

IVORY SOAP PASTE.

In fifteen minutes, with only a cake of Ivory Soap and water, you can make a better cleansing paste than you can buy.

Ivory Soap Paste will take spots from clothing; and will clean carpets, rugs, kid gloves, slippers, patent, enamel, russet leather and canvas shoes, leather belts, painted wood-work and furniture. The special value of Ivory Soap in this form arises from the fact that it can be used with a damp sponge or cloth to cleanse many articles that cannot be washed because they will not stand the free application of water.

DIRECTIONS FOR MAKING.—To one pint of boiling water add one and one-half ounces (one-quarter of the small size cake) of Ivory Soap cut into shavings, boil five minutes after the soap is thoroughly dissolved. Remove from the fire and cool in convenient dishes (not tin). It will keep well in an air-tight glass jar. COPYRIGHT 1899 BY THE PROCTER & GAMBLE CO. CINCINNATI

CHARACTER NOT GOOD.

In some rural districts of England there are held annually hiring fairs, where farmers and others attend to engage servants. At one held in Gloucestershire last autumn a farmer opened negotiations with a lad who seemed suitable for his purpose. Various questions having been asked and answered, the farmer inquired at last:

"Hast got a character from thy last place?"

"No," replied the boy, "but my old gaffer be about somewhere, and I can get he to write one."

"Very well," was the reply; "thee get it and meet I here again at four o'clock."

The time came, and so did the farmer and the boy.

"Hast got thy character?" was the query. The answer came, short and sharp:

"No; but I ha' got thine, and I bean't a-coming."

An Ugly Story of Uruguay.

Here is one of Robert Crawford's stories about Uruguay: "Two men surprised a farmer and his wife in their little hut while it was broad daylight. The man was seized and bound, and the two villains proceeded to torture him to make him disclose the hiding place of his hoard. The wife begged and pleaded as the horrors increased, the man proving obdurate.

"Finally she said she would tell them where the treasure was if they would follow her. One of the two accordingly went over to the chest in the corner with her. She opened it, fumbling about inside of it for a moment until she found what she was looking for. In another moment the thief at her side was dead and his fellow covered by a large revolver in the hands of a small but eager woman of the people. He got away before she could quite make up her mind to shoot him too.

"Then the husband was released and the neighbors, some miles away, called in. Word was finally taken to the central police authority of the state; the officers came, viewed the dead thief—and identified him as their attorney general. It is not unlikely," Mr. Crawford adds, "that his accomplice was the judge of the criminal court."

A Miraculous Escape.

It happened that in the last month of the reign of Charles I a certain ship chandler of London was foolish enough to buy himself over a barrel of gunpowder with a lighted candle in his hand. He paid the price of his folly. A spark fell into the gunpowder and the place was blown up.

The trouble was that the man who did the mischief was not the only one to perish. Fifty houses were wrecked, and the number of people who were killed was not known.

In one house among the 50 a mother had put her baby into its cradle to sleep before the explosion occurred. What became of the mother no one ever knew, but what became of the baby was very widely known.

The next morning there was found upon the leads of the Church of All Hallows a young child in a cradle, baby and cradle being entirely uninjured by the explosion that had lifted both to such a giddy height.

It was never learned who the child was, but she was adopted by a gentleman of the parish and grew to womanhood. She must surely all her life have had a peculiar interest in that church. —Sir Walter Besant's "London."

Ice Explosions In Siberia.

A recent Siberian traveler relates: "At Sadonsk in the intensely cold nights the silence was sometimes broken by a loud report as of a cannon. This was the bursting of one of the ice bubbles in the river, a phenomenon I had neither heard nor read of before. The streams coming down from the hills were frozen on the surface some six to nine inches thick. The water beneath flowed faster than it could escape, and the pressure, on the principal of a hydraulic press, became irresistible. First, the elasticity of the ice was seen by the rising of circular mounds from six to eight feet in diameter and from four to five feet high. The bursting point came at last with a report like an explosion. The water escaped, but soon froze again. I have seen scores of these ice hillocks in a few versts of the river."

A Bridge of Coffins.

When the British forces were marching to Peking in 1860, after the capture of the Taku forts, one of the rivers became so swollen with the heavy rains that it was rendered almost impassable. While in this quandary a bright idea suddenly struck one of our officers. Being well aware that the Chinese generally order their coffins years in advance and keep them on the premises and also that they are perfectly airtight, he consulted with his brother officers, with the result that orders were given to search all the houses of the village and collect every coffin. With the aid of a few empty casks the soldiers constructed a pontoon bridge of coffins sufficiently strong to bear the artillery, and the river was thus passed in safety.

Where the Tail Went.

Do you remember the story of Harry's and George's rabbits—how Harry's rabbit got out of its hutch and disappeared for a week and at last crept home without its tail to die and how, when Harry cried bitterly over his dead tailless rabbit, George tried to comfort him:

"Don't cry, Harry, dear; don't cry. It's only the body you see! The tail has gone to heaven."—"Memories and Fancies," by Lady Gordon.

Dig down to the *cause* of your sickness if you want to get well and stay well. Most likely it's indigestion. The irritating poisons of fermenting, putrid food, left in the stomach by indigestion, cause headache, neuralgia, nervousness, dizziness, stomachache, nausea, irritability, and all the other well-known symptoms of indigestion.

They also cause many pains and disorders which are often laid to other causes and hence are not easily cured. But as soon as the poison are *removed*, all these symptoms and disorders *disappear*, because there is nothing left to cause them. Nothing succeeds in this like Shaker Digestive Cordial, because it *prevents* the undigested food from fermenting in the stomach and *helps* the stomach to digest its food.

Ink Blots on Paper.

To remove ink from paper pour enough water over a teaspoonful of chlorinated lime to cover the stained portion. Moisten a clean piece of linen and rub it lightly with the mixture. If the stain is not of too long standing, it will disappear. If more than one application is required, let the paper dry before wetting the second or third time. If the spot is rubbed, the texture of the paper will be spoiled. Dry it gently with a piece of dry linen.

"WITH BRAINS SIR!"

A great artist was once asked what he mixed his pigments with to obtain such wonderful effects. His reply was: "With brains, sir!"

This would be the real answer to hundreds of people who are all the time asking what Dr. Pierce's medicines are mixed with to produce such marvelous cures. These medicines are the result of Dr. Pierce's thorough professional education; his deep study of the principles of *materia medica* and of the human physiology in health and disease; and above all his unparalleled practical experience.

"I thank God for giving you wisdom and knowledge, and guiding you in making these medicines," says Mrs. H. A. Alsbrook, of Austin, Lonoke Co., Ark., in an earnest letter to Dr. Pierce. "After five months of great suffering I write this for the benefit of other sufferers from the same afflictions. I doctored with our family physician without any good results, so my husband urged me to try Dr. Pierce's medicines—which I did, with wonderful results. I am completely cured. I took four bottles of Dr. Pierce's Favorite Prescription, four of his 'Golden Medical Discovery' and two vials of his 'Pleasant Pellets.'"

There is no medicine in the world that has helped and cured so many weak and ailing women, as Dr. Pierce's Favorite Prescription. It was devised solely for that purpose by one of America's most eminent specialists in this particular field of medical practice. Any woman may write to Dr. Pierce for advice which will be sent confidentially and absolutely free of charge.

Dr. Pierce's great thousand-page Common Sense Medical Adviser will be sent for the mere cost of mailing; paper-bound for 21 one-cent stamps, or cloth-bound for 31 stamps. It is a grand and useful book. Address Dr. R. V. Pierce, 663 Main Street, Buffalo, N. Y.
