Do You Open Your Mouth

Like a young bird and gulp down whatever food or medicine may be offered you? Or, do you want to know something of the composition and character of that which you take into your stomach whether as food or medicine?

Most intelligent and sensible people now-a-days insist on knowing what they employ whether as food or as medicine. Dr. Pierce believes they have a perfect right to *insist* upon such knowledge. So he publishes, broadcast and on each bottle-wrapper, what his medicines are made of and verifies it under oath. This he feels he can well afford to do because the more the ingredients of which his medicines are made are studied and understood the more will their superior curative virtues be appreciated.

For the cure of woman's peculiar weaknesses, irregularities and derangements, giving rise to frequent headaches, backache, dragging-down pain or distress in lower abdominal or pelvic region, accompanied, ofttimes, with a debilitating, pelvic, catarrhal drain and kindred symptoms of weakness, Dr. Pierce's Favorite Prescription is a most efficient remedy. It is equally effective in curing painful periods, in giving strength to nursing mothers and in preparing the system of the expectant mother for baby's coming, thus rendering childbirth safe and comparatively painless. The "Favorite Prescription" is a most potent, strengthening tonic to the general system and to the organs distinctly feminine in particular. It is also a soothing and invigorating nervine and cures nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea or St. Vitus's dance, and other distressing nervous symptoms attendant upon functional and organic diseases of the distinctly feminine organs.

A host of medical authorities of all the several schools of practice, recommend each of the several ingredients of which "Favorite Prescription" is made for the cure of the diseases for which it is claimed to be a cure. You may read what they say *for yourself* by sending a postal card request for a *free* booklet of extracts from the leading authorities, to Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and it will come to you by return post.

We have on the farms owned by Mr. James T. Ireland about 40 head of fine beef cattle which will be butchered on the farms and placed on the market as desired.

We want 5,000 lbs of fine pork and all kinds of poultry, for which the highest market price will be paid.

A BRIEF SKETCH OF MASSEY.

BY THE POET.

Just now we will go on with our story,
As we started two weeks ago;
There are other important things in town,
That we desire the public to know.
We have other good men to speak of,
That before we failed to mention;
We want to treat every body alike,
And to slight some is not our intention.

Next we name Mr. H. B. Massey,
Who has a fine line of hardware;
Go to him for the things you need,
For I am sure you will find them there.
He handles just what you need,
To work with or till your ground;
Then give him a chance to please you,
As no better man could be found.

Then let him have a chance to suit you,
I'm sure he will try his best;
He handles carriages, wagons, and harness,
And machinery that will stand the test.
Then call on him and get prices,
Before you go elsewhere and buy;
You can save a great sum when you are dealing,
If you will only take time and try.

Then we name Mr. E. M. Newnam,
Our blacksmith that's up-to-date;
He will do your work when you want it,
No matter if early or late.
His trade is indeed very useful,
For I don't know what people would do;
He will build you a wagon or paint your carriage,
And your horse or mule he will shoe.

Mr. Newnam is a first class workman,
Painting carriages he is just a peach;
All work is done as soon as you bring it,
And his charges are within reach.
Then don't ride in an old carriage,
When only eight dollars makes it new;
And don't set it aside when its shabby,
For that means a big loss to you.

This man is prompt, fair, and honest,
And always wears the same face;
He works from morning till night,
And is always found in his place.
Bad luck seems to visit his home,
But he looks for a brighter day;
We wish him success in the future,
As things sometimes work that way.

Now we will mention our hotel,
Which is run on the city plan;
You will find things there quite up-to-date,
For Mr. Maslin is a very fine man.
His aim is to please his customers,
Then stop and give him a call;
He treats every body just the same,
And his charges are the same to all.

Then we name Mr. C. S. Hurlock,
Who runs a cannery near town;
His place is a help to the public,
For it's there many dollars are found.
The people all like Mr. Hurlock,
And want to see his business hop;
But the women think he should have a man
To carry out tomatoes and slop.

Of course the man saves the dollar,
But the women think he is to blame;
For the buckets they have to handle,
Is enough to make them go lame.
But they hope for a change this year,
And everything will be done right;
And the farmers will grow enough tomatoes
To run his place day and night.

Canning is an important business,
And would like him to make this change;
Just study the matter over,
And try this thing to arrange.
Sometimes things are upset,
As he travels the road of strife;
We wish that success may crown his efforts,
As he plunges along through life.

Now we will wind up our story,
As we think there has been enough said;
Our town as I said is still alive,
And the people here are not dead.
I trust you will enjoy this writing,
Although it is easy to beat;
And I trust you will think like Mr. Dunn,
And give the writer a treat. BRIDGET.

Look for the Easter poem which will appear in the paper on Saturday, March 30th; also on a later date I will compose a piece entitled "The Disobedient Boy or a Heart-Broken Mother." I will use my best judgment to make these touching. Order the TRANSCRIPT at once, as it will appear in no other paper. BRIDGET.

Opinion as to Seed Oysters.

Mr. Thomas H. Robinson, counsel to the Maryland Shellfish Commission, has submitted his opinion on the taking of oysters from the natural beds of Chesapeake bay after the close of the tonging season and transplanting them to grounds that may be leased under the new Haman Oyster law.

Section 111 of the Haman law states that it shall be lawful for any tonger, between April 15 and May 15 in any year, to take oysters from such natural beds or bars in the tonging section of the bay and its tributaries as the commission may mark out for that purpose, and under such regulations as the commission may from time to time prescribe, the same to be placed on bottoms leased for planting or cultivation.

Mr. Robinson holds that the taking of oysters for planting should be limited to the counties surveyed. It is expected that the commission will restrict the taking of oysters to counties designated as the survey progresses. For instance, only tongers of Anne Arundel county may be permitted to take them in the waters of that county for planting, since that is the only county in which the surveys have been completed.

Menagerie at Home.

Jones declined to visit the zoo with his friend, says London Health. "I don't have to go to the zoo," he said, "because my eldest daughter does the kangaroo walk, my second daughter talks like a parrot, my son laughs like a hyena, my cook is as cross as a bear and my mother-in-law says I'm an old gorilla."

The growing use of small, individual towels instead of roller towels has brought an increase in the national expenditure. Few hotels now use roller towels, the germ theory having made such an impression on the public mind. Last year about $4,800,000 was spent for towels.

Complies with all requirements of the National Pure Food Law, Guarantee No. 2041, filed at Washington.
