POLITICS has gotten quiet, commencement days are over, and every body can now go a fishing.

OUR PAPER this morning is largely devoted to the commencement exercises of Washington College and our public schools. We hope our readers may find it interesting reading.

WASHINGTON COLLEGE.

Washington College closed this week one of the most successful years in its history. Scarcely has a greater interest in the welfare of the institution been manifested in all its years of usefulness than was shown at the various commencement exercises by the great number of visitors and alumi present. It is a source of much gratification to the authorities to see such enthusiasm on the part of the public, for the institution draws its strength and prestage from the public and receives its incentives for effort from it. The work done at the college this year has been of a high and broader character than in former years and hence the quality of the material graduated is far above the average. Dr. James W. Cain and his faculty of instructors deserve the greatest credit for the expansion of the college along all lines of work, and they are in a large measure responsible for contemplated improvements which will enhance the usefulness of the institution and will make it second to none in the State. The presence of many of the distinguished alumni and friends of the college, including State Comptroller Gordon T. Atkinson, Senators Foxwell and Perkins and Harry J. Hopkins, is also an indication of increased interest in the institution, and the future of our alma mater seems particularly bright. Let us hope for the best. Let us make an effort to get all of the alumni here next year to sit at the banqueting board in the halls of the handsome new administration building, and the TRANSCRIPT calls upon the public, graduates and alumni to exert their utmost efforts to make old Washington the greatest institution of learning in the State.

OUR PUBLIC SCHOOLS.

Our public schools have been brought clearly before the public this week. They are an honor to our county and state, and public instruction in our county is on a higher and broader basis than ever before. During the past ear the course has been enlarged to include tenth grade work at Chestertown, Rock Hall, Galena, Piney Neck and Millington; and manual training work has been introduced into all these schools. The graduates this year, therefore, are better equipped to enter other institutions of learning in the state and much more good has been accomplished than heretofore. The public everwhere manifests a keener interest in public instrucion than formerly, and this is assuredly a most excellent sign of the times. Our public schools are the bulwarks of our liberty, and money should not be withheld nor efforts relaxed to make our schools the best in the State. It can be done, for Kent has a most excellent corps of teachers and the Superintendent of instruction, Prof. Milton Melvin, is thoroughly awake to the needs of the hour. Let's create more interest in our ublic schools, and here pardon us for this suggestion. We should like to see each of the High Schools in the county organize an alumni association during the coming school year, and make an alumni banquet a distinct feature of the commemcements next year. This will bring the parents of the children and former students of the schools into closer contract with each other and with the school work, and these associations will become powers for good as their numbers increase. Think what a beautiful feature could be added to our school commencements if all those who have graduated from our schools could be assembled around the festal board. We offer this suggestion to the faculty and students of our public schools, and we are sure that it will meet a hearty response on the part of those interested in education. Let's put the Kent schools at the top of the notch of excellence and enthusiasm.

Commencement Ball Games.

The Betterton and Washington College teams played one of the most exciting games ever seen on the College campus last Monday afternoon. Every inch of the way was stubbornly contested by the two teams and while the game was largely a pitcher's battle, both twirlers, Wilson and Reynolds were supported in gilt edge style. The score was 1 to 0 in favor of W. C.

Much interest centered in the game with the Alumni Association team on Wednesday afternoon. The attendance was the largest for the year, the receipts amounting to $36.20. The game was an exciting one, and furnished the crowd much real sport. Prof. Burris and Wilson were the opposing pitchers, and the score was 9 to 8 in favor of the College. The Alumni team was as follows: Burris, p; Marine, c; Masrey, 1b; Goldsborough, 2b; Charles, ss; Cameron, 3b; Jefferson, lf; Eliason, cf; McDorman, rf.

"CHEATED THE UNDERTAKER"
Says a Well Known Baltimore Physician.

"Some 12 years ago (1892), while engaged in active practice, I was suddenly attacked with a hemorrhage from the kidneys, accompanied by pain and a sickening, bearing-down sensation. I attributed it to the passing of a 'gravel stone' and the worst would soon be over, but not so. I was treated by some of the best professional talent in America. The case was published in medical journals and brother physicians offered suggestions, but the disease continued until, at last, in despair, after nine 9 long years of the tortures of the damned, I gave up and went to my room to die. My case was diagnosed by several able physicians as 'Bright's, with complications,' by others 'Haematuria, with Catarrh of the Bile Ducts,' but no one could do me the least possible good until the discovery of LAX-O-LITHIA SELTZ, which cured me and which I recommend to all similarly affected. I owe it to suffering humanity to make this fact public, also to state that those who take it need never fear Appendicitis or Typhoid Fever."

J. ZACHARY TAYLOR, M. D., Lung, Blood and Nerve Specialist.

LAX-O-LITHIA SELTZ unclogs the Kidneys, stimulates the Liver, clears the Skin, aids Digestion, moves the Bowels, cures Constipation, Biliousness, Dizziness, Jaundice, Uric Acid, and filters the Blood of Waste, Ferment and Germs. 25 Cents.
