Hubbard's Fertilizers!

The leading farmers and canners through Pennsylvania, New Jersey, Delaware and Maryland speak in their praise, declaring them to be positively the cheapest, the safest, the best to use. Once a trial, always a patron. Wouldn't it be a good idea for you to try them?

For Hay—

Top dress your grass this month. We have a goods that works wonders for this purpose. Try it and the cost per acre will cost less than you imagine.

Asparagus—

Are you going to do anything to it this spring? If so, we have the goods. It has Nitrate of Soda and Fish as the source of ammonia, and runs high in Potash and Phosphoric Acid. Some of the finest Asparagus grown in the country is with this goods.

For Corn—

You fertilize your wheat, why not your Corn? It will pay. We have many cus omers who use it year after year. We have one man in Delaware already ordered 70 tons. We have two more in Maryland who have their orders booked now for 20 tons each, and so on we could give them to you by the score.

Peach Trees—

Many orchards have been taken up the last few years, and peaches brought a good price last year, and don't you think it would be a good idea for you to feed your trees with our FRUIT GROWER, as it has given universal satisfaction. One patron last year claims to have gotten 30 cents per basket more for the same variety where it had been used. We have scores of testimonials concerning it.

Potatoes—

Well, you should use our High Grade Potato Fertilizer if you are going to plant, for this goods has been used for years in four States with the greatest success. It costs $30 per ton, but Mapes and some of the other goods costs $10 more, but we have never come in competition with other high grade Potato goods that ours has not been equal to any and superior to many. There is hardly a day in the last few weeks that some one from Kent or Queen Anne's has not dropped in our office and said: "That Potato goods of yours is the best ever used, and will want more this spring."

For Tomatoes—

Well, you have heard about our Peerless. Mr. Jacob Shriley says it is the best goods h ever saw for tomatoes. Mr. Stewart Graham writes where Peerless went alongside another goods one looked like manured and the other as if it had none and that Peerless yielded over one third more tomatoes.

Mr. B. H. Moore writes: "I used Peerless on 2 acres, sold 27½ tons at 12 cents per basket; netted me $198 40." D. F. Loose says one ton netted him $9.00 more than another ton of $18.00 goods alongside. C. R. Dashiel says he would have it if it cost $50.00 per ton. Smith, Rouse & Webster, the great canners, say they never heard of goods spoken of more highly. We can furnish hundreds of testimonials. Many have told us their yield from it was four and five tons more per acre.

☞Now, if you want to sow OATS or top dress your STRAWBERRIES, plant SWEET POTATOES or need a goods for TRUCK, or want anything in the FERTILIZER line, please call on or correspond with us before making your purchases.

Very truly yours,

WILBUR W. HUBBARD,

The Blind Man's Ears.

The degree to which the remaining senses can be trained when the sight is lost was illustrated the other morning by two blind men from a home for the blind. The men came from opposite directions, and as they approached each other a man standing on the corner was surprised to hear one of the blind men say: "Hello, Ed! What are you doing out this morning?" When the blind man was asked how he had known the other with a distance of five yards between them he answered: "By the sound of his cane, of course. I can tell at the distance of half a square the tap of the cane of any man in the home."—Philadelphia Record.

Grief and White Hair.

The mustaches of Henry III. of Navarre are reported to have become partially white in a few hours after hearing of the concession of the edict of Nemours. The hair of an English banker, owing to reverses in business, became gray in three days, according to the Encyclopedia Metropolitan. According to the same authority, a man about forty years old, who at his marriage had a dark head of hair, "on his return from his wedding trip had his hair turn so completely snow white, even to his eyebrows, that his friends almost doubted his identity."

Stings of Animals Are Similar.

In the examination of the poisonous machinery of insects and reptiles it is apparent that the destructive principle is the same in all and that the fang in all possesses a hollow through which the poison flows into the wound the moment the incision is made. The sting of the scorpion is precisely like the fang of the rattlesnake and performs its deadly work on the same mechanical principles.

A Good Precedent.

"My dear," said Mrs. Mildly as she dusted Mr. Mildly's table, "this would be a great deal cleaner world if there were not any men in it."

"If there were not," retorted Mr. Mildly, "the women would do exactly as the Lord did—hunt around for enough dirt to make a man out of."—Collier's.

The Better Way

The tissues of the throat are inflamed and irritated; you cough, and there is more irritation—more coughing. You take a cough mixture and it eases the irritation—for a while. You take

SCOTT'S EMULSION

and it *cures the cold.* That's what is necessary. It soothes the throat because it reduces the irritation; cures the cold because it drives out the inflammation; builds up the weakened tissues because it nourishes them back to their natural strength. That's how Scott's Emulsion deals with a sore throat, a cough, a cold, or bronchitis.

WE'LL SEND YOU A SAMPLE FREE.

SCOTT & BOWNE, 409 Pearl Street, New York.

THE BURMESE WOMAN.

With All Her Failings, She Is Held In High Esteem.

"Burma, as in many other things," writes V. C. Scott in his book "The Silken East," "is in advance of more reputedly civilized countries in the status it accords to its women. The infant marriage and shutting up in walled houses, the polygamy, the harems, the social punishment of widows, the denial of spiritual rights which prevail in India are unknown in Burma. Here women marry when they are of age and after they have seen somewhat of the world. They marry, for the most part, whomsoever they will and from love. They are not handed over as chattels to a man whom they know not, but are courted and won. The married women's property act has in effect been established for centuries in Burma. In this country, where the women earn so much, the woman's earnings are her own. Divorce is easily obtained, but seldom asked for. The lightness of the marriage laws, the readiness of the Burmese women to enter into an easy alliance, shock the virtue of the strenuous foreigner, but within her ideals she is a perfectly proper, modest and well mannered woman.

"She has failings. Who has not? Her practice of chewing betel is inelegant and destructive to her teeth; her voice is apt under the pressure of adversity to be shrill; her keen business faculties detract a trifle from the romance in which, as in a halo, all women are enveloped; in old age she is very ugly, and even in youth her nose is stumpy, her lips a little thick, her cheek bones high and heavy—but these are Caucasian objections.

"In the eyes of the young men of the land the Burmese girl is a peerless creature, and her influence over their hearts and their passions is immense. What is more, few men in Burma ever undertake anything of magnitude without first seeking the able counsel of their wives."

THE WILMINGTON BUSINESS SCHOOL

STANDS FOR

All that is BEST in Business Education.

Hundreds of young people have profited by its instruction and are holding positions by virtue of the thorough training they have received.

And all this in four years.
