Respectfully,

ABE COHEN.

Sandy Bottom Department Store. Leader of Low prices

Hubbard's Fertilizers!

The leading farmers and canners through Pennsylvania, New Jersey, Delaware and Maryland speak in their praise, declaring them to be positively the cheapest, the safest, the best to use. Once a trial, always a patron. Wouldn't it be a good idea for you to try them?

For Hay—

Top dress your grass this month. We have a goods that works wonders for this purpose Try it and the cost per acre will cost less than you imagine.

Asparagus—

Are you going to do anything to it this spring? If so, we have the goods. It has Nitrate of Soda and Fish as the source of ammonia, and runs high in Potash and Phosphoric Acid. Some of the finest Asparagus grown in the country is with this goods.

For Corn—

You fertilize your wheat, why not your Corn? It will pay. We have many customers who use it year after year. We have one man in Delaware already ordered 70 tons. We have two more in Maryland who have their orders booked now for 20 tons each, and so on we could give them to you by the score.

Peach Trees—

Many orchards have been taken up the last few years, and peaches brought a good price last year, and don't you think it would be a good idea for you to feed your trees with our FRUIT GROWER, as it has given universal satisfaction. One patron last year claims to have gotten 30 cents per basket more for the same variety where it had been used. We have scores of testimonials concerning it.

Potatoes—

Well, you should use our High Grade Potato Fertilizer if you are going to plant, for this goods has been used for years in four States with the greatest success. It costs $30 per ton, but we have never come in competition with other Mapes and some of the other goods costs $10 more, but we have never come in competition with other high grade Potato goods that ours has not been equal to any and superior to many. There is hardly a day in the last few weeks that some one from Kent or Queen Anne's has not dropped in our office and said: "That Potato goods of yours is the best ever used, and will want more this spring."

For Tomatoes—

Well, you have heard about our Peerless. Mr. Jacob Shriley says it is the best goods he ever saw for tomatoes. Mr. Stewart Graham writes where Peerless went alongside another goods one looked like manured and the other as if it had none and that Peerless yielded over one third more tomatoes.

Mr. H. H. Moore writes: "I used Peerless on 2 acres, sold 27½ tons at 12 cents per basket; netted me $198.40." D. F. Loose says one ton netted him $96.00 more than another ton of $18.00 goods alongside C. R. Dashiel says he would have it if it cost $50.00 per ton. Smith, Rouse & Webster, the great canners, say they never heard of goods spoken of more highly. We can furnish hundreds of testimonials. Many have told us their yield from it was four and five tons more per acre.

☞Now, if you want to sow OATS or top dress your STRAWBERRIES, plant SWEET POTATOES or need a goods for TRUCK, or want anything in the FERTILIZER line, please call on or correspond with us before making your purchases.

Very truly yours,

WILBUR W. HUBBARD,

Manufacturer of Standard Bone Fertilizers, Chestertown, Md

A TRIP TO A STAR.

The Ages of Time It Would Take One to Reach Centauri.

"Let us suppose a railway to have been built between the earth and the fixed star Centauri," said a lecturer. "By a consideration of this railway's workings we can get some idea of the enormous distance that intervenes between Centauri and us.

"Suppose that I should decide to take a trip on this new aerial line to the fixed star. I ask the ticket agent what the fare is, and he answers:

"'The fare is very low, sir. It is only a cent each hundred miles.'

"'And what, at that rate, will the through ticket one way cost?' I ask.

"'It will cost just $2,750,000,000,' he answers.

"I pay for my ticket and board the train. We set off at a tremendous rate.

"'How fast,' I ask the brakeman, 'are we going?'

"'Sixty miles an hour, sir,' says he, 'and it's a through train. There are no stoppages.'

"'We'll soon be there, then, won't we?' I resume.

"'We'll make good time, sir,' says the brakeman.

"'And when will we arrive?'

"'In just 48,663,000 years.'"—Philadelphia Bulletin.

SACRED STONES.

Some That Claim to Mark the Center of the Universe.

The sacred black stone of the Manchu dynasty of Chinese in Mukden is the center of the universe, according to old Chinese superstitions, and added venerability comes to Mukden from the graves of the emperors near by.

The Do-ring in Lassa, Tibet, is another center of the universe, which, according to the Tibetan priests, is shaped exactly like the shoulder blade of a sheep. All distances are measured from it, and it is very sacred.

Another center is the kaaba, in Mecca, a dirty black stone let into the wall of the most sacred mosque and polished every year by the lips of thousands of worshipers. The Arabic word for stone, "hagar," appears in Scriptural writings as a proper name. The Mecca pilgrimage is a "haj," and those who have taken it are known as "hadji."

Even so sane a people as the ancient Greeks came pretty near worshiping a stone—the "omphalos," or center of the earth, at Delphi. The Romans set up a stone of great consequence in Rome, but for purposes of measurement, not worship, and so the "London stone" of today is used.—London Telegraph.

AN INTERESTING TREE.

The Shellbark Hickory Is a Rugged Native American.

The shellbark hickory is perhaps the most interesting tree we have, because it is a strictly American tree and so wedded to its native soil that it refuses to become a citizen of any other country. In the sturdiness of its roots and trunk, in the boldness in which it flings out its tough branches, in its strong individuality of character and in its general fruitfulness, not forgetting its uncouth roughness of bark, it further manifests its strong Americanism. Its winter buds are large and interesting. Early in spring the dark brown outer scales fall away. The inner scales then lengthen to protect the growing leaf, sometimes attaining a length of five inches. These inner scales are marvels of beauty both in texture and in color. The body of the scale is thick and leathery, while its surfaces, especially the inner, are soft, with a silken nap gorgeously dyed in yellow, orange and red, suggesting the chimney corner and the heat which glows from a hickory log.—Frank French in Scribner's.

Queer Lot of Names.

Miss Death was brought to the German hospital in Philadelphia to be operated upon for appendicitis. She was a daughter, she said, of an undertaker.

The name of the surgeon who was chosen to perform the operation was Dye—Dr. Frank Hackett Dye.

When the operation was over Miss Death was placed in charge of two nurses.

Miss Payne is the day nurse; Miss Grone is the night nurse. The patient recovered rapidly, and in a short time bade goodby to Dr. Dye, Miss Payne and Miss Grone.—Fuel.

Cautious.

In Aberdeen can be found a court official who is as good a type of the canny Scot as one would meet anywhere. On a recent occasion an important witness failed to appear, and the judge was furious.

"Why isn't he here?" demanded his honor. "It's his duty to be here. Where is he?"

The official, with true Scotch canniness, replied, "Weel, I'll no say for that—but he's dead."

The Absurd Poor.

"Give you a nickel?" said Miss De Style. "Oh, no! I never dispense promiscuous alms. Why do you not obtain employment?"

"Please, mum," was the timid reply, "I have a small baby, and people won't be bothered by a woman with a child."

"Then, you absurd creature, why not leave the child at home with its nurse?"—Philadelphia Bulletin.

Stuttered Out the Child's Name.

Flannery—It seems his full name is Dinnis K. K. K. Casey. What's all thim K's fur? Finnegan—Nothin'. 'Twas the fault of his godfather stutterin' whin he tried to say "Dinnis Casey."—Philadelphia Ledger.

The excessive love of money is one of the widest doors to the penitentiary.—Cleveland Leader.

Disease takes no summer vacation.

THE WEARING OF SHOES.

A Custom That Is Almost as Old as the Race Itself.

What is regarded as the earliest reference to shoes is found in the Old Testament where Abraham refuses to take as much as a shoe latchet from the king of Sodom. Among the Jews the shoe played an important part in many social usages. When buying or selling land it was customary to deliver a shoe, and the act of throwing down a shoe on territory implied occupancy. The finding of sandals on Egyptian mummies proves that the wearing of shoes is almost as old as the race itself. In Venice in the seventeenth century every lady of any pretension to fashion or position wore what were called "choppines," high clogs or pattens, to elevate them from the ground. Thomas Coryat, a traveler who visited Venice in 1611, says of them: "They are so common in Venice that no woman goeth without either in her house or abroad. It is a thing made of wood and covered with leather in sundry colors—some white, some red, some yellow. Many of them are curiously painted; some also of them have I seen fairly gilt. There are many of these chapineys of a great height—even half a yard high—and by how much the nobler a woman is by so much the higher are her chapineys. All their gentlewomen and most of their wives and widows that are of any wealth are assisted or supported either by men or women when they walk abroad, to the end that they may not fall."—Chicago News.
