which he ranged them all side by side in front of the pulpit and facing the audience. He looked them over carefully and solemnly, and then, turning around to the audience, he said:

"I want you all to take a good look at the 27 biggest liars in the State of Tennessee."

An Odd Provision for the Safety of Liners.

"Do you know," said a prominent shipping man, who had been discussing the St. Paul disaster with a party of friends, "that it is a rule with the big transatlantic steamship companies that the wife of the captain shall not travel in his ship? It's a fact. The company strongly prohibits its captains from taking their wives aboard with them. The supposition is that if anything should happen to the ship the captain, instead of attending to his public duty, would devote his attention mainly to the safety of his wife. So that if the wife of a captain wants to go abroad she must take passage in some other vessel. This rule also holds in many of the freight lines."

TRY a can of Hopkins' Steamed Hominy (Hulled Corn). It is delicious. Full quart, 10c.

Women exchange confidences about their own health and that of their husbands. A man's physical well being is closely watched by a thoughtful wife. It is part of her duty in the world to keep him well. If she sees him running down, she should take measures to stop it. Very few men enjoy being sick. They won't admit even to themselves that they are sick. They will go on losing flesh and vitality—working too hard—worrying too hard—taking little or no care of their health. Maybe they need only a little help to be made well. Maybe a good simple tonic is all they require. Maybe it is something more serious. Whichever it is, it should be attended to. When a man gets really sick, his work stops. He can't tend to business. He loses all he has previously gained. Actual want may stare him in the face. It doesn't pay to get sick, or to stay sick. There's no need of doing either. Dr. Pierce's Golden Medical Discovery will prevent sickness. It is a blood helper and a flesh builder. It restores perfect digestion and insures perfect assimilation of the food. It is a powerful enemy to germs and will search them out in all parts of the body, forcing their evacuation. It has been proven by the written testimony of hundreds of grateful people that the "Golden Medical Discovery" will even cure 98 per cent. of all cases of consumption if taken in its early stages.

A book of 1000 pages containing testimonials and much valuable health talk will be sent on receipt of 21 cents to cover postage and wrapping *only*. WORLD'S DISPENSARY MEDICAL ASSOCIATION, Buffalo, N. Y.
