Nursing baby?

It's a heavy strain on mother.

Her system is called upon to supply nourishment for two.

Some form of nourishment that will be easily taken up by mother's system is needed.

Scott's Emulsion contains the greatest possible amount of nourishment in easily digested form.

Mother and baby are wonderfully helped by its use.

Rev. J. H. S. Ewell Dead.

Rev. John H. S. Ewell, who was one of the most promising ministers in the Methodist Protestant Conference, died on Monday at Blue Ridge Summit, where he had gone for his health. His death resulted from tuberculosis, with which he had been suffering several years.

Last May, just after the annual conference, he moved his family to the mountains in the hope that his health would improve. He was 42 years old, and came of a family of prominent ministers of the Methodist Church. His father was Rev. John E. T. Ewell, of Accomac county, Virginia, a prominent preacher is his day, as were also two of his brothers.

Young Mr. Ewell's last charge was in Alexandria, Va., where he was stationed for five years. At the last conference he was assigned to a fine charge in Harper's Ferry, Va., but his failing health made it impossible for him to accept. Mr. Ewell was a graduate of Western Maryland College and Westminister Seminary. At the former institution he met his wife, who was Miss Beeks, of Still Pond, Kent county.

The remains were taken to Crisfield for burial.

The Scranton (Pa.) Times was first to print this remarkable prescription, in October, of 1906, since when all the leading newspapers of New York, Boston, Philadelphia, Pittsburg and other cities have made many announcements of it to their readers.

FRUIT OUTLOOK.

Growers Hopeful of a Big Crop the Coming Season.

Fruit raisers expect one of the most prosperous seasons for years. The weather has been ideal for the peach orchards throughout the Peninsula, with the snows last month and the rains of this month.

Already peach trees are beginning to redden at the ends of the branches, and the pruning knife is being used. Many fruit grows have been spraying during the last week, and they say that the sap is beginning to run through the trees. Unless an unusually heavy frost comes next month there is every chance of a big crop in all fruits.

WHY SHOULD the Baltimore Sun be anxious to send the unemployed of the city and State to Lancaster county, Pa., to seek employment? The green fields of Kent or every other portion of the Eastern Shore of Maryland, where the conditions of labor are so troublesome as they are here, are a too inviting field for these unemployed to send them out of the State. Let Maryland take care of her own unemployed, and we venture to state that many a worthy laborer who has been deprived of his toil by the merciless hand of political trusts, can find employment on the farms of any of our counties on the Shore if they will come to look for it.

When we dissect your watch--

When we get all the tiny little wheels and pinions and things separated—then clean them all up as bright as new, then put them all together again—that watch of yours is going to run as good as ever.

It can't help it. It is practically a new watch once more.

Of course it will need our attention again in about a year—as it is always better to be too soon than too late.

Maybe you knew all this before, but somehow people have a habit of attending to everything else in the world but their watches.

If you think a cleaning would do your watch good, don't wait until it stops. Bring it to our repair department.

We have the finest equipped repair shop in this part of the country and can do all your repairing promptly, and in the best manner possible.
