SHARPLES
Dairy Tubular Cream Separator.

Here are five separators—the largest Sharples Dairy Tubular in the middle and two "back breakers" on each side. The machines are all set so the crank axles are level. Which kind for you? The girl is 5 feet 4 inches tall. We handle Tubulars exclusively. Tubulars have waist-low supply cans and other advantages over all other separators. Call and examine Tubular.

Strawberry Shipments.

Reports received at the general offices of the Pennsylvania Railroad indicate that up to Monday morning of this week 7,219,297 quarts of strawberries have been shipped this season from the Maryland-Delaware peninsula by the Delaware Division of the Philadelphia, Baltimore & Washington Railroad, as compured with 1,160,713 quarts for the same period of last year. This represents an increase in shipments of nearly 600 per cent., for all of which the farmers of the district have received cash—a great advantage over the old scheme of shipping on consignment.

Another advantage the farmers are enjoying this year is that refrigerator cars are supplied by the railroad company without charge, except for icing in transit. Under old conditions, shippers in this territory were compelled to forward their fruits in private refrigerator cars, the use of which entailed an expense of from $5 to $25 more per car than it costs under the present plan. Some 542 carloads had been shipped this year in Pennsylvania Railroad refrigerator cars up to June 1st.

Bridgeville, Del., the center of the strawberry district, shipped 74 cars one day last week, and this week Bridgeville forwarded to market approximately 100 cars—more than three solid trains of strawberries. At the present time, about 100 buyers from outside cities such as Boston, Detroit and Buffalo are in Bridgeville, while about 100 resident buyers represent consignees at other points. About 40 per cent. of the shipments have been sent to New England, about 40 per cent. to New York city and the remained to scattering points.

Stole Bull Frogs and Ice Cream.

Some of the young men of Crumpton have been making good money catching bull frogs and selling them at a good profit. One night last week thieves got into the pond and stole about 25 dozen good fat frogs already for market. This means something when it is stated that frogs sell for $1.50 per dozen.

One night recently during a school festival at Miss Julia Brinsfield's Spry's gate school, somebody stole a two-gallon freezer of ice cream. The freezer was returned on Sunday morning filled with straw.

Suppose the same fellow who stole the ice cream got the frogs too?

To Test Cattle.

Col. Albert Story, of near Chesterbridge, who purchased Mr. J. T. Anthony's milk route, as noted in our last issue, has had Dr. G. Allen Jarman, former State veterinarian, testing his cows to be used in his dairy this week, and he says that every cow he buys for his dairy will be thoroughly tested before it is allowed to be one of his dairy herd. Col. Story is one of Queen Anne's most prosperous farmers, and he will use every precaution to serve the patrons of Chestertown with pure milk and cream. He proposes to buy the best cows and those known to be sound and healthy for his dairy business, and if he has any diseased cattle on his farm, he will dispose of them before serving milk to the public.
