LOCAL MATTERS.

Vessel Purchased.—Mr. James D. Lucas, the prominent clothier, has purchased the gasoline vessels "Sarah Wingate" and "Velma Brooks" formerly the property of the Chesapeake Freighting Compamy. This line of boats was formerly the property of Capt. Cecil R. Atkinson, who conducted the freighting business between Crumpton and Baltimore. The terms of sale are private.

Canneries To Run.—The Canning and Mercantile Company will operate the canneries at Chestertown and Rosedale during the summer and fall. They have a sufficient number of contracts for the season. The canneries will open between the 15th and 20th of Aug. Messrs. Carr & Ivens will also operate the canneries at Lynch's. Black's cannery will be opened by Swing, Day & Co., of Ridgley, Md.

Fine Farm Purchased.—Mr. Christopher J. Conner, one of the well-known citizens of the first district, has purchased of his brothers, Messrs. John F. Conner, James J. Conner and Thomas A. Conner, "The Conner Home Farm" on which he resides adjoining Chesterville. It is the farm which was owned by the late Mrs. Samuel Aldridge, and on which she died. The purchase price was $9000.00. It is one of the finest estates in that section of the county. The farm contains 204 acres and is handsomely improved with modern buildings all in first class condition. The sale was negoiated through Hope H. Barroll, attorney for the heirs.

Proposed Trolly Line.—It may be a matter of surprise as well as great interest to our readers to learn that city parties are seriously considering the construction of a trolley road between Easton, Centreville and Chestertown. The plans have not sufficiently developed to go into particulars, but correspondence is going on between people in Baltimore and gentlemen on the Eastern Shore who are interested in such development. Later on particulars will be given and we are in a position to state that we think sufficient capital is already interested to insure the construction of the road if rights of way on proper terms can be secured.

To Discontinue Trips.—On and after June 1st, the Chester River boats of the Md., Del. & Va. R. R. Co. will discontinue making trips to Cliff City wharf. Mr. Harrison W. Vickers, owner of the property was seen on Thursday afternoon, and stated to the TRANSCRIPT representative that he had received a letter from the company on Wednesday evening stating that the boats would not stop at the "Cliffs" after June 1st. This decision of the company will seriously handicap the shippers and farmers in lower Quaker Neck, who have used the wharf for years. They will be compelled to go to Quaker Neck wharf, a distance of four miles or more to reach the landing. The Chester River Company leased the "Cliffs" from Mr. Vickers, and we understand that the lease has expired.

A Distressing Accident.—Messrs. George and Louis Ford, sons of Constable Merritt Ford, of Galens, while removing a wooden tank twenty feet high and weighing 900 lbs, were seriously, if not fatally, crushed by the tank falling upon them. The accident occurred on the farm of Mr. Wilson Cochran, living near Golts, on Thursday. The young men were adjusting some of the stays which supported the tank, when the whole thing gave way and the tank fell upon them crushing and bruishing them seriously. Drs. Latimer and Scott, of Galena, were quickly summoned and rendered surgical aid, but the men were so badly hurt that the physicians determined to take them to the hospital for treatment. They were taken to Baltimore on the afternoon train on Thursday.

Slaves to Spring Catarrh Restored to Health by Pe-ru-na.

Miss Lydia Herziger, Grand Recorder of American Daughters of Independence, writes from Neenah, Wis., as follows:

"I have used Peruna now for four years, each Spring and Fall, and it keeps me perfectly well and strong.

"I am able to continue working and do not have to take a three months' rest, as I used to do every year. This is a great comfort to me, as I was not able to afford such a long rest.

"I find that it is a great preventative for colds and coughs and soon rids the system of all disease and is an admirable medicine. I can honestly endorse it."—Lydia Herziger.

SPRING THE TIME TO CURE CATARRH.

Pe-ru-na Invigorates Mind and Body.

Hon. Wm. G. Hunter, Ex-member North Carolina Legislature, writes from the Census Office Building, Washington, D. C., as follows:

"The greatest family medicine ever discovered, in my opinion, which comes from experience as well as observation, is Peruna.

"The most common affliction to humankind is a bad cold. Peruna drives it out of doors, wards off catarrh, invigorates and gives fresh strength to mind and body. I give Peruna my unqualified endorsement."—Wm. G. Hunter.

Takes Pe-ru-na Every Spring.

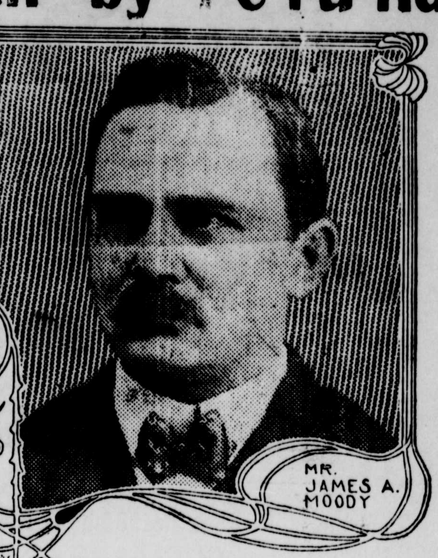

Miss Tilly Marx, 421 14th St., Milwaukee, Wis., writes:

"I am pleased to endorse Peruna, as I found it very efficient in ridding my system of a severe cold and catarrhal trouble, after I had tried many other remedies without getting relief.

"I took Peruna for two weeks, when I was much better, and in two weeks more I was entirely rid of the cold and catarrh. I shall take it every spring as a tonic, as I found that it made me much better in every way."—Tilly Marx.

Mr. James A. Moody, Ex-president Board of Education, Mineral Co., W. Va., writes from 314 Massachusetts avenue, N. E., Washington, D. C., as follows:

"My family have used Peruna for several years past with excellent results and I take pleasure in testifying to its superiority as a remedy for catarrh.

"Every spring that dreaded disease will show up in my family and we always turn instinctively to Peruna to ward it off.

"It has never yet failed, and I never lose an opportunity of recommending it to my friends."—James A. Moody.

Spring Catarrh.

Almost every one has come to believe that spring is a season that brings derangements of the body dependent on blood impurities.

This belief is an old one, is nearly universal, and has arisen, not as the result of the teachings of the medical fraternity, but has been learned in the bitter school of experience.

Nervous Depression.

Depression of the nervous system at the approach of spring is a fertile source of blood impurities.

There are general lassitude, dull, heavy sensations, continual tired feelings, with irregular appetite, and sometimes loss of sleep.

That Tired Feeling.

That tired feeling, which is the natural result of the depressing effect of warm weather immediately after the invigorating cold of winter, quickly disappears when Peruna is taken.

The Proper Remedy.

Peruna meets every indication and proves itself to be perfectly adapted to all their varied peculiarities. Peruna invigorates the system, rejuvenates the feelings, restores the normal appetite and procures regular sleep.

Do Not Delay.

Get a bottle of Peruna when the first languid feelings make themselves apparent in the spring. Take it according to the directions on the bottle. Continue this treatment through the first months of spring.

This course of treatment is no experiment; it is as positive in its results as any fact of science can be.

A Spring Tonic.

Almost everybody needs a tonic in the spring. Something to brace the nerves, invigorate the brain, and cleanse the blood. That Peruna will do this is beyond all question. Everyone who has tried it has had the same experience as Mrs. Winnifred Power, an artist, who, in a recent letter from 246 7th St., Portland, Ore., says:

"I am pleased to speak a good word for Peruna, as I found it an excellent tonic and spring medicine and very effective in ridding the system of cold and catarrh.

"About two years ago my system was all run down in the spring and I thought I would try and see if Peruna would be of any assistance in bringing back my health and strength.

"I found that it was splendid and all the medicine that I needed. In a little over a month I was well and did not need to take any more medicine.

"I shall recommend it to every one in need of a tonic, and know that I have only to take a few doses of Peruna when I take a cold and I will soon be over it."—Winnifred Power.

Nature's Assistance.

Spring is the best time to treat catarrh. Nature renews herself every spring. The system is rejuvenated by spring weather. This renders medicines more effective.

A short course of Peruna, assisted by the balmy air of spring, will cure old, stubborn cases of catarrh that have resisted treatment for years.

A Word of Advice.

To those who have been afflicted with chronic catarrh we wish to say that the spring season affords you a splendid opportunity to get rid of your disease.

It may be you have been afflicted for several years; you may have tried different remedies. Perhaps you have become discouraged.

Now Is Your Opportunity.

This failure was during the winter months. But now is your opportunity. Nature comes to your assistance at this season.

Just help her a little and she will bring you out of the quagmire in which you have been floundering so long. Give Nature a little assistance lest her struggles be in vain.

A Typical Case.

Geo. M. Fillmore, late 1st Lieut. 3rd U. S. Artillery, writes from 909 L St., N. W., Washington, D. C., as follows:

"I brought forward from winter into spring a sickening case of catarrh which was making existence miserable for me, until I was induced to try a bottle of Peruna.

"An immediate improvement gave me hope, if not relief. I kept up taking Peruna and it has so strengthened and relieved me that I am now confident of a cure. I heartily endorse Peruna for catarrhal affections and as a tonic for their weakening effects."—Geo. M. Fillmore.

A short course of Peruna now will be just in time. During the month of April you will find the strategic time to rid yourself of chronic catarrh, one of the most persistent, stubborn diseases in the whole list of human ailments.

After you have tried it you will say Peruna is positively the best spring medicine you have ever used.

A great many years of extensive trials of this remedy in this class of derangements have demonstrated that there are no failures.

Thousands of Testimonials.

Thousands of cases might be quoted in which Peruna has rescued people from the ravages of spring catarrh, and put them on a good, solid foundation of health.

We can give our readers only a slight glimpse of the vast array of unsolicited endorsements Dr. Hartman is constantly receiving. No other physician in the world has received such a volume of enthusiastic letters of thanks.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

AN ENTERPRISING KENT COUNTIAN.

Mr. Joseph F. Crew who formerly lived in Kent county, but who in recent years, has been an engineer on the Penn. R. R., making his headquaters at Wilmington, Del., is a young man of whom the citizens of Kent ought to feel proud. Mr. Crew started as a poor boy, but with industry and commendable habits of thrift and economy he has accumulated quite a considerable and snug little fortune. He is the owner of one of the best farms in Worton, although still a young man. His position as engineer in the employ of the Penn. R. R., combined with his natural aptitude for machinery, has led him to consider seriously the proposition of establishing an Automobile Line in Kent between Betterton and Chestertown, and between Chestertown, Tolchester and Rock Hall. His idea is to start an automobile with twelve passengers capacity and make this a daily round trip run this summer. It is highly probable that such an enterprise would be largely patronized; and if properly conducted and personally by a practical mechanic like Mr. Crew, the chances are it will be eminently successful. Mr. Crew has been in correspondence with a considerable number of Kent county people, and has looked over the field most carefully. He is a brother of Mr. Charles H. Crew the well known farmer residing on the "White House Farm" near Kennedyville, of Mr. Clarence Crew, an intelligent farmer in Worton, and a brother-in-law of A. S. Turner, the hustling grain man of Worton Station. His father is Benjamin F. Crew, the oldest resident at Worton Station.

There are no rules which govern automobiles on the public road, beyond the one that they must be run with care and prudence, and in such a way as a reasonable man would run his wagon or carriage. They are public vehicles and have as much right on public highways as have carriages, buggies or foot passengers. Should any teams become frightened of course the driver of an automobile would slow down and do everything possible to avoid an accident, at the same time each party would have to use due care and dilligence to avoid one.

We have had a great many inquires regarding the proposed route since the matter was first mentioned exclusively in the TRANSCRIPT, and we are advised that Mr. Crew is making his arrangements to start a car early in June.
