Catalogue giving full particulars sent on application. Attention is called to short course of ten weeks in Agriculture. Write for particulars.

TERM COMMENCES THURSDAY, SEPTEMBER 30th. Early application necessary for admittance.

R. W. SILVESTER, PRESIDENT,
College Park, Maryland.

REMOVAL NOTICE!

A. LEVINE

Watchmaker, Jeweler and Optician

Begs to announce to his patrons and the public generally that he will remove this week to the S. F. Smith store room, opposite the Voshell House and one door below Bartleys's big furniture store.

Wishing all a most joyous Christmas season and a happy and prosperous New Year, I am

Respectfully,
A. LEVINE,
Watchmaker, Jeweler and Optician

Whose Say-so is Best?

With nearly all medicines put up for sale through druggists, one has to take the maker's say-so alone as to their curative value. Of course, such testimony is not that of a disinterested party and accordingly is not to be given the same credit as if written from disinterested motives. Dr. Pierce's medicines, however, form a single and therefore striking exception to this rule. Their claims to the confidence of invalids does not rest solely upon their makers' say-so or praise. Their ingredients are matters of public knowledge, being printed on each separate bottle wrapper. Thus invalid sufferers are taken into Dr. Pierce's full confidence. Scores of leading medical men have written enough to fill volumes in praise of the curative value of the several ingredients entering into these well-known medicines.

Amongst these writers we find such medical lights as Prof. Finley Ellingwood, M. D., of Bennet Medical College, Chicago; Prof. Hale, of the same city; Prof. John M. Scudder, M. D., late of Cincinnati, Ohio; Prof. John King, M. D., late of Cincinnati, Ohio; Dr. Grover Coe, of New York; Dr. Bartholow, of Jefferson Medical College, of Pa., and scores of others equally eminent.

Dr. Pierce's Favorite Prescription cures the worst cases of female weakness, prolapsus, anteversion and retroversion and corrects irregularities, cures painful periods, dries up disagreeable and weakening drains, sometimes known as pelvic catarrh and a multitude of other diseases peculiar to women. Bear in mind, it is not a patent nor even a secret medicine, but the "Favorite Prescription" of a regularly educated physician, of large experience in the cure of woman's peculiar ailments, who frankly and confidingly takes his patients into his full confidence by telling them just what his "Prescription" is composed of. Of no other medicine put up for woman's special maladies and sold through druggists, can it be said that the maker is not afraid to deal thus frankly, openly and honorably, by letting every patient using the same know exactly what she is taking.

Sick women are invited to consult Dr. Pierce, by letter, *free*. All correspondence is guarded as sacredly secret and womanly confidences are protected by professional privacy. Address Dr. R. V. Pierce, Buffalo, N. Y.

How to preserve health and beauty is told in Dr. Pierce's Common Sense Medical Adviser. It is *free*. For a paper-covered copy send Dr. R. V. Pierce, Buffalo, N. Y., 21 one-cent stamps to cover mailing *only*; in cloth binding 31 stamps.

Dr. Pierce's Pellets cure constipation.

QUES'ION?

It's a question with some

WHERE TO BUY CLOTHING.

But if you will compare carefully price and quality you'll soon learn that we are considerably lower on everythikg we handle, from a 5c pair of stockings to the best grade Suit. A fine line of medium weights left, will be closed low. FALL HATS ready.

SPRINGS OF HIERAPOLIS.

Wonderful Waters That Petrify Everything They Encounter.

Hierapolis is a strange ruined city of Asia Minor. It was founded about 200 B. C. and a large part of the place has been buried by the petrifying water of hot springs. The country round Hierapolis is today infested with brigands. A traveler who visited the place under an armed guard of Turkish soldiers says "The temperature of the springs is that of a very warm bath and while hot there is not a trace of that petrifying element which renders the waters so remarkable after they have cooled and causes them to turn to stone every object they encounter after very slight immersion. The swimming bath itself is about fifty feet to sixty feet in length and in many places from twelve to fifteen feet deep, and is today almost as it was in Roman times. The opportunity to take a natural hot bath was not lost upon the writer. The floor and sides and steps are of white marble and the depth varies to suit the convenience of the swimmer. Some great upheaval has brought down the marble columns which once decorated the sides of the bath and they lie across it in picturesque disorder, some almost intact, others broken into many fragments.

"One of the columns has so fallen across the bath that its base is exposed while its slanting top shines gleaming white beneath the water at a depth of some ten feet. On this column one can lie with one's head out of water and it is not possible to imagine a bath enjoyable under more ideal conditions. The water flows out of the basin in many little rivulets and a few hundred yards from its source begins to develop its petrifying nature. As it cools its bed becomes white with a hard, chalky substance and no living thing or plant can resist its stony grip. The grasses and leaves which fall into its deadly waters find their grave upon its surface and the flowers which dip their heads into the streams turn into petrified images of themselves, counterfeiting nature in stone, even to their slender petals.

"The fall from the top of the cliff into the valley is in some cases abrupt and steep and in others gradual. In the latter a succession of basins has been formed descending the slopes in ever diminishing size, as the waters in their descent have overflowed from one rim to another. Stalactites depend from the top of the cliff, and formations like gigantic beehives glimmer in the sun. Seen from a distance, the very waters appear to have been caught and turned to rock as they flowed and noiseless waterfalls of stone take the place of the liquid element."—Chicago News.

A Cautious Sentinel.

It was the small brother of pretty Margaret who opened the front door in response to Mr. Goodyear's ring, and his face took on a singularly alert expression as he surveyed the caller.

"No, she isn't in," said Margaret's brother. "Are—are you Mr. Hamlin?"

"No," said the young man; "I am Mr. Goodyear. Does that make any difference about her being at home?" And he looked searchingly at the boy.

"Course not," said Bobby indignantly. "I don't tell stories, nor Margaret doesn't. But if you'd been Mr. Hamlin I was to tell something about her coming home and get 10 cents if I did it right and didn't tell the wrong one. I need that money, and so, you see, I didn't want to make any mistake. Goodby."—Youth's Companion.

The Labor of Mountain Climbing.

Below is a curious calculation on the amount of energy expended by a person weighing 168 pounds in climbing a mountain peak 7,000 feet high, the time allowed for the ascent being five hours: By careful calculation it is found that the total amount of labor performed is equal to raising 1,380,000 pounds to a height of one foot or that of raising one pound to a height of 1,380,000 feet. Of this enormous amount of work 1,176,000 foot pounds are expended by the muscles of the legs in raising or lifting the body, 12,000 by the heart in circulating the blood, 30,000 by the chest in breathing and 54,000 in the various exertions of balancing the body, overcoming friction of the ground, etc.

Finnish Matrimony.

All the way our driver had been very chatty. He told us how he had chosen his wife. He said: "There was some talk of her in the village. My aunt's nephew spoke to me of her, but I never saw her till the day before we were engaged. When I heard of her, I went to the puhumy—man of speech—who always arranges these things. I gave him 5 marks for her. She liked what she heard of me, and she gave him, as she was bound, a white shirt. Then I thought I would see her, so we arranged to meet at church at Unnikiemi, and we went there, and it was all right. We get on together."—"Vignettes of Finland."

Alluring.

"Yes, he's a cigar manufacturer and yet he never smokes."

"Oh, yes, he does!"

"Why, he told me some time ago that he never smoked in his life."

"That was before he began to advertise. He found his own advertisements so alluring that he just started in."

Diplomacy.

The Friend—Was Mrs. Heviwaite pleased with her portrait?

The Artist—Oh yes. I managed to make her resemble what she thinks she used to look like.—Brooklyn Life.

We are all kindled and put out. We die daily. Nature that begot us expels us, and a better and safer place is provided for us.—Seneca.

Consumption

¶ There is no specific for consumption. Fresh air, exercise, nourishing food and Scott's Emulsion will come pretty near curing it, if there is anything to build on. Millions of people throughout the world are living and in good health on one lung.

¶ From time immemorial the doctors prescribed cod liver oil for consumption. Of course the patient could not take it in its old form, hence it did very little good. They *can* take

SCOTT'S EMULSION

and tolerate it for a long time. There is no oil, not excepting butter, so easily digested and absorbed by the system as cod liver oil in the form of Scott's Emulsion, and that is the reason it is so helpful in consumption where its use must be continuous.

¶ We will send you a sample free.

¶ Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

A Narrow Squeak.

"Your front door is unlocked, sir!" shouted the policeman when he found that Mr. Careless Householder had gone to bed without attending to his locks.

"It's all right," replied the burglar from the bedroom window a minute later; "my son will lock it when he comes home. Here's a shilling for you."

"An easily earned bob," chuckled the policeman as he walked away.

"A narrow squeak," said the burglar, with a sheet round his shoulders.

"Very," replied his accomplice, whose hands were tightly clasped over poot Mr. Careless Householder's mouth.—London Express.

Skirt and Shirt.

"Skirt" is etymologically the same word as "shirt," though it has come over another linguistic route and properly means a short garment. In fact, "skirt," "shirt," "short," "shear," "kirtle" and "curt" are in all probability near relations. But "skirt" has got itself specialized to a lower garment, with special reference to the lower edge thereof, the boundary where the garment is cut short, whence the verb "to skirt."

Corrected.

Wife (during the tiff)—I have suffered every calamity that can befall a woman. Husband (calmly)—Oh, no, you haven't, my dear. You have never been a widow. Wife—You evidently don't understand me. I said "calamity."

Men of Destiny.

"De man who takes hisse'f seriously every minute of his life." said Uncle Eben, "allus gits to be one of two things—a hero or a joke."—Washington Star.

Civilization Does Not Enfeeble.

We need not have the slightest fear that civilized man is going to become degenerate from city dwelling or any of the other strains of civilization. Contrary to popular belief, the white man of today has a lower death rate, a higher average length of life, is taller, heavier and stronger than any of his predecessors or any known race of savages. Almost any company of American and English soldiers will contain men who can outrun, outwrestle and outswim the best athletes of any native tribe.—Success Magazine.

Should Help Himself.

"Yes," young Mr. Timmid admitted; "I've always been bashful among the girls."

"But why should you be?" asked Miss Yern encouragingly.

"I can't help myself."

"Gracious!" she exclaimed, pursing up her lips. "If you don't help yourself, how can you expect to get any?"

Speculation.

Experience proves that those who gain money rapidly by speculation almost never keep it, and when they have lost it they are infinitely worse off than they were before.—Success Magazine.

Knew the Place.

Guest (in cheap restaurant)—Here, waiter, this meal is simply vile. I won't pay for it. Where's the proprietor? Waiter—He's out at lunch, sir.

A. LEVINE,

THE BEST OF EVERYTHING For Everybody!

We have the right things for every person, the right price for every purse.
A Beautiful Assortment of Pleasing Gifts, perfectly adapted to the wants and requirements of our friends and patrons.
Everything fresh and sparkling with the brightest new goods of the season.
We are waiting to please you with presents that are appropriate, popular, practical in every-way desirable in the line of

Watches
for Ladies, Gents, Boys and Children in SOLID GOLD, GOLD FILLED, SILVER, ETC.

Washington College,

Chestertown, Md.

One Hundred and Twenty-Fifth Session Begins September 19, 1906.

The college offers four courses of study—Classical, Latin-Scientific, Scientific, each leading to the degree of Bachelor of Arts; and Normal, leading to the Normal diploma which entitles the holder to teach in any county of the State without examination.

Sub-Freshman and Sub-Normal classes are maintained for the benefit of those who desire a thorough preparation.

In the Collegiate Department the elective system enables each student to select the studies suited to his particular needs.

Students are provided with good board and comfortable, well furnished quarters. The buildings are equipped with every modern convenience—steam heat, electric lights, baths. Here students may pursue their studies in a highly moral community amid beautiful and healthful surroundings, under careful supervision of health and habits, at very low rates.

Some of the Best Crops of Wheat

Grown in the State were from

Wilbur W. ubbard's tandard Bone Fertilizers

Last year we made for Dr. Isaac Barber, the ex-Congressman and Mr. G. M. Wingard, the machinist of Easton, a lot of fertilizer that contained 1400 lbs. of Dissolved Animal Bone, 400 lbs. of Bone Tankings, 200 lbs. of Muriate of Potash. Total, 2000 lbs. Dr. Barber we have not heard from, but the following is what Mr. Wingard has to say:

Easton, Md., Aug. 1st, 1906.

WILBUR W. HUBBARD, Esq., Chestertown, Md.—Dear Sir—That goods you made for me last fall certainly gave satisfaction. In the spring our wheat looked like other people's. We feared that we would only have half a crop, although as I told you when I got you to make this goods for us, I believed in a good goods and use less per acre and only used 200 lbs. on 100 acres, and threshed a few days ago from 66 acres 27 bushels per acre, from 30 acres 29½ bus.; from four acres 40 bus. per acre, and it was nice wheat, and I therefore believe it paid me better to use 10 tons of that goods than it would 20 tons of a cheap fertilizer, and my clover is splendid and about a foot high.

Respectfully,
G. M. WINGARD,
Machinist, Easton, Md.

Mr. Vincent Lee says: I used Wilbur Hubbard's fertilizer last year alongside a goods costing $3.50 more per ton and marked the place, and when the wheat was examined by people who came to see it, Hubbards was generally acknowledged to be as good or better.

Mr. Wm. Clark, on H. H. Barroll's farm, near St. Paul's Church, says that Hubbard's fertilizer certainly did splendidly for him this time, and that part of it threshed out 24 bushels per acre.

Mr. E. D. Reed, who owns a threshing rig, under date of July 29th, certifies that Wilbur Hubbard's fertilizers for the last three years have yielded 3 to 5 bushels more per acre than others used in competition, and that the farmers are appreciating their value.

Mr. H. H. Klinefelter says: I have used 90 to 100 tons of Hubbard's goods per year for ten years, and I expect to continue to use them.

Mr. Jno. T Jones, of Barclay, Md., says: I sold and used 40 tons of Hubbard's in 1903, 60 tons in 1904, 165 tons in 1905, and will need over 200 tons to supply my trade this fall.

Mr. Cad L. Phillips, of Laurel, Del., says: I have sold and used Hubbard's fertilizers for 20 consecutive years, and this year it will take me 150 to 200 tons.

Mr. John H. Evans, of Queen Anne's, uses 75 to 100 tons of our goods per annum, and says this year by actual test Hubbard's was the best, and expects to use it again.

Mr. J. B. Hossenger says Hubbard's fertilizers give him satisfaction, and that is why he places his order for 28 tons this year.
