LOCAL MATTERS.

To Our Correspondents.—We apologize to our correspondents throughout the county for our inability to publish their communications this and last week. A matter of vital importance to the tax-payers of the county requires us to devote as much space as possible to their interests at present, but next week we hope to be able to use all communications, and we trust our correspondents will be lenient with us.

Sewing Meeting.—The next meeting of the St. James Sewing Circle will be held at the home of Mr. Wm. Beck, near Hanesville, on Wednesday evening March 11th. If the weather is not favorable, the meeting will be held the next fair evening.

Committee Meeting.—The citizens' committee appointed to negotiate for the purchase of the waterworks held a meeting last night to discuss the provisions of the bill to be presented to the Legislature to bond the town for $30,000. Water Engineer Quick will test the mains on Tuesday afternoon between 2 and 4 o'clock. An important notice to householders appears in this issue.

Further Litigation in the Hynson Estate.—On Saturday last Messrs. Slay and Barroll, attorneys for Mrs. Augusta E. Slay, filed a petition in the Orphan's Court asking it to revoke the letters granted to Messrs. Beck and Wickes, and to appoint Mrs. Slay administratrix of the estate of the late Richard D. Hynson. The court postponed action until Tuesday when they heard arguments upon the matter, and it then withheld its decision until Wednesday last. On that day the court met in special session and announced that it would decline to revoke the letters it had already granted to Messrs. Beck and Wickes and dismissed Mrs. Slay's petition. From this action Mrs. Slay appealed and the record will be sent to Annapolis where this branch of the case will be argued next month.

W. C. ATHLETICS.

Bright Outlook For a Very Successful Season in All Departments of Sport.

The students of Washington College are looking forward with great pleasure to the completion of the new quarter-mile track, which has been in the course of construction for the past few months. The candidates for the track team have been training in the gym. for the past few weeks, and as soon as the weather permits, they will be taken for out-door work.

The management propose to hold two sets of games. The first to be open to the students of the college only, in order to pick the men who will represent the college at other meets. The second meet will probably be held the latter part of May, when invitations will be sent to the different colleges and prep. schools throughout the State. It is also the desire of the management to enter a relay team in the University of Pennsylvania's annual relay-carnival which is to be held the last Saturday in April.

At a recent meeting of the students it was decided to form a tennis association. The object of this association is to advance the interest in tennis and to make it, if possible, one of the leading branches in the athletic department. Heretofore the college has had tennis in only a small way, having no tournaments. Now it is proposed to select a team, and if possible arrange tournaments with the different Maryland colleges. W. Howard Corddry was elected manager and George L. White captain of this club.

The base ball candidates reported for indoor practice on the 25th. They will be put through the usual preliminary training before outdoor practice begins. From the present outlook it appears that there will be some intense rivalry for places and that some of the old men will have to work hard to hold their positions. The work as outlined will consist of three weeks of in-door practice besides cross country runs. It is the desire of those in charge to have the men in best possible condition before beginning work on the field. Heretofore it has been customary to open the season on home grounds in March, but this year, on account of disagreeable weather in previous years, the management has decided to open on April 4. As yet Manager Corddry has not completed his schedule but from what can be learned it is the best that the college has had for years.

Accidents.

Mrs. James Jones, on "Caulk's Field" farm is suffering intense pain by having had one of her toes pierced by a nail in her shoe. She is under the care of Dr. Frank W. Smith, of Fairlee.

Mr. C. C. Wood, one of the best known men of the Fifth district, met with a very peculiar accident last Friday which nearly cost his life. While standing near a rain barrel half filled with water he was seized with a vertigo and fell head-long into the rain barrel and would have drowned but for the timely appearance of Mr. James A. Pearce who helped him out and assisted him to his house.

Messrs. Albert and Robert Cannan, of Rock Hall, started out in their gasoline boat fishing last Monday morning and ran over a heavy log that was afloat under the water which drove a large hole in their craft sinking same. Other nearby fishermen saw their predicament and went to their assistance just as their boat sank from beneath them.

Mr. Edgar Glenn, of East Neck Island, crippled his horse on the public road last Sunday week. Mr. Glenn after spending the evening in Rock Hall with friends started home and in crossing a small bridge just below Mr. Carroll Willson's gate his horse broke through with one of his fore legs and he or his horse could not release same until Mr. Glenn went to a nearby place and secured an axe, cutting the animal out.

Master Charlie Lambert, met with a painful accident on Wednesday of this week while cutting wood, when the hatchett glanced and cut his leg about an inch above the knee.

Colored Girl Assaulted.

Gordey Martin, a 14-year-old colored girl of Pondtown, near Crumpton, was feloniously assaulted by six colored men on Tuesday night near her home. The girl, in company with another, about two years younger, was on her way home in a team driven by a friend when the six men sprang from a thicket along the road which runs in front of the farm of Mr. Samuel Walls. Under penalty of his own life the friend was compelled to release the two girls and drive from the place. The older girl's cries were stifled by a handkerchief being thrust into her mouth. The younger was not molested. She fled and gave the alarm. After committing the assault the men fled. The girl gave the names of her assailants as James Adams, Buck Blackson, Dave Blackson, Thomas Blackson, Dave Elliott and George Harrison. The authorities of Kent and Queen Annes counties have been notified, and a diligent search is being made for the assailants.

Improving the Farm.

Mr. C. O. Burns, who recently purchased "Field Point," the Rasin estate, situate near Galena, is preparing to erect a new house on his farm for the accommodation of a large force of truckers which he proposes to employ during the coming summer. Mr. Burns is preparing to grow strawberries, melons, fruits, and vegetables, on a large scale, and will be compelled to furnish quarters for his hired labor. An attachment has recently been laid upon this fine estate by Hope H. Barroll Esq., for Daniel O'Reardon, of Boston, Mass., for $41,893, commissions, an account of which was published exclusively in the TRANSCRIPT last week.

All good citizens are urged to give him their assistance.

Kennedyville Grange organized a few weeks ago, is taking in new members and is flourishing.

CAUGHT BY THE GRIP-- RELEASED BY PE-RU-NA.

La Grippe Is Epidemic Catarrh.

THE disease now known as 'grip' used to be called 'influenza.'

It very closely resembles a cold, but is more tenacious in its hold upon the system and produces more profound disturbances.

Grip is in reality epidemic catarrh. When it once begins it spreads over the country very rapidly.

People do not catch the grip from each other, but each one catches it from the atmosphere.

"Most Effective Medicine Ever Tried for La Grippe."

Robt. L. Madison, A. M., Principal of Cullowhee High School, Painter, N. C., is chairman of the Jackson County Board of Education.

He is a writer of occasional verse and has contributed to a number of leading papers and magazines,—religious, educational and secular.

In speaking of Peruna, Mr. Madison says:

"I am hardly ever without Peruna in my home. It is the most effective medicine that I have ever tried for la grippe.

"It also cured my wife of nasal catarrh. Her condition at one time was such that she could not at night breathe through her nostrils.

"In consequence, an inflamed condition of the throat was brought about, getting worse and worse and yielding to no remedy until Peruna was tried."

Healthy Mucous Membranes.

Those who are fortunate enough to have perfectly healthy mucous membranes ordinarily do not catch the grip.

The mucous membranes lining the nose, throat and lungs, when in a normal state, are an effectual barrier against the invasion of grip.

But, if there happens to be the slightest catarrhal derangement of the mucous membranes, then the victim becomes an easier prey to the grip.

This in part explains why some people get the grip, while others do not.

The rational thing to do is to keep the system free from catarrh. In attempting to do this most people have found Peruna to be invaluable.

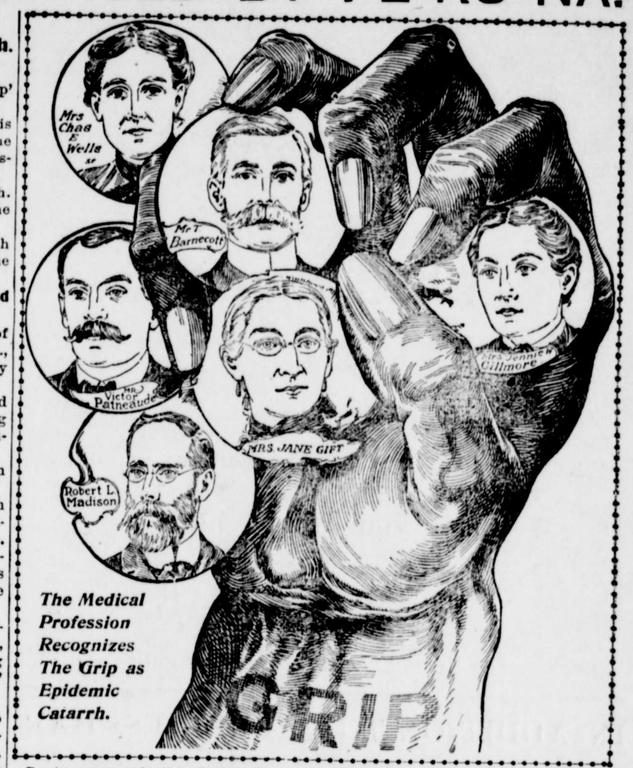

Systemic Catarrh, the Result of La Grippe. Pe-ru-na Receives Credit for Present Good Health.

Mrs. Jennie W. Gilmore, Box 44, White Oak, Ind. Ter., formerly Housekeeper for Indiana Reform School for Boys, writes:

"Six years ago I had la grippe, which was followed by systemic catarrh.

"The only thing I used was Peruna and Manahn, and I have been in better health the last three years than for years before.

"I give Peruna all the credit for my good health."

The Medical Profession Recognizes The Grip as Epidemic Catarrh.

During an epidemic of grip Peruna should be used. The doses recommended on the bottle are sufficient.

After the grip has once been acquired, Dr. Hartman recommends the use of Peruna in teaspoonful doses every hour during the acute stage, after which the directions on the bottle should be followed.

Experience has shown that the people who use Peruna as a remedy for grip generally recover sooner and are less liable to the distressing and long-continued after-effects of the grip.

When Peruna has not been used during the course of the grip and the patient finds himself suffering from the after-effects of this disease, a course of Peruna should be resorted to.

Suffered Twelve Years From After-Effects of La Grippe.

Mr. Victor Patneaude, 328 Madison St., Topeka, Kan., member of Knights and Ladies of Security, writes:

"Twelve years ago I had a severe attack of la grippe and I never really recovered my health and strength—but grew weaker every year, until I was unable to work.

"Two years ago I began using Peruna and it built up my strength so that in a couple of months I was able to go to work again.

"This winter I had another attack of la grippe, but Peruna soon drove it out of my system. My wife and I consider Peruna a household remedy."

Pneumonia Followed La Grippe.

Mr. T Barnecott, West Aylmer, Ontario, Can., writes:

"Last winter I was ill with pneumonia after having la grippe. I took Peruna for two months, when I became quite well, and I can say that any one can be cured by it in a reasonable time at little expense."

Pe-ru-na—A Tonic After La Grippe.

Mrs. Chas. E. Wells, Sr., Delaware, Ohio, writes: "After a severe attack of la grippe, I took Peruna and found it a very good tonic."

Mrs. Jane Gift, Athens, Ohio, writes: "Six years ago I had la grippe very bad. I read a testimonial of a woman who had been cured of grip by Peruna. My husband bought me a bottle of Peruna. I was soon able to do my work. I continued using it until I was cured."
