FACTS IN NATURE.

Not Only Do We Get Inspiration From Nature, But Health as Well.

For people who are run-down and nervous, who suffer from indigestion or dyspepsia, headache, biliousness, or torpid liver, coated tongue with bitter taste in the morning and poor appetite, it becomes necessary to turn to some tonic or strengthener which will assist Nature and help them to get on their feet and put the body into its proper condition. It is becoming more and more apparent that Nature's most valuable health-giving agents are to be found in forest plants and roots.

Nearly forty years ago, Dr. R.V. Pierce, now consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., discovered that by scientifically extracting and combining certain medicinal principles from native roots, taken from our American forests, he could produce a medicine which was marvelously efficient in curing cases of blood disorder and liver and stomach trouble as well as many other chronic, or lingering ailments. This concentrated extract of Nature's vitality he named "Golden Medical Discovery." It purifies the blood by putting the stomach and liver into healthy condition, thereby helping the digestion and assimilation of food which feeds the blood. Thereby it cures weak stomach, indigestion, torpid liver, or biliousness, and kindred derangements.

If you have coated tongue, with bitter or bad taste in the morning, frequent headaches, feel weak, easily tired, stitches or pain in side, back gives out easily and aches, belching of gas, constipation, or irregular bowels, feel flashes of heat alternating with chilly sensations or kindred symptoms, they point to derangement of your stomach, liver and kidneys, which the "Golden Medical Discovery" will correct more speedily and permanently than any other known agent. Contains no alcohol or habit-forming drugs. All its ingredients printed in plain English on wrapper.

The sole motive for substitution is to permit the dealer to make a little more profit. He gains; you lose. Accept no substitute for "Golden Medical Discovery."

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets. One a laxative; two or three are cathartic.

—THE—

Mutual Fire Insurance Co.

OF KENT COUNTY,

during the past nine years has returned to the holders of its policies, where the policies have been cancelled, $39,000.00.

The accounts of its policy holders show that for the same period the actual cost of insurance has not been more than 66 per cent. of the premium paid, and that policies only nine year old have now standing to their credit 33 per cent. of the amonts paid it.

If you wish to diminish the estimate cost of your insurance, insure your property in the

DETERMINING LEVELS.

Method by Which Every Man May Be His Own Surveyor.

A simple way of roughly determining levels, and one which can readily be practiced by any one and which has the advantage of not requiring any special apparatus, is by means of a spirit level and a board with a straight edge. The way to go about it is this: First determine on two points the levels of which you wish to know and drive stakes into the ground. Then take a board with a straight edge and tack it to a tree, if one happens to be available, in a line with these two stakes. Put the board at such a height that you can readily sight over it and carefully level this board by means of the spirit level. Then sight it over toward one of the stakes, having some one at that stake who will, by means of a small piece of paper, locate the point at which your line of vision cuts it—in other words, where a line projected from your sighting board would strike the stake. Make some sort of mark at this point and then sight to the other stake in the same way and mark the point where the line would strike it. By measuring distances that these two points are above the ground you can get the difference in levels with reasonable accuracy. For instance, if your line of vision has cut one stake eight feet from the ground and the other one five feet from the ground, then obviously the difference in level is three feet, or, in other words, the vicinity of the stake on which the mark is five feet from the ground is three feet higher than the other stake, and you will have a three foot fall from draining from this point to the other.—Farming.

THE ELOQUENT NUDGE.

An Incident Illustrating a Trait In Woman's Nature.

"Do you see the woman walking in front of us there?" asked the man with the fashionable tie to the friend who was strolling up Broadway with him. "Do you notice anything particularly striking about her? Nothing, except that she is very well dressed? That's what I would say. Now, I'll bet you half a dollar that when she passes the three women walking just ahead of her all three will nudge each other simultaneously."

The woman behind was walking faster than the three in front and she soon passed them. The three women looked her over from foot to head, then nudged each other with their elbows as if possessed with the same thought.

"How did you know it?" inquired the friend as the other pocketed the half dollar.

"I didn't know it," was the reply. "If I had it would have been taking an unfair advantage of you to bet. But I was reasonably certain of it. There is a certain indescribable something in some women's manner, appearance and carriage that causes all other women to nudge each other at sight of her. I couldn't tell you just what it is, but I'm ready to put up a wager on it every time. The nudge is simply a part of women's sign language which means something that cannot be put into words, but which every other woman understands."—New York Press.

The Word "Crank."

Crank in the sense of an eccentric person is a new word. The very first written instance of crank in the modern sense that could be found for Dr. Murray's dictionary was in the reports of the trial of Guiteau, President Garfield's murderer. Guiteau's reference to somebody as a crank gave the word a vogue that has gone on spreading. But the adjective cranky was known in 1787 as meaning sickly (the German "krank"), and to Dickens in the senses of cross and crochety. In all its meanings it springs from the root idea of crookedness, as does crank in its sixteenth century sense of a deceitful trick, as in "quips and cranks."

The History of Tacitus.

The entire history of Tacitus, as we have the work, was regained from a single copy found in the fifteenth century in a monastery of Westphalia. That we should owe the works of this author to one copy is a remarkable circumstance, for the Emperor Tacitus, who claimed to be a descendant of the historian, had copies of the history placed in every library of the empire and each year had ten copies transcribed for presentation to scholars. All, it seems, perished, save the Westphalian copy.

The Great Difficulty.

"One-half of the world's happiness is solved when a person learns to mind his own business."

"Yes, but it's the other half that causes the most trouble."

"What's that?"

"Getting other people to mind theirs."—Home Notes.

No Kick Coming.

Mrs. Jones—Do you appreciate what that is you are eating? Tramp (with his mouth full)—No'm! Mrs. Jones—Well, that is angel cake with wine jelly and whipped cream. Tramp—Oh, well, anything tastes good when a feller's hungry, mum!—New York Press.

How He Knew It.

Fair Passenger—They say you can't fool a street car conductor with a plugged nickel, but I worked one off on him a few minutes ago. The Other Passenger—I know it, madam. He gave it to me in change just now.—Chicago Tribune.

The Best Literature.

The best literature of our day is not in fiction. It is in poetry, in biography, in history and in criticism.—London Sphere.

Impoverished Soil

Impoverished soil, like impoverished blood, needs a proper fertilizer. A chemist by analyzing the soil can tell you what fertilizer to use for different products.

If your blood is impoverished your doctor will tell you what you need to fertilize it and give it the rich, red corpuscles that are lacking in it. It may be you need a tonic, but more likely you need a concentrated fat food, and fat is the element lacking in your system.

There is no fat food that is so easily digested and assimilated as

Scott's Emulsion of Cod Liver Oil

It will nourish and strengthen the body when milk and cream fail to do it. Scott's Emulsion is always the same; always palatable and always beneficial where the body is wasting from any cause, either in children or adults.

We will send you a sample free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

MUST LOOK YOUNG.

This Accounts For Dyed Locks That Nurses Sometimes Show.

"Yes, she's a good nurse, doctor," said the patient rather reluctantly.

"You don't mean that," was the answer of the physician. "What's the matter with her? Come, tell me."

"Nothing," began the faint contradiction. "She's quiet, tidy and sympathetic, but, doctor, her hair's dyed. I could see it plainly yesterday when she sat between me and the window."

The doctor did not speak for a moment. He did not even look surprised.

"Such a nice nurse, too," went on the patient. "Why should she do such a foolish thing?"

It was then that she learned from the doctor that dyed hair is not nearly so uncommon in the case of trained nurses as might be supposed. Sick people like to have young nurses about them. Even physicians have a weakness for the young nurses. They believe that their interest and enthusiasm are greater.

"The nurses' term of usefulness is short enough as it is," this physician said, "for the work is so exhaustive that they must soon succumb. Some of them are compelled to give up after ten years. Few are ever able to keep up until they have put in twenty years.

"If they feel that gray hairs, coming perhaps a little earlier than they are due, are going to make the term of their best days even briefer they are driven to hiding those traces of time and overwork by the use of hair dye, and the number that do make use of it is very much larger than anybody supposes."—New York Sun.

MAHOGANY.

The Way This Beautiful Wood Was Brought Into Fashion.

Every one knows how effective and handsome mahogany is when used for good furniture, but few of us know how its value was first discovered.

In the latter part of the seventeenth century a London physician had a brother engaged in trade with the West Indies who on one occasion brought home several logs of mahogany as ballast. The doctor was building a house, and his brother suggested that the logs would serve for ceiling beams. Acting on the proposal, the doctor gave orders to the workmen to make use of the mahogany, but their tools were not equal to the task of cutting the hard wood, and the logs were put out of the way in a corner in the garden.

Some time afterward the head carpenter tried to make a box from the wood, but was unsuccessful with ordinary tools. He told the doctor, who was interested in the baffling timber and ordered heavier tools to be made to work it with, says Home Notes. When this was done and a box at last made and polished, it was so handsome that a bureau was made from another of the despised logs, and this was declared by experts to be so superior to other furniture making woods that the craze for mahogany set in, and furniture made from it became highly popular, the then Duchess of Buckingham fostering the craze in the fashionable set.

Wanted to Find the Crumb.

Mamma—What are you tearing your doll to pieces for? Hattie—I'm looking for the crumb of comfort papa said was to be found in everything.

A. LEVINE,

THE BEST OF EVERYTHING

For Everybody!

We have the right things for every person, the right price for every purse.
A Beautiful Assortment of Pleasing Gifts, perfectly adapted to the wants and requirements of our friends and patrons.
Everything fresh and sparkling with the brightest new goods of the season.
We are waiting to please you with presents that are appropriate, popular, practical in every-way desirable in the line of

Watches
for Ladies, Gents, Boys and Children in SOLID GOLD, GOLD FILLED, SILVER, ETC.

Clocks
for the Parlor, Dining-Room, Bed-Room, Etc.

A Full Line of Solid Gold Spectacles and Eye-Glasses.

Novelties
of all kinds. If you want satisfaction in selection and economy in price our Holiday stock will fill your needs.
Remember our Holiday stock gives you new ideas and supplies your want.
Hoping to see every reader at our store at an early date, and extending to one and all the compliments and good wishes of the season, we remain,
Very truly yours,

A. Levine

Opposite Voshell House.

Washington College,

Chestertown, Md.

One Hundred and Twenty-Fifth Session Begins September 19, 1906.

The college offers four courses of study—Classical, Latin-Scientific, Scientific, each leading to the degree of Bachelor of Arts; and Normal, leading to the Normal diploma which entitles the holder to teach in any county of the State without examination.

Sub-Freshman and Sub-Normal classes are maintained for the benefit of those who desire a thorough preparation.

In the Collegiate Department the elective system enables each student to select the studies suited to his particular needs.

Students are provided with good board and comfortable, well furnished quarters. The buildings are equipped with every modern convenience—steam heat, electric lights, baths. Here students may pursue their studies in a highly moral community amid beautiful and healthful surroundings, under careful supervision of health and habits, at very low rates.

Some of the Best Crops of Wheat

Grown in the State were from

Wilbur W. Hubbard's Standard Bone Fertilizers

Last year we made for Dr. Isaac Barber, the ex-Congressman and Mr. G. M. Wingard, the machinist of Easton, a lot of fertilizer that contained 1400 lbs. of Dissolved Animal Bone, 400 lbs. of Bone Tankings, 200 lbs. of Muriate of Potash. Total, 2000 lbs. Dr. Barber we have not heard from, but the following is what Mr. Wingard has to say:

Easton, Md., Aug. 1st, 1906.

WILBUR W. HUBBARD, Esq., Chestertown, Md.—Dear Sir—That goods you made for me last fall certainly gave satisfaction. In the spring our wheat looked like other people s. We feared that we would only have half a crop, although as I told you when I got you to make this goods for us, I believed in a good goods and use less per acre and only used 200 lbs. on 100 acres, and threshed a few days ago from 66 acres 27 bushels per acre, from 30 acres 29½ bus.; from four acres 40 bus. per acre, and it was nice wheat, and I therefore believe it paid me better to use 10 tons of that goods than it would 20 tons of a cheap fertilizer, and my clover is splendid and about a foot high.

Respectfully,
G. M. WINGARD,
Machinist, Easton, Md.

Mr. Vincent Lee says: I used Wilbur Hubbard's fertilizer last year alongside a goods costing $3.50 more per ton and marked the place, and when the wheat was examined by people who came to see it, Hubbards was generally acknowledged to be as good or better.

Mr. Wm. Clark, on H. H. Barroll's farm, near St. Paul's Church, says that Hubbard's fertilizer certainly did splendidly for him this time, and that part of it threshed out 24 bushels per acre.

Mr. E. D. Reed, who owns a threshing rig, under date of July 29th, certifies that Wilbur Hubbard's fertilizers for the last three years have yielded 3 to 5 bushels more per acre than others used in competition, and that the farmers are appreciating their value.

Mr. H. H. Klinefelter says: I have used 90 to 100 tons of Hubbard's goods per year for ten years, and I expect to continue to use them.

Mr. Geo. T Jones, of Barclay, Md., says: I sold and used 40 tons of Hubbard's in 1903 60 tons in 1904, 165 tons in 1905, and will need over 200 tons to apply my crops this fall.

Mr. Cad L. Phillips, of Laurel, Del., says: I have sold and used Hubbard's fertilizers for 20 consecutive years, and this year it will take me 150 to 200 tons.

Mr. John H. Evans, of Queen Anne's, uses 75 to 100 tons of our goods per annum, and says this year by actual test Hubbard's was the best, and expects to use it again.

Mr. J. B. Hossenger says Hubbard's fertilizers give him satisfaction, and that is why he places his order for 28 tons this year.
