P. O. S. OF A.

This association takes great pleasure in announcing through the TRANSCRIPT that Prof. Smyth and others will make addresses on Tuesday evening next at Fraternal Hall on the death of George Washington, the Father of our Country, so ordered by the State President, Dr. Candler, of Baltimore City. All members are requested to be present. Now a word to young men and older ones, let me tell you that the Patriotic Order is one of the best orders on record, and is clearly seen when we behold the noble objects which it stands for. First, to instruct pure American principles into the minds of young men, and to help older ones to have honest convictions, that will not swerve from the right for party or factions, but for God and our country, first and last and forever our country, with due reverence for the highest and greatest good for poor unfortunate men who once ranked a little lower than the angels, and crowned with glory and honor. Second, to elevate the people, especially the young men of to-day, to appreciate their country's freedom and power that have come to them through great suffering and blood shed of our forefathers whose passion for country and American principles was before party or the honor of being a campaign leader. Third, to guard and protect, and to elevate the public school system that has been the steping stone to the prominence of our country's great men, whose works will live and go down through generations when their bodies have gone to dust. Fourth, to encourage each other in the practice of our rights and duties as citizens of a free country, to aid each other in obtaining employment, and to encourage each other in business in all honorable ways, that all our powers may tend to the promotion of the highest welfare of our beloved country, that the sick and distressed ones may be cared for, and the dead laid away in a respectable manner. Oh, that young men would stop and listen to the cheering sound of the old liberty bell that calls to every man to measure up to the example set before him! That liberty and patriotism may be one of your highest and noblest affections, and if you have not joined the Patriotic Order, do it right now for the love of your country.

Cures for Common Ills.

"I am afraid I have greatly interferred with my own practice," said a celebrated aurist, "by giving the following advice to many of my friends: At the first symptoms of earache let the patient lie on the bed with the painful ear uppermost. Fold a thick towel and tuck it around the neck, then with a teaspoon fill the ear with warm water. Continue doing this for fifteen or twenty minutes. The water will fill the ear orifice and flow over on the towel. Afterward turn over the head, let the water run out and plug the ear with warm glycerine and cotton. This may be done every hour until relief is obtained. It is an almost invariable cure and has saved many cases of acute inflamation. The water should be quite warm, but not too hot."

It is said that the yolk of an egg and common salt mixed to a paste is a sure cure for wen. This remedy has been tried successfully in Chestertown, and we give it to the world, believing that those who suffer with a wen will find ready relief.

TO BE DISPOSED OF.

The buds were selected from the best strains of each variety, which were sent out from the Nicholson nurseries 25 to 30 years ago, and many of these orchards were more healthy and vigorous the past season than quite a few orchards 5 and 6 years old. These trees have been inspected by authority from the State Entomologist, Prof. Symons, and found entirely free from any root disease, San Jose Scale, or other insects. Orders will be promptly attended to.
