What is

CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhœa and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

DR. G. C. OSGOOD, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

DR. J. F. KINCHELOE, Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

STATE MATTERS.

Forest fires have been raging near Pen Mar. Carroll county has also had a fiery visitation in its forests.

Rev. Jesse Higgins, Protestant Episcopal minister at Westminster, last week presented a class of twenty-four candidates for confirmation by the bishop. Of the number eleven were white and thirteen colored.

The J. Mitchell Stover peach farm, 94 acres and a dwelling-house, at Edgemont, Washington county, was sold to Samuel B. Loose for $83.10 an acre.

Centreville wants a town sprinkler and Church Hill wants a fire department. Both excellent wants and should be obtained if possible. A sprinkle of the floors, highways, byways and hedges of Chestertown would certainly not hurt anybody (except possibly financially) and would be a great comfort.

On Friday of next week, being the first day of May, all licenses to sell liquor in this county will expire, and then for a few days prohibition will necessarily prevail. The grand jury does not meet until the 4th of the month, and if it grants new licenses, it will not do so for several days after it convenes, and there must of necessity be at least a week or ten days of forced prohibition.—*Centreville Observer.* A ten days rest will do the county no harm.

During the recent hot spell, Mr. John M. Perry, of Centreville, had a horse overcome by the heat while's't at the plow, which resulted in lockjaw.

On Friday a mule belonging to Mr. Quinn, of Queen Anne, was overcome by heat, which resulted in it having fits.

The first convict in this locality to be worked under the new road law was put at labor on Wednesday. In company with the employees of the town, his services were used in clearing and generally cleaning the streets of Centreville. His name is William C. Wilson, colored, and he is serving a term in jail for some minor offense. The enforcement of this law may effect some wholesome results. Not only will it provide the public with the labor of those incarcerated in the jail, but as a public example it may have a tendency to reduce the number of petty crimes in the county.—*Observer.* Let Chestertown profit by this innovation.

THE COUNTRY AT LARGE.

About 400 cats have been shipped from Sharon, Pa., to the State of Washington. The crops in the west are being destroyed by gophers, and the cats will be used to exterminate these pests. One dollar a head was paid for the cats.

Noted criminals in a New York penitentiary are contesting for the honor of singing in the choir.

Denver, Colorado, has a woman juror. All avenues of profit and glory are open to wonderful woman.

Gorman says that Congress, he thinks, will adjourn by June 1, and Gorman ought to know.

Ella Stinequest, a New York maid, stole diamonds and concealed them in a ham.

Holmes clings to life with as much tenacity as he has for so many years clung to his hellish purpose to destroy life, and is preparing for a last and supreme effort to prolong his existence.

Trolley poles are being shipped from New Castle, Delaware to Cairo, Egypt, and Cape Town, South Africa.

London has 483 newspapers. Poor London!

Fire wood in Alaska is $10 per cord.

In Alaska beer is 25 cents per glass.

Great Britain's orchards cover 210,000 acres.

Coal mining is paying one party of miners in the Yukon better than gold mining paid them. A find of excellent coal was made recently in the Forty-mile Creek district, and with wood at $12 to $14 a cord, the coal vein is an excellent pay streak.

Ministerial Rights to Resent Insults.

A recent encounter between Rev. W. J. Scott and one Price, of Queen Anne, has been several times sensationally referred to. The Easton *Ledger* speaks of the matter, and thoroughly justifies the manly ministerial resentment administered by the Queenstown priest. It says:

"The way in which the Rev. W. J. Scott resented an insult given a gentleman by a fellow who thought he would take advantage of his cloth, and say to him things he would not dare say to any other gentleman not a clergyman, is very much commended by public opinion here. The old pioneer Methodist preachers—a number of them—are on record as pursuing the same course towards ungodly men, who assumed 'a preacher would not fight' when insulted or assaulted. The records also bear witness that in past times peace-loving Friends when sufficiently provoked, removed their coats and soundly chastised aggressors who sought to impose on them because they were of a peaceful persuasion. The church militant is all the better for thsi exercise of physical manhood, just as history has more respect for the manly Peter who smote off the ear of an enemy than for the same Apostle when he quaked from fear until brought to himself, and again made a man of, by the crowing of a cock arousing his cowering conscience. He would not needed to have gone out and wept bitterly had he let his manhood have the sway in the kitchen which it had in the garden."

A Soliloquy.

Humph! there seems to be something strange about this room. Where are those Sunday papers I had strewn about the floor? Why are my pipes all put together in a box as though they had no right to be anywhere in the room that I left them? Have I not given orders a dozen times that nothing was to be disturbed? Humph! I suppose that I will have to hunt around now for half an hour to find that collar button that I lost last night. No, here it is on the bureau in plain sight. It seems to me that there is a strange odor of satchet in the room. What can it be? I have always thrown away every bag of it that was given me. And here is a woman's slipper, a little slipper and a mighty pretty one, in my room. What does it all mean? Ah, I remember now. I hear her footstep on the stair. I am married.

Tired people are tired because they have exhausted their strength. The only way for them to get strong is to eat proper food.

But eating is not all. Strength comes from food, after digestion. Digestion is made easy with Shaker Digestive Cordial.

People who get too tired, die. Life is strength. Food is the maker of strength. Food is not food until it is digested.

Tired, pale, thin, exhausted, sick sufferers from indigestion, can be cured by the use of Shaker Digestive Cordial.

It will revive their spent energies, refresh and invigorate them, create new courage, endurance and strength, all by helping their stomachs to digest their food.

It aids nature, and this is the best of it. It gives immediate relief, and, with perseverence, permanently cures.

PARLORS.

Hair Cutting and Shaving a Luxury.

Having rented the handsome room in the EASON BUILDING, and thoroughly equipped it with every convenience for tonsorial purposes, I wish to extend an invitation to my friends to call. I have associated with me Mr. Stillwell, formerly with Vandegrift, one of the most expert workmen in Philadelphia, and can guarantee an A No. 1 shave, hair cut or shampoo.

R. W. BARNETT, Chestetown Md.

WEATHER AND THE CROPS.

The Backward Season Rapidly Advanced by Warm Weather.

The weather bureau in its report of crop conditions for the week ended April 20 says:

The unusually warm weather throughout the central, eastern and southern portions of the country has rapidly advanced the season, which has been unusually backward, and has been very favorable for farming operations and growth of vegetation, which has been remarkably rapid.

Winter wheat has shown marked improvement generally, and is reported as doing well in Indiana, Illinois, Iowa, Kansas and portions of Missouri, and, while an improvement has been noted in Kentucky and West Virginia, the condition of the crop in these States is poor, some having been plowed up. In some sections of Missouri and Texas winter wheat is suffering from rain.

Spring wheat seeding is well advanced in Southern Minnesota and is about finished in portions of Eastern South Dakota, where some of the early sown is up. In North Dakota no seeding has yet been done.

Preparations for corn-planting have been pushed rapidly during the week, and in the more southerly sections planting has continued with much activity. Some corn has been planted in Illinois and Nebraska and planting will be begun in Iowa this week.

Cotton-planting has continued under favorable conditions and in the central and southern portions of the cotton region is coming up generally to a good stand; germination, however, has been slow, owing to drought in some sections of the eastern portion of the cotton region.

General rains would prove of much benefit from the Ohio Valley southward and also in Texas, where rain is needed to insure a stand of cotton.

QUEEN ANNE COURT.

Important Work for the Grand Jury.

In about ten days time the May term of court will be called. The session promises to be one of unusual interest. Especially true is this in regard to the matters which will be brought before the grand jury. In the first place it will devolve upon this jury to investigate one of the most atrocious murders ever committed in this State. The fact that the crime is veiled somewhat in obscurity adds to the task of examination a delicacy and gravity which creates a serious responsibility. To indict a man on so heinous a charge is a solemn undertaking, which should never be done except upon good and sufficient reason. Furthermore, several cases of assault with intent to kill, also cases of larceny and other offenses, will augment the arduousness of their labors. Another matter of importance will be the exercise of the recommendatory power in the matter of liquor licenses. For the first time in the history of the Court this power is placed in the hands of the May grand jury. It is one intended to be exercised with proper and careful discrimination. Not only does it affect the business of certain individuals, but the peace, good order and preservation of correct morals are also to a greater or less extent involved. The issuance of licenses should neither hastily nor arbitrarily be either granted or withheld. Liquor selling is one of those peculiar species of business in which the rights of applicants and the rights of communities are sometimes in conflict. The balancing of these contending interests is one of the duties of grave importance to which the attention of the May grand jury will be called. It is no trifling matter to search into the evidence bearing upon a question which touches the moral healthfulness of any part of our people. It is a matter of deep gravity which every one concedes. —*Centreville Observer.*

The Car-wheel Puzzle.

"I had a question put to me the other day that I was unable to answer," said a man who stood watching a cable car go abruptly around the curve at Thirteenth street and Grand avenue.

"Here is what puzzles me: The wheels of the car are firmly fastened to the axles, and the wheels can't turn unless the axles turn. The outer rail of a curve is longer than the inner rail. Does the outer wheel turn faster than the inner wheel; or does the latter slip?"

The other man had once been in the railway business, and he quickly replied: "That's easy. If you'll examine closely you'll see that the wheels, instead of being perfectly flat on the rim are beveled, making the outer circumference smaller than the inside circumference. When a car turns a curve it has a tendency to go off at a tangent, or, in other words, to jump the track, which it would do were it not for the flange on the inside of the outer wheel, which presses very closely against the rail. The rail touches the inner wheel quite a distance from the flange. The result is that the diameter of the outer wheel, where it rests upon the rail, is greater than that of the inner wheel. This difference in diameter equalizes the difference in the length of the curved rails. Both wheels revolve with the same speed at their axles, but the outer wheel traverses a greater distance, because its diameter, from the axle to the point of contact with the rail is greater."

John T. Mallalieu Honored.

The selection of Hon. John T. Mallalieu as chairman of the Republican State Central Committee, was a deserved compliment to a worthy gentleman. Mr. Mallalieu has perhaps engaged in as many successful battles for the Republican party as most any man in the party, and has the discretion and executive ability to make an active and aggressive campaign, and is a gentleman who has the respect and confidence of the entire party, and particularly are the newspapers pleased with the choice—Mr. Mallalieu being an old time Knight of the shears and paste pot. We predict one of the liveliest campaigns that the Republican party has ever had in the State of Nebraska with this gentleman at the lead.

Editorial from *Daily Independent*, Grand Island Nebraska. Mr. Mallalieu is a son of Mr. Thomas Mallalieu, of Millington, and has gained marked honor and distinction in the State and town of his adoption.

A Moving Mountain.

The object of greatest interest in continental Europe at this minute is a walking mountain in Gard, France, which is moving toward the river of the same name at the rate of fifteen feet a day. The advance has destroyed the machinery in the pits of the Grand Combe colliery and nearly a mile of the Alais railway. The great thing now is to prepare new channels for the Gard and Gardon rivers, which are sure, when the landslide comes, to be completely choked up. Six hundred persons have been obliged to leave their homes. The lower strata of the mountain, which rises sheer from the valley, are grit and green marl. Both have given way owing to filtration of rain. Recently 5,000 persons went from Nimes to see the moving mountain. The noise it makes is frightful and there are wide cracks in all directions. Nobody is allowed to go on the mountain or into the valley on which it advances

TRY a can of Hopkins' Steamed Hominy (Hulled Corn). It is delicious. Full quart, 10c.

Healthy, happy babies are generally the offspring of healthy, happy mothers. It would hardly be natural if it were otherwise. The baby's health and happiness depend on the mother's. The mother's condition during gestation particularly exerts an influence on the whole life of the child.

Impure blood, weakness and nervousness in the mother are pretty sure to repeat themselves in the child.

If a woman is not careful at any other time, she certainly should be during the period preliminary to parturition. It is a time when greatest care is necessary, and Nature will be the better for a little help. Even strong, well women will find themselves feeling better, their time of labor shortened and their pains lessened if they will take Dr. Pierce's Favorite Prescription. To those whom troubles peculiarly feminine have rendered in any degree weak, it will prove a veritable blessing. It is a good general tonic for the whole system, and at any time will promote the proper and regular action of all the organs. It is a medicine for women only and for all complaints confined to their sex is of inestimable value.

Dr. Pierce has written a 1000 page book profusely illustrated called "The People's Medical Adviser," which will be sent on receipt of twenty-one cents to pay postage and wrapping *only*. It's a complete family doctor book.

Address, WORLD'S DISPENSARY MEDICAL ASSOCIATION, Buffalo, N. Y.
