"IN A BAD WAY."

Many A Chestertown Reader Will Feel Grateful For This Information.

When your back gives out;
Becomes lame weak or aching;
When urinary troubles set in,
Your kidneys are "in a bad way."
Doan's Kidney Pills will cure you.

A. Cooper, 425 East North Avenue, Baltimore, Md., says :I made a statefour years ago recommending Doan's Kidney Pills. My wife and I had both been cured of kidney complaints by their use. The cure is as fresh to-day, April 3rd, 1907 as it was when first made and it gives me pleasure to reiterate all I said in my former statement. Both my wife and myself have been ailing with our backs for many years. Our kidneys failed to act naturally, every little change in the weather or any little over-exertion caused us to have aches and pains across our loins and with a dead tired feeling of lassitude and languor prevading our whole system which everything tried failed to remove until I finally got a box of Doan's Kidney Pills. We both used them and they strengthened our kidneys so that they were able to perform their functions properly, removed the cause and ended the compiaint. We would recommend Doan's Kidney Pills to every kidney sufferer.

For sale by all dealers. Price 50 Cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's —and take no other.

BRYAN'S CHANCE OF ELECTION.

Now that Bryan's nomination is practically assured discussion as to his probable election is in order.

As a mathematical problem it is well to bear in mind that it required a corruption fund of sixteen million dollars to elect the sainted McKinley in 1896 and nearly that much more to re-elect McKinley in 1900 and to elect Roosevelt in 1904 required over seven millions of Insurance Co., R. R. Co. and other grasping and grafting corporations funds plus the inane ante-nomination telegram of Parker made at the dication of his Wall street managers, Ryan and Belmont.

Bryan's nomination eliminates from Democratic responsibility the weakening support of such political pirates as Ryan and Belmont and forces them to the rear or to the Republican party where they naturally belong. On March 4th, 1889 the Democratic party surrendered the government to the Republican party on a substantial basis with a surplus and no debts.

In four years 1889 to 1892 inclusive, the Republican administration under Benjamin Harrison had exhausted the surplus and run the country so deeply in debt that plates were made to print the first United States Bonds ever issued in time of peace, and the business of the country brought to such a pass by Republican legislation that we experienced almost utter stagnation of business. That condition existed in 1892 to such an extent that the election of a Democratic President and Congress was a foregone conclusion. It required a corruption fund of 16 million dollars to defeat this man Bryan in 1896.

In 1896 all the conditions were against Democratic success. In 1908 all conditions are favorable to Democratic success and there is but slight possibilty of a huge curruption fund. You can't buy votes with stocks and bonds. It takes cash. The Insurance Companies can't contribute as they did, and the railroads and banks hav't the cash to spare just at present.

There is no evidence on the surface that Bryan can be defeated. C. R. A.

To Save Fuel Bill.—Mrs. Jesse Tyson, of Baltimore, and a leader of society in that city has been experimenting with chemically treated coal ashes as fuel during the past month, and has announced that her experiment has proven perfectly satisfactory. The formula for preparing the ashes is as follows:—Take two ounces of oxaic acid and one pound of rock salt and dissolve thoroughly in one gallon of hot water, when the solution has dissolved, it should be sprinkled on the ashes until the ashes are moist. Then this should be spread over the body of the fire, say from one and a half to two inches thick. The furnace or range must be fired first, and then put on a layer of the chemically treated ashes and alternate on each successive firing. 20 coal firings cost $12, while the same of coal and chemically treated ashes cost but $5 61. Try it, somebody in Chestertown.

Here we show some of them. We cannot tell you all their special strong features here; their exclusive advantages—the points that make them superior to others, or show you by illustrations just why they do their work better, quicker and easier, just why they last longer, why the breakage is so rare, why they are the cheapest; but our 1908 Catalog gives full description of our full line.
